“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Crime Victims With Disabilities Awareness Act’.

“SEC. 2. FINDINGS; PURPOSES.

“(a) FINDINGS.—Congress finds that—

“(1) although research conducted abroad demonstrates that individuals with developmental disabilities are at a 4 to 10 times higher risk of becoming crime victims than those without disabilities, there have been no significant studies on this subject conducted in the United States;

“(2) in fact, the National Crime Victim’s Survey, conducted annually by the Bureau of Justice Statistics of the Department of Justice, does not specifically collect data relating to crimes against individuals with developmental disabilities;

“(3) studies in Canada, Australia, and Great Britain consistently show that victims with developmental disabilities suffer repeated victimization because so few of the crimes against them are reported, and even when they are, there is sometimes a reluctance by police, prosecutors, and judges to rely on the testimony of a disabled individual, making individuals with developmental disabilities a target for criminal predators;

“(4) research in the United States needs to be done to—

“(A) understand the nature and extent of crimes against individuals with developmental disabilities;

“(B) describe the manner in which the justice system responds to crimes against individuals with developmental disabilities; and

“(C) identify programs, policies, or laws that hold promises for making the justice system more responsive to crimes against individuals with developmental disabilities; and

“(5) the National Academy of Science Committee on Law and Justice of the National Research Council is a premier research institution with unique experience in developing seminal, multidisciplinary studies to establish a strong research base from which to make public policy.

“(b) PURPOSES.—The purposes of this Act are—

“(1) to increase public awareness of the plight of victims of crime who are individuals with developmental disabilities;

“(2) to collect data to measure the extent of the problem of crimes against individuals with developmental disabilities; and

“(3) to develop a basis to find new strategies to address the safety and justice needs of victims of crime who are individuals with developmental disabilities.

“SEC. 3. DEFINITION OF DEVELOPMENTAL DISABILITY.

“In this Act, the term ‘developmental disability’ has the meaning given the term in section 102 of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 [42 U.S.C. 15002].

“SEC. 4. STUDY.

“(a) IN GENERAL.—The Attorney General shall conduct a study to increase knowledge and information about crimes against individuals with developmental disabilities that will be useful in developing new strategies to reduce the incidence of crimes against those individuals.

“(b) ISSUES ADDRESSED.—The study conducted under this section shall address such issues as—

“(1) the nature and extent of crimes against individuals with developmental disabilities;

“(2) the risk factors associated with victimization of individuals with developmental disabilities;

“(3) the manner in which the justice system responds to crimes against individuals with developmental disabilities; and

“(4) the means by which States may establish and maintain a centralized computer database on the incidence of crimes against individuals with disabilities within a State.

“(c) NATIONAL ACADEMY OF SCIENCES.—In carrying out this section, the Attorney General shall consider contracting with the Committee on Law and Justice of the National Research Council of the National Academy of Sciences to provide research for the study conducted under this section.

“(d) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 27, 1998], the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report describing the results of the study conducted under this section.

“SEC. 5. NATIONAL CRIME VICTIM’S SURVEY.

“Not later than 2 years after the date of enactment of this Act, as part of each National Crime Victim’s Survey, the Attorney General shall include statistics relating to—

“(1) the nature of crimes against individuals with developmental disabilities; and

“(2) the specific characteristics of the victims of those crimes.”

§ 3755. Formula

(a) Allocation among States

(1) In general

Of the total amount appropriated for this part, the Attorney General shall, except as provided in paragraph (2), allocate—

(A) 50 percent of such remaining amount to each State in amounts that bear the same ratio of—

(i) the total population of a State to—

(ii) the total population of the United States; and

(B) 50 percent of such remaining amount to each State in amounts that bear the same ratio of—

(i) the average annual number of part 1 violent crimes of the Uniform Crime Reports of the Federal Bureau of Investigation reported by such State for the three most recent years reported by such State to—

(ii) the average annual number of such crimes reported by all States for such years.

(2) Minimum allocation

If carrying out paragraph (1) would result in any State receiving an allocation less than 0.25 percent of the total amount (in this paragraph referred to as a “minimum allocation State”), then paragraph (1), as so carried out, shall not apply, and the Attorney General shall instead—

(A) allocate 0.25 percent of the total amount to each State; and

(B) using the amount remaining after carrying out subparagraph (A), carry out paragraph (1) in a manner that excludes each minimum allocation State, including the population of and the crimes reported by such State.

(b) Allocation between States and units of local government

Of the amounts allocated under subsection (a) of this section—

(1) 60 percent shall be for direct grants to States, to be allocated under subsection (c) of this section; and

(2) 40 percent shall be for grants to be allocated under subsection (d) of this section.

(c) Allocation for State governments

(1) In general

Of the amounts allocated under subsection (b)(1) of this section, each State may retain for the purposes described in section 3751 of this title an amount that bears the same ratio of—

(A) total expenditures on criminal justice by the State government in the most recently completed fiscal year to—

(B) the total expenditure on criminal justice by the State government and units of local government within the State in such year.

(2) Remaining amounts

Except as provided in subsection (e)(1) of this section, any amounts remaining after the

allocation required by paragraph (1) shall be made available to units of local government by the State for the purposes described in section 3751 of this title.

(d) Allocations to local governments

(1) In general

Of the amounts allocated under subsection (b)(2) of this section, grants for the purposes described in section 3751 of this title shall be made directly to units of local government within each State in accordance with this subsection, subject to subsection (e) of this section.

(2) Allocation

(A) In general

From the amounts referred to in paragraph (1) with respect to a State (in this subsection referred to as the “local amount”), the Attorney General shall allocate to each unit of local government an amount which bears the same ratio to such share as the average annual number of part 1 violent crimes reported by such unit to the Federal Bureau of Investigation for the 3 most recent calendar years for which such data is available bears to the number of part 1 violent crimes reported by all units of local government in the State in which the unit is located to the Federal Bureau of Investigation for such years.

(B) Transitional rule

Notwithstanding subparagraph (A), for fiscal years 2006, 2007, and 2008, the Attorney General shall allocate the local amount to units of local government in the same manner that, under the Local Government Law Enforcement Block Grants program in effect immediately before January 5, 2006, the reserved amount was allocated among reporting and nonreporting units of local government.

(3) Annexed units

If a unit of local government in the State has been annexed since the date of the collection of the data used by the Attorney General in making allocations pursuant to this section, the Attorney General shall pay the amount that would have been allocated to such unit of local government to the unit of local government that annexed it.

(4) Resolution of disparate allocations

(A) Notwithstanding any other provision of this part, if—

(i) the Attorney General certifies that a unit of local government bears more than 50 percent of the costs of prosecution or incarceration that arise with respect to part 1 violent crimes reported by a specified geographically constituent unit of local government; and

(ii) but for this paragraph, the amount of funds allocated under this section to—

(I) any one such specified geographically constituent unit of local government exceeds 150 percent of the amount allocated to the unit of local government certified pursuant to clause (i); or

(II) more than one such specified geographically constituent unit of local government exceeds 400 percent of the amount allocated to the unit of local government certified pursuant to clause (i),

then in order to qualify for payment under this subsection, the unit of local government certified pursuant to clause (i), together with any such specified geographically constituent units of local government described in clause (ii), shall submit to the Attorney General a joint application for the aggregate of funds allocated to such units of local government. Such application shall specify the amount of such funds that are to be distributed to each of the units of local government and the purposes for which such funds are to be used. The units of local government involved may establish a joint local advisory board for the purposes of carrying out this paragraph.

(B) In this paragraph, the term “geographically constituent unit of local government” means a unit of local government that has jurisdiction over areas located within the boundaries of an area over which a unit of local government certified pursuant to clause (i) has jurisdiction.

(e) Limitation on allocations to units of local government

(1) Maximum allocation

No unit of local government shall receive a total allocation under this section that exceeds such unit’s total expenditures on criminal justice services for the most recently completed fiscal year for which data are available. Any amount in excess of such total expenditures shall be allocated proportionally among units of local government whose allocations under this section do not exceed their total expenditures on such services.

(2) Allocations under \$10,000

If the allocation under this section to a unit of local government is less than \$10,000 for any fiscal year, the direct grant to the State under subsection (c) of this section shall be increased by the amount of such allocation, to be distributed (for the purposes described in section 3751 of this title) among State police departments that provide criminal justice services to units of local government and units of local government whose allocation under this section is less than \$10,000.

(3) Non-reporting units

No allocation under this section shall be made to a unit of local government that has not reported at least three years of data on part 1 violent crimes of the Uniform Crime Reports to the Federal Bureau of Investigation within the immediately preceding 10 years.

(f) Funds not used by the State

If the Attorney General determines, on the basis of information available during any grant period, that any allocation (or portion thereof) under this section to a State for such grant period will not be required, or that a State will be unable to qualify or receive funds under this part, or that a State chooses not to participate in the program established under this part, then

such State's allocation (or portion thereof) shall be awarded by the Attorney General to units of local government, or combinations thereof, within such State, giving priority to those jurisdictions with the highest annual number of part 1 violent crimes of the Uniform Crime Reports reported by the unit of local government to the Federal Bureau of Investigation for the three most recent calendar years for which such data are available.

(g) Special rules for Puerto Rico

(1) All funds set aside for Commonwealth government

Notwithstanding any other provision of this part, the amounts allocated under subsection (a) of this section to Puerto Rico, 100 percent shall be for direct grants to the Commonwealth government of Puerto Rico.

(2) No local allocations

Subsections (c) and (d) of this section shall not apply to Puerto Rico.

(h) Units of local government in Louisiana

In carrying out this section with respect to the State of Louisiana, the term "unit of local government" means a district attorney or a parish sheriff.

(i) Part 1 violent crimes to include human trafficking

For purposes of this section, the term "part 1 violent crimes" shall include severe forms of trafficking in persons (as defined in section 7102 of title 22).

The Director, in consultation with the Director of the National Institute of Corrections, may make—

(1) 4 grants in each fiscal year, in various geographical areas throughout the United States, to public agencies for correctional options (including the cost of construction) that provide alternatives to traditional modes of incarceration and offender release programs—

(A) to provide more appropriate intervention for youthful offenders who are not career criminals, but who, without such intervention, are likely to become career criminals or more serious offenders;

(B) to provide a degree of security and discipline appropriate for the offender involved;

(C) to provide diagnosis, and treatment and services (including counseling, substance abuse treatment, education, job training and placement assistance while under correctional supervision, and linkage to similar outside services), to increase the success rate of offenders who decide to pursue a course of lawful and productive conduct after release from legal restraint;

(D) to reduce criminal recidivism by offenders who receive punishment through such alternatives;

(E) to reduce the cost of correctional services and facilities by reducing criminal recidivism; and

In selecting the applicants to receive grants under subsection (a)(3) of this section, the Director shall—

(2) give priority to public agencies that clearly demonstrate that the capacity of their correctional facilities is inadequate to accommodate the number of individuals who are convicted of offenses punishable by a term of imprisonment exceeding 1 year.

Priority shall be given to State court applicants under subsection (a)(4) that have the greatest demonstrated need to provide security in order to administer justice.

(c) Consultations

The Director shall consult with the Commission on Alternative Utilization of Military Facilities created by Public Law 100-456 in order to identify military facilities that may be used as sites for correctional programs receiving assistance under this subpart.

EFFECTIVE DATE OF REPEAL

Repeal effective Oct. 12, 1984, see section 609AA(a) of Pub. L. 98-473, set out as an Effective Date note under section 3711 of this title.

§ 3789d. Prohibition of Federal control over State and local criminal justice agencies; prohibition of discrimination

(a) General rule

Nothing in this chapter or any other Act shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over any police force or any other criminal justice agency of any State or any political subdivision thereof.

(b) Racial imbalance requirement restriction

Notwithstanding any other provision of law, nothing contained in this chapter shall be construed to authorize the National Institute of Justice, the Bureau of Justice Statistics, or the Law Enforcement Assistance Administration—

(1) to require, or condition the availability or amount of a grant upon the adoption by an applicant or grantee under this chapter of a percentage ratio, quota system, or other program to achieve racial balance in any criminal justice agency; or

(2) to deny or discontinue a grant because of the refusal of an applicant or grantee under this chapter to adopt such a ratio, system, or other program.

(c) Discrimination prohibited; notice of non-compliance; suspension and restoration of payments; hearing; civil action by Attorney General; private action, attorney fees, intervention by Attorney General

(1) No person in any State shall on the ground of race, color, religion, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under or denied employment in connection with any programs or activity funded in whole or in part with funds made available under this chapter.

(2)(A) Whenever there has been—

(i) receipt of notice of a finding, after notice and opportunity for a hearing, by a Federal court (other than in an action brought by the Attorney General) or State court, or by a Federal or State administrative agency, to the effect that there has been a pattern or practice of discrimination in violation of paragraph (1); or

(ii) a determination after an investigation by the Office of Justice Programs (prior to a hearing under subparagraph (F) but including an opportunity for the State government or unit of local government to make a documentary submission regarding the allegation of discrimination with respect to such program or activity, with funds made available under this chapter) that a State government or unit of local government is not in compliance with paragraph (1);

the Office of Justice Programs shall, within ten days after such occurrence, notify the chief ex-

ecutive of the affected State, or the State in which the affected unit of local government is located, and the chief executive of such unit of local government, that such program or activity has been so found or determined not to be in compliance with paragraph (1), and shall request each chief executive, notified under this subparagraph with respect to such violation, to secure compliance. For purposes of clause (i) a finding by a Federal or State administrative agency shall be deemed rendered after notice and opportunity for a hearing if it is rendered pursuant to procedures consistent with the provisions of subchapter II of chapter 5 of title 5.

(B) In the event the chief executive secures compliance after notice pursuant to subparagraph (A), the terms and conditions with which the affected State government or unit of local government agrees to comply shall be set forth in writing and signed by the chief executive of the State, by the chief executive of such unit (in the event of a violation by a unit of local government), and by the Office of Justice Programs. On or prior to the effective date of the agreement, the Office of Justice Programs shall send a copy of the agreement to each complainant, if any, with respect to such violation. The chief executive of the State, or the chief executive of the unit (in the event of a violation by a unit of local government) shall file semiannual reports with the Office of Justice Programs detailing the steps taken to comply with the agreement. These reports shall cease to be filed upon the determination of the Office of Justice Programs that compliance has been secured, or upon the determination by a Federal or State court that such State government or local governmental unit is in compliance with this section. Within fifteen days of receipt of such reports, the Office of Justice Programs shall send a copy thereof to each such complainant.

(C) If, at the conclusion of ninety days after notification under subparagraph (A)—

(i) compliance has not been secured by the chief executive of that State or the chief executive of that unit of local government; and

(ii) an administrative law judge has not made a determination under subparagraph (F) that it is likely the State government or unit of local government will prevail on the merits; the Office of Justice Programs shall notify the Attorney General that compliance has not been secured and caused to have suspended further payment of any funds under this chapter to that program or activity. Such suspension shall be limited to the specific program or activity cited by the Office of Justice Programs in the notice under subparagraph (A). Such suspension shall be effective for a period of not more than one hundred and twenty days, or, if there is a hearing under subparagraph (G), not more than thirty days after the conclusion of such hearing, unless there has been an express finding by the Office of Justice Programs, after notice and opportunity for such a hearing, that the recipient is not in compliance with paragraph (1).

(D) Payment of the suspended funds shall resume only if—

(i) such State government or unit of local government enters into a compliance agree-

ment approved by the Office of Justice Programs and the Attorney General in accordance with subparagraph (B);

(ii) such State government or unit of local government complies fully with the final order or judgment of a Federal or State court, or by a Federal or State administrative agency if that order or judgment covers all the matters raised by the Office of Justice Programs in the notice pursuant to subparagraph (A), or is found to be in compliance with paragraph (1) by such court; or

(iii) after a hearing the Office of Justice Programs pursuant to subparagraph (F) finds that noncompliance has not been demonstrated.

(E) Whenever the Attorney General files a civil action alleging a pattern or practice of discriminatory conduct on the basis of race, color, religion, national origin, or sex in any program or activity of a State government or unit of local government which State government or unit of local government receives funds made available under this chapter, and the conduct allegedly violates the provisions of this section and neither party within forty-five days after such filing has been granted such preliminary relief with regard to the suspension or payment of funds as may be otherwise available by law, the Office of Justice Programs shall cause to have suspended further payment of any funds under this chapter to that specific program or activity alleged by the Attorney General to be in violation of the provisions of this subsection until such time as the court orders resumption of payment.

(F) Prior to the suspension of funds under subparagraph (C), but within the ninety-day period after notification under subparagraph (C), the State government or unit of local government may request an expedited preliminary hearing on the record in accordance with section 554 of title 5, in order to determine whether it is likely that the State government or unit of local government would, at a full hearing under subparagraph (G), prevail on the merits on the issue of the alleged noncompliance. A finding under this subparagraph by the administrative law judge in favor of the State government or unit of local government shall defer the suspension of funds under subparagraph (C) pending a finding of noncompliance at the conclusion of the hearing on the merits under subparagraph (G).

(G)(i) At any time after notification under subparagraph (A), but before the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), a State government or unit of local government may request a hearing on the record in accordance with section 554 of title 5, which the Office of Justice Programs shall initiate within sixty days of such request.

(ii) Within thirty days after the conclusion of the hearing, or, in the absence of a hearing, at the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), the Office of Justice Programs shall make a finding of compliance or noncompliance. If the Office of Justice Programs makes a finding of noncompliance, the Office of Justice Programs shall notify the Attorney General in order that the Attorney General may institute a civil action under paragraph (3), cause to have terminated the payment

of funds under this chapter, and, if appropriate, seek repayment of such funds.

(iii) If the Office of Justice Programs makes a finding of compliance, payment of the suspended funds shall resume as provided in subparagraph (D).

(H) Any State government or unit of local government aggrieved by a final determination of the Office of Justice Programs under subparagraph (G) may appeal such determination as provided in section 3785¹ of this title.

(3) Whenever the Attorney General has reason to believe that a State government or unit of local government has engaged in or is engaging in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in an appropriate United States district court. Such court may grant as relief any temporary restraining order, preliminary or permanent injunction, or other order, as necessary or appropriate to insure the full enjoyment of the rights described in this section, including the suspension, termination, or repayment of such funds made available under this chapter as the court may deem appropriate, or placing any further such funds in escrow pending the outcome of the litigation.

(4)(A) Whenever a State government or unit of local government, or any officer or employee thereof acting in an official capacity, has engaged or is engaging in any act or practice prohibited by this subsection, a civil action may be instituted after exhaustion of administrative remedies by the person aggrieved in an appropriate United States district court or in a State court of general jurisdiction. Administrative remedies shall be deemed to be exhausted upon the expiration of sixty days after the date the administrative complaint was filed with the Office of Justice Programs or any other administrative enforcement agency, unless within such period there has been a determination by the Office of Justice Programs or the agency on the merits of the complaint, in which case such remedies shall be deemed exhausted at the time the determination becomes final.

(B) In any civil action brought by a private person to enforce compliance with any provision of this subsection, the court may grant to a prevailing plaintiff reasonable attorney fees, unless the court determines that the lawsuit is frivolous, vexatious, brought for harassment purposes, or brought principally for the purpose of gaining attorney fees.

(C) In any action instituted under this section to enforce compliance with paragraph (1), the Attorney General, or a specially designated assistant for or in the name of the United States, may intervene upon timely application if he certifies that the action is of general public importance. In such action the United States shall be entitled to the same relief as if it had instituted the action.

SUBCHAPTER XII—PUBLIC SAFETY OFFICERS' DEATH BENEFITS

PART A—DEATH BENEFITS

§ 3796. Payment of death benefits

(a) Amount; recipients

In any case in which the Bureau of Justice Assistance (hereinafter in this subchapter referred to as the "Bureau") determines, under regulations issued pursuant to this subchapter, that a public safety officer has died as the direct and proximate result of a personal injury sustained in the line of duty, the Bureau shall pay a benefit of \$250,000, adjusted in accordance with subsection (h) of this section, as follows (if the payee indicated is living on the date on which the determination is made)—

(1) if there is no child who survived the public safety officer, to the surviving spouse of the public safety officer;

(2) if there is at least 1 child who survived the public safety officer and a surviving spouse of the public safety officer, 50 percent to the surviving child (or children, in equal shares) and 50 percent to the surviving spouse;

(3) if there is no surviving spouse of the public safety officer, to the surviving child (or children, in equal shares);

(4) if there is no surviving spouse of the public safety officer and no surviving child—

(A) to the surviving individual (or individuals, in shares per the designation, or, otherwise, in equal shares) designated by the public safety officer to receive benefits under this subsection in the most recently executed designation of beneficiary of the public safety officer on file at the time of death with the public safety agency, organization, or unit; or

(B) if there is no individual qualifying under subparagraph (A), to the surviving individual (or individuals, in equal shares) designated by the public safety officer to receive benefits under the most recently executed life insurance policy of the public safety officer on file at the time of death with the public safety agency, organization, or unit;

(5) if there is no individual qualifying under paragraph (1), (2), (3), or (4), to the surviving parent (or parents, in equal shares) of the public safety officer; or

(6) if there is no individual qualifying under paragraph (1), (2), (3), (4), or (5), to the surviving individual (or individuals, in equal shares) who would qualify under the definition of the term "child" under section 3796b of this title but for age.

(b) Benefits for permanent and total disability

In accordance with regulations issued pursuant to this subchapter, in any case in which the Bureau determines that a public safety officer has become permanently and totally disabled as the direct and proximate result of a personal injury sustained in the line of duty, the Bureau shall pay the same benefit to the public safety officer (if living on the date on which the determination is made) that is payable under subsection (a) of this section with respect to the date on which the catastrophic injury occurred, as adjusted in accordance with subsection (h) of this section: *Provided*, That for the purposes of making these benefit payments, there are authorized to be appropriated for each fiscal year such sums as may be necessary: *Provided further*, That the amount payable under this subsection shall be the amount payable as of the date of catastrophic injury of such public safety officer.

(c) Interim benefit payment

Whenever the Bureau determines upon showing of need and prior to final action that the death of a public safety officer is one with respect to which a benefit will probably be paid, the Bureau may make an interim benefit payment not exceeding \$3,000 to the individual entitled to receive a benefit under subsection (a) of this section.

(d) Deduction of interim payment

The amount of an interim payment under subsection (c) of this section shall be deducted from the amount of any final benefit paid to such individual.

(e) Repayment of interim payment; waiver

Where there is no final benefit paid, the recipient of any interim payment under subsection (c) of this section shall be liable for repayment of such amount. The Bureau may waive all or part of such repayment, considering for this purpose the hardship which would result from such repayment.

(f) Reductions from final benefit payment

The benefit payable under this subchapter shall be in addition to any other benefit that may be due from any other source, except—

(1) payments authorized by section 12(k) of the Act of September 1, 1916;

(2) benefits authorized by section 8191 of title 5, such that beneficiaries shall receive only such benefits under such section 8191 as are in excess of the benefits received under this subchapter; or

(3) payments under the September 11th Victim Compensation Fund of 2001 (49 U.S.C. 40101 note; Public Law 107-42).

(g) Execution or attachment prohibited

No benefit paid under this subchapter shall be subject to execution or attachment.

(h) Consumer Price Index adjustment

On October 1 of each fiscal year beginning after June 1, 1988, the Bureau shall adjust the level of the benefit payable immediately before such October 1 under subsection (a) of this section, to reflect the annual percentage change in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics, occurring in the 1-year period ending on June 1 immediately preceding such October 1.

(i) Amount payable determined as of date of death

The amount payable under subsection (a) of this section with respect to the death of a public safety officer shall be the amount payable under subsection (a) of this section as of the date of death of such officer.

(j) Limitations on benefits

(1) No benefit is payable under this subchapter with respect to the death of a public safety officer if a benefit is paid under this subchapter with respect to the disability of such officer.

(2) No benefit is payable under this subchapter with respect to the disability of a public safety officer if a benefit is payable under this subchapter with respect to the death of such public safety officer.

(k) Death by heart attack, stroke, or vascular rupture; presumption

As determined by the Bureau, a heart attack, stroke, or vascular rupture suffered by a public safety officer shall be presumed to constitute a personal injury within the meaning of subsection (a), sustained in the line of duty by the officer and directly and proximately resulting in death, if—

(1) the public safety officer, while on duty—

(A) engages in a situation involving non-routine stressful or strenuous physical law enforcement, fire suppression, rescue, hazardous material response, emergency medical services, prison security, disaster relief, or other emergency response activity; or

(B) participates in a training exercise involving nonroutine stressful or strenuous physical activity;

(2) the heart attack, stroke, or vascular rupture commences—

(A) while the officer is engaged or participating as described in paragraph (1);

(B) while the officer remains on that duty after being engaged or participating as described in paragraph (1); or

(C) not later than 24 hours after the officer is engaged or participating as described in paragraph (1); and

(3) the heart attack, stroke, or vascular rupture directly and proximately results in the death of the public safety officer,

unless competent medical evidence establishes that the heart attack, stroke, or vascular rupture was unrelated to the engagement or participation or was directly and proximately caused by something other than the mere presence of cardiovascular-disease risk factors.

(l) Definition

For purposes of subsection (k) of this section, “nonroutine stressful or strenuous physical” excludes actions of a clerical, administrative, or nonmanual nature.

(m) Suspension or end of collection action

The Bureau may suspend or end collection action on an amount disbursed pursuant to a statute enacted retroactively or otherwise disbursed in error under subsection (a) or (c) of this section, where such collection would be impractical, or would cause undue hardship to a debtor who acted in good faith.

(n) Confidentiality

The public safety agency, organization, or unit responsible for maintaining on file an executed designation of beneficiary or executed life insurance policy for purposes of subsection (a)(4) shall maintain the confidentiality of the designation or policy in the same manner as the agency, organization, or unit maintains personnel or other similar records of the public safety officer.

Unless all applications submitted by any State and grantee within the State pursuant to subsection (a) of this section have been funded, each qualifying State, together with grantees within the State, shall receive in each fiscal year pursuant to subsection (a) of this section not less than 0.5 percent of the total amount appropriated in the fiscal year for grants pursuant to that subsection. § 3796ll-3. James Guelff and Chris McCurley Body Armor Act of 2002

(a) Short title

This section may be cited as the “James Guelff and Chris McCurley Body Armor Act of 2002”.

(b) Findings

Congress finds that—

(1) nationally, police officers and ordinary citizens are facing increased danger as criminals use more deadly weaponry, body armor, and other sophisticated assault gear;

(2) crime at the local level is exacerbated by the interstate movement of body armor and other assault gear;

(3) there is a traffic in body armor moving in or otherwise affecting interstate commerce, and existing Federal controls over such traffic do not adequately enable the States to control this traffic within their own borders through the exercise of their police power;

(4) recent incidents, such as the murder of San Francisco Police Officer James Guelff by an assailant wearing 2 layers of body armor, a 1997 bank shoot out in north Hollywood, California, between police and 2 heavily armed suspects outfitted in body armor, and the 1997 murder of Captain Chris McCurley of the Etowah County, Alabama Drug Task Force by a drug dealer shielded by protective body armor, demonstrate the serious threat to community safety posed by criminals who wear body armor during the commission of a violent crime;

(5) of the approximately 1,500 officers killed in the line of duty since 1980, more than 30 percent could have been saved by body armor, and the risk of dying from gunfire is 14 times higher for an officer without a bulletproof vest;

(6) the Department of Justice has estimated that 25 percent of State and local police are not issued body armor;

(7) the Federal Government is well-equipped to grant local police departments access to body armor that is no longer needed by Federal agencies; and

(8) Congress has the power, under the interstate commerce clause and other provisions of the Constitution of the United States, to enact legislation to regulate interstate commerce that affects the integrity and safety of our communities.

(c) Definitions

In this section:

(1) Body armor

The term “body armor” means any product sold or offered for sale, in interstate or foreign commerce, as personal protective body covering intended to protect against gunfire, regardless of whether the product is to be worn alone or is sold as a complement to another product or garment.

(2) Law enforcement agency

The term “law enforcement agency” means an agency of the United States, a State, or a political subdivision of a State, authorized by law or by a government agency to engage in or

supervise the prevention, detection, investigation, or prosecution of any violation of criminal law.

(3) Law enforcement officer

The term “law enforcement officer” means any officer, agent, or employee of the United States, a State, or a political subdivision of a State, authorized by law or by a government agency to engage in or supervise the prevention, detection, investigation, or prosecution of any violation of criminal law.

(d) Amendment of sentencing guidelines with respect to body armor

(1) In general

Pursuant to its authority under section 994(p) of title 28, the United States Sentencing Commission shall review and amend the Federal sentencing guidelines and the policy statements of the Commission, as appropriate, to provide an appropriate sentencing enhancement for any crime of violence (as defined in section 16 of title 18) or drug trafficking crime (as defined in section 924(c) of title 18) (including a crime of violence or drug trafficking crime that provides for an enhanced punishment if committed by the use of a deadly or dangerous weapon or device) in which the defendant used body armor.

(2) Sense of Congress

It is the sense of Congress that any sentencing enhancement under this subsection should be at least 2 levels.

(e) Omitted

(f) Donation of Federal surplus body armor

(1) Definitions

In this subsection, the terms “Federal agency” and “surplus property” have the meanings given such terms under section 102 of title 40.

(2) Donation of body armor

Notwithstanding sections 541-555 of title 40, the head of a Federal agency may donate body armor directly to any State or local law enforcement agency, if such body armor—

(C) meets or exceeds the requirements of National Institute of Justice Standard 0101.03 (as in effect on November 2, 2002).

(3) Notice to Administrator

The head of a Federal agency who donates body armor under this subsection shall submit to the Administrator of General Services a written notice identifying the amount of body armor donated and each State or local law enforcement agency that received the body armor.

(4) Donation by certain officers

(A) Department of Justice

In the administration of this subsection with respect to the Department of Justice, in addition to any other officer of the Department of Justice designated by the Attorney General, the following officers may act as the head of a Federal agency:

(ii) The Commissioner of Customs.

(b) Applicability of other laws; legal status of limited partnership

The partnership shall be subject to the provisions, to the extent consistent with this chapter, of (1) the District of Columbia Uniform Limited Partnership Act and (2) those provisions of the District of Columbia Uniform Partnership Act made applicable by section 6(2) of that Act. Notwithstanding any inconsistency between the provisions of such Acts, or of any other law, and the provisions of this section, the partnership organized pursuant to this section shall be deemed to have the legal status of a limited partnership.

(c) Authorization to enter into partnerships, limited partnerships, or joint ventures organized under State or local laws for purpose of engaging in low and moderate income housing developments, projects, or undertakings

(e) Partnership agreement; participation in low and moderate income housing developments, projects, or undertakings; limitation on aggregate initial equity investment

The partnership agreement shall include provisions designed to assure that (1) the partnership shall participate in low and moderate income housing developments, projects, or undertakings in a manner designed to encourage the participation therein of local interests, and (2) in any such development, project, or undertaking the partnership shall not subscribe to more than 25 per centum (including equity investments made in services or property) of the aggregate initial equity investment unless, in the judgment of the corporation as general partner, the balance of the required equity investment is not readily obtainable from other responsible investors residing or doing business in the local community.

(g) Liability of corporation as general partner; treatment of interest of limited partner in partnership

A corporation which is a limited partner in the partnership shall not become liable as a general partner by reason of the fact that (1) such corporation is a holder of shares of voting stock of the corporation constituting not more than 5 per centum of the total number of outstanding shares of such stock and exercises any of the rights (including voting rights) of a holder of such shares, and/or (2) a person who is an officer or director of such corporation (or of another corporation which controls or is subject to the control of, or is under common control with, such corporation) is a director of the corporation and performs the duties of that office. § 4001. Congressional findings and declaration of purpose

(a) Necessity and reasons for flood insurance program

The Congress finds that (1) from time to time flood disasters have created personal hardships and economic distress which have required unforeseen disaster relief measures and have placed an increasing burden on the Nation's resources; (2) despite the installation of preventive and protective works and the adoption of other public programs designed to reduce losses caused by flood damage, these methods have not been sufficient to protect adequately against growing exposure to future flood losses; (3) as a matter of national policy, a reasonable method of sharing the risk of flood losses is through a program of flood insurance which can com-

plement and encourage preventive and protective measures; and (4) if such a program is initiated and carried out gradually, it can be expanded as knowledge is gained and experience is appraised, thus eventually making flood insurance coverage available on reasonable terms and conditions to persons who have need for such protection.

(b) Participation of Federal Government in flood insurance program carried out by private insurance industry

The Congress also finds that (1) many factors have made it uneconomic for the private insurance industry alone to make flood insurance available to those in need of such protection on reasonable terms and conditions; but (2) a program of flood insurance with large-scale participation of the Federal Government and carried out to the maximum extent practicable by the private insurance industry is feasible and can be initiated.

(c) Unified national program for flood plain management

The Congress further finds that (1) a program of flood insurance can promote the public interest by providing appropriate protection against the perils of flood losses and encouraging sound land use by minimizing exposure of property to flood losses; and (2) the objectives of a flood insurance program should be integrally related to a unified national program for flood plain management and, to this end, it is the sense of Congress that within two years following the effective date of this chapter the President should transmit to the Congress for its consideration any further proposals necessary for such a unified program, including proposals for the allocation of costs among beneficiaries of flood protection.

(d) Authorization of flood insurance program; flexibility in program

It is therefore the purpose of this chapter to (1) authorize a flood insurance program by means of which flood insurance, over a period of time, can be made available on a nationwide basis through the cooperative efforts of the Federal Government and the private insurance industry, and (2) provide flexibility in the program so that such flood insurance may be based on workable methods of pooling risks, minimizing costs, and distributing burdens equitably among those who will be protected by flood insurance and the general public.

(e) Land use adjustments by State and local governments; development of proposed future construction; assistance of lending and credit institutions; relation of Federal assistance to all flood-related programs; continuing studies

It is the further purpose of this chapter to (1) encourage State and local governments to make appropriate land use adjustments to constrict the development of land which is exposed to flood damage and minimize damage caused by flood losses, (2) guide the development of proposed future construction, where practicable, away from locations which are threatened by flood hazards, (3) encourage lending and credit

institutions, as a matter of national policy, to assist in furthering the objectives of the flood insurance program, (4) assure that any Federal assistance provided under the program will be related closely to all flood-related programs and activities of the Federal Government, and (5) authorize continuing studies of flood hazards in order to provide for a constant reappraisal of the flood insurance program and its effect on land use requirements.

(f) Mudslides

The Congress also finds that (1) the damage and loss which results from mudslides is related in cause and similar in effect to that which results directly from storms, deluges, overflowing waters, and other forms of flooding, and (2) the problems involved in providing protection against this damage and loss, and the possibilities for making such protection available through a Federal or federally sponsored program, are similar to those which exist in connection with efforts to provide protection against damage and loss caused by such other forms of flooding. It is therefore the further purpose of this chapter to make available, by means of the methods, procedures, and instrumentalities which are otherwise established or available under this chapter for purposes of the flood insurance program, protection against damage and loss resulting from mudslides that are caused by accumulations of water on or under the ground.

AMENDMENTS

1994—Subsec. (g). Pub. L. 103-325 struck out subsec. (g) which read as follows: "The Congress also finds that (1) the damage and loss which may result from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels is related in cause and similar in effect to that which results directly from storms, deluges, overflowing waters, and other forms of flooding, and (2) the problems involved in providing protection against this damage and loss, and the possibilities for making such protection available through a Federal or federally sponsored program, are similar to those which exist in connection with efforts to provide protection against damage and loss caused by such other forms of flooding. It is therefore the further purpose of this chapter to make available, by means of the methods, procedures, and instrumentalities which are otherwise established or available under this chapter for purposes of the flood insurance program, protection against damage and loss resulting from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels."

§ 4002. Additional Congressional findings and declaration of purpose

(a) The Congress finds that—

(1) annual losses throughout the Nation from floods and mudslides are increasing at an alarming rate, largely as a result of the accelerating development of, and concentration of population in, areas of flood and mudslide hazards;

(2) the availability of Federal loans, grants, guaranties, insurance, and other forms of financial assistance are often determining factors in the utilization of land and the location and construction of public and of private industrial, commercial, and residential facilities;

(3) property acquired or constructed with grants or other Federal assistance may be exposed to risk of loss through floods, thus frustrating the purpose for which such assistance was extended;

(4) Federal instrumentalities insure or otherwise provide financial protection to banking and credit institutions whose assets include a substantial number of mortgage loans and other indebtedness secured by property exposed to loss and damage from floods and mudslides;

(5) the Nation cannot afford the tragic losses of life caused annually by flood occurrences, nor the increasing losses of property suffered by flood victims, most of whom are still inadequately compensated despite the provision of costly disaster relief benefits; and

(6) it is in the public interest for persons already living in flood-prone areas to have both an opportunity to purchase flood insurance and access to more adequate limits of coverage, so that they will be indemnified, for their losses in the event of future flood disasters.

(b) The purpose of this Act, therefore, is to—

(1) substantially increase the limits of coverage authorized under the national flood insurance program;

(2) provide for the expeditious identification of, and the dissemination of information concerning, flood-prone areas;

(3) require States or local communities, as a condition of future Federal financial assistance, to participate in the flood insurance program and to adopt adequate flood plan ordinances with effective enforcement provisions consistent with Federal standards to reduce or avoid future flood losses; and

(4) require the purchase of flood insurance by property owners who are being assisted by Federal programs or by federally supervised, regulated, or insured agencies or institutions in the acquisition or improvement of land or facilities located or to be located in identified areas having special flood hazards.

“(B) the processes and procedures for providing public notification that such a flood event has commenced or is in progress;

“(C) the processes and procedures regarding the timing of public notification of flood insurance requirements and availability; and

“(D) the effects and implications that weather conditions, including rainfall, snowfall, projected snowmelt, existing water levels, and other conditions, have on the determination that a flood event has commenced or is in progress.

“(2) REPORT.—Not later than 6 months after the date of enactment of this Act [July 6, 2012], the Administrator shall submit a report to Congress that describes—

“(A) the results and conclusions of the review under paragraph (1); and

“(B) any actions taken, or proposed actions to be taken, by the Administrator to provide for more precise and technical processes and procedures for determining that a flood event has commenced or is in progress.

“(b) EFFECTIVE DATE OF POLICIES COVERING PROPERTIES AFFECTED BY FLOODING OF THE MISSOURI RIVER IN 2011.—

“(1) ELIGIBLE COVERAGE.—For purposes of this subsection, the term ‘eligible coverage’ means coverage under a new contract for flood insurance coverage under the National Flood Insurance Program, or a modification to coverage under an existing flood insurance contract, for property damaged by the flooding of the Missouri River that commenced on June 1, 2011, that was purchased or made during the period beginning May 1, 2011, and ending June 6, 2011.

“(B) cover damage to property occurring after the effective date described in subparagraph (A) that resulted from the flooding of the Missouri River

that commenced on June 1, 2011, if the property did not suffer damage or loss as a result of such flooding before the effective date described in subparagraph (A).

“(c) **TIMELY NOTIFICATION.**—Not later than 90 days after the date on which the Administrator submits the report required under subsection (a)(2), the Administrator shall, taking into consideration the results of the review under subsection (a)(1)(B), develop procedures for providing timely notification, to the extent practicable, to policyholders who have purchased flood insurance coverage under the National Flood Insurance Program within 30 days of a determination of a flood in progress and who may be affected by the flood of the determination and how the determination may affect their coverage.”

[For definitions of terms used in section 100227 of Pub. L. 112-141, set out above, see section 4004 of this title.]

CONGRESSIONAL FINDINGS

Pub. L. 108-264, §2, June 30, 2004, 118 Stat. 712, provided that: “The Congress finds that—

“(1) the national flood insurance program—

“(A) identifies the flood risk;

“(B) provides flood risk information to the public;

“(C) encourages State and local governments to make appropriate land use adjustments to constrict the development of land which is exposed to flood damage and minimize damage caused by flood losses; and

“(D) makes flood insurance available on a nationwide basis that would otherwise not be available, to accelerate recovery from floods, mitigate future losses, save lives, and reduce the personal and national costs of flood disasters;

“(2) the national flood insurance program insures approximately 4,400,000 policyholders;

“(3) approximately 48,000 properties currently insured under the program have experienced, within a 10-year period, 2 or more flood losses where each such loss exceeds the amount \$1,000;

“(4) approximately 10,000 of these repetitive-loss properties have experienced either 2 or 3 losses that cumulatively exceed building value or 4 or more losses, each exceeding \$1,000;

“(5) repetitive-loss properties constitute a significant drain on the resources of the national flood insurance program, costing about \$200,000,000 annually;

“(6) repetitive-loss properties comprise approximately 1 percent of currently insured properties but are expected to account for 25 to 30 percent of claims losses;

“(7) the vast majority of repetitive-loss properties were built before local community implementation of floodplain management standards under the program and thus are eligible for subsidized flood insurance;

“(8) while some property owners take advantage of the program allowing subsidized flood insurance without requiring mitigation action, others are trapped in a vicious cycle of suffering flooding, then repairing flood damage, then suffering flooding, without the means to mitigate losses or move out of harm’s way;

“(9) mitigation of repetitive-loss properties through buyouts, elevations, relocations, or flood-proofing will produce savings for policyholders under the program and for Federal taxpayers through reduced flood insurance losses and reduced Federal disaster assistance;

“(10) a strategy of making mitigation offers aimed at high-priority repetitive-loss properties and shifting more of the burden of recovery costs to property owners who choose to remain vulnerable to repetitive flood damage can encourage property owners to take appropriate actions that reduce loss of life and property damage and benefit the financial soundness of the program;

“(11) the method for addressing repetitive-loss properties should be flexible enough to take into con-

sideration legitimate circumstances that may prevent an owner from taking a mitigation action; and

“(12) focusing the mitigation and buy-out of repetitive loss properties upon communities and property owners that choose to voluntarily participate in a mitigation and buy-out program will maximize the benefits of such a program, while minimizing any adverse impact on communities and property owners.”

MISCELLANEOUS FLOOD INSURANCE PROVISIONS

Pub. L. 108-264, title II, June 30, 2004, 118 Stat. 725, as amended by Pub. L. 109-295, title VI, §612(c), Oct. 4, 2006, 120 Stat. 1410, provided that:

DEFINITIONS

For definitions of terms used in this section, see section 4004 of this title.

§ 4014. Estimates of premium rates

(a) Studies and investigations

The Administrator is authorized to undertake and carry out such studies and investigations

and receive or exchange such information as may be necessary to estimate, and shall from time to time estimate, on an area, subdivision, or other appropriate basis—

(1) the risk premium rates for flood insurance which—

(A) based on consideration of—

(i) the risk involved and accepted actuarial principles; and

(ii) the flood mitigation activities that an owner or lessee has undertaken on a property, including differences in the risk involved due to land use measures, flood-proofing, flood forecasting, and similar measures, and

(B) including—

(i) the applicable operating costs and allowances set forth in the schedules prescribed under section 4018 of this title and reflected in such rates,

(ii) any administrative expenses (or portion of such expenses) of carrying out the flood insurance program which, in his discretion, should properly be reflected in such rates,

(iii) any remaining administrative expenses incurred in carrying out the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title) not included under clause (ii), which shall be recovered by a fee charged to policyholders and such fee shall not be subject to any agents' commissions, company expense allowances, or State or local premium taxes, and

(iv) all costs, as prescribed by principles and standards of practice in ratemaking adopted by the American Academy of Actuaries and the Casualty Actuarial Society, including—

(I) an estimate of the expected value of future costs,

(II) all costs associated with the transfer of risk, and

(III) the costs associated with an individual risk transfer with respect to risk classes, as defined by the Administrator,

would be required in order to make such insurance available on an actuarial basis for any types and classes of properties for which insurance coverage is available under section 4012(a) of this title (or is recommended to the Congress under section 4012(b) of this title);

(2) the rates, if less than the rates estimated under paragraph (1), which would be reasonable, would encourage prospective insureds to purchase flood insurance, and would be consistent with the purposes of this chapter, and which, together with a fee charged to policyholders that shall not be not subject to any agents' commission, company expenses allowances, or State or local premium taxes, shall include any administrative expenses incurred in carrying out the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title), except that the Administrator shall not estimate rates under this paragraph for—

(A) any residential property which is not the primary residence of an individual;

(B) any severe repetitive loss property;

(C) any property that has incurred flood-related damage in which the cumulative amounts of payments under this chapter equaled or exceeded the fair market value of such property;

(D) any business property; or

(E) any property which on or after July 6, 2012, has experienced or sustained—

(i) substantial damage exceeding 50 percent of the fair market value of such property; or

(ii) substantial improvement exceeding 50 percent of the fair market value of such property; and

(3) the extent, if any, to which federally assisted or other flood protection measures initiated after August 1, 1968, affect such rates.

(b) Utilization of services of other Departments and agencies

In carrying out subsection (a) of this section, the Administrator shall, to the maximum extent feasible and on a reimbursement basis, utilize the services of the Department of the Army, the Department of the Interior, the Department of Agriculture, the Department of Commerce, and the Tennessee Valley Authority, and, as appropriate, other Federal departments or agencies, and for such purposes may enter into agreements or other appropriate arrangements with any persons.

(c) Priority to studies and investigations in States or areas evidencing positive interest in securing insurance under program

The Administrator shall give priority to conducting studies and investigations and making estimates under this section in those States or areas (or subdivisions thereof) which he has determined have evidenced a positive interest in securing flood insurance coverage under the flood insurance program.

(d) Parishes of Louisiana; premium rates

Notwithstanding any other provision of law, any structure existing on December 31, 1973, and located within Avoyelles, Evangeline, Rapides, or Saint Landry Parish in the State of Louisiana, which the Secretary determines is subject to additional flood hazards as a result of the construction or operation of the Atchafalaya Basin Levee System, shall be eligible for flood insurance under this chapter (if and to the extent it is eligible for such insurance under the other provisions of this chapter) at premium rates that shall not exceed those which would be applicable if such additional hazards did not exist.

(e) Eligibility of community making adequate progress on construction of flood protection system for rates not exceeding those applicable to completed flood protection system; determination of adequate progress

Notwithstanding any other provision of law, any community that has made adequate progress, acceptable to the Administrator, on the construction or reconstruction of a flood protection system which will afford flood pro-

tection for the one-hundred year frequency flood as determined by the Administrator, shall be eligible for flood insurance under this chapter (if and to the extent it is eligible for such insurance under the other provisions of this chapter) at premium rates not exceeding those which would be applicable under this section if such flood protection system had been completed. The Administrator shall find that adequate progress on the construction or reconstruction of a flood protection system, based on the present value of the completed flood protection system, has been made only if: (1) 100 percent of the cost of the system has been authorized; (2) at least 60 percent of the cost of the system has been appropriated; (3) at least 50 percent of the cost of the system has been expended; and (4) the system is at least 50 percent completed. Notwithstanding any other provision of law, in determining whether a community has made adequate progress on the construction, reconstruction, or improvement of a flood protection system, the Administrator shall consider all sources of funding, including Federal, State, and local funds.

(f) Availability of flood insurance in communities restoring discredited flood protection systems; criteria; rates

Notwithstanding any other provision of law, this subsection shall apply to riverine and coastal levees that are located in a community which has been determined by the Administrator of the Federal Emergency Management Agency to be in the process of restoring flood protection afforded by a flood protection system that had been previously accredited on a Flood Insurance Rate Map as providing 100-year frequency flood protection but no longer does so, and shall apply without regard to the level of Federal funding of or participation in the construction, reconstruction, or improvement of the flood protection system. Except as provided in this subsection, in such a community, flood insurance shall be made available to those properties impacted by the discreditation of the flood protection system at premium rates that do not exceed those which would be applicable to any property located in an area of special flood hazard, the construction of which was started prior to the effective date of the initial Flood Insurance Rate Map published by the Administrator for the community in which such property is located. A revised Flood Insurance Rate Map shall be prepared for the community to delineate as Zone AR the areas of special flood hazard that result from the discreditation of the flood protection system. A community will be considered to be in the process of restoration if—

- (1) the flood protection system has been deemed restorable by a Federal agency in consultation with the local project sponsor;
- (2) a minimum level of flood protection is still provided to the community by the discredited system; and
- (3) restoration of the flood protection system is scheduled to occur within a designated time period and in accordance with a progress plan negotiated between the community and the Federal Emergency Management Agency.

Communities that the Administrator of the Federal Emergency Management Agency deter-

mines to meet the criteria set forth in paragraphs (1) and (2) as of January 1, 1992, shall not be subject to revised Flood Insurance Rate Maps that contravene the intent of this subsection. Such communities shall remain eligible for C zone rates for properties located in zone AR for any policy written prior to promulgation of final regulations for this section. Floodplain management criteria for such communities shall not require the elevation of improvements to existing structures and shall not exceed 3 feet above existing grade for new construction, provided the base flood elevation based on the discredited flood control system does not exceed five feet above existing grade, or the remaining new construction in such communities is limited to infill sites, rehabilitation of existing structures, or redevelopment of previously developed areas.

The Administrator of the Federal Emergency Management Agency shall develop and promulgate regulations to implement this subsection, including minimum floodplain management criteria, within 24 months after October 28, 1992.

(g) No extension of subsidy to new policies or lapsed policies

The Administrator shall not provide flood insurance to prospective insureds at rates less than those estimated under subsection (a)(1), as required by paragraph (2) of that subsection, for—

- (1) any policy under the flood insurance program that has lapsed in coverage,¹ unless the decision of the policy holder to permit a lapse in flood insurance coverage was as a result of the property covered by the policy no longer being required to retain such coverage; or
- (2) any prospective insured who refuses to accept any offer for mitigation assistance by the Administrator (including an offer to relocate), including an offer of mitigation assistance—
 - (A) following a major disaster, as defined in section 5122 of this title; or
 - (B) in connection with—
 - (i) a repetitive loss property; or
 - (ii) a severe repetitive loss property.

(h) Definition

In this section, the term “severe repetitive loss property” has the following meaning:

(1) Single-family properties

In the case of a property consisting of 1 to 4 residences, such term means a property that—

- (A) is covered under a contract for flood insurance made available under this chapter; and
- (B) has incurred flood-related damage—
 - (i) for which 4 or more separate claims payments have been made under flood insurance coverage under this subchapter, with the amount of each such claim exceeding \$5,000, and with the cumulative amount of such claims payments exceeding \$20,000; or
 - (ii) for which at least 2 separate claims payments have been made under such cov-

“(a) ELIGIBILITY FOR FLOOD INSURANCE COVERAGE.—

“(1) IN GENERAL.—Notwithstanding any other provision of law (including section 1307(e) of the National

Flood Insurance Act of 1968 (42 U.S.C. 4014(e))), a person residing in a community that the Administrator determines has made adequate progress on the reconstruction or improvement of a flood protection system that will afford flood protection for a 100-year floodplain (without regard to the level of Federal funding of or participation in the construction, reconstruction, or improvement), shall be eligible for flood insurance coverage under the National Flood Insurance Program—

“(A) if the person resides in a community that is a participant in the National Flood Insurance Program; and

“(B) at a risk premium rate that does not exceed the risk premium rate that would be chargeable if the flood protection system had been completed.

“(2) ADEQUATE PROGRESS.—

“(A) RECONSTRUCTION OR IMPROVEMENT.—For purposes of paragraph (1), the Administrator shall determine that a community has made adequate progress on the reconstruction or improvement of a flood protection system if—

“(i) 100 percent of the project cost has been authorized;

“(ii) not less than 60 percent of the project cost has been secured or appropriated;

“(iii) not less than 50 percent of the flood protection system has been assessed as being without deficiencies; and

“(iv) the reconstruction or improvement has a project schedule that does not exceed 5 years, beginning on the date on which the reconstruction or construction of the improvement commences.

“(C) DATE OF COMMENCEMENT.—For purposes of subparagraph (A)(iv) of this paragraph and subsection (b)(2)(B), the date of commencement of the reconstruction or improvement of a flood protection system that is undergoing reconstruction or improvement on the date of enactment of this Act [July 6, 2012] shall be deemed to be the date on which the owner of the flood protection system submits a request under paragraph (3).

“(3) REQUEST FOR DETERMINATION.—The owner of a flood protection system that is undergoing reconstruction or improvement on the date of enactment of this Act [July 6, 2012] may submit to the Administrator a request for a determination under paragraph (2) that the community in which the flood protection system is located has made adequate progress on the reconstruction or improvement of the flood protection system.

“(4) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to prohibit the Administrator from making a determination under paragraph (2) for any community in which a flood protection system is not undergoing reconstruction or improvement on the date of enactment of this Act.

“(b) TERMINATION OF ELIGIBILITY.—

“(1) ADEQUATE CONTINUING PROGRESS.—The Administrator shall issue rules to establish a method of determining whether a community has made adequate continuing progress on the reconstruction or improvement of a flood protection system that includes—

“(A) a requirement that the Administrator shall—

“(i) consult with the owner of the flood protection system—

“(I) 6 months after the date of a determination under subsection (a);

“(II) 18 months after the date of a determination under subsection (a); and

“(III) 36 months after the date of a determination under subsection (a); and

“(ii) after each consultation under clause (i), determine whether the reconstruction or improvement is reasonably likely to be completed in accordance with the project schedule described in subsection (a)(2)(A)(iv); and

“(ii) provide the owner of the flood protection system the opportunity to appeal the determination.

“(2) TERMINATION.—The Administrator shall terminate the eligibility for flood insurance coverage under subsection (a) for persons residing in a community with respect to which the Administrator made a determination under subsection (a) if—

“(B) there is a reasonable expectation that the reconstruction or improvement of the flood protection system will be completed not later than 1 year after the date of the determination under this paragraph.

“(4) RISK PREMIUM RATE.—If the Administrator terminates the eligibility of persons residing in a community to purchase flood insurance coverage described in subsection (a), the Administrator shall establish an appropriate risk premium rate for flood insurance coverage under the National Flood Insurance Program for persons residing in the community that purchased flood insurance coverage before the date on which the termination of eligibility takes effect, taking into consideration the then-current state of the flood protection system.

“(C) ADDITIONAL AUTHORITY.—

“(1) ADDITIONAL AUTHORITY.—Notwithstanding subsection (a), in exceptional and exigent circumstances, the Administrator may, in the Administrator’s sole discretion, determine that a person residing in a community, which is a participant in the National Flood Insurance Program, that has begun reconstruction or improvement of a flood protection system that will afford flood protection for a 100-year floodplain (without regard to the level of Federal funding of or participation in the reconstruction or improvement) shall be eligible for flood insurance coverage under the National Flood Insurance Program at a risk premium rate that does not exceed the risk premium rate that would be chargeable if the flood protection system had been completed, provided—

“(C) the eligibility for flood insurance coverage at a risk premium rate determined under this subsection terminates no later than 1 year after the date on which the Administrator makes the determination.

“(2) LIMITATION.—Upon termination of eligibility under paragraph (1)(C), a community may submit another request pursuant to paragraph (1)(A). The Administrator may make no more than two determinations under paragraph (1) with respect to persons residing within any single requesting community.

“(3) TERMINATION.—The authority provided under paragraphs (1) and (2) shall terminate two years after the enactment of this Act [July 6, 2012].”

§ 4015. Chargeable premium rates

(a) Establishment; terms and conditions

On the basis of estimates made under section 4014 of this title, and such other information as may be necessary, the Administrator shall from time to time prescribe, after providing notice—

(1) chargeable premium rates for any types and classes of properties for which insurance coverage shall be available under section 4012 of this title (at less than the estimated risk premium rates under section 4014(a)(1) of this title, where necessary), and

(2) the terms and conditions under which, and the areas (including subdivisions thereof) within which, such rates shall apply.

(b) Considerations for rates

Such rates shall, insofar as practicable, be—

(1) based on a consideration of the respective risks involved, including differences in risks due to land use measures, flood-proofing, flood forecasting, and similar measures;

(2) adequate, on the basis of accepted actuarial principles, to provide reserves for anticipated losses, or, if less than such amount, con-

sistent with the objective of making flood insurance available where necessary at reasonable rates so as to encourage prospective insureds to purchase such insurance and with the purposes of this chapter;

(3) adequate, together with the fee under paragraph (1)(B)(iii) or (2) of section 4014(a) of this title, to provide for any administrative expenses of the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title);

(4) stated so as to reflect the basis for such rates, including the differences (if any) between the estimated risk premium rates under section 4014(a)(1) of this title and the estimated rates under section 4014(a)(2) of this title; and

(5) adequate, on the basis of accepted actuarial principles, to cover the average historical loss year obligations incurred by the National Flood Insurance Fund.

(c) Actuarial rate properties

Subject only to the limitations provided under paragraphs (1) and (2), the chargeable rate shall not be less than the applicable estimated risk premium rate for such area (or subdivision thereof) under section 4014(a)(1) of this title with respect to the following properties:

(1) Post-firm properties

Any property the construction or substantial improvement of which the Administrator determines has been started after December 31, 1974, or started after the effective date of the initial rate map published by the Administrator under paragraph (2) of section 4101 of this title for the area in which such property is located, whichever is later, except that the chargeable rate for properties under this paragraph shall be subject to the limitation under subsection (e) of this section.

(2) Certain leased coastal and river properties

Any property leased from the Federal Government (including residential and nonresidential properties) that the Administrator determines is located on the river-facing side of any dike, levee, or other riverine flood control structure, or seaward of any seawall or other coastal flood control structure.

(d) Payment of certain sums to Administrator; deposits in Fund

With respect to any chargeable premium rate prescribed under this section, a sum equal to the portion of the rate that covers any administrative expenses of carrying out the flood insurance and floodplain management programs which have been estimated under paragraphs (1)(B)(ii) and (1)(B)(iii) of section 4014(a) of this title or paragraph (2) of such section (including the fees under such paragraphs), shall be paid to the Administrator. The Administrator shall deposit the sum in the National Flood Insurance Fund established under section 4017 of this title.

(e) Annual limitation on premium increases

Except with respect to properties described under paragraph (2) of subsection (c) of this section, and notwithstanding any other provision of this chapter—

(1) the chargeable risk premium rate for flood insurance under this chapter for any property may not be increased by more than 18 percent each year, except—

(A) as provided in paragraph (4);

(B) in the case of property identified under section 4014(g) of this title; or

(C) in the case of a property that—

(i) is located in a community that has experienced a rating downgrade under the community rating system program carried out under section 4022(b) of this title;

(ii) is covered by a policy with respect to which the policyholder has—

(I) decreased the amount of the deductible; or

(II) increased the amount of coverage; or

(iii) was misrated;

(2) the chargeable risk premium rates for flood insurance under this chapter for any properties initially rated under section 4014(a)(2) of this title within any single risk classification, excluding properties for which the chargeable risk premium rate is not less than the applicable estimated risk premium rate under section 4014(a)(1) of this title, shall be increased by an amount that results in an average of such rate increases for properties within the risk classification during any 12-month period of not less than 5 percent of the average of the risk premium rates for such properties within the risk classification upon the commencement of such 12-month period;

(3) the chargeable risk premium rates for flood insurance under this chapter for any properties within any single risk classification may not be increased by an amount that would result in the average of such rate increases for properties within the risk classification during any 12-month period exceeding 15 percent of the average of the risk premium rates for properties within the risk classification upon the commencement of such 12-month period; and

(4) the chargeable risk premium rates for flood insurance under this chapter for any properties described in subparagraphs (A) through (E) of section 4014(a)(2) of this title shall be increased by 25 percent each year, until the average risk premium rate for such properties is equal to the average of the risk premium rates for properties described under paragraph (3).

(f) Adjustment of premium

Notwithstanding any other provision of law, if the Administrator determines that the holder of a flood insurance policy issued under this chapter is paying a lower premium than is required under this section due to an error in the flood plain determination, the Administrator may only prospectively charge the higher premium rate.

(g) Frequency of premium collection

With respect to any chargeable premium rate prescribed under this section, the Administrator shall provide policyholders that are not required to escrow their premiums and fees for flood insurance as set forth under section 4012a of this

title with the option of paying their premiums annually or monthly.

(h) Rule of construction

For purposes of this section, the calculation of an “average historical loss year”—

- (1) includes catastrophic loss years; and
- (2) shall be computed in accordance with generally accepted actuarial principles.

(i) Rates for properties newly mapped into areas with special flood hazards

Notwithstanding subsection (f), the premium rate for flood insurance under this chapter that is purchased on or after March 21, 2014—

- (1) on a property located in an area not previously designated as having special flood hazards and that, pursuant to any issuance, revision, updating, or other change in a flood insurance map, becomes designated as such an area; and
- (2) where such flood insurance premium rate is calculated under subsection (a)(1) of section 4014 of this title,

shall for the first policy year be the preferred risk premium for the property and upon renewal shall be calculated in accordance with subsection (e) of this section until the rate reaches the rate calculated under subsection (a)(1) of section 4014 of this title.

(j) Premiums and reports

In setting premium risk rates, in addition to striving to achieve the objectives of this chapter the Administrator shall also strive to minimize the number of policies with annual premiums that exceed one percent of the total coverage provided by the policy. For any policies premiums that exceed this one percent threshold, the Administrator shall report such exceptions to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(k) Consideration of mitigation methods

In calculating the risk premium rate charged for flood insurance for a property under this section, the Administrator shall take into account the implementation of any mitigation method identified by the Administrator in the guidance issued under section 4102(d) of this title.

(l) Clear communications

The Administrator shall clearly communicate full flood risk determinations to individual property owners regardless of whether their premium rates are full actuarial rates.

(m) Protection of small businesses, non-profits, houses of worship, and residences

(1) Report

Not later than 18 months after March 21, 2014,¹ and semiannually thereafter, the Administrator shall monitor and report to Committee on Financial Services of the House Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate, the Administrator’s assessment of the impact, if any, of the rate increases required under sub-

paragraphs (A) and (D) of section 4014(a)(2) of this title and the surcharges required under section 4015a of this title on the affordability of flood insurance for—

- (A) small businesses with less than 100 employees;
- (B) non-profit entities;
- (C) houses of worship; and
- (D) residences with a value equal to or less than 25 percent of the median home value of properties in the State in which the property is located.

(2) Recommendations

If the Administrator determines that the rate increases or surcharges described in paragraph (1) are having a detrimental effect on affordability, including resulting in lapsed policies, late payments, or other criteria related to affordability as identified by the Administrator, for any of the properties identified in subparagraphs (A) through (D) of such paragraph, the Administrator shall, not later than 3 months after making such a determination, make such recommendations as the Administrator considers appropriate to improve affordability to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(c) Maintenance of reserve ratio**(1) In general**

The Administrator shall have the authority to establish, increase, or decrease the amount of aggregate annual insurance premiums to be collected for any fiscal year necessary—

(A) to maintain the reserve ratio required under subsection (b); and

(B) to achieve such reserve ratio, if the actual balance of such reserve is below the amount required under subsection (b).

If at any time after the ratio required under subsection (b) is achieved, the Reserve Fund falls below the required ratio under subsection (b), the Administrator shall place in the Reserve Fund for that fiscal year an amount equal to not less than 7.5 percent of the reserve ratio required under subsection (b).

(e) Limitation on reserve ratio

In any given fiscal year, if the Administrator determines that the reserve ratio required under subsection (b) cannot be achieved, the Administrator shall submit, on a calendar quarterly basis, a report to Congress that—

(1) describes and details the specific concerns of the Administrator regarding the consequences of the reserve ratio not being achieved;

(2) demonstrates how such consequences would harm the long-term financial soundness of the flood insurance program; and

(3) indicates the maximum attainable reserve ratio for that particular fiscal year.

After December 31, 1971, no new flood insurance coverage shall be provided under this chapter in any area (or subdivision thereof) unless an appropriate public body shall have adopted adequate land use and control measures (with effective enforcement provisions) which the Administrator finds are consistent with the comprehensive criteria for land management and use under section 4102 of this title.

(2) Agricultural structures**(A) Activity restrictions**

Notwithstanding any other provision of law, the adequate land use and control measures required to be adopted in an area (or subdivision thereof) pursuant to paragraph (1) may provide, at the discretion of the appropriate State or local authority, for the repair and restoration to predamaged conditions of an agricultural structure that—

- (i) is a repetitive loss structure; or
- (ii) has incurred flood-related damage to the extent that the cost of restoring the structure to its predamaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(B) Premium rates and coverage

To the extent applicable, an agricultural structure repaired or restored pursuant to subparagraph (A) shall pay chargeable premium rates established under section 4015 of this title at the estimated risk premium rates under section 4014(a)(1) of this title. If resources are available, the Administrator shall provide technical assistance and counseling, upon request of the owner of the structure, regarding wet flood-proofing and other flood damage reduction measures for agricultural structures. The Administrator shall not be required to make flood insurance coverage available for such an agricultural structure unless the structure is wet flood-proofed through permanent or contingent measures applied to the structure or its contents that prevent or provide resistance to damage from flooding by allowing flood waters to pass through the structure, as determined by the Administrator.

(C) Prohibition on disaster relief

Notwithstanding any other provision of law, any agricultural structure repaired or restored pursuant to subparagraph (A) shall not be eligible for disaster relief assistance under any program administered by the Administrator or any other Federal agency.

(D) Definitions

For purposes of this paragraph—

- (i) the term “agricultural structure” means any structure used exclusively in connection with the production, harvesting, storage, raising, or drying of agricultural commodities; and
- (ii) the term “agricultural commodities” means agricultural commodities and livestock.

(b) Community rating system and incentives for community floodplain management**(1) Authority and goals**

The Administrator shall carry out a community rating system program, under which communities participate voluntarily—

- (A) to provide incentives for measures that reduce the risk of flood or erosion damage that exceed the criteria set forth in section 4102 of this title and evaluate such measures;
- (B) to encourage adoption of more effective measures that protect natural and beneficial floodplain functions;

(C) to encourage floodplain and erosion management; and

(D) to promote the reduction of Federal flood insurance losses.

(2) Incentives

The program shall provide incentives in the form of credits on premium rates for flood insurance coverage in communities that the Administrator determines have adopted and enforced measures that reduce the risk of flood and erosion damage that exceed the criteria set forth in section 4102 of this title. In providing incentives under this paragraph, the Administrator may provide for credits to flood insurance premium rates in communities that the Administrator determines have implemented measures that protect natural and beneficial floodplain functions.

(3) Credits

The credits on premium rates for flood insurance coverage shall be based on the estimated reduction in flood and erosion damage risks resulting from the measures adopted by the community under this program. If a community has received mitigation assistance under section 4104c of this title, the credits shall be phased in a manner, determined by the Administrator, to recover the amount of such assistance provided for the community.

(4) Reports

Not later than 2 years after September 23, 1994, and not less than every 2 years thereafter, the Administrator shall submit a report to the Congress regarding the program under this subsection. Each report shall include an analysis of the cost-effectiveness of the program, any other accomplishments or shortcomings of the program, and any recommendations of the Administrator for legislation regarding the program.

(c) Replacement of mobile homes on original sites**(1) Community participation**

The placement of any mobile home on any site shall not affect the eligibility of any community to participate in the flood insurance program under this chapter and the Flood Disaster Protection Act of 1973 (notwithstanding that such placement may fail to comply with any elevation or flood damage mitigation requirements), if—

(A) such mobile home was previously located on such site;

(B) such mobile home was relocated from such site because of flooding that threatened or affected such site; and

(C) such replacement is conducted not later than the expiration of the 180-day period that begins upon the subsidence (in the area of such site) of the body of water that flooded to a level considered lower than flood levels.

(2) Definition

For purposes of this subsection, the term “mobile home” has the meaning given such term in the law of the State in which the mobile home is located.

(1) Administrator

The term “Administrator” means the Administrator of the Federal Emergency Management Agency.

(2) COASTAL Formula

The term “COASTAL Formula” means the formula established under subsection (b).

(3) Coastal State

(4) Indeterminate loss**(A) In general**

The term “indeterminate loss” means, as determined by an insurance claims adjuster certified under the national flood insurance program and in consultation with an engineer as appropriate, a loss resulting from physical damage to, or loss of, property located in any coastal State arising from the combined perils of flood and wind associated with a named storm.

(B) Requirements

An insurance claims adjuster certified under the national flood insurance program shall only determine that a loss is an indeterminate loss if the claims adjuster determines that—

(i) no material remnant of physical buildings or man-made structures remain except building foundations for the specific property for which the claim is made; and

(ii) there is insufficient or no tangible evidence created, yielded, or otherwise left behind of the specific property for which the claim is made as a result of the named storm.

(5) Named storm

The term “named storm” means any organized weather system with a defined surface circulation and maximum winds of not less than 39 miles per hour which the National Hurricane Center of the United States National Weather Service names as a tropical storm or a hurricane.

(6) Post-storm assessment

The term “post-storm assessment” means the post-storm assessment developed under section 3611(b) of title 33.

(7) State

(11) Under Secretary

The term “Under Secretary” means the Under Secretary of Commerce for Oceans and Atmosphere, in the Under Secretary’s capacity as Administrator of the National Oceanic and Atmospheric Administration.

(b) Establishment of flood loss allocation formula for indeterminate claims**(1) In general**

Not later than 180 days after the date on which the protocol is established under section 3611(c)(1) of title 33, the Secretary, acting through the Administrator and in consultation with the Under Secretary, shall establish by rule a standard formula to determine and allocate wind losses and flood losses for claims involving indeterminate losses.

(2) Contents

The standard formula established under paragraph (1) shall—

(A) incorporate data available from the Coastal Wind and Water Event Database established under section 3611(f) of title 33;

(B) use relevant data provided on the National Flood Insurance Program Elevation Certificate for each indeterminate loss for which the formula is used;

(C) consider any sufficient and credible evidence, approved by the Administrator, of the pre-event condition of a specific property, including the findings of any policyholder or insurance claims adjuster in connection with the indeterminate loss to that specific property;

(D) include other measures, as the Administrator considers appropriate, required to determine and allocate by mathematical formula the property damage caused by flood or storm surge associated with a named storm; and

(E) subject to paragraph (3), for each indeterminate loss, use the post-storm assessment to allocate water damage (flood or storm surge) associated with a named storm.

(3) Degree of accuracy required

The standard formula established under paragraph (1) shall specify that the Administrator may only use the post-storm assessment for purposes of the formula if the Under Secretary certifies that the post-storm assessment has a degree of accuracy of not less than 90 percent in connection with the specific indeterminate loss for which the assessment and formula are used.

(c) Authorized use of post-storm assessment and COASTAL Formula**(1) In general**

Subject to paragraph (3), the Administrator may use the post-storm assessment and the COASTAL Formula to—

(A) review flood loss payments for indeterminate losses, including as part of the qual-

ity assurance reinspection program of the Federal Emergency Management Agency for claims under the national flood insurance program and any other process approved by the Administrator to review and validate payments under the national flood insurance program for indeterminate losses following a named storm; and

(B) assist the national flood insurance program to—

(i) properly cover qualified flood loss for claims for indeterminate losses; and

(ii) avoid paying for any loss or damage to property caused by any peril (including wind), other than flood or storm surge, that is not covered under a standard policy under the national flood insurance program.

(2) Federal disaster declaration

Subject to paragraph (3), in order to expedite claims and reduce costs to the national flood insurance program, following any major disaster declared by the President under section 5170 of this title relating to a named storm in a coastal State, the Administrator may use the COASTAL Formula to determine and pay for any flood loss covered under a standard insurance policy under the national flood insurance program, if the loss is an indeterminate loss.

(3) National Academy of Sciences evaluation

(A) Evaluation required

(i) Evaluation

Upon the issuance of the rule establishing the COASTAL Formula, and each time the Administrator modifies the COASTAL Formula, the National Academy of Sciences shall—

(I) evaluate the expected financial impact on the national flood insurance program of the use of the COASTAL Formula as so established or modified; and

(II) evaluate the validity of the scientific assumptions upon which the formula is based and determine whether the COASTAL formula¹ can achieve a degree of accuracy of not less than 90 percent in allocating flood losses for indeterminate losses.

(ii) Report

The National Academy of Sciences shall submit a report containing the results of each evaluation under clause (i) to the Administrator, the Committee on Banking, Housing, and Urban Affairs and the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Financial Services and the Committee on Science, Space, and Technology of the House of Representatives.

(B) Effective date and applicability

(i) Effective date

Paragraphs (1) and (2) of this subsection shall not take effect unless the report under subparagraph (A) relating to the es-

tablishment of the COASTAL Formula concludes that the use of the COASTAL Formula for purposes of paragraph² (1) and (2) would not have an adverse financial impact on the national flood insurance program and that the COASTAL Formula is based on valid scientific assumptions that would allow a degree of accuracy of not less than 90 percent to be achieved in allocating flood losses for indeterminate losses.

(ii) Effect of modifications

Unless the report under subparagraph (A) relating to a modification of the COASTAL Formula concludes that the use of the COASTAL Formula, as so modified, for purposes of paragraphs (1) and (2) would not have an adverse financial impact on the national flood insurance program and that the COASTAL Formula is based on valid scientific assumptions that would allow a degree of accuracy of not less than 90 percent to be achieved in allocating flood losses for indeterminate losses the Administrator may not use the COASTAL Formula, as so modified, for purposes of paragraphs (1) and (2).

(C) Funding

Notwithstanding section 4017 of this title, there shall be available to the Administrator from the National Flood Insurance Fund, of amounts not otherwise obligated, not more than \$750,000 to carry out this paragraph.

(d) Disclosure of COASTAL Formula

Not later than 30 days after the date on which a post-storm assessment is submitted to the Secretary under section 3611(b)(2)(C) of title 33, for each indeterminate loss for which the COASTAL Formula is used pursuant to subsection (c)(2), the Administrator shall disclose to the policyholder that makes a claim relating to the indeterminate loss—

(1) that the Administrator used the COASTAL Formula with respect to the indeterminate loss; and

(2) a summary of the results of the use of the COASTAL Formula.

(e) Consultation

In carrying out subsections (b) and (c), the Secretary shall consult with—

(1) the Under Secretary for Oceans and Atmosphere;

(2) the Director of the National Institute of Standards and Technology;

(3) the Chief of Engineers of the Corps of Engineers;

(4) the Director of the United States Geological Survey;

(5) the Office of the Federal Coordinator for Meteorology;

(6) State insurance regulators of coastal States; and

(7) such public, private, and academic sector entities as the Secretary considers appropriate for purposes of carrying out such subsections.

(f) Recordkeeping

Each consideration and measure the Administrator determines necessary to carry out sub-

¹ So in original. Probably should be capitalized.

² So in original. Probably should be "paragraphs".

section (b) may be required, with advanced approval of the Administrator, to be provided for on the National Flood Insurance Program Elevation Certificate, or maintained otherwise on record if approved by the Administrator, for any property that qualifies for the COASTAL Formula under subsection (c).

(g) Civil penalty

(1) In general

If an insurance claims adjuster knowingly and willfully makes a false or inaccurate determination relating to an indeterminate loss, the Administrator may, after notice and opportunity for hearing, impose on the insurance claims adjuster a civil penalty of not more than \$1,000.

(2) Deposit

Notwithstanding section 3302 of title 31 or any other law relating to the crediting of money, the Administrator shall deposit in the National Flood Insurance Fund any amounts received under this subsection, which shall remain available until expended and be available to the Administrator for purposes authorized for the National Flood Insurance Fund without further appropriation.

(h) Rule of construction

Nothing in this subsection³ shall be construed to require the Administrator to make any payment under the national flood insurance program, or an insurance company to make any payment, for an indeterminate loss based upon post-storm assessment or the COASTAL Formula.

(i) Applicability

Subsection (c) shall apply with respect to an indeterminate loss associated with a named storm that occurs after the date on which the Administrator issues the rule establishing the COASTAL Formula under subsection (b).

(j) Rule of Construction

Nothing in this subsection³ shall be construed to negate, set aside, or void any policy limit, including any loss limitation, set forth in a standard insurance policy.

PART B—GOVERNMENT PROGRAM WITH INDUSTRY ASSISTANCE

§ 4071. Federal operation of program; determination by Administrator; fiscal agents; report to Congress

(a) If at any time, after consultation with representatives of the insurance industry, the Administrator determines that operation of the flood insurance program as provided under part A cannot be carried out, or that such operation, in itself, would be assisted materially by the Federal Government's assumption, in whole or in part, of the operational responsibility for flood insurance under this chapter (on a temporary or other basis) he shall promptly under-

take any necessary arrangements to carry out the program of flood insurance authorized under subchapter I of this chapter through the facilities of the Federal Government, utilizing, for purposes of providing flood insurance coverage, either—

(1) insurance companies and other insurers, insurance agents and brokers, and insurance adjustment organizations, as fiscal agents of the United States,

(2) such other officers and employees of any executive agency (as defined in section 105 of title 5) as the Administrator and the head of any such agency may from time to time, agree upon, on a reimbursement or other basis, or

(3) both the alternatives specified in paragraphs (1) and (2).

(b) Upon making the determination referred to in subsection (a) of this section, the Administrator shall make a report to the Congress and, at the same time, to the private insurance companies participating in the National Flood Insurance Program pursuant to section 4017 of this title. Such report shall—

(1) state the reason for such determinations,

(2) be supported by pertinent findings,

(3) indicate the extent to which it is anticipated that the insurance industry will be utilized in providing flood insurance coverage under the program, and

(4) contain such recommendations as the Administrator deems advisable.

The Administrator shall not implement the program of flood insurance authorized under subchapter I of this chapter through the facilities of the Federal Government until 9 months after the date of submission of the report under this subsection unless it would be impossible to continue to effectively carry out the National Flood Insurance Program operations during this time.

“(b) METHODOLOGY TO DETERMINE REIMBURSED EXPENSES.—Not later than 180 days after the date of enactment of this Act [July 6, 2012], the Administrator shall develop a methodology for determining the appropriate amounts that property and casualty insurance companies participating in the Write Your Own program should be reimbursed for selling, writing, and servicing flood insurance policies and adjusting flood insurance claims on behalf of the National Flood Insurance Program. TRANSITION PHASE

Pub. L. 103-325, title V, §551(b), Sept. 23, 1994, 108 Stat. 2269, permitted the Director of the Federal Emergency Management Agency to enter into loan and purchase commitments as provided under this section (as in effect immediately before the enactment of Pub. L. 103-325) during the 1-year period beginning on Sept. 23, 1994.

§ 4104. Flood elevation determinations

(a) Publication or notification of proposed flood elevation determinations

In establishing projected flood elevations and designating areas having special flood hazards for land use purposes with respect to any community pursuant to section 4102 of this title, the Administrator shall first propose such determinations and designations by publication for comment in the Federal Register, by direct notification to the chief executive officer of the community, and by publication in a prominent local newspaper.

(b) Publication of flood elevation determinations; appeal of owner or lessee to local government; scientific or technical knowledge or information as basis for appeal; modification of proposed determinations

The Administrator shall publish notification of flood elevation determinations and designations of areas having special flood hazards in a prominent local newspaper at least twice during the ten-day period following notification to the local government. During the ninety-day period following the second publication, any owner or lessee of real property within the community who believes his property rights to be adversely affected by the Administrator's proposed determination may appeal such determination to the local government. The sole grounds for appeal shall be the possession of knowledge or informa-

tion indicating that (1) the elevations being proposed by the Administrator with respect to an identified area having special flood hazards are scientifically or technically incorrect, or (2) the designation of an identified special flood hazard area is scientifically or technically incorrect.

(c) Appeals by private persons; submission of negating or contradicting data to community; opinion of community respecting justification for appeal by community; transmission of individual appeals to Administrator; filing of community action with Administrator

Appeals by private persons shall be made to the chief executive officer of the community, or to such agency as he shall publicly designate, and shall set forth the data that tend to negate or contradict the Administrator's finding in such form as the chief executive officer may specify. The community shall review and consolidate all such appeals and issue a written opinion stating whether the evidence presented is sufficient to justify an appeal on behalf of such persons by the community in its own name. Whether or not the community decides to appeal the Administrator's determination, copies of individual appeals shall be sent to the Administrator as they are received by the community, and the community's appeal or a copy of its decision not to appeal shall be filed with the Administrator not later than ninety days after the date of the second newspaper publication of the Administrator's notification.

(d) Administrative review of appeals by private persons; modification of proposed determinations; decision of Administrator: form and distribution

In the event the Administrator does not receive an appeal from the community within the ninety days provided, he shall consolidate and review on their own merits, in accordance with the procedures set forth in subsection (e) of this section, the appeals filed within the community by private persons and shall make such modifications of his proposed determinations as may be appropriate, taking into account the written opinion, if any, issued by the community in not supporting such appeals. The Administrator's decision shall be in written form, and copies thereof shall be sent both to the chief executive officer of the community and to each individual appellant.

(e) Administrative review of appeals by community; agencies for resolution of conflicting data; availability of flood insurance pending such resolution; time for determination of Administrator; community adoption of local land use and control measures within reasonable time of final determination; public inspection and admissibility in evidence of reports and other administrative information

Upon appeal by any community, as provided by this section, the Administrator shall review and take fully into account any technical or scientific data submitted by the community that tend to negate or contradict the information upon which his proposed determination is based. The Administrator shall resolve such appeal by consultation with officials of the local govern-

ment involved, by administrative hearing, or by submission of the conflicting data to the Scientific Resolution Panel provided for in section 4104-1 of this title. Until the conflict in data is resolved, and the Administrator makes a final determination on the basis of his findings in the Federal Register, and so notifies the governing body of the community, flood insurance previously available within the community shall continue to be available, and no person shall be denied the right to purchase such insurance at chargeable rates. The Administrator shall make his determination within a reasonable time. The community shall be given a reasonable time after the Administrator's final determination in which to adopt local land use and control measures consistent with the Administrator's determination. The reports and other information used by the Administrator in making his final determination shall be made available for public inspection and shall be admissible in a court of law in the event the community seeks judicial review as provided by this section.

(f) Reimbursement of certain expenses

When, incident to any appeal under subsection (b) or (c) of this section, the owner or lessee of real property or the community, as the case may be, or, in the case of an appeal that is resolved by submission of conflicting data to the Scientific Resolution Panel provided for in section 4104-1 of this title, the community, incurs expense in connection with the services of surveyors, engineers, or similar services, but not including legal services, in the effecting of an appeal based on a scientific or technical error on the part of the Federal Emergency Management Agency, which is successful in whole or part, the Administrator shall reimburse such individual or community to an extent measured by the ratio of the successful portion of the appeal as compared to the entire appeal and applying such ratio to the reasonable value of all such services, but no reimbursement shall be made by the Administrator in respect to any fee or expense payment, the payment of which was agreed to be contingent upon the result of the appeal. The Administrator may use such amounts from the National Flood Insurance Fund established under section 4017 of this title as may be necessary to carry out this subsection. The Administrator shall promulgate regulations to carry out this subsection.

(g) Judicial review of final administrative determinations; venue; time for appeal; scope of review; good cause for stay of final determinations

Except as provided in section 4104-1 of this title, any appellant aggrieved by any final determination of the Administrator upon administrative appeal, as provided by this section, may appeal such determination to the United States district court for the district within which the community is located not more than sixty days after receipt of notice of such determination. The scope of review by the court shall be as provided by chapter 7 of title 5. During the pendency of any such litigation, all final determinations of the Administrator shall be effective for the purposes of this chapter unless stayed by the court for good cause shown.

§ 4104b. Standard hazard determination forms

(a) Development

The Administrator, in consultation with representatives of the mortgage and lending industry, the Federal entities for lending regulation, the Federal agency lenders, and any other appropriate individuals, shall develop a standard form for determining, in the case of a loan secured by improved real estate or a mobile home, whether the building or mobile home is located in an area identified by the Administrator as an area having special flood hazards and in which flood insurance under this chapter is available. The form shall be established by regulations issued not later than 270 days after September 23, 1994.

(b) Design and contents

(1) Purpose

The form under subsection (a) of this section shall be designed to facilitate compliance with the flood insurance purchase requirements of this chapter.

(2) Contents

The form shall require identification of the type of flood-risk zone in which the building or mobile home is located, the complete map and panel numbers for the improved real estate or property on which the mobile home is located, the community identification number and community participation status (for purposes of the national flood insurance program) of the community in which the improved real estate or such property is located, and the date of the map used for the determination, with respect to flood hazard information on file with the Administrator. If the building or mobile home is not located in an area having special flood hazards the form shall require a statement to such effect and shall indicate the complete map and panel numbers of the improved real estate or property on which the mobile home is located. If the complete map and panel numbers are not available because the building or mobile home is not located in a community that is participating in the national flood insurance program or because no map exists for the relevant area, the form shall require a statement to such effect. The form shall provide for inclusion or attachment of any relevant documents indicating revisions or amendments to maps.

(c) Required use

The Federal entities for lending regulation shall by regulation require the use of the form under this section by regulated lending institu-

tions. Each Federal agency lender shall by regulation provide for the use of the form with respect to any loan made by such Federal agency lender. The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation and the Government National Mortgage Association shall require the use of the form with respect to any loan purchased by such entities. A lender or other person may comply with the requirement under this subsection by using the form in a printed, computerized, or electronic manner.

(d) Guarantees regarding information

In providing information regarding special flood hazards on the form developed under this section, any lender (or other person required to use the form) who makes, increases, extends, or renews a loan secured by improved real estate or a mobile home may provide for the acquisition or determination of such information to be made by a person other than such lender (or other person), only to the extent such person guarantees the accuracy of the information.

(e) Reliance on previous determination

Any person increasing, extending, renewing, or purchasing a loan secured by improved real estate or a mobile home may rely on a previous determination of whether the building or mobile home is located in an area having special flood hazards (and shall not be liable for any error in such previous determination), if the previous determination was made not more than 7 years before the date of the transaction and the basis for the previous determination has been set forth on a form under this section, unless—

(1) map revisions or updates pursuant to section 4101(f) of this title after such previous determination have resulted in the building or mobile home being located in an area having special flood hazards; or

(2) the person contacts the Administrator to determine when the most recent map revisions or updates affecting such property occurred and such revisions and updates have occurred after such previous determination.

(f) Effective date

The regulations under this section requiring use of the form established pursuant to this section shall be issued together with the regulations required under subsection (a) of this section and shall take effect upon the expiration of the 180-day period beginning on such issuance.

§ 4104c. Mitigation assistance**(a) Authority**

The Administrator shall carry out a program to provide financial assistance to States and communities, using amounts made available from the National Flood Mitigation Fund under section 4104d of this title, for planning and carrying out activities designed to reduce the risk of flood damage to structures covered under contracts for flood insurance under this chapter. Such financial assistance shall be made available—

- (1) to States and communities in the form of grants under this section for carrying out mitigation activities;
- (2) to States and communities in the form of grants under this section for carrying out mitigation activities that reduce flood damage to severe repetitive loss structures; and
- (3) to property owners in the form of direct grants under this section for carrying out mitigation activities that reduce flood damage to individual structures for which 2 or more claim payments for losses have been made under flood insurance coverage under this chapter if the Administrator, after consultation with the State and community, determines that neither the State nor community in which such a structure is located has the capacity to manage such grants.

(b) Eligibility for mitigation assistance

To be eligible to receive financial assistance under this section for mitigation activities, a State or community shall develop, and have approved by the Administrator, a flood risk mitigation plan (in this section referred to as a “mitigation plan”), that describes the mitigation activities to be carried out with assistance provided under this section, is consistent with the criteria established by the Administrator under section 4102 of this title, provides for reduction of flood losses to structures for which contracts for flood insurance are available under this chapter, and may be included in a multi-hazard mitigation plan. The mitigation plan shall be consistent with a comprehensive strategy for mitigation activities for the area affected by the mitigation plan, that has been adopted by the State or community following a public hearing.

(c) Eligible mitigation activities**(1) Requirement of consistency with approved mitigation plan**

Amounts provided under this section may be used only for mitigation activities that are consistent with mitigation plans that are approved by the Administrator and identified under paragraph (4). The Administrator shall provide assistance under this section to the extent amounts are available in the National Flood Mitigation Fund pursuant to appropriation Acts, subject only to the absence of approvable mitigation plans.

(2) Requirements of technical feasibility, cost effectiveness, and interest of National Flood Insurance Fund**(A) In general**

The Administrator may approve only mitigation activities that the Administrator determines—

- (i) are technically feasible and cost-effective; or
- (ii) will eliminate future payments from the National Flood Insurance Fund for severe repetitive loss structures through an acquisition or relocation activity.

(B) Considerations

In making a determination under subparagraph (A), the Administrator shall take into consideration recognized ancillary benefits.

(3) Eligible activities

Eligible activities under a mitigation plan may include—

- (A) demolition or relocation of any structure located on land that is along the shore of a lake or other body of water and is certified by an appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or flooding;
- (B) elevation, relocation, demolition, or floodproofing of structures (including public structures) located in areas having special flood hazards or other areas of flood risk;
- (C) acquisition by States and communities of properties (including public properties) located in areas having special flood hazards or other areas of flood risk and properties substantially damaged by flood, for public use, as the Administrator determines is consistent with sound land management and use in such area;
- (D) elevation, relocation, or floodproofing of utilities (including equipment that serves structures);
- (E) minor physical mitigation efforts that do not duplicate the flood prevention activities of other Federal agencies and that lessen the frequency or severity of flooding and decrease predicted flood damages, which shall not include major flood control projects such as dikes, levees, seawalls, groins, and jetties unless the Administrator specifically determines in approving a mitigation plan that such activities are the most cost-effective mitigation activities for the National Flood Mitigation Fund;
- (F) the development or update of mitigation plans by a State or community which

meet the planning criteria established by the Administrator, except that the amount from grants under this section that may be used under this subparagraph may not exceed \$50,000 for any mitigation plan of a State or \$25,000 for any mitigation plan of a community;

(G) the provision of technical assistance by States to communities and individuals to conduct eligible mitigation activities;

(H) other activities that the Administrator considers appropriate and specifies in regulation;

(I) other mitigation activities not described in subparagraphs (A) through (G) or the regulations issued under subparagraph (H), that are described in the mitigation plan of a State or community; and

(J) without regard to the requirements under paragraphs (1) and (2) of subsection (d), and if the State applied for and was awarded at least \$1,000,000 in grants available under this section in the prior fiscal year, technical assistance to communities to identify eligible activities, to develop grant applications, and to implement grants awarded under this section, not to exceed \$50,000 to any 1 State in any fiscal year.

(4) Eligibility of demolition and rebuilding of properties

The Administrator shall consider as an eligible activity the demolition and rebuilding of properties to at least base flood elevation or greater, if required by the Administrator or if required by any State regulation or local ordinance, and in accordance with criteria established by the Administrator.

(d) Matching requirement

The Administrator may provide grants for eligible mitigation activities as follows:

(1) Severe repetitive loss structures

In the case of mitigation activities to severe repetitive loss structures, in an amount up to—

(A) 100 percent of all eligible costs, if the activities are approved under subsection (c)(2)(A)(i); or

(B) the expected savings to the National Flood Insurance Fund from expected avoided damages through acquisition or relocation activities, if the activities are approved under subsection (c)(2)(A)(ii).

(2) Repetitive loss structures

In the case of mitigation activities to repetitive loss structures, in an amount up to 90 percent of all eligible costs.

(3) Other mitigation activities

In the case of all other mitigation activities, in an amount up to 75 percent of all eligible costs.

(e) Recapture

(1) Noncompliance with plan

If the Administrator determines that a State or community that has received mitigation assistance under this section has not carried out the mitigation activities as set forth in the mitigation plan, the Administrator shall re-

capture any unexpended amounts and deposit the amounts in the National Flood Mitigation Fund under section 4104d of this title.

(2) Failure to provide matching funds

If the Administrator determines that a State or community that has received mitigation assistance under this section has not provided matching funds in the amount required under subsection (d) of this section, the Administrator shall recapture any unexpended amounts of mitigation assistance exceeding the amount of such matching funds actually provided and deposit the amounts in the National Flood Mitigation Fund under section 4104d of this title.

(f) Reports

Not later than 1 year after July 6, 2012, and biennially thereafter, the Administrator shall submit a report to the Congress describing the status of mitigation activities carried out with assistance provided under this section.

(g) Failure to make grant award within 5 years

For any application for a grant under this section for which the Administrator fails to make a grant award within 5 years of the date of the application, the grant application shall be considered to be denied and any funding amounts allocated for such grant applications shall remain in the National Flood Mitigation Fund under section 4104d of this title and shall be made available for grants under this section.

(h) Definitions

For purposes of this section, the following definitions shall apply:

(1) Community

The term “community” means—

(A) a political subdivision that—

(i) has zoning and building code jurisdiction over a particular area having special flood hazards; and

(ii) is participating in the national flood insurance program; or

(B) a political subdivision of a State, or other authority, that is designated by political subdivisions, all of which meet the requirements of subparagraph (A), to administer grants for mitigation activities for such political subdivisions.

(2) Repetitive loss structure

The term “repetitive loss structure” has the meaning given such term in section 4121 of this title.

(3) Severe repetitive loss structure

The term “severe repetitive loss structure” means a structure that—

(A) is covered under a contract for flood insurance made available under this chapter; and

(B) has incurred flood-related damage—

(i) for which 4 or more separate claims payments have been made under flood insurance coverage under this chapter, with the amount of each such claim exceeding \$5,000, and with the cumulative amount of such claims payments exceeding \$20,000; or

(ii) for which at least 2 separate claims payments have been made under such cov-

erage, with the cumulative amount of such claims exceeding the value of the insured structure.

§ 4105. Disaster mitigation requirements; notification to flood-prone areas

(a) Initial notification

Not later than six months following December 31, 1973, the Administrator shall publish information in accordance with section 4101(1) of this title, and shall notify the chief executive officer of each known flood-prone community not already participating in the national flood insurance program of its tentative identification as a community containing one or more areas having special flood hazards.

(b) Alternative actions of tentatively identified communities; public hearing; opportunity for submission of evidence; finality of administrative determination of existence or extent of flood hazard area

After such notification, each tentatively identified community shall either (1) promptly make

proper application to participate in the national flood insurance program or (2) within six months submit technical data sufficient to establish to the satisfaction of the Administrator that the community either is not seriously flood prone or that such flood hazards as may have existed have been corrected by flood-works or other flood control methods. The Administrator may, in his discretion, grant a public hearing to any community with respect to which conflicting data exist as to the nature and extent of a flood hazard. If the Administrator decides not to hold a hearing, the community shall be given an opportunity to submit written and documentary evidence. Whether or not such hearing is granted, the Administrator’s final determination as to the existence or extent of a flood hazard area in a particular community shall be deemed conclusive for the purposes of this Act if supported by substantial evidence in the record considered as a whole.

(c) Subsequent notification to additional communities known to be flood prone areas

As information becomes available to the Administrator concerning the existence of flood hazards in communities not known to be flood prone at the time of the initial notification provided for by subsection (a) of this section he shall provide similar notifications to the chief executive officers of such additional communities, which shall then be subject to the requirements of subsection (b) of this section.

(d) Provisions of section 4106 applicable to flood-prone communities disqualified for flood insurance program

Formally identified flood-prone communities that do not qualify for the national flood insurance program within one year after such notification or by the date specified in section 4106 of this title, whichever is later, shall thereafter be subject to the provisions of that section relating to flood-prone communities which are not participating in the program.

(e) Administrative procedures; establishment; reimbursement of certain expenses; appropriation authorization

The Administrator is authorized to establish administrative procedures whereby the identification under this section of one or more areas in the community as having special flood hazards may be appealed to the Administrator by the community or any owner or lessee of real property within the community who believes his property has been inadvertently included in a special flood hazard area by the identification. When, incident to any appeal under this subsection, the owner or lessee of real property or the community, as the case may be, incurs expense in connection with the services of surveyors, engineers, or similar services, but not including legal services, in the effecting of an appeal which is successful in whole or part, the Administrator shall reimburse such individual or community to an extent measured by the ratio of the successful portion of the appeal as compared to the entire appeal and applying such ratio to the reasonable value of all such services, but no reimbursement shall be made by the Administrator in respect to any fee or expense

payment, the payment of which was agreed to be contingent upon the result of the appeal. There is authorized to be appropriated for purposes of implementing this subsection not to exceed \$250,000.

Such compensation, if authorized, shall be in lieu of, but not in addition to, other compensation from the United States to which such person may be entitled.

SEC. 6. ABOLITIONS

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 3 of 1970, prepared in accordance with chapter 9 of title 5 of the United States Code and providing for an Environmental Protection Agency. My reasons for transmitting this plan are stated in a more extended accompanying message.

After investigation, I have found and hereby declare that each reorganization included in Reorganization Plan No. 3 of 1970 is necessary to accomplish one or more of the purposes set forth in section 901(a) of title 5 of the United States Code. In particular, the plan is responsive to section 901(a)(1), "to promote the better execution of the laws, the more effective management of the executive branch and of its agencies and functions, and the expeditious administration of the public business;" and section 901(a)(3), "to increase the efficiency of the operations of the Government to the fullest extent practicable."

The reorganizations provided for in the plan make necessary the appointment and compensation of new officers as specified in section 1 of the plan. The rates of compensation fixed for these officers are comparable to those fixed for other officers in the executive branch who have similar responsibilities.

Section 907 of title 5 of the United States Code will operate to preserve administrative proceedings, including any public hearing proceedings, related to the transferred functions, which are pending immediately prior to the taking effect of the reorganization plan.

The reorganization plan should result in more efficient operation of the Government. It is not practical, however, to itemize or aggregate the exact expenditure reductions which will result from this action.

RICHARD NIXON.

THE WHITE HOUSE, July 9, 1970.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

As concern with the condition of our physical environment has intensified, it has become increasingly clear that we need to know more about the total environment—land, water and air. It also has become increasingly clear that only by reorganizing our Federal efforts can we develop that knowledge, and effectively ensure the protection, development and enhancement of the total environment itself.

The Government's environmentally-related activities have grown up piecemeal over the years. The time has come to organize them rationally and systematically. As a major step in this direction, I am transmitting today two reorganization plans: one to establish an Environmental Protection Agency, and one to establish, within the Department of Commerce, a National Oceanic and Atmospheric Administration.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

Our national government today is not structured to make a coordinated attack on the pollutants which debase the air we breathe, the water we drink, and the land that grows our food. Indeed, the present governmental structure for dealing with environmental pollution often defies effective and concerted action.

Despite its complexity, for pollution control purposes the environment must be perceived as a single, inter-related system. Present assignments of departmental responsibilities do not reflect this interrelatedness.

Many agency missions, for example, are designed primarily along media lines—air, water, and land. Yet the sources of air, water, and land pollution are inter-related and often interchangeable. A single source may pollute the air with smoke and chemicals, the land with solid wastes, and a river or lake with chemical and other wastes. Control of the air pollution may produce more solid wastes, which then pollute the land or water. Control of the water-polluting effluent may convert it into solid wastes, which must be disposed of on land.

Similarly, some pollutants—chemicals, radiation, pesticides—appear in all media. Successful control of them at present requires the coordinated efforts of a variety of separate agencies and departments. The results are not always successful.

A far more effective approach to pollution control would:

- identify pollutants.
- trace them through the entire ecological chain, observing and recording changes in form as they occur.
- Determine the total exposure of man his environment.
- Examine interactions among forms of pollution.
- Identify where in the ecological chain interdiction would be most appropriate.

In organizational terms, this requires pulling together into one agency a variety of research, monitoring, standard-setting and enforcement activities now scattered through several departments and agencies. It also requires that the new agency include sufficient support elements—in research and in aids to State and local anti-pollution programs, for example—to give it the needed strength and potential for carrying out its mission. The new agency would also, of course, draw upon the results of research conducted by other agencies.

COMPONENTS OF THE EPA

Under the terms of Reorganization Plan No. 3, the following would be moved to the new Environmental Protection Agency:

- The functions carried out by the Federal Water Quality Administration (from the Department of the Interior).
- Functions with respect to pesticides studies now vested in the Department of the Interior.
- The functions carried out by the National Air Pollution Control Administration (from the Department of Health, Education, and Welfare).
- The functions carried out by the Bureau of Solid Waste Management and the Bureau of Water Hygiene, and portions of the functions carried out by the Bureau of Radiological Health of the Environmental Control Administration (from the Department of Health, Education, and Welfare).
- Certain functions with respect to pesticides carried out by the Food and Drug Administration (from the Department of Health, Education, and Welfare).
- Authority to perform studies relating to ecological systems now vested in the Council on Environmental Quality.
- Certain functions respecting radiation criteria and standards now vested in the Atomic Energy Commission and the Federal Radiation Council.
- Functions respecting pesticides registration and related activities now carried out by the Agricultural Research Service (from the Department of Agriculture).

With its broad mandate, EPA would also develop competence in areas of environmental protection that have not previously been given enough attention, such, for example, as the problem of noise, and it would provide an organization to which new programs in these areas could be added.

In brief, these are the principal functions to be transferred:

Federal Water Quality Administration.—Charged with the control of pollutants which impair water quality, it is broadly concerned with the impact of degraded water quality. It performs a wide variety of functions, including research, standard-setting and enforcement, and provides construction grants and technical assistance.

Certain pesticides research authority from the Department of the Interior.—Authority for research on the effects of pesticides on fish and wildlife would be provided to the EPA through transfer of the specialized research authority of the pesticides act enacted in 1958. Interior would retain its responsibility to do research on all factors affecting fish and wildlife. Under this provision, only one laboratory would be transferred to the EPA—the Gulf Breeze Biological Laboratory of the Bureau of Commercial Fisheries. The EPA would work closely with the fish and wildlife laboratories remaining with the Bureau of Sport Fisheries and Wildlife.

National Air Pollution Control Administration.—As the principal Federal agency concerned with air pollution, it conducts research on the effects of air pollution, operates a monitoring network, and promulgates criteria which serve as the basis for setting air quality standards. Its regulatory functions are similar to those of the Federal Water Quality Administration. NAPCA is responsible for administering the Clean Air Act, which involves designating air quality regions, approving State standards and providing financial and technical assistance to State Control agencies to enable them to comply with the Act's provisions. It also sets and enforces Federal automotive emission standards.

Elements of the Environmental Control Administration.—ECA is the focal point within HEW for evaluation and control of a broad range of environmental health problems, including water quality, solid wastes, and radiation. Programs in the ECA involve research, development of criteria and standards, and the administration of planning and demonstration grants. From the ECA, the activities of the Bureaus of Water Hy-

giene and Solid Waste Management and portions of the activities of the Bureau of Radiological Health would be transferred. Other functions of the ECA including those related to the regulation of radiation from consumer products and occupational safety and health would remain in HEW.

Pesticides research and standard-setting programs of the Food and Drug Administration.—FDA's pesticides program consists of setting and enforcing standards which limit pesticide residues in food. EPA would have the authority to set pesticide standards and to monitor compliance with them, as well as to conduct related research. However, as an integral part of its food protection activities, FDA would retain its authority to remove from the market food with excess pesticide residues.

General ecological research from the Council on Environmental Quality.—This authority to perform studies and research relating to ecological systems would be in addition to EPA's other specific research authorities, and it would help EPA to measure the impact of pollutants. The Council on Environmental Quality would retain its authority to conduct studies and research relating to environmental quality.

Environmental radiation standards programs.—The Atomic Energy Commission is now responsible for establishing environmental radiation standards and emission limits for radioactivity. Those standards have been based largely on broad guidelines recommended by the Federal Radiation Council. The Atomic Energy Commission's authority to set standards for the protection of the general environment from radioactive material would be transferred to the Environmental Protection Agency. The functions of the Federal Radiation Council would also be transferred. AEC would retain responsibility for the implementation and enforcement of radiation standards through its licensing authority.

Pesticides registration program of the Agricultural Research Service.—The Department of Agriculture is currently responsible for several distinct functions related to pesticides use. It conducts research on the efficacy of various pesticides as related to other pest control methods and on the effects of pesticides on non-target plants, livestock, and poultry. It registers pesticides, monitors their persistence and carries out an educational program on pesticide use through the extension service. It conducts extensive pest control programs which utilize pesticides.

By transferring the Department of Agriculture's pesticides registration and monitoring function to the EPA and merging it with the pesticides programs being transferred from HEW and Interior, the new agency would be given a broad capability for control over the introduction of pesticides into the environment.

The Department of Agriculture would continue to conduct research on the effectiveness of pesticides. The Department would furnish this information to the EPA, which would have the responsibility for actually licensing pesticides for use after considering environmental and health effects. Thus the new agency would be able to make use of the expertise of the Department.

ADVANTAGES OF REORGANIZATION

This reorganization would permit response to environmental problems in a manner beyond the previous capability of our pollution control programs. The EPA would have the capacity to do research on important pollutants irrespective of the media in which they appear, and on the impact of these pollutants on the total environment. Both by itself and together with other agencies, the EPA would monitor the condition of the environment—biological as well as physical. With these data, the EPA would be able to establish quantitative "environmental baselines"—critical if we are to measure adequately the success or failure of our pollution abatement efforts.

As no disjointed array of separate programs can, the EPA would be able—in concert with the States—to set and enforce standards for air and water quality and for individual pollutants. This consolidation of pollution

control authorities would help assure that we do not create new environmental problems in the process of controlling existing ones. Industries seeking to minimize the adverse impact of their activities on the environment would be assured of consistent standards covering the full range of their waste disposal problems. As the States develop and expand their own pollution control programs, they would be able to look to one agency to support their efforts with financial and technical assistance and training.

In proposing that the Environmental Protection Agency be set up as a separate new agency, I am making an exception to one of my own principles: that, as a matter of effective and orderly administration, additional new independent agencies normally should not be created. In this case, however, the arguments against placing environmental protection activities under the jurisdiction of one or another of the existing departments and agencies are compelling.

In the first place, almost every part of government is concerned with the environment in some way, and affects it in some way. Yet each department also has its own primary mission—such as resource development, transportation, health, defense, urban growth or agriculture—which necessarily affects its own view of environmental questions.

In the second place, if the critical standard-setting functions were centralized within any one existing department, it would require that department constantly to make decisions affecting other departments—in which, whether fairly or unfairly, its own objectivity as an impartial arbiter could be called into question.

Because environmental protection cuts across so many jurisdictions, and because arresting environmental deterioration is of great importance to the quality of life in our country and the world, I believe that in this case a strong, independent agency is needed. That agency would, of course, work closely with and draw upon the expertise and assistance of other agencies having experience in the environmental area.

ROLES AND FUNCTIONS OF EPA

The principal roles and functions of the EPA would include:

- The establishment and enforcement of environmental protection standards consistent with national environmental goals.
- The conduct of research on the adverse effects of pollution and on methods and equipment for controlling it, the gathering of information on pollution, and the use of this information in strengthening environmental protection programs and recommending policy changes.
- Assisting others, through grants, technical assistance and other means in arresting pollution of the environment.
- Assisting the Council on Environmental Quality in developing and recommending to the President new policies for the protection of the environment.

One natural question concerns the relationship between the EPA and the Council on Environmental Quality, recently established by Act of Congress.

It is my intention and expectation that the two will work in close harmony, reinforcing each other's mission. Essentially, the Council is a top-level advisory group (which might be compared with the Council of Economic Advisers), while the EPA would be an operating, "line" organization. The Council will continue to be a part of the Executive Office of the President and will perform its overall coordinating and advisory roles with respect to all Federal programs related to environmental quality.

The Council, then, is concerned with all aspects of environmental quality—wildlife preservation, parklands, land use, and population growth, as well as pollution. The EPA would be charged with protecting the environment by abating pollution. In short, the Council focuses on what our broad policies in the environment field should be; the EPA would focus on setting and enforcing pollution control standards. The two are not

competing, but complementary—and taken together, they should give us, for the first time, the means to mount an effectively coordinated campaign against environmental degradation in all of its many forms.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The oceans and the atmosphere are interacting parts of the total environmental system upon which we depend not only for the quality of our lives, but for life itself.

We face immediate and compelling needs for better protection of life and property from natural hazards, and for a better understanding of the total environment—and understanding which will enable us more effectively to monitor and predict its actions, and ultimately, perhaps to exercise some degree of control over them.

We also face a compelling need for exploration and development leading to the intelligent use of our marine resources. The global oceans, which constitute nearly three-fourths of the surface of our planet, are today the least-understood, the least-developed, and the least-protected part of our earth. Food from the oceans will increasingly be a key element in the world's fight against hunger. The mineral resources of the ocean beds and of the oceans themselves, are being increasingly tapped to meet the growing world demand. We must understand the nature of these resources, and assure their development without either contaminating the marine environment or upsetting its balance.

Establishment of the National Oceanic and Atmospheric Administration—NOAA—within the Department of Commerce would enable us to approach these tasks in a coordinated way. By employing a unified approach to the problems of the oceans and atmosphere, we can increase our knowledge and expand our opportunities not only in those areas, but in the third major component of our environment, the solid earth, as well.

Scattered through various Federal departments and agencies, we already have the scientific, technological, and administrative resources to make an effective, unified approach possible. What we need is to bring them together. Establishment of NOAA would do so.

By far the largest of the components being merged would be the Commerce Department's Environmental Science Services Administration (ESSA), with some 10,000 employees (70 percent of NOAA's total personnel strength) and estimated Fiscal 1970 expenditures of almost \$200 million. Placing NOAA within the Department of Commerce therefore entails the least dislocation, while also placing it within a Department which has traditionally been a center for service activities in the scientific and technological area.

COMPONENTS OF NOAA

Under terms of Reorganization Plan No. 4, the programs of the following organizations would be moved into NOAA:

- The Environmental Science Services Administration (from within the Department of Commerce).
- Elements of the Bureau of Commercial Fisheries (from the Department of the Interior).
- The marine sport fish program of the Bureau of Sport Fisheries and Wildlife (from the Department of the Interior).
- The Marine Minerals Technology Center of the Bureau of Mines (from the Department of the Interior).
- The Office of Sea Grant Programs (from the National Science Foundation).
- Elements of the United States Lake Survey (from the Department of the Army).

In addition, by executive action, the programs of the following organizations would be transferred to NOAA:

- The National Oceanographic Data Center (from the Department of the Navy).
- The National Oceanographic Instrumentation Center (from the Department of the Navy).

—The National Data Buoy Project (from the Department of Transportation).

In brief, these are the principal functions of the programs and agencies to be combined:

THE ENVIRONMENTAL SCIENCE SERVICES ADMINISTRATION

(ESSA) comprises the following components:

- The Weather Bureau (weather, marine, river and flood forecasting and warning).
- The Coast and Geodetic Survey (earth and marine description, mapping and charting).
- The Environmental Data Service (storage and retrieval of environmental data).
- The National Environmental Satellite Center (observation of the global environment from earth-orbiting satellites).
- The ESSA Research Laboratories (research on physical environmental problems).

ESSA's activities include observing and predicting the state of the oceans, the state of the lower and upper atmosphere, and the size and shape of the earth. It maintains the nation's warning systems for such natural hazards as hurricanes, tornadoes, floods, earthquakes and seismic sea waves. It provides information for national defense, agriculture, transportation and industry.

ESSA monitors atmospheric, oceanic and geophysical phenomena on a global basis, through an unparalleled complex of air, ocean, earth and space facilities. It also prepares aeronautical and marine maps and charts.

Bureau of Commercial Fisheries and marine sport fish activities.—Those fishery activities of the Department of the Interior's U.S. Fish and Wildlife Service which are ocean related and those which are directed toward commercial fishing would be transferred. The Fish and Wildlife Service's Bureau of Commercial Fisheries has the dual function of strengthening the fishing industry and promoting conservation of fishery stocks. It conducts research on important marine species and on fundamental oceanography, and operates a fleet of oceanographic vessels and a number of laboratories. Most of its activities would be transferred. From the Fish and Wildlife Service's Bureau of Sport Fisheries and Wildlife, the marine sport fishing program would be transferred. This involves five supporting laboratories and three ships engaged in activities to enhance marine sport fishing opportunities.

The Marine Minerals Technology Center is concerned with the development of marine mining technology.

Office of Sea Grant Programs.—The Sea Grant Program was authorized in 1966 to permit the Federal Government to assist the academic and industrial communities in developing marine resources and technology. It aims at strengthening education and training of marine specialists, supporting applied research in the recovery and use of marine resources, and developing extension and advisory services. The Office carries out these objectives by making grants to selected academic institutions.

The U.S. Lake Survey has two primary missions. It prepares and publishes navigation charts of the Great Lakes and tributary waters and conducts research on a variety of hydraulic and hydrologic phenomena of the Great Lakes' waters. Its activities are very similar to those conducted along the Atlantic and Pacific coasts by ESSA's Coast and Geodetic Survey.

The National Oceanographic Data Center is responsible for the collection and dissemination of oceanographic data accumulated by all Federal agencies.

The National Oceanographic Instrumentation Center provides a central Federal service for the calibration and testing of oceanographic instruments.

The National Data Buoy Development Project was established to determine the feasibility of deploying a system of automatic ocean buoys to obtain oceanic and atmospheric data.

ROLE OF NOAA

Drawing these activities together into a single agency would make possible a balanced Federal program to

improve our understanding of the resources of the sea, and permit their development and use while guarding against the sort of thoughtless exploitation that in the past laid waste to so many of our precious natural assets. It would make possible a consolidated program for achieving a more comprehensive understanding of oceanic and atmospheric phenomena, which so greatly affect our lives and activities. It would facilitate the cooperation between public and private interests that can best serve the interests of all.

I expect that NOAA would exercise leadership in developing a national oceanic and atmospheric program of research and development. It would coordinate its own scientific and technical resources with the technical and operational capabilities of other government agencies and private institutions. As important, NOAA would continue to provide those services to other agencies of government, industry and private individuals which have become essential to the efficient operation of our transportation systems, our agriculture and our national security. I expect it to maintain continuing and close liaison with the new Environmental Protection Agency and the Council on Environmental Quality as part of an effort to ensure that environmental questions are dealt with in their totality and they benefit from the full range of the government's technical and human resources.

Authorities who have studied this matter, including the Commission on Marine Science, Engineering and Resources, strongly recommended the creation of a National Advisory Committee for the Oceans. I agree. Consequently, I will request, upon approval of the plan, that the Secretary of Commerce establish a National Advisory Committee for the Oceans and the Atmosphere to advise him on the progress of governmental and private programs in achieving the nation's oceanic and atmospheric objectives.

AN ON-GOING PROCESS

The reorganizations which I am here proposing afford both the Congress and the Executive Branch an opportunity to re-evaluate the adequacy of existing program authorities involved in these consolidations. As these two new organizations come into being, we may well find that supplementary legislation to perfect their authorities will be necessary. I look forward to working with the Congress in this task.

In formulating these reorganization plans, I have been greatly aided by the work of the President's Advisory Council on Executive Organization (the Ash Council), the Commission on Marine Science, Engineering and Resources (the Stratton Commission, appointed by President Johnson), my special task force on oceanography headed by Dr. James Wakelin, and by the information developed during both House and Senate hearings on proposed NOAA legislation.

Many of those who have advised me have proposed additional reorganizations, and it may well be that in the future I shall recommend further changes. For the present, however, I think the two reorganizations transmitted today represent a sound and significant beginning. I also think that in practical terms, in this sensitive and rapidly developing area, it is better to proceed a step at a time—and thus to be sure that we are not caught up in a form of organizational indigestion from trying to rearrange too much at once. As we see how these changes work out, we will gain a better understanding of what further changes—in addition to these—might be desirable.

Ultimately, our objective should be to insure that the nation's environmental and resource protection activities are so organized as to maximize both the effective coordination of all and the effective functioning of each.

The Congress, the Administration and the public all share a profound commitment to the rescue of our natural environment, and the preservation of the Earth as a place both habitable by and hospitable to man. With its acceptance of these reorganization plans, the Congress will help us fulfill that commitment.

RICHARD NIXON.

EX. ORD. NO. 11514. PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

Ex. Ord. No. 11514, Mar. 5, 1970, 35 F.R. 4247, as amended by Ex. Ord. No. 11991, May 24, 1977, 42 F.R. 26967, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purpose and policy of the National Environmental Policy Act of 1969 (Public Law No. 91-190, approved January 1, 1970) [this chapter], it is ordered as follows:

SECTION 1. *Policy.* The Federal Government shall provide leadership in protecting and enhancing the quality of the Nation's environment to sustain and enrich human life. Federal agencies shall initiate measures needed to direct their policies, plans and programs so as to meet national environmental goals. The Council on Environmental Quality, through the Chairman, shall advise and assist the President in leading this national effort.

SEC. 2. *Responsibilities of Federal agencies.* Consonant with Title I of the National Environmental Policy Act of 1969 [42 U.S.C. 4331 et seq.], hereafter referred to as the "Act", the heads of Federal agencies shall:

(a) Monitor, evaluate, and control on a continuing basis their agencies' activities so as to protect and enhance the quality of the environment. Such activities shall include those directed to controlling pollution and enhancing the environment and those designed to accomplish other program objectives which may affect the quality of the environment. Agencies shall develop programs and measures to protect and enhance environmental quality and shall assess progress in meeting the specific objectives of such activities. Heads of agencies shall consult with appropriate Federal, State and local agencies in carrying out their activities as they affect the quality of the environment.

(b) Develop procedures to ensure the fullest practicable provision of timely public information and understanding of Federal plans and programs with environmental impact in order to obtain the views of interested parties. These procedures shall include, whenever appropriate, provision for public hearings, and shall provide the public with relevant information, including information on alternative courses of action. Federal agencies shall also encourage State and local agencies to adopt similar procedures for informing the public concerning their activities affecting the quality of the environment.

(c) Insure that information regarding existing or potential environmental problems and control methods developed as part of research, development, demonstration, test, or evaluation activities is made available to Federal agencies, States, counties, municipalities, institutions, and other entities, as appropriate.

(d) Review their agencies' statutory authority, administrative regulations, policies, and procedures, including those relating to loans, grants, contracts,

leases, licenses, or permits, in order to identify any deficiencies or inconsistencies therein which prohibit or limit full compliance with the purposes and provisions of the Act. A report on this review and the corrective actions taken or planned, including such measures to be proposed to the President as may be necessary to bring their authority and policies into conformance with the intent, purposes, and procedures of the Act, shall be provided to the Council on Environmental Quality not later than September 1, 1970.

(e) Engage in exchange of data and research results, and cooperate with agencies of other governments to foster the purposes of the Act.

(f) Proceed, in coordination with other agencies, with actions required by section 102 of the Act [42 U.S.C. 4332].

(g) In carrying out their responsibilities under the Act and this Order, comply with the regulations issued by the Council except where such compliance would be inconsistent with statutory requirements.

SEC. 3. *Responsibilities of Council on Environmental Quality.* The Council on Environmental Quality shall:

(a) Evaluate existing and proposed policies and activities of the Federal Government directed to the control of pollution and the enhancement of the environment and to the accomplishment of other objectives which affect the quality of the environment. This shall include continuing review of procedures employed in the development and enforcement of Federal standards affecting environmental quality. Based upon such evaluations the Council shall, where appropriate, recommend to the President policies and programs to achieve more effective protection and enhancement of environmental quality and shall, where appropriate, seek resolution of significant environmental issues.

(b) Recommend to the President and to the agencies priorities among programs designed for the control of pollution and for enhancement of the environment.

(c) Determine the need for new policies and programs for dealing with environmental problems not being adequately addressed.

(d) Conduct, as it determines to be appropriate, public hearings or conferences on issues of environmental significance.

(e) Promote the development and use of indices and monitoring systems (1) to assess environmental conditions and trends, (2) to predict the environmental impact of proposed public and private actions, and (3) to determine the effectiveness of programs for protecting and enhancing environmental quality.

(f) Coordinate Federal programs related to environmental quality.

(g) Advise and assist the President and the agencies in achieving international cooperation for dealing with environmental problems, under the foreign policy guidance of the Secretary of State.

(h) Issue regulations to Federal agencies for the implementation of the procedural provisions of the Act (42 U.S.C. 4332(2)). Such regulations shall be developed after consultation with affected agencies and after such public hearings as may be appropriate. They will be designed to make the environmental impact statement process more useful to decisionmakers and the public; and to reduce paperwork and the accumulation of extraneous background data, in order to emphasize the need to focus on real environmental issues and alternatives. They will require impact statements to be concise, clear, and to the point, and supported by evidence that agencies have made the necessary environmental analyses. The Council shall include in its regulations procedures (1) for the early preparation of environmental impact statements, and (2) for the referral to the Council of conflicts between agencies concerning the implementation of the National Environmental Policy Act of 1969, as amended [this chapter], and Section 309 of the Clean Air Act, as amended [42 U.S.C. 7609], for the Council's recommendation as to their prompt resolution.

(i) Issue such other instructions to agencies, and request such reports and other information from them, as

may be required to carry out the Council's responsibilities under the Act.

(j) Assist the President in preparing the annual Environmental Quality Report provided for in section 201 of the Act [42 U.S.C. 4341].

(k) Foster investigations, studies, surveys, research, and analyses relating to (i) ecological systems and environmental quality, (ii) the impact of new and changing technologies thereon, and (iii) means of preventing or reducing adverse effects from such technologies.

SEC. 4. *Amendments of E.O. 11472.* Executive Order No. 11472 of May 29, 1969, including the heading thereof, is hereby amended:

(1) By substituting for the term "the Environmental Quality Council", wherever it occurs, the following: "the Cabinet Committee on the Environment".

(2) By substituting for the term "the Council", wherever it occurs, the following: "the Cabinet Committee".

(3) By inserting in subsection (f) of section 101, after "Budget," the following: "the Director of the Office of Science and Technology."

"(g) The Chairman of the Council on Environmental Quality (established by Public Law 91-190) [this chapter] shall assist the President in directing the affairs of the Cabinet Committee."

(5) By deleting subsection (c) of section 102.

(6) By substituting for "the Office of Science and Technology", in section 104, the following: "the Council on Environmental Quality (established by Public Law 91-190) [this chapter]".

(7) By substituting for "(hereinafter referred to as the 'Committee')", in section 201, the following: "(hereinafter referred to as the 'Citizens' Committee')".

(8) By substituting for the term "the Committee", wherever it occurs, the following: "the Citizens' Committee".

RICHARD NIXON.

EXECUTIVE ORDER NO. 11643

Ex. Ord. No. 11643, eff. Feb. 8, 1972, 37 F.R. 2875, as amended by Ex. Ord. No. 11870, eff. July 18, 1975, 40 F.R. 30611; Ex. Ord. No. 11917, eff. May 28, 1976, 41 F.R. 22239, which related to environmental safeguards on activities for animal damage control on Federal lands, was revoked by Ex. Ord. No. 12342, Jan. 27, 1982, 47 F.R. 4223.

EX. ORD. NO. 11644. USE OF OFF-ROAD VEHICLES ON PUBLIC LANDS

Ex. Ord. No. 11644, Feb. 8, 1972, 37 F.R. 2877, as amended by Ex. Ord. No. 11989, May 24, 1977, 42 F.R. 26959; Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

An estimated 5 million off-road recreational vehicles—motorcycles, minibikes, trail bikes, snowmobiles, dunebuggies, all-terrain vehicles, and others—are in use in the United States today, and their popularity continues to increase rapidly. The widespread use of such vehicles on the public lands—often for legitimate purposes but also in frequent conflict with wise land and resource management practices, environmental values, and other types of recreational activity—has demonstrated the need for a unified Federal policy toward the use of such vehicles on the public lands.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution of the United States and in furtherance of the purpose and policy of the National Environmental Policy Act of 1969 (42 U.S.C. 4321), it is hereby ordered as follows:

SECTION 1. *Purpose.* It is the purpose of this order to establish policies and provide for procedures that will ensure that the use of off-road vehicles on public lands will be controlled and directed so as to protect the resources of those lands, to promote the safety of all users of those lands, and to minimize conflicts among the various uses of those lands.

SEC. 2. *Definitions.* As used in this order, the term:

(1) "public lands" means (A) all lands under the custody and control of the Secretary of the Interior and the Secretary of Agriculture, except Indian lands, (B) lands under the custody and control of the Tennessee Valley Authority that are situated in western Ken-

tucky and Tennessee and are designated as “Land Between the Lakes,” and (C) lands under the custody and control of the Secretary of Defense;

(2) “respective agency head” means the Secretary of the Interior, the Secretary of Defense, the Secretary of Agriculture, and the Board of Directors of the Tennessee Valley Authority, with respect to public lands under the custody and control of each;

(3) “off-road vehicle” means any motorized vehicle designed for or capable of cross-country travel on or immediately over land, water, sand, snow, ice, marsh, swampland, or other natural terrain; except that such term excludes (A) any registered motorboat, (B) any fire, military, emergency or law enforcement vehicle when used for emergency purposes, and any combat or combat support vehicle when used for national defense purposes, and (C) any vehicle whose use is expressly authorized by the respective agency head under a permit, lease, license, or contract; and

(4) “official use” means use by an employee, agent, or designated representative of the Federal Government or one of its contractors in the course of his employment, agency, or representation.

SEC. 3. *Zones of Use.* (a) Each respective agency head shall develop and issue regulations and administrative instructions, within six months of the date of this order, to provide for administrative designation of the specific areas and trails on public lands on which the use of off-road vehicles may be permitted, and areas in which the use of off-road vehicles may not be permitted, and set a date by which such designation of all public lands shall be completed. Those regulations shall direct that the designation of such areas and trails will be based upon the protection of the resources of the public lands, promotion of the safety of all users of those lands, and minimization of conflicts among the various uses of those lands. The regulations shall further require that the designation of such areas and trails shall be in accordance with the following—

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

(4) Areas and trails shall not be located in officially designated Wilderness Areas or Primitive Areas. Areas and trails shall be located in areas of the National Park system, Natural Areas, or National Wildlife Refuges and Game Ranges only if the respective agency head determines that off-road vehicle use in such locations will not adversely affect their natural, aesthetic, or scenic values.

(b) The respective agency head shall ensure adequate opportunity for public participation in the promulgation of such regulations and in the designation of areas and trails under this section.

(c) The limitations on off-road vehicle use imposed under this section shall not apply to official use.

SEC. 4. *Operating Conditions.* Each respective agency head shall develop and publish, within one year of the date of this order, regulations prescribing operating conditions for off-road vehicles on the public lands. These regulations shall be directed at protecting resource values, preserving public health, safety, and welfare, and minimizing use conflicts.

SEC. 5. *Public Information.* The respective agency head shall ensure that areas and trails where off-road vehicle use is permitted are well marked and shall provide for the publication and distribution of information, including maps, describing such areas and trails and explaining the conditions on vehicle use. He shall seek cooperation of relevant State agencies in the dissemination of this information.

SEC. 6. *Enforcement.* The respective agency head shall, where authorized by law, prescribe appropriate penalties for violation of regulations adopted pursuant to this order, and shall establish procedures for the enforcement of those regulations. To the extent permitted by law, he may enter into agreements with State or local governmental agencies for cooperative enforcement of laws and regulations relating to off-road vehicle use.

SEC. 7. *Consultation.* Before issuing the regulations or administrative instructions required by this order or designating areas or trails are required by this order and those regulations and administrative instructions, the Secretary of the Interior shall, as appropriate, consult with the Secretary of Energy and the Nuclear Regulatory Commission.

SEC. 8. *Monitoring of Effects and Review.* (a) The respective agency head shall monitor the effects of the use of off-road vehicles on lands under their jurisdictions. On the basis of the information gathered, they shall from time to time amend or rescind designation of areas or other actions taken pursuant to this order as necessary to further the policy of this order.

(b) The Council on Environmental Quality shall maintain a continuing review of the implementation of this order.

SEC. 9. *Special Protection of the Public Lands.* (a) Notwithstanding the provisions of Section 3 of this Order, the respective agency head shall, whenever he determines that the use of off-road vehicles will cause or is causing considerable adverse effects on the soil, vegetation, wildlife, wildlife habitat or cultural or historic resources of particular areas or trails of the public lands, immediately close such areas or trails to the type of off-road vehicle causing such effects, until such time as he determines that such adverse effects have been eliminated and that measures have been implemented to prevent future recurrence.

(b) Each respective agency head is authorized to adopt the policy that portions of the public lands within his jurisdiction shall be closed to use by off-road vehicles except those areas or trails which are suitable and specifically designated as open to such use pursuant to Section 3 of this Order.

EXECUTIVE ORDER NO. 11987

Ex. Ord. No. 11987, May 24, 1977, 42 F.R. 26949, which directed executive agencies, and encouraged States, local governments, and private citizens, to restrict the introduction of exotic species into the natural ecosystems on lands and waters under their control, and which directed executive agencies to restrict the exportation of native species for introduction of such species into ecosystems outside the United States where they do not naturally occur, unless such introduction or exportation was found not to have an adverse effect on natural ecosystems, was revoked by Ex. Ord. No. 13112, §6(b), Feb. 3, 1999, 64 F.R. 6186, set out below.

EX. ORD. NO. 11988. FLOODPLAIN MANAGEMENT

Ex. Ord. No. 11988, May 24, 1977, 42 F.R. 26951, as amended by Ex. Ord. No. 12148, July 20, 1979, 44 F.R. 43239; Ex. Ord. No. 13690, §2, Jan. 30, 2015, 80 F.R. 6425, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001 et seq.), and the Flood Disaster Protection Act of 1973 (Public Law 93-234, 87 Stat. 975) [see Short Title of 1973 Amendment note set out under 42 U.S.C. 4001], in order to avoid to the extent possible the long and short term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative, it is hereby ordered as follows:

SECTION 1. Each agency shall provide leadership and shall take action to reduce the risk of flood loss, to minimize the impact of floods on human safety, health and welfare, and to restore and preserve the natural and beneficial values served by floodplains in carrying out its responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

SEC. 2. In carrying out the activities described in Section 1 of this Order, each agency has a responsibility to evaluate the potential effects of any actions it may take in a floodplain; to ensure that its planning programs and budget requests reflect consideration of flood hazards and floodplain management; and to prescribe procedures to implement the policies and requirements of this Order, as follows, to the extent permitted by law:

(a)(1) Before taking an action, each agency shall determine whether the proposed action will occur in a floodplain—for major Federal actions significantly affecting the quality of the human environment, the evaluation required below will be included in any statement prepared under Section 102(2)(C) of the National Environmental Policy Act [42 U.S.C. 4332(2)(C)]. To determine whether the action is located in a floodplain, the agency shall use one of the approaches in Section 6(c) of this Order based on the best-available information and the Federal Emergency Management Agency's effective Flood Insurance Rate Map.

(2) If an agency has determined to, or proposes to, conduct, support, or allow an action to be located in a floodplain, the agency shall consider alternatives to avoid adverse effects and incompatible development in the floodplains. Where possible, an agency shall use natural systems, ecosystem processes, and nature-based approaches when developing alternatives for consideration. If the head of the agency finds that the only practicable alternative consistent with the law and with the policy set forth in this Order requires siting in a floodplain, the agency shall, prior to taking action, (i) design or modify its action in order to minimize potential harm to or within the floodplain, consistent with regulations issued in accord with Section 2(d) of this Order, and (ii) prepare and circulate a notice containing an explanation of why the action is proposed to be located in the floodplain.

(3) For programs subject to the Office of Management and Budget Circular A-95, the agency shall send the notice, not to exceed three pages in length including a location map, to the state and areawide A-95 clearing-houses for the geographic areas affected. The notice shall include: (i) the reasons why the action is proposed to be located in a floodplain; (ii) a statement indicating whether the action conforms to applicable state or local floodplain protection standards and (iii) a list of the alternatives considered. Agencies shall endeavor to allow a brief comment period prior to taking any action.

(4) Each agency shall also provide opportunity for early public review of any plans or proposals for actions in floodplains, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4332(2)(C)].

(b) Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in a floodplain, whether the proposed action is in accord with this Order.

(c) Each agency shall take floodplain management into account when formulating or evaluating any water and land use plans and shall require land and water re-

sources use appropriate to the degree of hazard involved. Agencies shall include adequate provision for the evaluation and consideration of flood hazards in the regulations and operating procedures for the licenses, permits, loan or grants-in-aid programs that they administer. Agencies shall also encourage and provide appropriate guidance to applicants to evaluate the effects of their proposals in floodplains prior to submitting applications for Federal licenses, permits, loans or grants.

(d) As allowed by law, each agency shall issue or amend existing regulations and procedures within one year to comply with this Order. These procedures shall incorporate the Unified National Program for Floodplain Management of the Water Resources Council, and shall explain the means that the agency will employ to pursue the nonhazardous use of riverine, coastal and other floodplains in connection with the activities under its authority. To the extent possible, existing processes, such as those of the Council on Environmental Quality and the Water Resources Council, shall be utilized to fulfill the requirements of this Order. Agencies shall prepare their procedures in consultation with the Water Resources Council, the Administrator of the Federal Emergency Management Agency, and the Council on Environmental Quality, and shall update such procedures as necessary.

SEC. 3. In addition to the requirements of Section 2, agencies with responsibilities for Federal real property and facilities shall take the following measures:

(a) The regulations and procedures established under Section 2(d) of this Order shall, at a minimum, require the construction of Federal structures and facilities to be in accordance with the standards and criteria and to be consistent with the intent of those promulgated under the National Flood Insurance Program. The regulations and procedures must also be consistent with the Federal Flood Risk Management Standard (FFRMS). They shall deviate only to the extent that the standards of the Flood Insurance Program and FFRMS are demonstrably inappropriate for a given type of structure or facility.

(b) If, after compliance with the requirements of this Order, new construction of structures or facilities are to be located in a floodplain, accepted floodproofing and other flood protection measures shall be applied to new construction or rehabilitation. To achieve flood protection, agencies shall, wherever practicable, elevate structures above the elevation of the floodplain as defined in Section 6(c) of this Order rather than filling in land.

(c) If property used by the general public has suffered flood damage or is located in an identified flood hazard area, the responsible agency shall provide on structures, and other places where appropriate, conspicuous delineation of past and probable flood height in order to enhance public awareness of and knowledge about flood hazards.

(d) When property in floodplains is proposed for lease, easement, right-of-way, or disposal to non-Federal public or private parties, the Federal agency shall (1) reference in the conveyance those uses that are restricted under identified Federal, State or local floodplain regulations; and (2) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successors, except where prohibited by law; or (3) withhold such properties from conveyance.

SEC. 4. In addition to any responsibilities under this Order and Sections 102, 202, and 205 of the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4012a, 4106, and 4128), agencies which guarantee, approve, regulate, or insure any financial transaction which is related to an area located in an area subject to the base flood shall, prior to completing action on such transaction, inform any private parties participating in the transaction of the hazards of locating structures in the area subject to the base flood.

SEC. 5. The head of each agency shall submit a report to the Council on Environmental Quality and to the Water Resources Council on June 30, 1978, regarding the

status of their procedures and the impact of this Order on the agency's operations. Thereafter, the Water Resources Council shall periodically evaluate agency procedures and their effectiveness.

SEC. 6. As used in this Order:

(a) The term "agency" shall have the same meaning as the term "Executive agency" in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting floodplains.

(b) The term "base flood" shall mean that flood which has a one percent or greater chance of occurrence in any given year.

(c) The term "floodplain" shall mean the lowland and relatively flat areas adjoining inland and coastal waters including floodprone areas of offshore islands. The floodplain shall be established using one of the following approaches:

(1) Unless an exception is made under paragraph (2), the floodplain shall be:

(i) the elevation and flood hazard area that result from using a climate-informed science approach that uses the best-available, actionable hydrologic and hydraulic data and methods that integrate current and future changes in flooding based on climate science. This approach will also include an emphasis on whether the action is a critical action as one of the factors to be considered when conducting the analysis;

(ii) the elevation and flood hazard area that result from using the freeboard value, reached by adding an additional 2 feet to the base flood elevation for non-critical actions and by adding an additional 3 feet to the base flood elevation for critical actions;

(iii) the area subject to flooding by the 0.2 percent annual chance flood; or

(iv) the elevation and flood hazard area that result from using any other method identified in an update to the FFRMS.

(2) The head of an agency may except an agency action from paragraph (1) where it is in the interest of national security, where the agency action is an emergency action, where application to a Federal facility or structure is demonstrably inappropriate, or where the agency action is a mission-critical requirement related to a national security interest or an emergency action. When an agency action is excepted from paragraph (1) because it is in the interest of national security, it is an emergency action, or it is a mission-critical requirement related to a national security interest or an emergency action, the agency head shall rely on the area of land subject to the base flood.

(d) The term "critical action" shall mean any activity for which even a slight chance of flooding would be too great.

SEC. 7. Executive Order No. 11296 of August 10, 1966, is hereby revoked. All actions, procedures, and issuances taken under that Order and still in effect shall remain in effect until modified by appropriate authority under the terms of this Order.

SEC. 8. Nothing in this Order shall apply to assistance provided for emergency work essential to save lives and protect property and public health and safety, performed pursuant to Sections 403 and 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 (42 U.S.C. 5170b and 5192).

SEC. 9. To the extent the provisions of Section 2(a) of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decision-making, and action pursuant to the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4321].

EX. ORD. NO. 11990. PROTECTION OF WETLANDS

Ex. Ord. No. 11990, May 24, 1977, 42 F.R. 26961, as amended by Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), in order to avoid to the extent possible the long and short term adverse impacts associated with the destruction or modification of wetlands and to avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative, it is hereby ordered as follows:

SECTION 1. (a) Each agency shall provide leadership and shall take action to minimize the destruction, loss or degradation of wetlands, and to preserve and enhance the natural and beneficial values of wetlands in carrying out the agency's responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; and (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

(b) This Order does not apply to the issuance by Federal agencies of permits, licenses, or allocations to private parties for activities involving wetlands on non-Federal property.

SEC. 2. (a) In furtherance of Section 101(b)(3) of the National Environmental Policy Act of 1969 (42 U.S.C. 4331(b)(3)) to improve and coordinate Federal plans, functions, programs and resources to the end that the Nation may attain the widest range of beneficial uses of the environment without degradation and risk to health or safety, each agency, to the extent permitted by law, shall avoid undertaking or providing assistance for new construction located in wetlands unless the head of the agency finds (1) that there is no practicable alternative to such construction, and (2) that the proposed action includes all practicable measures to minimize harm to wetlands which may result from such use. In making this finding the head of the agency may take into account economic, environmental and other pertinent factors.

(b) Each agency shall also provide opportunity for early public review of any plans or proposals for new construction in wetlands, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4332(2)(C)].

SEC. 3. Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in wetlands, whether the proposed action is in accord with this Order.

SEC. 4. When Federally-owned wetlands or portions of wetlands are proposed for lease, easement, right-of-way or disposal to non-Federal public or private parties, the Federal agency shall (a) reference in the conveyance those uses that are restricted under identified Federal, State or local wetlands regulations; and (b) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successor, except where prohibited by law; or (c) withhold such properties from disposal.

SEC. 5. In carrying out the activities described in Section 1 of this Order, each agency shall consider factors relevant to a proposal's effect on the survival and quality of the wetlands. Among these factors are:

(a) public health, safety, and welfare, including water supply, quality, recharge and discharge; pollution; flood and storm hazards; and sediment and erosion;

(b) maintenance of natural systems, including conservation and long term productivity of existing flora and fauna, species and habitat diversity and stability, hydrologic utility, fish, wildlife, timber, and food and fiber resources; and

(c) other uses of wetlands in the public interest, including recreational, scientific, and cultural uses.

SEC. 6. As allowed by law, agencies shall issue or amend their existing procedures in order to comply with this Order. To the extent possible, existing processes, such as those of the Council on Environmental Quality, shall be utilized to fulfill the requirements of this Order.

SEC. 7. As used in this Order:

(a) The term "agency" shall have the same meaning as the term "Executive agency" in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting wetlands.

(b) The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of this Order.

(c) The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support and under normal circumstances does or would support a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds.

SEC. 8. This Order does not apply to projects presently under construction, or to projects for which all of the funds have been appropriated through Fiscal Year 1977, or to projects and programs for which a draft or final environmental impact statement will be filed prior to October 1, 1977. The provisions of Section 2 of this Order shall be implemented by each agency not later than October 1, 1977.

SEC. 9. Nothing in this Order shall apply to assistance provided for emergency work, essential to save lives and protect property and public health and safety, performed pursuant to Sections 305 and 306 of the Disaster Relief Act of 1974 (88 Stat. 148, 42 U.S.C. 5145 and 5146).

SEC. 10. To the extent the provisions of Sections 2 and 5 of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decisionmaking, and action pursuant to the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4321 et seq.].

EX. ORD. NO. 12114. ENVIRONMENTAL EFFECTS ABROAD OF MAJOR FEDERAL ACTIONS

Ex. Ord. No. 12114, Jan. 4, 1979, 44 F.R. 1957, provided:

By virtue of the authority vested in me by the Constitution and the laws of the United States, and as President of the United States, in order to further environmental objectives consistent with the foreign policy and national security policy of the United States, it is ordered as follows:

SECTION 1

1-1. *Purpose and Scope.* The purpose of this Executive Order is to enable responsible officials of Federal agencies having ultimate responsibility for authorizing and approving actions encompassed by this Order to be informed of pertinent environmental considerations and

to take such considerations into account, with other pertinent considerations of national policy, in making decisions regarding such actions. While based on independent authority, this Order furthers the purpose of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] and the Marine Protection Research and Sanctuaries Act [16 U.S.C. 1431 et seq. and 33 U.S.C. 1401 et seq.] and the Deepwater Port Act [33 U.S.C. 1501 et seq.] consistent with the foreign policy and national security policy of the United States, and represents the United States government's exclusive and complete determination of the procedural and other actions to be taken by Federal agencies to further the purpose of the National Environmental Policy Act, with respect to the environment outside the United States, its territories and possessions.

SECTION 2

2-1. *Agency Procedures.* Every Federal agency taking major Federal actions encompassed hereby and not exempted herefrom having significant effects on the environment outside the geographical borders of the United States and its territories and possessions shall within eight months after the effective date of this Order have in effect procedures to implement this Order. Agencies shall consult with the Department of State and the Council on Environmental Quality concerning such procedures prior to placing them in effect.

2-2. *Information Exchange.* To assist in effectuating the foregoing purpose, the Department of State and the Council on Environmental Quality in collaboration with other interested Federal agencies and other nations shall conduct a program for exchange on a continuing basis of information concerning the environment. The objectives of this program shall be to provide information for use by decisionmakers, to heighten awareness of and interest in environmental concerns and, as appropriate, to facilitate environmental cooperation with foreign nations.

2-3. *Actions Included.* Agencies in their procedures under Section 2-1 shall establish procedures by which their officers having ultimate responsibility for authorizing and approving actions in one of the following categories encompassed by this Order, take into consideration in making decisions concerning such actions, a document described in Section 2-4(a):

(a) major Federal actions significantly affecting the environment of the global commons outside the jurisdiction of any nation (e.g., the oceans or Antarctica);

(b) major Federal actions significantly affecting the environment of a foreign nation not participating with the United States and not otherwise involved in the action;

(c) major Federal actions significantly affecting the environment of a foreign nation which provide to that nation:

(1) a product, or physical project producing a principal product or an emission or effluent, which is prohibited or strictly regulated by Federal law in the United States because its toxic effects on the environment create a serious public health risk; or

(2) a physical project which in the United States is prohibited or strictly regulated by Federal law to protect the environment against radioactive substances.

(d) major Federal actions outside the United States, its territories and possessions which significantly affect natural or ecological resources of global importance designated for protection under this subsection by the President, or, in the case of such a resource protected by international agreement binding on the United States, by the Secretary of State. Recommendations to the President under this subsection shall be accompanied by the views of the Council on Environmental Quality and the Secretary of State.

2-4. *Applicable Procedures.* (a) There are the following types of documents to be used in connection with actions described in Section 2-3:

(i) environmental impact statements (including generic, program and specific statements);

(ii) bilateral or multilateral environmental studies, relevant or related to the proposed action, by the

United States and one [or more] more foreign nations, or by an international body or organization in which the United States is a member or participant; or

(iii) concise reviews of the environmental issues involved, including environmental assessments, summary environmental analyses or other appropriate documents.

(b) Agencies shall in their procedures provide for preparation of documents described in Section 2-4(a), with respect to actions described in Section 2-3, as follows:

(i) for effects described in Section 2-3(a), an environmental impact statement described in Section 2-4(a)(i);

(ii) for effects described in Section 2-3(b), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iii) for effects described in Section 2-3(c), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iv) for effects described in Section 2-3(d), a document described in Section 2-4(a)(i), (ii) or (iii), as determined by the agency.

Such procedures may provide that an agency need not prepare a new document when a document described in Section 2-4(a) already exists.

(c) Nothing in this Order shall serve to invalidate any existing regulations of any agency which have been adopted pursuant to court order or pursuant to judicial settlement of any case or to prevent any agency from providing in its procedures for measures in addition to those provided for herein to further the purpose of the National Environmental Policy Act [43 U.S.C. 4321 et seq.] and other environmental laws, including the Marine Protection Research and Sanctuaries Act [16 U.S.C. 1431 et seq. and 33 U.S.C. 1401 et seq.], and the Deepwater Port Act [33 U.S.C. 1501 et seq.], consistent with the foreign and national security policies of the United States.

(d) Except as provided in Section 2-5(b), agencies taking action encompassed by this Order shall, as soon as feasible, inform other Federal agencies with relevant expertise of the availability of environmental documents prepared under this Order.

Agencies in their procedures under Section 2-1 shall make appropriate provision for determining when an affected nation shall be informed in accordance with Section 3-2 of this Order of the availability of environmental documents prepared pursuant to those procedures.

In order to avoid duplication of resources, agencies in their procedures shall provide for appropriate utilization of the resources of other Federal agencies with relevant environmental jurisdiction or expertise.

2-5. *Exemptions and Considerations.* (a) Notwithstanding Section 2-3, the following actions are exempt from this Order:

(i) actions not having a significant effect on the environment outside the United States as determined by the agency;

(ii) actions taken by the President;

(iii) actions taken by or pursuant to the direction of the President or Cabinet officer when the national security or interest is involved or when the action occurs in the course of an armed conflict;

(iv) intelligence activities and arms transfers;

(v) export licenses or permits or export approvals, and actions relating to nuclear activities except actions providing to a foreign nation a nuclear production or utilization facility as defined in the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.], as amended, or a nuclear waste management facility;

(vi) votes and other actions in international conferences and organizations;

(vii) disaster and emergency relief action.

(b) Agency procedures under Section 2-1 implementing Section 2-4 may provide for appropriate modifications in the contents, timing and availability of documents to other affected Federal agencies and affected nations, where necessary to:

(i) enable the agency to decide and act promptly as and when required;

(ii) avoid adverse impacts on foreign relations or infringement in fact or appearance of other nations' sovereign responsibilities, or

(iii) ensure appropriate reflection of:

(1) diplomatic factors;

(2) international commercial, competitive and export promotion factors;

(3) needs for governmental or commercial confidentiality;

(4) national security considerations;

(5) difficulties of obtaining information and agency ability to analyze meaningfully environmental effects of a proposed action; and

(6) the degree to which the agency is involved in or able to affect a decision to be made.

(c) Agency procedure under Section 2-1 may provide for categorical exclusions and for such exemptions in addition to those specified in subsection (a) of this Section as may be necessary to meet emergency circumstances, situations involving exceptional foreign policy and national security sensitivities and other such special circumstances. In utilizing such additional exemptions agencies shall, as soon as feasible, consult with the Department of State and the Council on Environmental Quality.

(d) The provisions of Section 2-5 do not apply to actions described in Section 2-3(a) unless permitted by law.

SECTION 3

3-1. *Rights of Action.* This Order is solely for the purpose of establishing internal procedures for Federal agencies to consider the significant effects of their actions on the environment outside the United States, its territories and possessions, and nothing in this Order shall be construed to create a cause of action.

3-2. *Foreign Relations.* The Department of State shall coordinate all communications by agencies with foreign governments concerning environmental agreements and other arrangements in implementation of this Order.

3-3. *Multi-Agency Actions.* Where more than one Federal agency is involved in an action or program, a lead agency, as determined by the agencies involved, shall have responsibility for implementation of this Order.

3-4. *Certain Terms.* For purposes of this Order, "environment" means the natural and physical environment and excludes social, economic and other environments; and an action significantly affects the environment if it does significant harm to the environment even though on balance the agency believes the action to be beneficial to the environment. The term "export approvals" in Section 2-5(a)(v) does not mean or include direct loans to finance exports.

3-5. *Multiple Impacts.* If a major Federal action having effects on the environment of the United States or the global commons requires preparation of an environmental impact statement, and if the action also has effects on the environment of a foreign nation, an environmental impact statement need not be prepared with respect to the effects on the environment of the foreign nation.

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1-1. IMPLEMENTATION.

1-101. Agency Responsibilities. To the greatest extent practicable and permitted by law, and consistent with the principles set forth in the report on the National Performance Review, each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations in the United States and its territories and possessions, the District of Columbia, the Commonwealth of Puerto Rico, and the Commonwealth of the Mariana Islands.

The Working Group shall comprise the heads of the following executive agencies and offices, or their designees: (a) Department of Defense; (b) Department of Health and Human Services; (c) Department of Housing and Urban Development; (d) Department of Labor; (e) Department of Agriculture; (f) Department of Transportation; (g) Department of Justice; (h) Department of the Interior; (i) Department of Commerce; (j) Department of Energy; (k) Environmental Protection Agency; (l) Office of Management and Budget; (m) Office of Science and Technology Policy; (n) Office of the Deputy Assistant to the President for Environmental Policy; (o) Office of the Assistant to the President for Domestic Policy; (p) National Economic Council; (q) Council of Economic Advisers; and (r) such other Government officials as the President may designate. The Working Group shall report to the President through the Deputy Assistant to the President for Environmental Policy and the Assistant to the President for Domestic Policy.

(b) The Working Group shall: (1) provide guidance to Federal agencies on criteria for identifying disproportionately high and adverse human health or environmental effects on minority populations and low-income populations;

(2) coordinate with, provide guidance to, and serve as a clearinghouse for, each Federal agency as it develops an environmental justice strategy as required by section 1-103 of this order, in order to ensure that the administration, interpretation and enforcement of programs, activities and policies are undertaken in a consistent manner;

(3) assist in coordinating research by, and stimulating cooperation among, the Environmental Protection Agency, the Department of Health and Human Services, the Department of Housing and Urban Development, and other agencies conducting research or other activities in accordance with section 3-3 of this order;

(5) examine existing data and studies on environmental justice;

(6) hold public meetings as required in section 5-502(d) of this order; and

(7) develop interagency model projects on environmental justice that evidence cooperation among Federal agencies.

1-103. Development of Agency Strategies. (a) Except as provided in section 6-605 of this order, each Federal

agency shall develop an agency-wide environmental justice strategy, as set forth in subsections (b)–(e) of this section that identifies and addresses disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. The environmental justice strategy shall list programs, policies, planning and public participation processes, enforcement, and/or rulemakings related to human health or the environment that should be revised to, at a minimum: (1) promote enforcement of all health and environmental statutes in areas with minority populations and low-income populations; (2) ensure greater public participation; (3) improve research and data collection relating to the health of and environment of minority populations and low-income populations; and (4) identify differential patterns of consumption of natural resources among minority populations and low-income populations. In addition, the environmental justice strategy shall include, where appropriate, a timetable for undertaking identified revisions and consideration of economic and social implications of the revisions.

(b) Within 4 months of the date of this order, each Federal agency shall identify an internal administrative process for developing its environmental justice strategy, and shall inform the Working Group of the process.

(c) Within 6 months of the date of this order, each Federal agency shall provide the Working Group with an outline of its proposed environmental justice strategy.

(d) Within 10 months of the date of this order, each Federal agency shall provide the Working Group with its proposed environmental justice strategy.

(e) By March 24, 1995, each Federal agency shall finalize its environmental justice strategy and provide a copy and written description of its strategy to the Working Group. From the date of this order through March 24, 1995, each Federal agency, as part of its environmental justice strategy, shall identify several specific projects that can be promptly undertaken to address particular concerns identified during the development of the proposed environmental justice strategy, and a schedule for implementing those projects.

(f) Within 24 months of the date of this order, each Federal agency shall report to the Working Group on its progress in implementing its agency-wide environmental justice strategy.

(g) Federal agencies shall provide additional periodic reports to the Working Group as requested by the Working Group.

1-104. *Reports to the President.* Within 14 months of the date of this order, the Working Group shall submit to the President, through the Office of the Deputy Assistant to the President for Environmental Policy and the Office of the Assistant to the President for Domestic Policy, a report that describes the implementation of this order, and includes the final environmental justice strategies described in section 1-103(e) of this order.

SEC. 2-2. FEDERAL AGENCY RESPONSIBILITIES FOR FEDERAL PROGRAMS. Each Federal agency shall conduct its programs, policies, and activities that substantially affect human health or the environment, in a manner that ensures that such programs, policies, and activities do not have the effect of excluding persons (including populations) from participation in, denying persons (including populations) the benefits of, or subjecting persons (including populations) to discrimination under, such programs, policies, and activities, because of their race, color, or national origin.

SEC. 3-3. RESEARCH, DATA COLLECTION, AND ANALYSIS.

3-301. *Human Health and Environmental Research and Analysis.* (a) Environmental human health research, whenever practicable and appropriate, shall include diverse segments of the population in epidemiological and clinical studies, including segments at high risk from environmental hazards, such as minority populations, low-income populations and workers who may be exposed to substantial environmental hazards.

(b) Environmental human health analyses, whenever practicable and appropriate, shall identify multiple and cumulative exposures.

(c) Federal agencies shall provide minority populations and low-income populations the opportunity to comment on the development and design of research strategies undertaken pursuant to this order.

3-302. *Human Health and Environmental Data Collection and Analysis.* To the extent permitted by existing law, including the Privacy Act, as amended (5 U.S.C. section 552a): (a) each Federal agency, whenever practicable and appropriate, shall collect, maintain, and analyze information assessing and comparing environmental and human health risks borne by populations identified by race, national origin, or income. To the extent practical and appropriate, Federal agencies shall use this information to determine whether their programs, policies, and activities have disproportionately high and adverse human health or environmental effects on minority populations and low-income populations;

(b) In connection with the development and implementation of agency strategies in section 1-103 of this order, each Federal agency, whenever practicable and appropriate, shall collect, maintain and analyze information on the race, national origin, income level, and other readily accessible and appropriate information for areas surrounding facilities or sites expected to have a substantial environmental, human health, or economic effect on the surrounding populations, when such facilities or sites become the subject of a substantial Federal environmental administrative or judicial action. Such information shall be made available to the public, unless prohibited by law; and

(c) Each Federal agency, whenever practicable and appropriate, shall collect, maintain, and analyze information on the race, national origin, income level, and other readily accessible and appropriate information for areas surrounding Federal facilities that are: (1) subject to the reporting requirements under the Emergency Planning and Community Right-to-Know Act, 42 U.S.C. section 11001-11050 as mandated in Executive Order No. 12856 [former 42 U.S.C. 11001 note]; and (2) expected to have a substantial environmental, human health, or economic effect on surrounding populations. Such information shall be made available to the public, unless prohibited by law.

(d) In carrying out the responsibilities in this section, each Federal agency, whenever practicable and appropriate, shall share information and eliminate unnecessary duplication of efforts through the use of existing data systems and cooperative agreements among Federal agencies and with State, local, and tribal governments.

SEC. 4-4. SUBSISTENCE CONSUMPTION OF FISH AND WILDLIFE.

4-401. *Consumption Patterns.* In order to assist in identifying the need for ensuring protection of populations with differential patterns of subsistence consumption of fish and wildlife, Federal agencies, whenever practicable and appropriate, shall collect, maintain, and analyze information on the consumption patterns of populations who principally rely on fish and/or wildlife for subsistence. Federal agencies shall communicate to the public the risks of those consumption patterns.

4-402. *Guidance.* Federal agencies, whenever practicable and appropriate, shall work in a coordinated manner to publish guidance reflecting the latest scientific information available concerning methods for evaluating the human health risks associated with the consumption of pollutant-bearing fish or wildlife. Agencies shall consider such guidance in developing their policies and rules.

SEC. 5-5. PUBLIC PARTICIPATION AND ACCESS TO INFORMATION. (a) The public may submit recommendations to Federal agencies relating to the incorporation of environmental justice principles into Federal agency programs or policies. Each Federal agency shall convey such recommendations to the Working Group.

(b) Each Federal agency may, whenever practicable and appropriate, translate crucial public documents,

notices, and hearings relating to human health or the environment for limited English speaking populations.

(c) Each Federal agency shall work to ensure that public documents, notices, and hearings relating to human health or the environment are concise, understandable, and readily accessible to the public.

(d) The Working Group shall hold public meetings, as appropriate, for the purpose of fact-finding, receiving public comments, and conducting inquiries concerning environmental justice. The Working Group shall prepare for public review a summary of the comments and recommendations discussed at the public meetings.

SEC. 6-6. GENERAL PROVISIONS.

6-601. *Responsibility for Agency Implementation.* The head of each Federal agency shall be responsible for ensuring compliance with this order. Each Federal agency shall conduct internal reviews and take such other steps as may be necessary to monitor compliance with this order.

6-602. *Executive Order No. 12250.* This Executive order is intended to supplement but not supersede Executive Order No. 12250 [42 U.S.C. 2000d-1 note], which requires consistent and effective implementation of various laws prohibiting discriminatory practices in programs receiving Federal financial assistance. Nothing herein shall limit the effect or mandate of Executive Order No. 12250.

6-603. *Executive Order No. 12875.* This Executive order is not intended to limit the effect or mandate of Executive Order No. 12875 [former 5 U.S.C. 601 note].

6-604. *Scope.* For purposes of this order, Federal agency means any agency on the Working Group, and such other agencies as may be designated by the President, that conducts any Federal program or activity that substantially affects human health or the environment. Independent agencies are requested to comply with the provisions of this order.

6-605. *Petitions for Exemptions.* The head of a Federal agency may petition the President for an exemption from the requirements of this order on the grounds that all or some of the petitioning agency's programs or activities should not be subject to the requirements of this order.

6-606. *Native American Programs.* Each Federal agency responsibility set forth under this order shall apply equally to Native American programs. In addition, the Department of the Interior, in coordination with the Working Group, and, after consultation with tribal leaders, shall coordinate steps to be taken pursuant to this order that address Federally-recognized Indian Tribes.

6-607. *Costs.* Unless otherwise provided by law, Federal agencies shall assume the financial costs of complying with this order.

6-608. *General.* Federal agencies shall implement this order consistent with, and to the extent permitted by, existing law.

6-609. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any person. This order shall not be construed to create any right to judicial review involving the compliance or noncompliance of the United States, its agencies, its officers, or any other person with this order.

WILLIAM J. CLINTON.

EX. ORD. NO. 13045. PROTECTION OF CHILDREN FROM ENVIRONMENTAL HEALTH RISKS AND SAFETY RISKS

Ex. Ord. No. 13045, Apr. 21, 1997, 62 F.R. 19885, as amended by Ex. Ord. No. 13229, Oct. 9, 2001, 66 F.R. 52013; Ex. Ord. No. 13296, Apr. 18, 2003, 68 F.R. 19931, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Policy.

1-101. A growing body of scientific knowledge demonstrates that children may suffer disproportionately

from environmental health risks and safety risks. These risks arise because: children's neurological, immunological, digestive, and other bodily systems are still developing; children eat more food, drink more fluids, and breathe more air in proportion to their body weight than adults; children's size and weight may diminish their protection from standard safety features; and children's behavior patterns may make them more susceptible to accidents because they are less able to protect themselves. Therefore, to the extent permitted by law and appropriate, and consistent with the agency's mission, each Federal agency:

(a) shall make it a high priority to identify and assess environmental health risks and safety risks that may disproportionately affect children; and

(b) shall ensure that its policies, programs, activities, and standards address disproportionate risks to children that result from environmental health risks or safety risks.

1-102. Each independent regulatory agency is encouraged to participate in the implementation of this order and comply with its provisions.

SEC. 2. *Definitions.* The following definitions shall apply to this order.

2-201. "Federal agency" means any authority of the United States that is an agency under 44 U.S.C. 3502(1) other than those considered to be independent regulatory agencies under 44 U.S.C. 3502(5). For purposes of this order, "military departments," as defined in 5 U.S.C. 102, are covered under the auspices of the Department of Defense.

2-202. "Covered regulatory action" means any substantive action in a rulemaking, initiated after the date of this order or for which a Notice of Proposed Rulemaking is published 1 year after the date of this order, that is likely to result in a rule that may:

(a) be "economically significant" under Executive Order 12866 [5 U.S.C. 601 note] (a rulemaking that has an annual effect on the economy of \$100 million or more or would adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities); and

(b) concern an environmental health risk or safety risk that an agency has reason to believe may disproportionately affect children.

2-203. "Environmental health risks and safety risks" mean risks to health or to safety that are attributable to products or substances that the child is likely to come in contact with or ingest (such as the air we breathe, the food we eat, the water we drink or use for recreation, the soil we live on, and the products we use or are exposed to).

SEC. 3. *Task Force on Environmental Health Risks and Safety Risks to Children.*

3-301. There is hereby established the Task Force on Environmental Health Risks and Safety Risks to Children ("Task Force").

3-302. The Task Force will report to the President in consultation with the Domestic Policy Council, the National Science and Technology Council, the Council on Environmental Quality, and the Office of Management and Budget (OMB).

3-303. *Membership.* The Task Force shall be composed of the:

- (a) Secretary of Health and Human Services, who shall serve as a Co-Chair of the Council;
- (b) Administrator of the Environmental Protection Agency, who shall serve as a Co-Chair of the Council;
- (c) Secretary of Education;
- (d) Secretary of Labor;
- (e) Attorney General;
- (f) Secretary of Energy;
- (g) Secretary of Housing and Urban Development;
- (h) Secretary of Agriculture;
- (i) Secretary of Transportation;
- (j) Director of the Office of Management and Budget;
- (k) Chair of the Council on Environmental Quality;
- (l) Chair of the Consumer Product Safety Commission;

(m) Assistant to the President for Economic Policy;
 (n) Assistant to the President for Domestic Policy;
 (o) Director of the Office of Science and Technology Policy;
 (p) Chair of the Council of Economic Advisers; and
 (q) Such other officials of executive departments and agencies as the President may, from time to time, designate.

Members of the Task Force may delegate their responsibilities under this order to subordinates.

3-304. *Functions.* The Task Force shall recommend to the President Federal strategies for children's environmental health and safety, within the limits of the Administration's budget, to include the following elements:

(a) statements of principles, general policy, and targeted annual priorities to guide the Federal approach to achieving the goals of this order;

(b) a coordinated research agenda for the Federal Government, including steps to implement the review of research databases described in section 4 of this order;

(c) recommendations for appropriate partnerships among Federal, State, local, and tribal governments and the private, academic, and nonprofit sectors;

(d) proposals to enhance public outreach and communication to assist families in evaluating risks to children and in making informed consumer choices;

(e) an identification of high-priority initiatives that the Federal Government has undertaken or will undertake in advancing protection of children's environmental health and safety; and

(f) a statement regarding the desirability of new legislation to fulfill or promote the purposes of this order.

3-305. The Task Force shall prepare a biennial report on research, data, or other information that would enhance our ability to understand, analyze, and respond to environmental health risks and safety risks to children. For purposes of this report, executive departments, the Environmental Protection Agency, and other agencies identified by the Task Force shall identify and specifically describe for the Task Force key data needs related to environmental health risks and safety risks to children that have arisen in the course of the agency's programs and activities. Each report shall also detail the accomplishments of the Task Force from the date of the preceding report. The Task Force shall incorporate agency submissions into its report and ensure that this report is publicly available and widely disseminated. The Office of Science and Technology Policy and the National Science and Technology Council shall ensure that this report is fully considered in establishing research priorities.

3-306. The Task Force shall exist for 8 years from the date of this order.

SEC. 4. Research Coordination and Integration.

4-401. Within 6 months of the date of this order, the Task Force shall develop or direct to be developed a review of existing and planned data resources and a proposed plan for ensuring that researchers and Federal research agencies have access to information on all research conducted or funded by the Federal Government that is related to adverse health risks in children resulting from exposure to environmental health risks or safety risks. The National Science and Technology Council shall review the plan.

4-402. The plan shall promote the sharing of information on academic and private research. It shall include recommendations to encourage that such data, to the extent permitted by law, is available to the public, the scientific and academic communities, and all Federal agencies.

SEC. 5. Agency Environmental Health Risk or Safety Risk Regulations.

5-501. For each covered regulatory action submitted to OMB's Office of Information and Regulatory Affairs (OIRA) for review pursuant to Executive Order 12866 [5 U.S.C. 601 note], the issuing agency shall provide to OIRA the following information developed as part of the agency's decisionmaking process, unless prohibited by law:

(a) an evaluation of the environmental health or safety effects of the planned regulation on children; and

(b) an explanation of why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the agency.

5-502. In emergency situations, or when an agency is obligated by law to act more quickly than normal review procedures allow, the agency shall comply with the provisions of this section to the extent practicable. For those covered regulatory actions that are governed by a court-imposed or statutory deadline, the agency shall, to the extent practicable, schedule any rule-making proceedings so as to permit sufficient time for completing the analysis required by this section.

5-503. The analysis required by this section may be included as part of any other required analysis, and shall be made part of the administrative record for the covered regulatory action or otherwise made available to the public, to the extent permitted by law.

SEC. 6. Interagency Forum on Child and Family Statistics.

6-601. The Director of the OMB ("Director") shall convene an Interagency Forum on Child and Family Statistics ("Forum"), which will include representatives from the appropriate Federal statistics and research agencies. The Forum shall produce a biennial compendium ("Report") of the most important indicators of the well-being of the Nation's children.

6-602. The Forum shall determine the indicators to be included in each Report and identify the sources of data to be used for each indicator. The Forum shall provide an ongoing review of Federal collection and dissemination of data on children and families, and shall make recommendations to improve the coverage and coordination of data collection and to reduce duplication and overlap.

6-603. The Report shall be published by the Forum in collaboration with the National Institute of Child Health and Human Development [now the Eunice Kennedy Shriver National Institute of Child Health and Human Development]. The Forum shall present the first annual Report to the President, through the Director, by July 31, 1997. The Report shall be published biennially thereafter, using the most recently available data.

SEC. 7. General Provisions.

7-701. This order is intended only for internal management of the executive branch. This order is not intended, and should not be construed to create, any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or its employees. This order shall not be construed to create any right to judicial review involving the compliance or noncompliance with this order by the United States, its agencies, its officers, or any other person.

7-702. Executive Order 12606 of September 2, 1987 is revoked.

7-703. Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, or legislative proposals.

EX. ORD. NO. 13061. FEDERAL SUPPORT OF COMMUNITY EFFORTS ALONG AMERICAN HERITAGE RIVERS

Ex. Ord. No. 13061, Sept. 11, 1997, 62 F.R. 48445, as amended by Ex. Ord. No. 13093, July 27, 1998, 63 F.R. 40357, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Environmental Policy Act of 1969 (Public Law 91-190) [42 U.S.C. 4321 et seq.], and in order to protect and restore rivers and their adjacent communities, it is hereby ordered as follows:

SECTION 1. Policies.

(a) The American Heritage Rivers initiative has three objectives: natural resource and environmental protection, economic revitalization, and historic and cultural preservation.

(b) Executive agencies ("agencies"), to the extent permitted by law and consistent with their missions

and resources, shall coordinate Federal plans, functions, programs, and resources to preserve, protect, and restore rivers and their associated resources important to our history, culture, and natural heritage.

(c) Agencies shall develop plans to bring increased efficiencies to existing and authorized programs with goals that are supportive of protection and restoration of communities along rivers.

(d) In accordance with Executive Order 12630 [5 U.S.C. 601 note], agencies shall act with due regard for the protection of private property provided for by the Fifth Amendment to the United States Constitution. No new regulatory authority is created as a result of the American Heritage Rivers initiative. This initiative will not interfere with matters of State, local, and tribal government jurisdiction.

(e) In furtherance of these policies, the President will designate rivers that meet certain criteria as “American Heritage Rivers.”

(f) It is the policy of the Federal Government that communities shall nominate rivers as American Heritage Rivers and the Federal role will be solely to support community-based efforts to preserve, protect, and restore these rivers and their communities.

(g) Agencies should, to the extent practicable, help identify resources in the private and nonprofit sectors to aid revitalization efforts.

(h) Agencies are encouraged, to the extent permitted by law, to develop partnerships with State, local, and tribal governments and community and nongovernmental organizations. Agencies will be responsive to the diverse needs of different kinds of communities from the core of our cities to remote rural areas and shall seek to ensure that the role played by the Federal Government is complementary to the plans and work being carried out by State, local, and tribal governments. To the extent possible, Federal resources will be strategically directed to complement resources being spent by these governments.

(i) Agencies shall establish a method for field offices to assess the success of the American Heritage River initiative and provide a means to recommend changes that will improve the delivery and accessibility of Federal services and programs. Agencies are directed, where appropriate, to reduce and make more flexible procedural requirements and paperwork related to providing assistance to communities along designated rivers.

(j) Agencies shall commit to a policy under which they will seek to ensure that their actions have a positive effect on the natural, historic, economic, and cultural resources of American Heritage River communities. The policy will require agencies to consult with American Heritage River communities early in the planning stages of Federal actions, take into account the communities’ goals and objectives and ensure that actions are compatible with the overall character of these communities. Agencies shall seek to ensure that their help for one community does not adversely affect neighboring communities. Additionally, agencies are encouraged to develop formal and informal partnerships to assist communities. Local Federal facilities, to the extent permitted by law and consistent with the agencies’ missions and resources, should provide public access, physical space, technical assistance, and other support for American Heritage River communities.

(k) In addition to providing support to designated rivers, agencies will work together to provide information and services to all communities seeking support.

SEC. 2. *Process for Nominating an American Heritage River.*

(a) *Nomination.* Communities, in coordination with their State, local, or tribal governments, can nominate their river, river stretch, or river confluence for designation as an American Heritage River. When several communities are involved in the nomination of the same river, nominations will detail the coordination among the interested communities and the role each will play in the process. Individuals living outside the community may not nominate a river.

(b) *Selection Criteria.* Nominations will be judged based on the following:

(1) the characteristics of the natural, economic, agricultural, scenic, historic, cultural, or recreational resources of the river that render it distinctive or unique;

(2) the effectiveness with which the community has defined its plan of action and the extent to which the plan addresses, either through planned actions or past accomplishments, all three American Heritage Rivers objectives, which are set forth in section 1(a) of this order;

(3) the strength and diversity of community support for the nomination as evidenced by letters from elected officials; landowners; private citizens; businesses; and especially State, local, and tribal governments. Broad community support is essential to receiving the American Heritage River designation; and

(4) willingness and capability of the community to forge partnerships and agreements to implement their plan to meet their goals and objectives.

(c) *Recommendation Process.*

The Chair of the Council on Environmental Quality (“CEQ”) shall develop a fair and objective procedure to obtain the views of a diverse group of experts for the purpose of making recommendations to the President as to which rivers shall be designated. These experts shall reflect a variety of viewpoints, such as those representing natural, cultural, and historic resources; scenic, environmental, and recreation interests; tourism, transportation, and economic development interests; and industries such as agriculture, hydropower, manufacturing, mining, and forest management. The Chair of the CEQ will ensure that the rivers recommended represent a variety of stream sizes, diverse geographical locations, and a wide range of settings from urban to rural and ensure that relatively pristine, successful revitalization efforts are considered as well as degraded rivers in need of restoration.

(d) *Designation.*

(1) The President will designate certain rivers as American Heritage Rivers. Based on the receipt of a sufficient number of qualified nominations, up to 20 rivers will be designated in the first phase of the initiative.

(2) The Interagency Committee provided for in section 3 of this order shall develop a process by which any community that nominates and has its river designated may have this designation terminated at its request.

(3) Upon a determination by the Chair of the CEQ that a community has failed to implement its plan, the Chair may recommend to the President that a designation be revoked. The Chair shall notify the community at least 30 days prior to making such a recommendation to the President. Based on that recommendation, the President may revoke the designation.

SEC. 3. *Establishment of an Interagency Committee.* There is hereby established the American Heritage Rivers Interagency Committee (“Committee”). The Committee shall have two co-chairs. The Chair of the CEQ shall be a permanent co-chair. The other co-chair will rotate among the heads of the agencies listed below.

(a) The Committee shall be composed of the following members or their designees at the Assistant Secretary level or equivalent:

- (1) The Secretary of Defense;
- (2) The Attorney General;
- (3) The Secretary of the Interior;
- (4) The Secretary of Agriculture;
- (5) The Secretary of Commerce;
- (6) The Secretary of Housing and Urban Development;
- (7) The Secretary of Transportation;
- (8) The Secretary of Energy;
- (9) The Administrator of the Environmental Protection Agency;
- (10) The Chair of the Advisory Council on Historic Preservation;
- (11) The Chairperson of the National Endowment for the Arts; and
- (12) The Chairperson of the National Endowment for the Humanities.

The Chair of the CEQ may invite to participate in meetings of the Committee, representatives of other agencies, as appropriate.

(b) The Committee shall:

(1) establish formal guidelines for designation as an American Heritage River;

(2) periodically review the actions of agencies in support of the American Heritage Rivers;

(3) report to the President on the progress, accomplishments, and effectiveness of the American Heritage Rivers initiative; and

(4) perform other duties as directed by the Chair of the CEQ.

SEC. 4. *Responsibilities of the Federal Agencies.* Consistent with Title I of the National Environmental Policy Act of 1969 [42 U.S.C. 4331 *et seq.*], agencies shall:

(a) identify their existing programs and plans that give them the authority to offer assistance to communities involved in river conservation and community health and revitalization;

(b) to the extent practicable and permitted by law and regulation, refocus programs, grants, and technical assistance to provide support for communities adjacent to American Heritage Rivers;

(c) identify all technical tools, including those developed for purposes other than river conservation, that can be applied to river protection, restoration, and community revitalization;

(d) provide access to existing scientific data and information to the extent permitted by law and consistent with the agencies mission and resources;

(e) cooperate with State, local, and tribal governments and communities with respect to their activities that take place in, or affect the area around, an American Heritage River;

(f) commit to a policy, as set forth in section 1(j) of this order, in making decisions affecting the quality of an American Heritage River;

(g) select from among all the agencies a single individual called the "River Navigator," for each river that is designated an American Heritage River, with whom the communities can communicate goals and needs and who will facilitate community-agency interchange;

(h) allow public access to the river, for agencies with facilities along American Heritage Rivers, to the extent practicable and consistent with their mission; and

(i) cooperate, as appropriate, with communities on projects that protect or preserve stretches of the river that are on Federal property or adjacent to a Federal facility.

SEC. 5. *Responsibilities of the Committee and the Council on Environmental Quality.* The CEQ shall serve as Executive agent for the Committee, and the CEQ and the Committee shall ensure the implementation of the policies and purposes of this initiative.

SEC. 6. *Definition.* For the purposes of this order, Executive agency means any agency on the Committee and such other agency as may be designated by the President.

SEC. 7. *Judicial Review.* This order does not create any right or benefit, substantive or procedural, enforceable by any party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

EXECUTIVE ORDER NO. 13080

Ex. Ord. No. 13080, Apr. 7, 1998, 63 F.R. 17667, as amended by Ex. Ord. No. 13093, July 27, 1998, 63 F.R. 40357, which established the American Heritage Rivers Initiative Advisory Committee, was revoked by Ex. Ord. No. 13225, §3(b), Sept. 28, 2001, 66 F.R. 50292, formerly set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees.

PROC. NO. 7112. DESIGNATION OF AMERICAN HERITAGE RIVERS

Proc. No. 7112, July 30, 1998, 63 F.R. 41949, provided:

In celebration of America's rivers, and to recognize and reward grassroots efforts to restore them, last year I announced the American Heritage Rivers initiative. My goal was to help communities realize their visions for their rivers by making it easier for them to tap existing programs and resources of the Federal Government. From across the country, hundreds of communities answered my call for nominations, asking that their rivers be designated American Heritage Rivers. I applaud all of the communities that have drawn together and dedicated themselves to the goal of healthy rivers, now and forever.

EX. ORD. NO. 13112. INVASIVE SPECIES

Ex. Ord. No. 13112, Feb. 3, 1999, 64 F.R. 6183, as amended by Ex. Ord. No. 13286, §15, Feb. 28, 2003, 68 F.R. 10623, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), Non-indigenous Aquatic Nuisance Prevention and Control Act of 1990, as amended (16 U.S.C. 4701 *et seq.*), Lacey Act, as amended (18 U.S.C. 42), Federal Plant Pest Act (7 U.S.C. 150aa *et seq.*), Federal Noxious Weed Act of 1974, as amended (7 U.S.C. 2801 *et seq.*), Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and other pertinent statutes, to prevent the introduction of invasive species and provide for their control and to minimize the economic, ecological, and human health impacts that invasive species cause, it is ordered as follows:

SECTION 1. *Definitions.*

(a) "Alien species" means, with respect to a particular ecosystem, any species, including its seeds, eggs, spores, or other biological material capable of propagating that species, that is not native to that ecosystem.

(b) "Control" means, as appropriate, eradicating, suppressing, reducing, or managing invasive species populations, preventing spread of invasive species from areas where they are present, and taking steps such as

restoration of native species and habitats to reduce the effects of invasive species and to prevent further invasions.

(c) “Ecosystem” means the complex of a community of organisms and its environment.

(d) “Federal agency” means an executive department or agency, but does not include independent establishments as defined by 5 U.S.C. 104.

(e) “Introduction” means the intentional or unintentional escape, release, dissemination, or placement of a species into an ecosystem as a result of human activity.

(f) “Invasive species” means an alien species whose introduction does or is likely to cause economic or environmental harm or harm to human health.

(g) “Native species” means, with respect to a particular ecosystem, a species that, other than as a result of an introduction, historically occurred or currently occurs in that ecosystem.

(h) “Species” means a group of organisms all of which have a high degree of physical and genetic similarity, generally interbreed only among themselves, and show persistent differences from members of allied groups of organisms.

(i) “Stakeholders” means, but is not limited to, State, tribal, and local government agencies, academic institutions, the scientific community, nongovernmental entities including environmental, agricultural, and conservation organizations, trade groups, commercial interests, and private landowners.

(j) “United States” means the 50 States, the District of Columbia, Puerto Rico, Guam, and all possessions, territories, and the territorial sea of the United States.

SEC. 2. *Federal Agency Duties.* (a) Each Federal agency whose actions may affect the status of invasive species shall, to the extent practicable and permitted by law,

- (1) identify such actions;
- (2) subject to the availability of appropriations, and within Administration budgetary limits, use relevant programs and authorities to: (i) prevent the introduction of invasive species; (ii) detect and respond rapidly to and control populations of such species in a cost-effective and environmentally sound manner; (iii) monitor invasive species populations accurately and reliably; (iv) provide for restoration of native species and habitat conditions in ecosystems that have been invaded; (v) conduct research on invasive species and develop technologies to prevent introduction and provide for environmentally sound control of invasive species; and (vi) promote public education on invasive species and the means to address them; and
- (3) not authorize, fund, or carry out actions that it believes are likely to cause or promote the introduction or spread of invasive species in the United States or elsewhere unless, pursuant to guidelines that it has prescribed, the agency has determined and made public its determination that the benefits of such actions clearly outweigh the potential harm caused by invasive species; and that all feasible and prudent measures to minimize risk of harm will be taken in conjunction with the actions.

(b) Federal agencies shall pursue the duties set forth in this section in consultation with the Invasive Species Council, consistent with the Invasive Species Management Plan and in cooperation with stakeholders, as appropriate, and, as approved by the Department of State, when Federal agencies are working with international organizations and foreign nations.

SEC. 3. *Invasive Species Council.* (a) An Invasive Species Council (Council) is hereby established whose members shall include the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Transportation, the Secretary of Homeland Security, and the Administrator of the Environmental Protection Agency. The Council shall be Co-Chaired by the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Commerce. The Council may invite additional Federal agency representatives to be members, includ-

ing representatives from subcabinet bureaus or offices with significant responsibilities concerning invasive species, and may prescribe special procedures for their participation. The Secretary of the Interior shall, with concurrence of the Co-Chairs, appoint an Executive Director of the Council and shall provide the staff and administrative support for the Council.

(b) The Secretary of the Interior shall establish an advisory committee under the Federal Advisory Committee Act, 5 U.S.C. App., to provide information and advice for consideration by the Council, and shall, after consultation with other members of the Council, appoint members of the advisory committee representing stakeholders. Among other things, the advisory committee shall recommend plans and actions at local, tribal, State, regional, and ecosystem-based levels to achieve the goals and objectives of the Management Plan in section 5 of this order. The advisory committee shall act in cooperation with stakeholders and existing organizations addressing invasive species. The Department of the Interior shall provide the administrative and financial support for the advisory committee.

SEC. 4. *Duties of the Invasive Species Council.* The Invasive Species Council shall provide national leadership regarding invasive species, and shall:

(a) oversee the implementation of this order and see that the Federal agency activities concerning invasive species are coordinated, complementary, cost-efficient, and effective, relying to the extent feasible and appropriate on existing organizations addressing invasive species, such as the Aquatic Nuisance Species Task Force, the Federal Interagency Committee for the Management of Noxious and Exotic Weeds, and the Committee on Environment and Natural Resources;

(b) encourage planning and action at local, tribal, State, regional, and ecosystem-based levels to achieve the goals and objectives of the Management Plan in section 5 of this order, in cooperation with stakeholders and existing organizations addressing invasive species;

(c) develop recommendations for international cooperation in addressing invasive species;

(d) develop, in consultation with the Council on Environmental Quality, guidance to Federal agencies pursuant to the National Environmental Policy Act on prevention and control of invasive species, including the procurement, use, and maintenance of native species as they affect invasive species;

(e) facilitate development of a coordinated network among Federal agencies to document, evaluate, and monitor impacts from invasive species on the economy, the environment, and human health;

(f) facilitate establishment of a coordinated, up-to-date information-sharing system that utilizes, to the greatest extent practicable, the Internet; this system shall facilitate access to and exchange of information concerning invasive species, including, but not limited to, information on distribution and abundance of invasive species; life histories of such species and invasive characteristics; economic, environmental, and human health impacts; management techniques, and laws and programs for management, research, and public education; and

(g) prepare and issue a national Invasive Species Management Plan as set forth in section 5 of this order.

SEC. 5. *Invasive Species Management Plan.* (a) Within 18 months after issuance of this order, the Council shall prepare and issue the first edition of a National Invasive Species Management Plan (Management Plan), which shall detail and recommend performance-oriented goals and objectives and specific measures of success for Federal agency efforts concerning invasive species. The Management Plan shall recommend specific objectives and measures for carrying out each of the Federal agency duties established in section 2(a) of this order and shall set forth steps to be taken by the Council to carry out the duties assigned to it under section 4 of this order. The Management Plan shall be developed through a public process and in consultation with Federal agencies and stakeholders.

(b) The first edition of the Management Plan shall include a review of existing and prospective approaches and authorities for preventing the introduction and spread of invasive species, including those for identifying pathways by which invasive species are introduced and for minimizing the risk of introductions via those pathways, and shall identify research needs and recommend measures to minimize the risk that introductions will occur. Such recommended measures shall provide for a science-based process to evaluate risks associated with introduction and spread of invasive species and a coordinated and systematic risk-based process to identify, monitor, and interdict pathways that may be involved in the introduction of invasive species. If recommended measures are not authorized by current law, the Council shall develop and recommend to the President through its Co-Chairs legislative proposals for necessary changes in authority.

(c) The Council shall update the Management Plan biennially and shall concurrently evaluate and report on success in achieving the goals and objectives set forth in the Management Plan. The Management Plan shall identify the personnel, other resources, and additional levels of coordination needed to achieve the Management Plan's identified goals and objectives, and the Council shall provide each edition of the Management Plan and each report on it to the Office of Management and Budget. Within 18 months after measures have been recommended by the Council in any edition of the Management Plan, each Federal agency whose action is required to implement such measures shall either take the action recommended or shall provide the Council with an explanation of why the action is not feasible. The Council shall assess the effectiveness of this order no less than once each 5 years after the order is issued and shall report to the Office of Management and Budget on whether the order should be revised.

SEC. 6. *Judicial Review and Administration.* (a) This order is intended only to improve the internal management of the executive branch and is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any other person.

(b) Executive Order 11987 of May 24, 1977, is hereby revoked.

(c) The requirements of this order do not affect the obligations of Federal agencies under 16 U.S.C. 4713 with respect to ballast water programs.

(d) The requirements of section 2(a)(3) of this order shall not apply to any action of the Department of State or Department of Defense if the Secretary of State or the Secretary of Defense finds that exemption from such requirements is necessary for foreign policy or national security reasons.

EX. ORD. NO. 13653. PREPARING THE UNITED STATES FOR THE IMPACTS OF CLIMATE CHANGE

Ex. Ord. No. 13653, Nov. 1, 2013, 78 F.R. 66819, as amended by Ex. Ord. No. 13683, §2, Dec. 11, 2014, 79 F.R. 75041; Ex. Ord. No. 13693, §16(f), Mar. 19, 2015, 80 F.R. 15881, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to prepare the Nation for the impacts of climate change by undertaking actions to enhance climate preparedness and resilience, it is hereby ordered as follows:

SECTION 1. *Policy.* The impacts of climate change—including an increase in prolonged periods of excessively high temperatures, more heavy downpours, an increase in wildfires, more severe droughts, permafrost thawing, ocean acidification, and sea-level rise—are already affecting communities, natural resources, ecosystems, economies, and public health across the Nation. These impacts are often most significant for communities that already face economic or health-related challenges, and for species and habitats that are already facing other pressures. Managing these risks requires deliberate preparation, close cooperation, and coordinated planning by the Federal Government, as well as by stakeholders, to facilitate Federal, State, local, tribal, private-sector, and nonprofit-sector efforts to improve climate preparedness and resilience; help safeguard our economy, infrastructure, environment, and natural resources; and provide for the continuity of executive department and agency (agency) operations, services, and programs.

A foundation for coordinated action on climate change preparedness and resilience across the Federal Government was established by [former] Executive Order 13514 of October 5, 2009 (Federal Leadership in Environmental, Energy, and Economic Performance), and the Interagency Climate Change Adaptation Task Force led by the Council on Environmental Quality (CEQ), the Office of Science and Technology Policy (OSTP), and the National Oceanic and Atmospheric Administration (NOAA). In addition, through the U.S. Global Change Research Program (USGCRP), established by section 103 of the Global Change Research Act of 1990 (15 U.S.C. 2933), and agency programs and activities, the Federal Government will continue to support scientific research, observational capabilities, and assessments necessary to improve our understanding of and response to climate change and its impacts on the Nation.

The Federal Government must build on recent progress and pursue new strategies to improve the Nation's preparedness and resilience. In doing so, agencies should promote: (1) engaged and strong partnerships and information sharing at all levels of government; (2) risk-informed decisionmaking and the tools to facilitate it; (3) adaptive learning, in which experiences serve as opportunities to inform and adjust future actions; and (4) preparedness planning.

SEC. 2. *Modernizing Federal Programs to Support Climate Resilient Investment.* (a) To support the efforts of regions, States, local communities, and tribes, all agencies, consistent with their missions and in coordination with the Council on Climate Preparedness and Resilience (Council) established in section 6 of this order, shall:

(i) identify and seek to remove or reform barriers that discourage investments or other actions to increase the Nation's resilience to climate change while ensuring continued protection of public health and the environment;

(ii) reform policies and Federal funding programs that may, perhaps unintentionally, increase the vulnerability of natural or built systems, economic sectors, natural resources, or communities to climate change related risks;

(iii) identify opportunities to support and encourage smarter, more climate-resilient investments by States, local communities, and tribes, including by providing incentives through agency guidance, grants, technical assistance, performance measures, safety considerations, and other programs, including in the context of infrastructure development as reflected in Executive Order 12893 of January 26, 1994 (Principles for Federal Infrastructure Investments), my memorandum of August 31, 2011 (Speeding Infrastructure Development through More Efficient and Effective Permitting and Environmental Review), Executive Order 13604 of March 22, 2012 (Improving Performance of Federal Permitting and Review of Infrastructure Projects), and my memorandum of May 17, 2013 (Modernizing Federal Infrastructure Review and Permitting Regulations, Policies, and Procedures); and

(iv) report on their progress in achieving the requirements identified above, including accomplished and planned milestones, in the Agency Adaptation Plans developed pursuant to section 5 of this order.

(b) In carrying out this section, agencies should also consider the recommendations of the State, Local, and Tribal Leaders Task Force on Climate Preparedness and Resilience (Task Force) established in section 7 of this order and the National Infrastructure Advisory Council established by Executive Order 13231 of October 16, 2001 (Critical Infrastructure Protection in the Information Age), and continued through Executive Order 13652 of September 30, 2013 (Continuance of Certain Federal Advisory Committees).

(c) Interagency groups charged with coordinating and modernizing Federal processes related to the development and integration of both man-made and natural infrastructure, evaluating public health and social equity issues, safeguarding natural resources, and other issues impacted by climate change—including the Steering Committee on Federal Infrastructure Permitting and Review Process Improvement established by Executive Order 13604, the Task Force on Ports established on July 19, 2012, the Interagency Working Group on Coordination of Domestic Energy Development and Permitting in Alaska established by Executive Order 13580 of July 12, 2011, and the Federal Interagency Working Group on Environmental Justice established by Executive Order 12898 of February 11, 1994—shall be responsible for ensuring that climate change related risks are accounted for in such processes and shall work with agencies in meeting the requirements set forth in subsections (a) and (b) of this section.

SEC. 3. *Managing Lands and Waters for Climate Preparedness and Resilience.* Within 9 months of the date of this order and in coordination with the efforts described in section 2 of this order, the heads of the Departments of Defense, the Interior, and Agriculture, the Environmental Protection Agency, NOAA, the Federal Emergency Management Agency, the Army Corps of Engineers, and other agencies as recommended by the Council established in section 6 of this order shall work with the Chair of CEQ and the Director of the Office of Management and Budget (OMB) to complete an inventory and assessment of proposed and completed changes to their land- and water-related policies, programs, and regulations necessary to make the Nation's watersheds, natural resources, and ecosystems, and the communities and economies that depend on them, more resilient in the face of a changing climate. Further, recognizing the many benefits the Nation's natural infrastructure provides, agencies shall, where possible, focus on program and policy adjustments that promote

the dual goals of greater climate resilience and carbon sequestration, or other reductions to the sources of climate change. The assessment shall include a timeline and plan for making changes to policies, programs, and regulations. Agencies shall build on efforts already completed or underway as outlined in agencies' Adaptation Plans, as discussed in section 5 of this order, as well as recent interagency climate adaptation strategies such as the National Action Plan: Priorities for Managing Freshwater Resources in a Changing Climate, released October 28, 2011; the National Fish, Wildlife and Plants Climate Adaptation Strategy, released March 26, 2013; and the National Ocean Policy Implementation Plan, released April 16, 2013.

SEC. 4. *Providing Information, Data, and Tools for Climate Change Preparedness and Resilience.* (a) In support of Federal, regional, State, local, tribal, private-sector and nonprofit-sector efforts to prepare for the impacts of climate change, the Departments of Defense, the Interior, Agriculture, Commerce, Health and Human Services, Housing and Urban Development, Transportation, Energy, and Homeland Security, the Environmental Protection Agency, the National Aeronautics and Space Administration, and any other agencies as recommended by the Council established in section 6 of this order, shall, supported by USGCRP, work together to develop and provide authoritative, easily accessible, usable, and timely data, information, and decision-support tools on climate preparedness and resilience.

(b) As part of the broader open data policy, CEQ and OSTP, in collaboration with OMB and consistent with Executive Order 13642 of May 9, 2013 (Making Open and Machine Readable the New Default for Government Information), shall oversee the establishment of a web-based portal on "Data.gov" and work with agencies on identifying, developing, and integrating data and tools relevant to climate issues and decisionmaking. Agencies shall coordinate their work on these data and tools with relevant interagency councils and committees such as the National Science and Technology Council and those that support the implementation of Presidential Policy Directive-21 of February 12, 2013 (Critical Infrastructure Security and Resilience).

SEC. 5. *Federal Agency Planning for Climate Change Related Risk.* (a) Consistent with other Executive Orders, agencies have developed Agency Adaptation Plans and provided them to CEQ and OMB. These plans evaluate the most significant climate change related risks to, and vulnerabilities in, agency operations and missions in both the short and long term, and outline actions that agencies will take to manage these risks and vulnerabilities. Building on these efforts, each agency shall develop or continue to develop, implement, and update comprehensive plans that integrate consideration of climate change into agency operations and overall mission objectives and submit those plans to CEQ and OMB for review. Each Agency Adaptation Plan shall include:

(i) identification and assessment of climate change related impacts on and risks to the agency's ability to accomplish its missions, operations, and programs;

(ii) a description of programs, policies, and plans the agency has already put in place, as well as additional actions the agency will take, to manage climate risks in the near term and build resilience in the short and long term;

(iii) a description of how any climate change related risk identified pursuant to paragraph (i) of this subsection that is deemed so significant that it impairs an agency's statutory mission or operation will be addressed, including through the agency's existing reporting requirements;

(iv) a description of how the agency will consider the need to improve climate adaptation and resilience, including the costs and benefits of such improvement, with respect to agency suppliers, supply chain, real property investments, and capital equipment purchases such as updating agency policies for leasing, building upgrades, relocation of existing facilities and equipment, and construction of new facilities; and

(v) a description of how the agency will contribute to coordinated interagency efforts to support climate preparedness and resilience at all levels of government, including collaborative work across agencies' regional offices and hubs, and through coordinated development of information, data, and tools, consistent with section 4 of this order.

(b) Agencies will report on progress made on their Adaptation Plans, as well as any updates made to the plans, through the annual Strategic Sustainability Performance Plan process. Agencies shall regularly update their Adaptation Plans, completing the first update within 120 days of the date of this order, with additional regular updates thereafter due not later than 1 year after the publication of each quadrennial National Climate Assessment report required by section 106 of the Global Change Research Act of 1990 (15 U.S.C. 2936).

SEC. 6. *Council on Climate Preparedness and Resilience.*

(a) *Establishment.* There is established an interagency Council on Climate Preparedness and Resilience (Council).

(b) *Membership.* The Council shall be co-chaired by the Chair of CEQ, the Director of OSTP, the Assistant to the President for Homeland Security and Counterterrorism, and the Director of OMB. In addition, the Council shall include senior officials (Deputy Secretary or equivalent officer) from:

EX. ORD. NO. 13690. ESTABLISHING A FEDERAL FLOOD RISK MANAGEMENT STANDARD AND A PROCESS FOR FURTHER SOLICITING AND CONSIDERING STAKEHOLDER INPUT

Ex. Ord. No. 13690, Jan. 30, 2015, 80 F.R. 6425, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to improve the Nation’s resilience to current and future flood risk, I hereby direct the following:

SECTION 1. *Policy.* It is the policy of the United States to improve the resilience of communities and Federal assets against the impacts of flooding. These impacts are anticipated to increase over time due to the effects of climate change and other threats. Losses caused by flooding affect the environment, our economic prosperity, and public health and safety, each of which affects our national security.

The Federal Government must take action, informed by the best-available and actionable science, to improve the Nation’s preparedness and resilience against flooding. Executive Order 11988 of May 24, 1977 (Floodplain Management), requires executive departments and agencies (agencies) to avoid, to the extent possible, the long- and short-term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative. The Federal Government has developed processes for evaluating the impacts of Federal actions in or affecting floodplains to implement Executive Order 11988.

As part of a national policy on resilience and risk reduction consistent with my Climate Action Plan, the National Security Council staff coordinated an inter-agency effort to create a new flood risk reduction standard for federally funded projects. The views of Governors, mayors, and other stakeholders were solicited and considered as efforts were made to establish a new flood risk reduction standard for federally funded projects. The result of these efforts is the Federal Flood Risk Management Standard (Standard), a flexible framework to increase resilience against flooding and help preserve the natural values of floodplains. Incorporating this Standard will ensure that agencies expand management from the current base flood level to a higher vertical elevation and corresponding horizontal floodplain to address current and future flood risk and ensure that projects funded with taxpayer dollars last as long as intended.

This order establishes the Standard and sets forth a process for further solicitation and consideration of public input, including from Governors, mayors, and other stakeholders, prior to implementation of the Standard.

SEC. 2. *Amendments to Executive Order 11988.* [Amended Ex. Ord. No. 11988, set out above.]

SEC. 3. *Agency Action.* (a) Prior to any action to implement the Standard, additional input from stakeholders shall be solicited and considered. To carry out this process:

(i) the Federal Emergency Management Agency, on behalf of the Mitigation Framework Leadership Group, shall publish for public comment draft amended Floodplain Management Guidelines for Implementing Executive Order 11988 (Guidelines) to provide guidance to agencies on the implementation of Executive Order 11988, as amended, consistent with the Standard;

(ii) during the comment period, the Mitigation Framework Leadership Group shall host public meetings with stakeholders to solicit input; and

(iii) after the comment period closes, and based on the comments received on the draft Guidelines during the comment period, in accordance with subsections (a)(i) and (ii) of this section, the Mitigation Framework Leadership Group shall provide recommendations to the Water Resources Council.

(b) After additional input from stakeholders has been solicited and considered as set forth in subsections (a)(i) and (ii) of this section and after consideration of the recommendations made by the Mitigation Framework Leadership Group pursuant to subsection (a)(iii) of this section, the Water Resources Council shall issue amended Guidelines to provide guidance to agencies on the implementation of Executive Order 11988, as amended, consistent with the Standard.

(c) To the extent permitted by law, each agency shall, in consultation with the Water Resources Council, Federal Interagency Floodplain Management Task Force, Federal Emergency Management Agency, and Council on Environmental Quality, issue or amend existing regulations and procedures to comply with this order, and update those regulations and procedures as warranted. Within 30 days of the closing of the public comment period for the draft amendments to the Guidelines as described in subsection (a) of this section, each agency shall submit an implementation plan to the National Security Council staff that contains milestones and a timeline for implementation of this order and the Standard, by the agency as it applies to the agency’s processes and mission. Agencies shall not issue or amend existing regulations and procedures pursuant to this subsection until after the Water Resources Council has issued amended Guidelines pursuant to subsection (b) of this order [sic].

SEC. 4. *Reassessment.* (a) The Water Resources Council shall issue any further amendments to the Guidelines as warranted.

(b) The Mitigation Framework Leadership Group in consultation with the Federal Interagency Floodplain Management Task Force shall reassess the Standard annually, after seeking stakeholder input, and provide recommendations to the Water Resources Council to update the Standard if warranted based on accurate and actionable science that takes into account changes to climate and other changes in flood risk. The Water Resources Council shall issue an update to the Standard at least every 5 years.

EX. ORD. NO. 13693. PLANNING FOR FEDERAL
SUSTAINABILITY IN THE NEXT DECADE

Ex. Ord. No. 13693, Mar. 19, 2015, 80 F.R. 15871, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to maintain Federal leadership in sustainability and greenhouse gas emission reductions, it is hereby ordered as follows:

SECTION 1. *Policy.* Executive departments and agencies (agencies) have been among our Nation's leaders as the United States works to build a clean energy economy that will sustain our prosperity and the health of our people and our environment for generations to come. Federal leadership in energy, environmental water, fleet, buildings, and acquisition management will continue to drive national greenhouse gas reductions and support preparations for the impacts of climate change. Through a combination of more efficient Federal operations such as those outlined in this Executive Order (order), we have the opportunity to reduce agency direct greenhouse gas emissions by at least 40 percent over the next decade while at the same time fostering innovation, reducing spending, and strengthening the communities in which our Federal facilities operate.

It therefore continues to be the policy of the United States that agencies shall increase efficiency and improve their environmental performance. Improved environmental performance will help us protect our planet for future generations and save taxpayer dollars through avoided energy costs and increased efficiency, while also making Federal facilities more resilient. To improve environmental performance and Federal sustainability, priority should first be placed on reducing energy use and cost, then on finding renewable or alternative energy solutions. Pursuing clean sources of energy will improve energy and water security, while ensuring that Federal facilities will continue to meet mission requirements and lead by example. Employing this strategy for the next decade calls for expanded and updated Federal environmental performance goals with a clear overarching objective of reducing greenhouse gas emissions across Federal operations and the Federal supply chain.

SEC. 2. *Agency Greenhouse Gas Emission Reductions.* In implementing the policy set forth in section 1 of this order, the head of each agency shall, within 90 days of the date of this order, propose to the Chair of the Council on Environmental Quality (CEQ) and the Director of the Office of Management and Budget (OMB) percentage reduction targets for agency-wide reductions of scope 1 and 2 and scope 3 greenhouse gas emissions in absolute terms by the end of fiscal year 2025 relative to a fiscal year 2008 baseline. Where appropriate, the target shall exclude direct emissions from excluded vehicles and equipment and from electric power produced and sold commercially to other parties as the primary business of the agency. The proposed targets shall be subject to the review and approval of the Chair of CEQ in coordination with the Director of OMB under section 4(b) of this order.

SEC. 3. *Sustainability Goals for Agencies.* In implementing the policy set forth in section 1 of this order and to achieve the goals of section 2 of this order, the head of each agency shall, where life-cycle cost-effective, beginning in fiscal year 2016, unless otherwise specified:

(a) promote building energy conservation, efficiency, and management by:

§ 4332. Cooperation of agencies; reports; availability of information; recommendations; international and national coordination of efforts

The Congress authorizes and directs that, to the fullest extent possible: (1) the policies, regulations, and public laws of the United States shall be interpreted and administered in accordance with the policies set forth in this chapter, and (2) all agencies of the Federal Government shall—

(A) utilize a systematic, interdisciplinary approach which will insure the integrated use

of the natural and social sciences and the environmental design arts in planning and in decisionmaking which may have an impact on man's environment;

(B) identify and develop methods and procedures, in consultation with the Council on Environmental Quality established by subchapter II of this chapter, which will insure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking along with economic and technical considerations;

(C) include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official on—

- (i) the environmental impact of the proposed action,
- (ii) any adverse environmental effects which cannot be avoided should the proposal be implemented,
- (iii) alternatives to the proposed action,
- (iv) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and
- (v) any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

Prior to making any detailed statement, the responsible Federal official shall consult with and obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statement and the comments and views of the appropriate Federal, State, and local agencies, which are authorized to develop and enforce environmental standards, shall be made available to the President, the Council on Environmental Quality and to the public as provided by section 552 of title 5, and shall accompany the proposal through the existing agency review processes;

(D) Any detailed statement required under subparagraph (C) after January 1, 1970, for any major Federal action funded under a program of grants to States shall not be deemed to be legally insufficient solely by reason of having been prepared by a State agency or official, if:

- (i) the State agency or official has statewide jurisdiction and has the responsibility for such action,
- (ii) the responsible Federal official furnishes guidance and participates in such preparation,
- (iii) the responsible Federal official independently evaluates such statement prior to its approval and adoption, and
- (iv) after January 1, 1976, the responsible Federal official provides early notification to, and solicits the views of, any other State or any Federal land management entity of any action or any alternative thereto which may have significant impacts upon such State or affected Federal land management entity and, if there is any disagreement on such impacts, prepares a written assessment

of such impacts and views for incorporation into such detailed statement.

The procedures in this subparagraph shall not relieve the Federal official of his responsibilities for the scope, objectivity, and content of the entire statement or of any other responsibility under this chapter; and further, this subparagraph does not affect the legal sufficiency of statements prepared by State agencies with less than statewide jurisdiction.¹

(E) study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources;

(F) recognize the worldwide and long-range character of environmental problems and, where consistent with the foreign policy of the United States, lend appropriate support to initiatives, resolutions, and programs designed to maximize international cooperation in anticipating and preventing a decline in the quality of mankind's world environment;

(G) make available to States, counties, municipalities, institutions, and individuals, advice and information useful in restoring, maintaining, and enhancing the quality of the environment;

(H) initiate and utilize ecological information in the planning and development of resource-oriented projects; and

(I) assist the Council on Environmental Quality established by subchapter II of this chapter.

On the request of a participating agency or project sponsor, the Executive Director may designate a different agency as the facilitating or lead agency, as applicable, for a covered project, if the facilitating or lead agency or the Executive Director receives new information regarding the scope or nature of a covered project that indicates that the project should be placed in a different category under section 4370m-1(c)(1)(B) of this title.

(B) Resolution of dispute

The Chairman of the Council on Environmental Quality shall resolve any dispute over designation of a facilitating or lead agency for a particular covered project.

(b) Permitting dashboard

(1) Requirement to maintain

(A) In general

The Executive Director, in coordination with the Administrator of General Services, shall maintain an online database to be known as the “Permitting Dashboard” to track the status of Federal environmental reviews and authorizations for any covered project in the inventory described in section 4370m-1(c)(1)(A) of this title.

(B) Specific and searchable entry

The Dashboard shall include a specific and searchable entry for each covered project.

(2) Additions

(ii) New projects

Not later than 14 days after the date on which the Executive Director receives a notice under subsection (a)(1), the Executive Director shall create a specific entry on the Dashboard for the covered project, unless the Executive Director, facilitating agency, or lead agency, as applicable, de-

termines that the project is not a covered project.

(B) Explanation

If the facilitating agency or lead agency, as applicable, determines that the project is not a covered project, the project sponsor may submit a further explanation as to why the project is a covered project not later than 14 days after the date of the determination under subparagraph (A).

(C) Final determination

Not later than 14 days after receiving an explanation described in subparagraph (B), the Executive Director shall—

(i) make a final and conclusive determination as to whether the project is a covered project; and

(ii) if the Executive Director determines that the project is a covered project, create a specific entry on the Dashboard for the covered project.

(3) Postings by agencies

(A) In general

For each covered project added to the Dashboard under paragraph (2), the facilitating or lead agency, as applicable, and each cooperating and participating agency shall post to the Dashboard—

(i) a hyperlink that directs to a website that contains, to the extent consistent with applicable law—

(D) an explanation of each modification described in subparagraph (C); and

(E) any memorandum of understanding established under subsection (c)(3)(B).

(c) Coordination and timetables

(1) Coordinated project plan

(A) In general

Not later than 60 days after the date on which the Executive Director must make a specific entry for the project on the Dashboard under subsection (b)(2)(A), the facilitating or lead agency, as applicable, in consultation with each coordinating and participating agency, shall establish a concise plan for coordinating public and agency participation in, and completion of, any required Federal environmental review and authorization for the project.

(B) Required information

The Coordinated Project Plan shall include the following information and be updated by the facilitating or lead agency, as applicable, at least once per quarter:

(i) A list of, and roles and responsibilities for, all entities with environmental review or authorization responsibility for the project.

(iii) A discussion of potential avoidance, minimization, and mitigation strategies, if required by applicable law and known.

(iv) Plans and a schedule for public and tribal outreach and coordination, to the extent required by applicable law.

(C) Memorandum of understanding

The coordinated project plan described in subparagraph (A) may be incorporated into a memorandum of understanding.

(2) Permitting timetable

(A) Establishment

As part of the coordination project plan under paragraph (1), the facilitating or lead agency, as applicable, in consultation with each cooperating and participating agency, the project sponsor, and any State in which the project is located, and, subject to subparagraph (C), with the concurrence of each cooperating agency, shall establish a permitting timetable that includes intermediate and final completion dates for action by each participating agency on any Federal environmental review or authorization required for the project.

(B) Factors for consideration

In establishing the permitting timetable under subparagraph (A), the facilitating or

lead agency shall follow the performance schedules established under section 4370m-1(c)(1)(C) of this title, but may vary the timetable based on relevant factors, including—

- (i) the size and complexity of the covered project;
- (ii) the resources available to each participating agency;
- (iii) the regional or national economic significance of the project;
- (iv) the sensitivity of the natural or historic resources that may be affected by the project;
- (v) the financing plan for the project; and
- (vi) the extent to which similar projects in geographic proximity to the project were recently subject to environmental review or similar procedures under State law.

(C) Dispute resolution

(i) In general

The Executive Director, in consultation with appropriate agency CERPOs and the project sponsor, shall, as necessary, mediate any disputes regarding the permitting timetable referred to under subparagraph (A).

(ii) Disputes

If a dispute remains unresolved 30 days after the date on which the dispute was submitted to the Executive Director, the Director of the Office of Management and Budget, in consultation with the Chairman of the Council on Environmental Quality, shall facilitate a resolution of the dispute and direct the agencies party to the dispute to resolve the dispute by the end of the 60-day period beginning on the date of submission of the dispute to the Executive Director.

(iii) Final resolution

Any action taken by the Director of the Office of Management and Budget in the resolution of a dispute under clause (ii) shall—

- (I) be final and conclusive; and
- (II) not be subject to judicial review.

(D) Modification after approval

(i) In general

The facilitating or lead agency, as applicable, may modify a permitting timetable established under subparagraph (A) only if—

- (I) the facilitating or lead agency, as applicable, and the affected cooperating agencies, after consultation with the participating agencies and the project sponsor, agree to a different completion date;
- (II) the facilitating agency or lead agency, as applicable, or the affected cooperating agency provides a written justification for the modification; and
- (III) in the case of a modification that would necessitate an extension of a final completion date under a permitting

timetable established under subparagraph (A) to a date more than 30 days after the final completion date originally established under subparagraph (A), the facilitating or lead agency submits a request to modify the permitting timetable to the Executive Director, who shall consult with the project sponsor and make a determination on the record, based on consideration of the relevant factors described under subparagraph (B), whether to grant the facilitating or lead agency, as applicable, authority to make such modification.

(ii) Completion date

A completion date in the permitting timetable may not be modified within 30 days of the completion date.

(iii) Limitation on length of modifications

(I) In general

Except as provided in subclause (II), the total length of all modifications to a permitting timetable authorized or made under this subparagraph, other than for reasons outside the control of Federal, State, local, or tribal governments, may not extend the permitting timetable for a period of time greater than half of the amount of time from the establishment of the permitting timetable under subparagraph (A) to the last final completion date originally established under subparagraph (A).

(II) Additional extensions

The Director of the Office of Management and Budget, after consultation with the project sponsor, may permit the Executive Director to authorize additional extensions of a permitting timetable beyond the limit prescribed by subclause (I). In such a case, the Director of the Office of Management and Budget shall transmit, not later than 5 days after making a determination to permit an authorization of extension under this subclause, a report to Congress explaining why such modification is required. Such report shall explain to Congress with specificity why the original permitting timetable and the modifications authorized by the Executive Director failed to be adequate. The lead or facilitating agency, as applicable, shall transmit to Congress, the Director of the Office of Management and Budget, and the Executive Director a supplemental report on progress toward the final completion date each year thereafter, until the permit review is completed or the project sponsor withdraws its notice or application or other request to which this subchapter applies under section 4370m-9 of this title.

(iv) Limitation on judicial review

The following shall not be subject to judicial review:

- (I) A determination by the Executive Director under clause (i)(III).

(II) A determination under clause (iii)(II) by the Director of the Office of Management and Budget to permit the Executive Director to authorize extensions of a permitting timetable.

(E) Consistency with other time periods

A permitting timetable established under subparagraph (A) shall be consistent with any other relevant time periods established under Federal law and shall not prevent any cooperating or participating agency from discharging any obligation under Federal law in connection with the project.

(F) Conforming to permitting timetables

(i) In general

Each Federal agency shall conform to the completion dates set forth in the permitting timetable established under subparagraph (A), or with any completion date modified under subparagraph (D).

(ii) Failure to conform

If a Federal agency fails to conform with a completion date for agency action on a covered project or is at significant risk of failing to conform with such a completion date, the agency shall—

(I) promptly submit to the Executive Director for publication on the Dashboard an explanation of the specific reasons for failing or significantly risking failing to conform to the completion date and a proposal for an alternative completion date;

(II) in consultation with the facilitating or lead agency, as applicable, establish an alternative completion date; and

(III) each month thereafter until the agency has taken final action on the delayed authorization or review, submit to the Executive Director for posting on the Dashboard a status report describing any agency activity related to the project.

(G) Abandonment of covered project

(i) In general

If the facilitating or lead agency, as applicable, has a reasonable basis to doubt the continuing technical or financial ability of the project sponsor to construct the covered project, the facilitating or lead agency may request the project sponsor provide an updated statement regarding the ability of the project sponsor to complete the project.

(ii) Failure to respond

If the project sponsor fails to respond to a request described in clause (i) by the date that is 30 days after receiving the request, the lead or facilitating agency, as applicable, shall notify the Executive Director, who shall publish an appropriate notice on the Dashboard.

(iii) Publication to Dashboard

On publication of a notice under clause (ii), the completion dates in the permitting timetable shall be tolled and agencies shall be relieved of the obligation to com-

ply with subparagraph (F) until such time as the project sponsor submits to the facilitating or lead agency, as applicable, an updated statement regarding the technical and financial ability of the project sponsor to construct the project.

(3) Cooperating State, local, or tribal governments

(A) State authority

If the Federal environmental review is being implemented within the boundaries of a State, the State, consistent with State law, may choose to participate in the environmental review and authorization process under this subsection and to make subject to the process all State agencies that—

(i) have jurisdiction over the covered project;

(ii) are required to conduct or issue a review, analysis, opinion, or statement for the covered project; or

(iii) are required to make a determination on issuing a permit, license, or other approval or decision for the covered project.

(B) Coordination

To the maximum extent practicable under applicable law, the facilitating or lead agency, as applicable, shall coordinate the Federal environmental review and authorization processes under this subsection with any State, local, or tribal agency responsible for conducting any separate review or authorization of the covered project to ensure timely and efficient completion of environmental reviews and authorizations.

(C) Memorandum of understanding

(i) In general

Any coordination plan between the facilitating or lead agency, as applicable, and any State, local, or tribal agency shall, to the maximum extent practicable, be included in a memorandum of understanding.

(ii) Submission to Executive Director

The facilitating or lead agency, as applicable, shall submit to the Executive Director each memorandum of understanding described in clause (i).

(D) Applicability

The requirements under this subchapter shall only apply to a State or an authorization issued by a State if the State has chosen to participate in the environmental review and authorization process pursuant to this paragraph.

(d) Early consultation

The facilitating or lead agency, as applicable, shall provide an expeditious process for project sponsors to confer with each cooperating and participating agency involved and, not later than 60 days after the date on which the project sponsor submits a request under this subsection, to have each such agency provide to the project sponsor information concerning—

(1) the availability of information and tools, including pre-application toolkits, to facilitate early planning efforts;

(2) key issues of concern to each agency and to the public; and

(3) issues that must be addressed before an environmental review or authorization can be completed.

(e) Cooperating agency

(1) In general

A lead agency may designate a participating agency as a cooperating agency in accordance with part 1501 of title 40, Code of Federal Regulations (or successor regulations).

(2) Effect on other designation

The designation described in paragraph (1) shall not affect any designation under subsection (a)(3).

(3) Limitation on designation

Any agency not designated as a participating agency under subsection (a)(3) shall not be designated as a cooperating agency under paragraph (1).

(f) Reporting status of other projects on Dashboard

(1) In general

On request of the Executive Director, the Secretary and the Secretary of the Army shall use best efforts to provide information for inclusion on the Dashboard on projects subject to section 139 of title 23 and section 2348 of title 33 likely to require—

(A) a total investment of more than \$200,000,000; and

(B) an environmental impact statement under NEPA.

(2) Effect of inclusion on Dashboard

Inclusion on the Dashboard of information regarding projects subject to section 139 of title 23 or section 2348 of title 33 shall not subject those projects to any requirements of this subchapter.

§ 4370m-4. Coordination of required reviews

(a) Concurrent reviews

To integrate environmental reviews and authorizations, each agency shall, to the maximum extent practicable—

(1) carry out the obligations of the agency with respect to a covered project under any other applicable law concurrently, and in conjunction with, other environmental reviews and authorizations being conducted by other cooperating or participating agencies, including environmental reviews and authorizations required under NEPA, unless the agency determines that doing so would impair the ability of the agency to carry out the statutory obligations of the agency; and

(2) formulate and implement administrative, policy, and procedural mechanisms to enable the agency to ensure completion of the environmental review process in a timely, coordinated, and environmentally responsible manner.

(b) Adoption, incorporation by reference, and use of documents

(1)¹ State environmental documents; supplemental documents

(A) Use of existing documents

(i) In general

On the request of a project sponsor, a lead agency shall consider and, as appropriate, adopt or incorporate by reference, the analysis and documentation that has been prepared for a covered project under State laws and procedures as the documentation, or part of the documentation, required to complete an environmental review for the covered project, if the analysis and documentation were, as determined by the lead agency in consultation with the Council on Environmental Quality, prepared under circumstances that allowed for opportunities for public participation and consideration of alternatives, environmental consequences, and other required analyses that are substantially equivalent to what would have been available had the documents and analysis been prepared by a Federal agency pursuant to NEPA.

(ii) Guidance by CEQ

The Council on Environmental Quality may issue guidance to carry out this subsection.

¹ So in original. No par. (2) has been enacted.

(B) NEPA obligations

An environmental document adopted under subparagraph (A) or a document that includes documentation incorporated under subparagraph (A) may serve as the documentation required for an environmental review or a supplemental environmental review required to be prepared by a lead agency under NEPA.

(C) Supplementation of State documents

If the lead agency adopts or incorporates analysis and documentation described in subparagraph (A), the lead agency shall prepare and publish a supplemental document if the lead agency determines that during the period after preparation of the analysis and documentation and before the adoption or incorporation—

(i) a significant change has been made to the covered project that is relevant for purposes of environmental review of the project; or

(ii) there has been a significant circumstance or new information has emerged that is relevant to the environmental review for the covered project.

(D) Comments

If a lead agency prepares and publishes a supplemental document under subparagraph (C), the lead agency shall solicit comments from other agencies and the public on the supplemental document for a period of not more than 45 days, beginning on the date on which the supplemental document is published, unless—

(i) the lead agency, the project sponsor, and any cooperating agency agree to a longer deadline; or

(ii) the lead agency extends the deadline for good cause.

(E) Notice of outcome of environmental review

A lead agency shall issue a record of decision or finding of no significant impact, as appropriate, based on the document adopted under subparagraph (A) and any supplemental document prepared under subparagraph (C).

(c) Alternatives analysis**(1) Participation****(A) In general**

As early as practicable during the environmental review, but not later than the commencement of scoping for a project requiring the preparation of an environmental impact statement, the lead agency shall engage the cooperating agencies and the public to determine the range of reasonable alternatives to be considered for a covered project.

(B) Determination

The determination under subparagraph (A) shall be completed not later than the completion of scoping.

(2) Range of alternatives**(A) In general**

Following participation under paragraph (1) and subject to subparagraph (B), the lead

agency shall determine the range of reasonable alternatives for consideration in any document that the lead agency is responsible for preparing for the covered project.

(B) Alternatives required by law

In determining the range of alternatives under subparagraph (A), the lead agency shall include all alternatives required to be considered by law.

(3) Methodologies**(A) In general**

The lead agency shall determine, in collaboration with each cooperating agency at appropriate times during the environmental review, the methodologies to be used and the level of detail required in the analysis of each alternative for a covered project.

(B) Environmental review

A cooperating agency shall use the methodologies referred to in subparagraph (A) when conducting any required environmental review, to the extent consistent with existing law.

(4) Preferred alternative

With the concurrence of the cooperating agencies with jurisdiction under Federal law and at the discretion of the lead agency, the preferred alternative for a project, after being identified, may be developed to a higher level of detail than other alternatives to facilitate the development of mitigation measures or concurrent compliance with other applicable laws if the lead agency determines that the development of the higher level of detail will not prevent—

(A) the lead agency from making an impartial decision as to whether to accept another alternative that is being considered in the environmental review; and

(B) the public from commenting on the preferred and other alternatives.

(d) Environmental review comments**(1) Comments on draft environmental impact statement**

For comments by an agency or the public on a draft environmental impact statement, the lead agency shall establish a comment period of not less than 45 days and not more than 60 days after the date on which a notice announcing availability of the environmental impact statement is published in the Federal Register, unless—

(A) the lead agency, the project sponsor, and any cooperating agency agree to a longer deadline; or

(B) the lead agency, in consultation with each cooperating agency, extends the deadline for good cause.

(2) Other review and comment periods

For all other review or comment periods in the environmental review process described in parts 1500 through 1508 of title 40, Code of Federal Regulations (or successor regulations), the lead agency shall establish a comment period of not more than 45 days after the date on which the materials on which comment is requested are made available, unless—

(A) the lead agency, the project sponsor, and any cooperating agency agree to a longer deadline; or

(B) the lead agency extends the deadline for good cause.

(e) Issue identification and resolution

(1) Cooperation

The lead agency and each cooperating and participating agency shall work cooperatively in accordance with this section to identify and resolve issues that could delay completion of an environmental review or an authorization required for the project under applicable law or result in the denial of any approval under applicable law.

(2) Lead agency responsibilities

(A) In general

The lead agency shall make information available to each cooperating and participating agency and project sponsor as early as practicable in the environmental review regarding the environmental, historic, and socioeconomic resources located within the project area and the general locations of the alternatives under consideration.

(B) Sources of information

The information described in subparagraph (A) may be based on existing data sources, including geographic information systems mapping.

(3) Cooperating and participating agency responsibilities

Each cooperating and participating agency shall—

(A) identify, as early as practicable, any issues of concern regarding any potential environmental impacts of the covered project, including any issues that could substantially delay or prevent an agency from completing any environmental review or authorization required for the project; and

(B) communicate any issues described in subparagraph (A) to the project sponsor.

(f) Categories of projects

The authorities granted under this section may be exercised for an individual covered project or a category of covered projects.

§ 4370m-5. Delegated State permitting programs

(a) In general

If a Federal statute permits a Federal agency to delegate to or otherwise authorize a State to

issue or otherwise administer a permit program in lieu of the Federal agency, the Federal agency with authority to carry out the statute shall—

(1) on publication by the Council of best practices under section 4370m-1(c)(2)(B) of this title, initiate a national process, with public participation, to determine whether and the extent to which any of the best practices are generally applicable on a delegation- or authorization-wide basis to permitting under the statute; and

(2) not later than 2 years after December 4, 2015, make model recommendations for State modifications of the applicable permit program to reflect the best practices described in section 4370m-1(c)(2)(B) of this title, as appropriate.

§ 4370m-6. Litigation, judicial review, and savings provision

(a) Limitations on claims

(1) In general

Notwithstanding any other provision of law, a claim arising under Federal law seeking judicial review of any authorization issued by a Federal agency for a covered project shall be barred unless—

(A) the action is filed not later than 2 years after the date of publication in the Federal Register of the final record of decision or approval or denial of a permit, unless a shorter time is specified in the Federal law under which judicial review is allowed; and

(B) in the case of an action pertaining to an environmental review conducted under NEPA—

(i) the action is filed by a party that submitted a comment during the environmental review; and

(ii) any commenter filed a sufficiently detailed comment so as to put the lead agency on notice of the issue on which the party seeks judicial review, or the lead agency did not provide a reasonable opportunity for such a comment on that issue.

(2) New information

(A) In general

The head of a lead agency or participating agency shall consider new information received after the close of a comment period if the information satisfies the requirements under regulations implementing NEPA.

(B) Separate action

If Federal law requires the preparation of a supplemental environmental impact state-

ment or other supplemental environmental document, the preparation of such document shall be considered a separate final agency action and the deadline for filing a claim for judicial review of the agency action shall be 2 years after the date on which a notice announcing the final agency action is published in the Federal Register, unless a shorter time is specified in the Federal law under which judicial review is allowed.

(3) Rule of construction

Nothing in this subsection creates a right to judicial review or places any limit on filing a claim that a person has violated the terms of an authorization.

(b) Preliminary injunctive relief

In addition to considering any other applicable equitable factors, in any action seeking a temporary restraining order or preliminary injunction against an agency or a project sponsor in connection with review or authorization of a covered project, the court shall—

- (1) consider the potential effects on public health, safety, and the environment, and the potential for significant negative effects on jobs resulting from an order or injunction; and
- (2) not presume that the harms described in paragraph (1) are repairable.

(c) Judicial review

Except as provided in subsection (a), nothing in this subchapter affects the reviewability of any final Federal agency action in a court of competent jurisdiction.

(d) Savings clause

Nothing in this subchapter—

- (1) supersedes, amends, or modifies any Federal statute or affects the responsibility of any Federal officer to comply with or enforce any statute; or
- (2) creates a presumption that a covered project will be approved or favorably reviewed by any agency.

(e) Limitations

Nothing in this section preempts, limits, or interferes with—

- (1) any practice of seeking, considering, or responding to public comment; or
- (2) any power, jurisdiction, responsibility, or authority that a Federal, State, or local governmental agency, metropolitan planning organization, Indian tribe, or project sponsor has with respect to carrying out a project or any other provisions of law applicable to any project, plan, or program.

quirements and authorities required under sections 4370m-1 and 4370m-2 of this title, including the costs to agencies and the costs of operating the Council.

(c) Fee structure

The fee structure established under subsection (a) shall—

§ 4371. Congressional findings, declarations, and purposes

(a) The Congress finds—

(1) that man has caused changes in the environment;

(2) that many of these changes may affect the relationship between man and his environment; and

(3) that population increases and urban concentration contribute directly to pollution and the degradation of our environment.

(b)(1) The Congress declares that there is a national policy for the environment which provides for the enhancement of environmental quality. This policy is evidenced by statutes heretofore enacted relating to the prevention, abatement, and control of environmental pollution, water and land resources, transportation, and economic and regional development.

(2) The primary responsibility for implementing this policy rests with State and local government.

(3) The Federal Government encourages and supports implementation of this policy through appropriate regional organizations established under existing law.

(c) The purposes of this chapter are—

(1) to assure that each Federal department and agency conducting or supporting public works activities which affect the environment shall implement the policies established under existing law; and

(2) to authorize an Office of Environmental Quality, which, notwithstanding any other provision of law, shall provide the professional and administrative staff for the Council on Environmental Quality established by Public Law 91-190.

PART A—DEVELOPMENT OF A NATIONAL URBAN POLICY

§ 4502. Congressional findings and declaration of policy

(a) The Congress finds that rapid changes in patterns of urban settlement, including change

in population distribution and economic bases of urban areas, have created an imbalance between the Nation's needs and resources and seriously threaten our physical and social environment, and the financial viability of our cities, and that the economic and social development of the Nation, the proper conservation of our energy and other natural resources, and the achievement of satisfactory living standards depend upon the sound, orderly, and more balanced development of all areas of the Nation.

(b) The Congress further finds that Federal programs affect the location of population, economic growth, and the character of urban development; that such programs frequently conflict and result in undesirable and costly patterns of urban development and redevelopment which adversely affect the environment and wastefully use energy and other natural resources; and that existing and future programs must be interrelated and coordinated within a system of orderly development and established priorities consistent with a national urban policy.

(c) To promote the general welfare and properly apply the resources of the Federal Government in strengthening the economic and social health of all areas of the Nation and more adequately protect the physical environment and conserve energy and other natural resources, the Congress declares that the Federal Government, consistent with the responsibilities of State and local government and the private sector, must assume responsibility for the development of a national urban policy which shall incorporate social, economic, and other appropriate factors. Such policy shall serve as a guide in making specific decisions at the national level which affect the pattern of urban development and redevelopment and shall provide a framework for development of interstate, State, and local urban policy.

(d) The Congress further declares that the national urban policy should—

(1) favor patterns of urbanization and economic development and stabilization which offer a range of alternative locations and encourage the wise and balanced use of physical and human resources in metropolitan and urban regions as well as in smaller urban places which have a potential for accelerated growth;

(2) foster the continued economic strength of all parts of the United States, including central cities, suburbs, smaller communities, local neighborhoods, and rural areas;

(3) encourage patterns of development and redevelopment which minimize disparities among States, regions, and cities;

(4) treat comprehensively the problems of poverty and employment (including the erosion of tax bases, and the need for better community services and job opportunities) which are associated with disorderly urbanization and rural decline;

(5) develop means to encourage good housing for all Americans without regard to race or creed;

(6) refine the role of the Federal Government in revitalizing existing communities and encouraging planned, large-scale urban and new community development;

(7) strengthen the capacity of general governmental institutions to contribute to balanced urban growth and stabilization; and

(8) increase coordination among Federal programs that seek to promote job opportunities and skills, decent and affordable housing, public safety, access to health care, educational opportunities, and fiscal soundness for urban communities and their residents.

(Pub. L. 91-609, title VII, §702, Dec. 31, 1970, 84 Stat. 1791; Pub. L. 95-128, title VI, §601(b), Oct. 12, 1977, 91 Stat. 1143; Pub. L. 98-479, title II, §204(i), Oct. 17, 1984, 98 Stat. 2233; Pub. L. 102-550, title IX, §921(1), Oct. 28, 1992, 106 Stat. 3883.)

§ 4541. Congressional findings and declaration of purpose

(a) The Congress finds that—

(1) alcohol is one of the most dangerous drugs and the drug most frequently abused in the United States;

(2) approximately ten million, or 7 percent, of the adults in the United States are alcoholics or problem drinkers;

(3) it is estimated that alcoholism and other alcohol related problems cost the United States over \$43,000,000,000 annually in lost production, medical and public assistance expenditures, police and court costs, and motor vehicle and other accidents;

(4) alcohol abuse is found with increasing frequency among persons who are multiple-drug abusers and among former heroin users who are being treated in methadone maintenance programs;

(5) alcohol abuse is being discovered among growing numbers of youth;

(6) alcohol abuse and alcoholism have a substantial impact on the families of alcohol abusers and alcoholics and contributes to domestic violence;

(7) alcohol abuse and alcoholism, together with abuse of other legal and illegal drugs, present a need for prevention and intervention programs designed to reach the general popu-

lation and members of high risk populations such as youth, women, the elderly, and families of alcohol abusers and alcoholics; and

(8) alcoholism is an illness requiring treatment and rehabilitation through the assistance of a broad range of community health and social services and with the cooperation of law enforcement agencies, employers, employee associations, and associations of concerned individuals.

(b) It is the policy of the United States and the purpose of this chapter to approach alcohol abuse and alcoholism from a comprehensive community care standpoint, and to meet the problems of alcohol abuse and alcoholism through—

(1) comprehensive Federal, State, and local planning for, and effective use of, Federal assistance to States, and direct Federal assistance to community-based programs to meet the urgent needs of special populations, in coordination with all other governmental and nongovernmental sources of assistance;

(2) the development of methods for diverting problem drinkers from criminal justice systems into prevention and treatment programs;

(3) the development and encouragement of prevention programs designed to combat the spread of alcoholism, alcohol abuse, and abuse of other legal and illegal drugs;

(4) the development and encouragement of effective occupational prevention and treatment programs within government and in cooperation with the private sector; and

(5) increased Federal commitment to research into the behavioral and biomedical etiology of, the treatment of, and the mental and physical health and social and economic consequences of, alcohol abuse and alcoholism.

§ 4605. Displaced persons not eligible for assistance

(a) In general

Except as provided in subsection (c) of this section, a displaced person shall not be eligible to receive relocation payments or any other assistance under this chapter if the displaced person is an alien not lawfully present in the United States.

(b) Determinations of eligibility

(1) Promulgation of regulations

SUBCHAPTER II—UNIFORM RELOCATION ASSISTANCE

§ 4621. Declaration of findings and policy

(a) Findings

The Congress finds and declares that—

(1) displacement as a direct result of programs or projects undertaken by a Federal agency or with Federal financial assistance is caused by a number of activities, including rehabilitation, demolition, code enforcement, and acquisition;

(2) relocation assistance policies must provide for fair, uniform, and equitable treatment of all affected persons;

(3) the displacement of businesses often results in their closure;

(4) minimizing the adverse impact of displacement is essential to maintaining the economic and social well-being of communities; and

(5) implementation of this chapter has resulted in burdensome, inefficient, and inconsistent compliance requirements and procedures which will be improved by establishing a lead agency and allowing for State certification and implementation.

(b) Policy

This subchapter establishes a uniform policy for the fair and equitable treatment of persons displaced as a direct result of programs or projects undertaken by a Federal agency or with

Federal financial assistance. The primary purpose of this subchapter is to ensure that such persons shall not suffer disproportionate injuries as a result of programs and projects designed for the benefit of the public as a whole and to minimize the hardship of displacement on such persons.

(c) Congressional intent

It is the intent of Congress that—

(1) Federal agencies shall carry out this subchapter in a manner which minimizes waste, fraud, and mismanagement and reduces unnecessary administrative costs borne by States and State agencies in providing relocation assistance;

(2) uniform procedures for the administration of relocation assistance shall, to the maximum extent feasible, assure that the unique circumstances of any displaced person are taken into account and that persons in essentially similar circumstances are accorded equal treatment under this chapter;

(3) the improvement of housing conditions of economically disadvantaged persons under this subchapter shall be undertaken, to the maximum extent feasible, in coordination with existing Federal, State, and local governmental programs for accomplishing such goals; and

(4) the policies and procedures of this chapter will be administered in a manner which is consistent with fair housing requirements and which assures all persons their rights under title VIII of the Act of April 11, 1968 (Public Law 90-284), commonly known as the Civil Rights Act of 1968 [42 U.S.C. 3601 et seq.], and title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.].

§ 4622. Moving and related expenses

(a) General provision

Whenever a program or project to be undertaken by a displacing agency will result in the displacement of any person, the head of the displacing agency shall provide for the payment to the displaced person of—

- (1) actual reasonable expenses in moving himself, his family, business, farm operation, or other personal property;
- (2) actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not to exceed an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the head of the agency;
- (3) actual reasonable expenses in searching for a replacement business or farm; and
- (4) actual reasonable expenses necessary to reestablish a displaced farm, nonprofit organization, or small business at its new site, but not to exceed \$25,000, as adjusted by regulation, in accordance with section 4633(d) of this title.

(b) Displacement from dwelling; election of payments; expense and dislocation allowance

Any displaced person eligible for payments under subsection (a) of this section who is displaced from a dwelling and who elects to accept the payments authorized by this subsection in lieu of the payments authorized by subsection (a) of this section may receive an expense and dislocation allowance, which shall be determined according to a schedule established by the head of the lead agency.

(c) Displacement from business or farm operation; election of payments; minimum and maximum amounts; eligibility

Any displaced person eligible for payments under subsection (a) of this section who is dis-

placed from the person's place of business or farm operation and who is eligible under criteria established by the head of the lead agency may elect to accept the payment authorized by this subsection in lieu of the payment authorized by subsection (a) of this section. Such payment shall consist of a fixed payment in an amount to be determined according to criteria established by the head of the lead agency, except that such payment shall not be less than \$1,000 nor more than \$40,000, as adjusted by regulation, in accordance with section 4633(d) of this title. A person whose sole business at the displacement dwelling is the rental of such property to others shall not qualify for a payment under this subsection.

(d) Certain utility relocation expenses

(1) Except as otherwise provided by Federal law—

(A) if a program or project (i) which is undertaken by a displacing agency, and (ii) the purpose of which is not to relocate or reconstruct any utility facility, results in the relocation of a utility facility;

(B) if the owner of the utility facility which is being relocated under such program or project has entered into, with the State or local government on whose property, easement, or right-of-way such facility is located, a franchise or similar agreement with respect to the use of such property, easement, or right-of-way; and

(C) if the relocation of such facility results in such owner incurring an extraordinary cost in connection with such relocation;

the displacing agency may, in accordance with such regulations as the head of the lead agency may issue, provide to such owner a relocation payment which may not exceed the amount of such extraordinary cost (less any increase in the value of the new utility facility above the value of the old utility facility and less any salvage value derived from the old utility facility).

(2) For purposes of this subsection, the term—

(A) "extraordinary cost in connection with a relocation" means any cost incurred by the owner of a utility facility in connection with relocation of such facility which is determined by the head of the displacing agency, under such regulations as the head of the lead agency shall issue—

- (i) to be a non-routine relocation expense;
- (ii) to be a cost such owner ordinarily does not include in its annual budget as an expense of operation; and
- (iii) to meet such other requirements as the lead agency may prescribe in such regulations; and

(B) "utility facility" means—

- (i) any electric, gas, water, steam power, or materials transmission or distribution system;
- (ii) any transportation system;
- (iii) any communications system (including cable television); and
- (iv) any fixtures, equipment, or other property associated with the operation, maintenance, or repair of any such system;

located on property which is owned by a State or local government or over which a State or

local government has an easement or right-of-way. A utility facility may be publicly, privately, or cooperatively owned.

1987—Subsec. (a). Pub. L. 100-17, §405(a)(1), inserted introductory provisions and struck out former introductory provisions which read as follows: “Whenever the acquisition of real property for a program or project undertaken by a Federal agency in any State will result in the displacement of any person on or after January 2, 1971, the head of such agency shall make a payment to any displaced person, upon proper application as approved by such agency head, for—”.

Subsec. (c). Pub. L. 100-17, §405(c), amended subsec. (c) generally. Prior to amendment, subsec. (c) read as follows: “Any displaced person eligible for payments under subsection (a) of this section who is displaced from his place of business or from his farm operation and who elects to accept the payment authorized by this subsection in lieu of the payment authorized by subsection (a) of this section, may receive a fixed payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall be not less than \$2,500 nor more than \$10,000. In the case of a business no payment shall be made under this subsection unless the head of the Federal agency is satisfied that the business (1) cannot be relocated without a substantial loss of its existing patronage, and (2) is not a part of a commercial enterprise having at least one other establishment not being acquired by the United States, which is engaged in the same or similar business. For purposes of this subsection, the term ‘average annual net earnings’ means one-half of any net earnings of the business or farm operation, before Federal, State, and local income taxes, during the two taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property acquired for such project, or during such other period as the head of such agency determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during such period.”

(B) The amount, if any, which will compensate such displaced person for any increased interest costs and other debt service costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than 180 days immediately prior to the initiation of negotiations for the acquisition of such dwelling.

(C) Reasonable expenses incurred by such displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses.

(b) The head of any Federal agency may, upon application by a mortgagee, insure any mortgage (including advances during construction) on a comparable replacement dwelling executed by a displaced person assisted under this section, which mortgage is eligible for insurance under any Federal law administered by such agency notwithstanding any requirements under such law relating to age, physical condition, or other personal characteristics of eligible mortgagors, and may make commitments for the insurance of such mortgage prior to the date of execution of the mortgage.

§ 4625. Relocation planning, assistance coordination, and advisory services

(a) Planning of programs or projects undertaken by Federal agencies or with Federal financial assistance

Programs or projects undertaken by a Federal agency or with Federal financial assistance

shall be planned in a manner that (1) recognizes, at an early stage in the planning of such programs or projects and before the commencement of any actions which will cause displacements, the problems associated with the displacement of individuals, families, businesses, and farm operations, and (2) provides for the resolution of such problems in order to minimize adverse impacts on displaced persons and to expedite program or project advancement and completion.

(b) Availability of advisory services

The head of any displacing agency shall ensure that the relocation assistance advisory services described in subsection (c) of this section are made available to all persons displaced by such agency. If such agency head determines that any person occupying property immediately adjacent to the property where the displacing activity occurs is caused substantial economic injury as a result thereof, the agency head may make available to such person such advisory services.

(c) Measures, facilities, or services; description

Each relocation assistance advisory program required by subsection (b) of this section shall include such measures, facilities, or services as may be necessary or appropriate in order to—

(1) determine, and make timely recommendations on, the needs and preferences, if any, of displaced persons for relocation assistance;

(2) provide current and continuing information on the availability, sales prices, and rental charges of comparable replacement dwellings for displaced homeowners and tenants and suitable locations for businesses and farm operations;

(3) assure that a person shall not be required to move from a dwelling unless the person has had a reasonable opportunity to relocate to a comparable replacement dwelling, except in the case of—

(A) a major disaster as defined in section 5122(2) of this title;

(B) a national emergency declared by the President; or

(C) any other emergency which requires the person to move immediately from the dwelling because continued occupancy of such dwelling by such person constitutes a substantial danger to the health or safety of such person;

(4) assist a person displaced from a business or farm operation in obtaining and becoming established in a suitable replacement location;

(5) supply (A) information concerning other Federal and State programs which may be of assistance to displaced persons, and (B) technical assistance to such persons in applying for assistance under such programs; and

(6) provide other advisory services to displaced persons in order to minimize hardships to such persons in adjusting to relocation.

(d) Coordination of relocation activities with other Federal, State, or local governmental actions

The head of a displacing agency shall coordinate the relocation activities performed by such agency with other Federal, State, or local governmental actions in the community which

could affect the efficient and effective delivery of relocation assistance and related services.

(e) Selection of implementation procedures

Whenever two or more Federal agencies provide financial assistance to a displacing agency other than a Federal agency, to implement functionally or geographically related activities which will result in the displacement of a person, the heads of such Federal agencies may agree that the procedures of one of such agencies shall be utilized to implement this subchapter with respect to such activities. If such agreement cannot be reached, then the head of the lead agency shall designate one of such agencies as the agency whose procedures shall be utilized to implement this subchapter with respect to such activities. Such related activities shall constitute a single program or project for purposes of this chapter.

(f) Tenants occupying property acquired for programs or projects; eligibility for advisory services

Notwithstanding section 4601(1) of this title, in any case in which a displacing agency acquires property for a program or project, any person who occupies such property on a rental basis for a short term or a period subject to termination when the property is needed for the program or project shall be eligible for advisory services to the extent determined by the displacing agency.

SUBCHAPTER III—UNIFORM REAL PROPERTY ACQUISITION POLICY

§ 4651. Uniform policy on real property acquisition practices

In order to encourage and expedite the acquisition of real property by agreements with owners, to avoid litigation and relieve congestion in the courts, to assure consistent treatment for owners in the many Federal programs, and to promote public confidence in Federal land acquisition practices, heads of Federal agencies shall, to the greatest extent practicable, be guided by the following policies:

(1) The head of a Federal agency shall make every reasonable effort to acquire expeditiously real property by negotiation.

(2) Real property shall be appraised before the initiation of negotiations, and the owner or his designated representative shall be given an opportunity to accompany the appraiser during his inspection of the property, except that the head of the lead agency may prescribe a procedure to

waive the appraisal in cases involving the acquisition by sale or donation of property with a low fair market value.

(3) Before the initiation of negotiations for real property, the head of the Federal agency concerned shall establish an amount which he believes to be just compensation therefor and shall make a prompt offer to acquire the property for the full amount so established. In no event shall such amount be less than the agency's approved appraisal of the fair market value of such property. Any decrease or increase in the fair market value of real property prior to the date of valuation caused by the public improvement for which such property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner, will be disregarded in determining the compensation for the property. The head of the Federal agency concerned shall provide the owner of real property to be acquired with a written statement of, and summary of the basis for, the amount he established as just compensation. Where appropriate the just compensation for the real property acquired and for damages to remaining real property shall be separately stated.

(4) No owner shall be required to surrender possession of real property before the head of the Federal agency concerned pays the agreed purchase price, or deposits with the court in accordance with section 3114(a) to (d) of title 40, for the benefit of the owner, an amount not less than the agency's approved appraisal of the fair market value of such property, or the amount of the award of compensation in the condemnation proceeding for such property.

(5) The construction or development of a public improvement shall be so scheduled that, to the greatest extent practicable, no person lawfully occupying real property shall be required to move from a dwelling (assuming a replacement dwelling as required by subchapter II of this chapter will be available), or to move his business or farm operation, without at least ninety days' written notice from the head of the Federal agency concerned, of the date by which such move is required.

(6) If the head of a Federal agency permits an owner or tenant to occupy the real property acquired on a rental basis for a short term or for a period subject to termination by the Government on short notice, the amount of rent required shall not exceed the fair rental value of the property to a short-term occupier.

(7) In no event shall the head of a Federal agency either advance the time of condemnation, or defer negotiations or condemnation and the deposit of funds in court for the use of the owner, or take any other action coercive in nature, in order to compel an agreement on the price to be paid for the property.

(8) If any interest in real property is to be acquired by exercise of the power of eminent domain, the head of the Federal agency concerned shall institute formal condemnation proceedings. No Federal agency head shall intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his real property.

(9) If the acquisition of only a portion of a property would leave the owner with an uneconomic remnant, the head of the Federal agency concerned shall offer to acquire that remnant. For the purposes of this chapter, an uneconomic remnant is a parcel of real property in which the owner is left with an interest after the partial acquisition of the owner's property and which the head of the Federal agency concerned has determined has little or no value or utility to the owner.

(10) A person whose real property is being acquired in accordance with this subchapter may, after the person has been fully informed of his right to receive just compensation for such property, donate such property, and part thereof, any interest therein, or any compensation paid therefor to a Federal agency, as such person shall determine.

(b)(1) For the purpose of determining the just compensation to be paid for any building, structure, or other improvement required to be acquired by subsection (a) of this section, such building, structure, or other improvement shall be deemed to be a part of the real property to be acquired notwithstanding the right or obligation of a tenant, as against the owner of any other interest in the real property, to remove such building, structure, or improvement at the expiration of his term, and the fair market value which such building, structure, or improvement contributes to the fair market value of the real property to be acquired, or the fair market value of such building, structure, or improvement for removal from the real property, whichever is the greater, shall be paid to the tenant therefor.

(2) Payment under this subsection shall not result in duplication of any payments otherwise authorized by law. No such payment shall be made unless the owner of the land involved disclaims all interest in the improvements of the tenant. In consideration for any such payment, the tenant shall assign, transfer, and release to the United States all his right, title, and interest in and to such improvements. Nothing in this subsection shall be construed to deprive the tenant of any rights to reject payment under this subsection and to obtain payment for such property interests in accordance with applicable law, other than this subsection.

(1) in acquiring real property it will be guided, to the greatest extent practicable under State law, by the land acquisition policies in section 4651 of this title and the provisions of section 4652 of this title, and

(2) property owners will be paid or reimbursed for necessary expenses as specified in sections 4653 and 4654 of this title.

§ 4701. Congressional findings and declaration of policy

The Congress hereby finds and declares—

That effective State and local governmental institutions are essential in the maintenance and development of the Federal system in an increasingly complex and interdependent society.

That, since numerous governmental activities administered by the State and local governments are related to national purpose and are financed in part by Federal funds, a national interest exists in a high caliber of public service in State and local governments.

That the quality of public service at all levels of government can be improved by the development of systems of personnel administration consistent with such merit principles as—

- (1) recruiting, selecting, and advancing employees on the basis of their relative ability, knowledge, and skills, including open consideration of qualified applicants for initial appointment;
- (2) providing equitable and adequate compensation;
- (3) training employees, as needed, to assure high-quality performance;
- (4) retaining employees on the basis of the adequacy of their performance, correcting inadequate performance, and separating employees whose inadequate performance cannot be corrected;
- (5) assuring fair treatment of applicants and employees in all aspects of personnel administration without regard to political affiliation, race, color, national origin, sex, or religious creed and with proper regard for their privacy and constitutional rights as citizens; and
- (6) assuring that employees are protected against coercion for partisan political purposes and are prohibited from using their official authority for the purpose of interfering with or affecting the result of an election or a nomination for office.

That Federal financial and technical assistance to State and local governments for strengthening their personnel administration in a manner consistent with these principles is in the national interest.

"Office of Personnel Management" and "Office" substituted in text for "United States Civil Service Commission" and "Commission", respectively, pursuant to Reorg. Plan No. 2 of 1978, § 102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred all functions vested by statute in United States Civil Service Commission and Chairman thereof to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1-102 of Ex. (a) Population served; amount of grants; executive certification; State grant, conditions

The Office is authorized to make grants to a general local government, or a combination of general local governments, that serve a population of fifty thousand or more, for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs or projects, on the certification of the mayor(s), or chief executive officer(s), of the general local government or combination of local govern-

ments that the programs or projects are consistent with the applicable principles set forth in clauses (1)–(6) of the third paragraph of section 4701 of this title, to strengthen the personnel administration of such governments. Such a grant may not be made—

(1) if, at the time of submission of an application, the State concerned has an approved plan which, with the agreement of the particular local government concerned, provides for strengthening one or more aspects of personnel administration in that local government, unless the local government concerned has problems which are not met by the previously approved plan and for which, with the agreement of the State government concerned with respect to those aspects of personnel administration covered in the approved plan, it is submitting an application; or

(2) after the State concerned has a statewide plan which has been developed by an appropriate State agency designated or established pursuant to State law which provides such agency with adequate authority, administrative organization, and staffing to develop and administer such a statewide plan, and to provide technical assistance and other appropriate support in carrying out the local components of the plan, and which provides procedures insuring adequate involvement of officials of affected local governments in the development and administration of such a statewide plan, unless the local government concerned has special, unique, or urgent problems which are not met by the approved statewide plan and for which it submits an application for funds to be distributed under section 4766(a) of this title.

Upon the request of a Governor or chief executive authority, a grant to a general local government or combination of such governments in that State may not be made during a period not to exceed ninety days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later: *Provided*, That the request of the Governor or chief executive authority indicates that he is developing a plan under (1) above, or during a period not to exceed one hundred and eighty days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later, provided the request of the Governor or chief executive authority indicates that he is developing a statewide plan under (2) above.

by the Office, and the requirements of subsection (c) of this section. Such a grant may cover the costs of developing the program or project covered by the application. The Office may make grants to general local governments, or combinations of such governments, that serve a population of less than fifty thousand, if it finds that such grants will help meet essential needs in programs or projects of national interest and will assist general local governments experiencing special problems in personnel administration related to such programs or projects.

(c) Gubernatorial review of application; disapproval explanation

An application to be submitted to the Office under subsection (b) of this section shall first be submitted by the general local government or combination of such governments to the Governor for review, comments, and recommendations. The Governor may refer the application to the State office designated under section 4722(b)(1) of this title for review. Comments and recommendations (if any) made as a result of the review, and a statement by the general local government or combination of such governments that it has considered the comments and recommendations of the Governor shall accompany the application to the Office. The application need not be accompanied by the comments and recommendations of the Governor if the general local government or combination of such governments certifies to the Office that the application has been before the Governor for review and comment for a period of sixty days without comment by the Governor. An explanation in writing shall be sent to the Governor of a State by the Office whenever the Office does not concur with recommendations of the Governor in approving any local government applications.

TRANSFER OF FUNCTIONS

"Office", meaning Office of Personnel Management, substituted for "Commission", meaning Civil Service Commission, in subsec. (c) pursuant to Reorg. Plan No. 2 of 1978, §102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred functions vested by statute in Civil Service Commission and Chairman thereof to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1-102 of Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

§ 4743. Grants to State and local governments for training

(a) Amount of grants; executive certification; use restrictions; uses for non-Federal share; personnel training and education programs; innovation and diversity in development and execution

If in its judgment training is not adequately provided for under grant-in-aid or other statutes, the Office is authorized to make grants to State and general local governments for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs, on the certification of the Governor of that State, or the mayor or chief executive officer of the general local government, that the programs are consistent with the applicable principles set forth in clauses (1)-(6) of the third paragraph of section 4701 of this title, to train and educate their professional, administrative, and technical employees and officials. Such grants may not be used to cover costs of full-time graduate-level study, provided for in section 4745 of this title, or the costs of the construction or acquisition of training facilities. The State and local government share of the cost of developing and carrying out training and education plans and programs may include, but shall not consist solely of, the reasonable value of facilities and of supervisory and other personal services made available by such governments. The authority provided by this section shall be employed in such a manner as to encourage innovation and allow for diversity on the part of State and local governments in developing and carrying out training and education programs for their personnel.

(b) Application; time of making; information; terms and conditions; waiver; development costs

An application for a grant from a State or general local government shall be made at such time or times, and shall contain such information, as the Office may prescribe. The Office may make a grant under subsection (a) of this section, only if the application therefor meets requirements established by this subsection unless any requirement is specifically waived by the Office. Such grant to a State, or to a general local government under subsection (c) of this section, may cover the costs of developing the program covered by the application. The program covered by the application shall—

(1) provide for designation, by the Governor or chief executive authority, of the State office that will have primary authority and responsibility for the development and administration of the program at the State level;

(2) provide, to the extent feasible, for coordination with relevant training available under or supported by other Federal Government programs or grants;

(3) provide for training needs of the State government and of local governments in that State;

(4) provide, to the extent feasible, for intergovernmental cooperation in employee train-

ing matters, especially within metropolitan or regional areas; and

(5) provide assurance that the making of a Federal Government grant will not result in a reduction in relevant State or local government expenditures or the substitution of Federal funds for State or local funds previously made available for these purposes.

(c) Population served; amount of grants; executive certification; State grant, conditions; terms and conditions; waiver

A grant authorized by subsection (a) of this section may be made to a general local government, or a combination of such governments, that serve a population of fifty thousand or more, for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs or projects, on the certification of the mayor(s), or chief executive officer(s), of the general local government or combination of local governments that the programs or projects are consistent with the applicable principles set forth in clauses (1)–(6) of the third paragraph of section 4701 of this title to train and educate their professional, administrative, and technical employees and officials. Such a grant may not be made—

(1) if, at the time of submission of an application, the State concerned has an approved plan which, with the agreement of the particular local government concerned, provides for strengthening one or more aspects of training in that local government, unless the local government concerned has problems which are not met by the previously approved plan and for which, with the agreement of the State government concerned with respect to those aspects of training covered in the approved plan, it is submitting an application; or

(2) after the State concerned has a statewide plan which has been developed by an appropriate State agency designated or established pursuant to State law which provides such agency with adequate authority, administrative organization, and staffing to develop and administer such a statewide plan, and to provide technical assistance and other appropriate support in carrying out the local components of the plan, and which provides procedures insuring adequate involvement of officials of affected local governments in the development and administration of such a statewide plan, unless the local government concerned has special, unique, or urgent problems which are not met by the approved statewide plan and for which it submits an application for funds to be distributed under section 4766(a) of this title.

Upon the request of a Governor or chief executive authority, a grant to a general local government or combination of such governments in that State may not be made during a period not to exceed ninety days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later: *Provided*, That the request of the Governor or chief execu-

tive authority indicates that he is developing a plan under (1) above, or during a period not to exceed one hundred and eighty days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later, provided the request of the Governor or chief executive authority indicates that he is developing a statewide plan under (2) above. To be approved, an application for a grant under this subsection must meet requirements similar to those established in subsection (b) of this section for State applications, unless any such requirement is specifically waived by the Office, and the requirements of subsection (d) of this section. The Office may make grants to general local governments, or combinations of such governments that serve a population of less than fifty thousand if it finds that such grants will help meet essential needs in programs or projects of national interest and will assist general local governments experiencing special needs for personnel training and education related to such programs or projects.

(d) Gubernatorial review of application; disapproval explanation

An application to be submitted to the Office under subsection (c) of this section shall first be submitted by the general local government or combination of such governments to the Governor for review, comments, and recommendations. The Governor may refer the application to the State office designated under subsection (b)(1) of this section for review. Comments and recommendations (if any) made as a result of the review and a statement by the general local government or combination of such governments that it has considered the comments and recommendations of the Governor shall accompany the application to the Office. The application need not be accompanied by the comments and recommendations of the Governor if the general local government or combination of such governments certifies to the Office that the application has been before the Governor for review and comment for a period of sixty days without comment by the Governor. An explanation in writing shall be sent to the Governor of a State by the Office whenever the Office does not concur with recommendations of the Governor in approving any local government applications.
