(a) **PROHIBITION.**—The Secretary of a military department may not implement, or be required to implement, a new readiness system for units of the Armed Forces (as outlined in sections 329 and 330), under which a military unit would be categorized into one of several categories (known as “tiers”) according to the likelihood that the unit will be required to respond to a military conflict and the time in which the unit will be required to respond, if that system would have the effect of changing the methods used as of October 1, 1996, by the Armed Forces under the jurisdiction of that Secretary for determining the priorities for allocating to such military units funding, personnel, equipment, equipment maintenance, and training resources, and the associated levels of readiness of those units that result from those priorities.

(b) **REPORT TO CONGRESS REQUESTING WAIVER.**—If the Secretary of Defense determines, following the review required by sections 329 and 330 (or any similar review), that implementation for one or more of the Armed Forces of a tiered readiness system that is prohibited by subsection (a) would be in the national security interests of the United States, the Secretary shall submit to Congress a report setting forth that determination, together with the rationale for that determination, and a request for the enactment of legislation to allow implementation of such a system.

(2) That the forces available for deployment are the forces included in the force structure recommended in the Quadrennial Defense Review, including all other planned force enhancements.

(ii) Combat-ready crises response forces that are capable of mobilizing and deploying within 10 days after receipt of orders.

(B) Combat-ready follow-on forces, or “Tier II” forces, that can be mobilized and deployed to a theater within approximately 60 days after receipt of orders.

(C) Combat-ready conflict resolution forces, or “Tier III” forces, that can be mobilized and deployed to a theater within approximately 180 days after receipt of orders.

(D) All other active and reserve component force units which are not categorized within a classification described in subparagraph (A), (B), or (C).

(2) For the purposes of paragraph (1), the following units are major units:

(A) In the case of the Army or Marine Corps, a brigade and a battalion.

(B) In the case of the Navy, a squadron of aircraft, a ship, and a squadron of ships.

(C) In the case of the Air Force, a squadron of aircraft.

(e) PROJECTION OF SAVINGS FOR USE FOR MODERNIZATION.—The report shall include a projection for fiscal years 1998 through 2003 of the amounts of the savings in operation and maintenance funding that—

(1) could be derived by each of the Armed Forces by placing as many units as is practicable into the lower readiness categories among the tiers; and

(2) could be made available for force modernization.

(f) FORM OF REPORT.—The report under this section shall be submitted in unclassified form, but may contain a classified annex.

(g) PLANNED FORCE ENHANCEMENT DEFINED.—In this section, the term “planned force enhancement”, with respect to the force structure recommended in the Quadrennial Defense Review, means any future improvement in the capability of the force (including current strategic and future improvement in strategic lift capability) that is assumed in the development of the recommendation for the force structure set forth in the Quadrennial Defense Review.

(b) **READINESS POSTURE.**—(1) The readiness posture to be covered by the report under subsection (a) is a readiness posture for units of the Armed Forces, or for designated units of the Armed Forces, that provides for a rotation of such units between a state of high readiness and a state of low readiness.

(2) As part of the evaluation of the readiness posture described in paragraph (1), the report shall address in particular a readiness posture that—

(A) establishes within the Armed Forces two equivalent forces each structured so as to be capable of fighting and winning a major theater war; and

(B) provides for an alternating rotation of such forces between a state of high readiness and a state of low readiness.

(3) The evaluation of the readiness posture described in paragraph (2) shall be based upon assumptions permitting comparison with the existing force structure as follows:

(A) That there are assembled from among the units of the Armed Forces two equivalent forces each structured so as to be capable of fighting and winning a major theater war.

(B) That each force referred to in subparagraph (A) includes—

(i) four active Army divisions, including one mechanized division, one armored division, one light infantry division, and one division combining airborne units and air assault units, and appropriate support and service support units for such divisions;

(ii) six divisions (or division equivalents) of the Army National Guard or the Army Reserve that are essentially equivalent in structure, and appropriate support and service support units for such divisions;

(iii) six aircraft carrier battle groups;

(iv) six active Air Force fighter wings (or fighter wing equivalents);

(v) four Air Force reserve fighter wings (or fighter wing equivalents); and

(vi) one active Marine Corps expeditionary force.

(C) That each force may be supplemented by critical units or units in short supply, including heavy bomber units, strategic lift units, and aerial reconnaissance units, that are not subject to the readiness rotation otherwise assumed for purposes of the evaluation or are subject to the rotation on a modified basis.

(D) That units of the Armed Forces not assigned to a force are available for operations other than those essential to fight and win a major theater war, including peace operations.

(E) That the state of readiness of each force alternates between a state of high readiness and a state of low readiness on a frequency determined by the Secretary (but not more often than once every six months) and with only one force at a given state of readiness at any one time.

(F) That, during the period of state of high readiness of a force, any operations or activities (including leave and education and training of personnel) that detract from the near-term wartime readiness of the force are temporary and their effects on such state of readiness minimized.

(G) That units are assigned overseas during the period of state of high readiness of the force to which the units are assigned primarily on a temporary duty basis.

(H) That, during the period of high readiness of a force, the operational war plans for the force incorporate the divisions (or division equivalents) of the Army Reserve or Army National Guard assigned to the force in a manner such that one such division (or division equivalent) is, on a rotating basis for such divisions (or division equivalents) during the period, maintained in a high state of readiness and dedicated as the first reserve combat division to be transferred overseas in the event of a major theater war.

(c) REPORT ELEMENTS.—The report under this section shall include the following elements for the readiness posture described in subsection (b)(2):

(1) An estimate of the range of cost savings achievable over the long term as a result of implementing the readiness posture, including—

(A) the savings achievable from reduced training levels and readiness levels during periods in which a force referred to in subsection (b)(3)(A) is in a state of low readiness; and

(B) the savings achievable from reductions in costs of infrastructure overseas as a result of reduced permanent change of station rotations.

(2) An assessment of the potential risks associated with a lower readiness status for units assigned to a force in a state of low readiness under the readiness posture, including the risks associated with the delayed availability of such units overseas in the event of two nearly simultaneous major theater wars.

(3) An assessment of the potential risks associated with requiring the forces under the readiness posture to fight a major war in any theater worldwide.

(4) An assessment of the modifications of the current force structure of the Armed Forces that are necessary to achieve the range of cost savings estimated under paragraph (1), including the extent of the diminishment, if any, of the military capabilities of the Armed Forces as a result of the modifications.

(5) An assessment whether or not the risks of diminished military capability associated with implementation of the readiness posture exceed the risks of diminished military capability associated with the modifications of the current force structure necessary to achieve cost savings equivalent to the best case for cost savings resulting from the implementation of the readiness posture.

(d) **FORM OF REPORT.**—The report under this section shall be submitted in unclassified form, but may contain a classified annex.

(e) **DEFINITIONS.**—In this section:

(1) The term “state of high readiness”, in the case of a military force, means the capability to mobilize first-to-arrive units of the force within 18 hours and last-to-arrive units within 120 days of a particular event.

SEC. 366. REVIEW OF USE OF TEMPORARY DUTY ASSIGNMENTS FOR SHIP REPAIR AND MAINTENANCE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) In order to reduce the time that the crew of a naval vessel is away from the homeport of the vessel, the Navy seeks to perform ship repair and maintenance of the vessel at the homeport of the vessel whenever it takes six months or less to accomplish the work involved.

(2) At the same time, the Navy seeks to distribute ship repair and maintenance work among the Navy shipyards (known as to “level load”) in order to more fully utilize personnel resources.

(3) During periods when a Navy shipyard is not utilized to its capacity, the Navy sometimes sends workers at the shipyard, on a temporary duty basis, to perform ship repairs and maintenance at a homeport not having a Navy shipyard.

(4) This practice is a more efficient use of civilian employees who might otherwise not be fully employed on work assigned to Navy shipyards.

(b) **COMPTROLLER GENERAL REVIEW AND REPORT.**—(1) The Comptroller General shall review the Navy’s practice of using temporary duty assignments of personnel to perform ship maintenance and repair work at homeports not having Navy shipyards. The review shall include the following:

(B) A determination of whether the practice is cost-effective.

(C) The factors affecting future requirements for, and the adherence to, the practice, together with an assessment of the factors.

- (2) Norwich University.
- (3) The Virginia Military Institute.
- (4) The Citadel.
- (5) Virginia Polytechnic Institute and State University.
- (6) North Georgia College and State University.

(b) FINDINGS.—Congress finds the following:

(1) The senior military colleges consistently have provided substantial numbers of highly qualified, long-serving leaders to the Armed Forces.

(2) The quality of the military leaders produced by the senior military colleges is, in part, the result of the rigorous military environment imposed on students attending the senior military colleges by the colleges, as well as the result of the long-standing close support relationship between the Corps of Cadets at each college and the Reserve Officer Training Corps personnel at the colleges who serve as effective leadership role models and mentors.

(3) In recognition of the quality of the young leaders produced by the senior military colleges, the Department of

Defense and the military services have traditionally maintained special relationships with the colleges, including the policy to grant active duty service in the Army to graduates of the colleges who desire such service and who are recommended for such service by their ROTC professors of military science.

(4) Each of the senior military colleges has demonstrated an ability to adapt its systems and operations to changing conditions in, and requirements of, the Armed Forces without compromising the quality of leaders produced and without interruption of the close relationship between the colleges and the Department of Defense.

(c) SENSE OF CONGRESS.—In light of the findings in subsection (b), it is the sense of Congress that—

note.

(1) the proposed initiative of the Secretary of the Army to end the commitment to active duty service for all graduates of senior military colleges who desire such service and who are recommended for such service by their ROTC professors of military science is short-sighted and contrary to the long-term interests of the Army;

(2) as they have in the past, the senior military colleges can and will continue to accommodate to changing military requirements to ensure that future graduates entering military service continue to be officers of superb quality who are quickly assimilated by the Armed Forces and fully prepared to make significant contributions to the Armed Forces through extended military careers; and

(3) decisions of the Secretary of Defense or the Secretary of a military department that fundamentally and unilaterally change the long-standing relationship of the Armed Forces with the senior military colleges are not in the best interests of the Department of Defense or the Armed Forces and are patently unfair to students who made decisions to enroll in the senior military colleges on the basis of existing Department and Armed Forces policy.

(d) CONTINUATION OF SUPPORT FOR SENIOR MILITARY COLLEGES.—Section 2111a of title 10, United States Code, is amended—

(1) by redesignating subsection (d) as subsection (f); and

(2) by inserting after subsection (c) the following new subsections:

“(d) TERMINATION OR REDUCTION OF PROGRAM PROHIBITED.—The Secretary of Defense and the Secretaries of the military departments may not take or authorize any action to terminate or reduce a unit of the Senior Reserve Officers’ Training Corps at a senior military college unless the termination or reduction is specifically requested by the college.

“(e) ASSIGNMENT TO ACTIVE DUTY.—(1) The Secretary of the Army shall ensure that a graduate of a senior military college who desires to serve as a commissioned officer on active duty upon graduation from the college, who is medically and physically qualified for active duty, and who is recommended for such duty by the professor of military science at the college, shall be assigned to active duty. This paragraph shall apply to a member of the program at a senior military college who graduates from the college after March 31, 1997.

“(2) Nothing in this section shall be construed to prohibit the Secretary of the Army from requiring a member of the program

who graduates from a senior military college to serve on active duty.”

(e) TECHNICAL CORRECTIONS.—Subsection (f) of such section, as redesignated by subsection (d)(1), is amended—

(1) in paragraph (2), by striking out “College” and inserting in lieu thereof “University”; and

(2) in paragraph (6), by inserting before the period the following: “and State University”.

(3) The disadvantages of permitting United States nationals to participate in the Senior Reserve Officers' Training Corps program.

(4) The incremental cost of including United States nationals in the Senior Reserve Officers' Training Corps.

(5) Methods of minimizing the risk that United States nationals admitted to the Senior Reserve Officers' Training Corps would be later disqualified because of ineligibility for United States citizenship.

(1) Review the overall process used by the Department of the Army for selection of drill sergeants to determine—

(A) whether that process is providing drill sergeant candidates in sufficient quantity and quality to meet the needs of the training system; and

Forces, representatives from educational organizations, and leaders from civilian industry and other Government agencies.

(3) Factors that define appropriate military job qualifications, including physical, mental, and educational factors.

(2) A vacancy in the membership shall not affect the commission's powers, but shall be filled in the same manner as the original appointment.

SEC. 562. DUTIES.

(a) FUNCTIONS RELATING TO REQUIREMENTS AND RESTRICTIONS REGARDING CROSS-GENDER RELATIONSHIPS.—The commission shall consider issues relating to personal relationships of members of the Armed Forces as follows:

(1) Review the laws, regulations, policies, directives, and practices that govern personal relationships between men and women in the Armed Forces and personal relationships between members of the Armed Forces and non-military personnel of the opposite sex.

(2) Assess the extent to which the laws, regulations, policies, and directives have been applied consistently throughout the Armed Forces without regard to the armed force, grade, rank, or gender of the individuals involved.

(3) Assess the reports of the independent panel, the Department of Defense task force, and the review of existing guidance on fraternization and adultery that have been required by the Secretary of Defense.

(b) FUNCTIONS RELATING TO GENDER-INTEGRATED AND GENDER-SEGREGATED BASIC TRAINING.—(1) The commission shall review the parts of the initial entry training programs of the Army, Navy, Air Force, and Marine Corps that constitute the basic training of new recruits (in this subtitle referred to as "basic training"). The review shall include a review of the basic training policies and practices of each of those services with regard to gender-integrated and gender-segregated basic training and, for each of the services, the effectiveness of gender-integrated and gender-segregated basic training.

(2) As part of the review under paragraph (1), the commission shall (with respect to each of the services) take the following measures:

(A) Determine how each service defines gender-integration and gender-segregation in the context of basic training.

(B) Determine the historical rationales for the establishment and disestablishment of gender-integrated or gender-segregated basic training.

(C) Examine, with respect to each service, the current rationale for the use of gender-integrated or gender-segregated basic training and the rationale that was current as of the time the service made a decision to integrate, or to segregate, basic training by gender (or as of the time of the most recent decision to continue to use a gender-integrated format or a

gender-segregated format for basic training), and, as part of the examination, evaluate whether at the time of that decision, the Secretary of the military department with jurisdiction over that service had substantive reason to believe, or has since developed data to support, that gender-integrated basic training, or gender-segregated basic training, improves the readiness or performance of operational units.

(D) Assess whether the concept of "training as you will fight" is a valid rationale for gender-integrated basic training or whether the training requirements and objectives for basic training are sufficiently different from those of operational units so that such concept, when balanced against other factors relating to basic training, might not be a sufficient rationale for gender-integrated basic training.

(E) Identify the requirements unique to each service that could affect a decision by the Secretary concerned to adopt a gender-integrated or gender-segregated format for basic training and assess whether the format in use by each service has been successful in meeting those requirements.

(F) Assess, with respect to each service, the degree to which different standards have been established, or if not established are in fact being implemented, for males and females in basic training for matters such as physical fitness, physical performance (such as confidence and obstacle courses), military skills (such as marksmanship and hand-grenade qualifications), and nonphysical tasks required of individuals and, to the degree that differing standards exist or are in fact being implemented, assess the effect of the use of those differing standards.

(G) Identify the goals that each service has set forth in regard to readiness, in light of the gender-integrated or gender-segregated format that such service has adopted for basic training, and whether that format contributes to the readiness of operational units.

(H) Assess the degree to which performance standards in basic training are based on military readiness.

(I) Evaluate the policies of each of the services regarding the assignment of adequate numbers of female drill instructors in gender-integrated training units who can serve as role models and mentors for female trainees.

(J) Review Department of Defense and military department efforts to objectively measure or evaluate the effectiveness of gender-integrated basic training, as compared to gender-segregated basic training, particularly with regard to the adequacy and scope of the efforts and with regard to the relevancy of findings to operational unit requirements, and determine whether the Department of Defense and the military departments are capable of measuring or evaluating the effectiveness of that training format objectively.

(K) Compare the pattern of attrition in gender-integrated basic training units with the pattern of attrition in gender-segregated basic training units and assess the relevancy of the findings of such comparison.

(L) Compare the level of readiness and morale of gender-integrated basic training units with the level of readiness and morale of gender-segregated units, and assess the relevancy of the findings of such comparison and the implications, for readiness, of any differences found.

(M) Compare the experiences, policies, and practices of the armed forces of other industrialized nations regarding gender-integrated training with those of the Army, Navy, Air Force, and Marine Corps.

(N) Review, and take into consideration, the current practices, relevant studies, and private sector training concepts pertaining to gender-integrated training.

(O) Assess the feasibility and implications of conducting basic training (or equivalent training) at the company level and below through separate units for male and female recruits, including the costs and other resource commitments required to implement and conduct basic training in such a manner and the implications for readiness and unit cohesion.

(P) Assess the feasibility and implications of requiring drill instructors for basic training units to be of the same sex as the recruits in those units if the basic training were to be conducted as described in subparagraph (O).

(c) FUNCTIONS RELATING TO BASIC TRAINING PROGRAMS GENERALLY.—The commission shall review the course objectives, structure, and length of the basic training programs of the Army, Navy, Air Force, and Marine Corps. The commission shall also review the relationship between those basic training objectives and the advanced training provided in the initial entry training programs of each of those services. As part of that review, the commission shall (with respect to each of those services) take the following measures:

(1) Determine the current end-state objectives established for graduates of basic training, particularly in regard to—

(A) physical conditioning;

(B) technical and physical skills proficiency;

(C) knowledge;

(D) military socialization, including the inculcation of service values and attitudes; and

(E) basic combat operational requirements.

(2) Assess whether those current end-state objectives, and basic training itself, should be modified (in structure, length, focus, program of instruction, training methods or otherwise) based, in part, on the following:

(A) An assessment of the perspectives of operational units on the quality and qualifications of the initial entry training graduates being assigned to those units, considering in particular whether the basic training system produces graduates who arrive in operational units with an appropriate level of skills, physical conditioning, and degree of military socialization to meet unit requirements and needs.

(B) An assessment of the demographics, backgrounds, attitudes, experience, and physical fitness of new recruits entering basic training, considering in particular the question of whether, given the entry level demographics, education, and background of new recruits, the basic training systems and objectives are most efficiently and effectively structured and conducted to produce graduates who meet service needs.

(C) An assessment of the perspectives of personnel who conduct basic training with regard to measures required to improve basic training.

(3) Assess the extent to which the initial entry training programs of each of the services continue, after the basic training phases of the programs, effectively to reinforce and advance the military socialization (including the inculcation of service values and attitudes), the physical conditioning, and the attainment and improvement of knowledge and proficiency in fundamental military skills that are begun in basic training.

(d) RECOMMENDATIONS.—The commission shall prepare—

(1) with respect to each of the Army, Navy, Air Force, and Marine Corps, an evaluation of gender-integrated and gender-segregated basic training programs, based upon the review under subsection (b);

(2) recommendations for such changes to the current system of basic training as the commission considers warranted; and

(3) recommendations for such changes to laws, regulations, policies, directives, and practices referred to in subsection (a)(1) as the commission considers warranted.

(e) REPORTS.—(1) Not later than April 15, 1998, the commission shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report setting forth a strategic plan for the work of the commission and the activities and initial findings of the commission.

(2) Not later than September 16, 1998, the commission shall submit a final report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives. The final report shall set forth the activities, findings, and recommendations of the commission, including any recommendations for congressional action and administrative action that the commission considers appropriate. SEC. 603. CONSOLIDATION OF BASIC ALLOWANCE FOR QUARTERS, VARIABLE HOUSING ALLOWANCE, AND OVERSEAS HOUSING ALLOWANCES.

(a) CONSOLIDATION OF ALLOWANCES.—Section 403 of title 37, United States Code, is amended to read as follows:

“§ 403. Basic allowance for housing

“(a) GENERAL ENTITLEMENT.—(1) Except as otherwise provided by law, a member of a uniformed service who is entitled to basic pay is entitled to a basic allowance for housing at the monthly rates prescribed under this section or another provision of law with regard to the applicable component of the basic allowance for housing. The amount of the basic allowance for housing for a member will vary according to the pay grade in which the member is assigned or distributed for basic pay purposes, the dependency status of the member, and the geographic location of the member. The basic allowance for housing may be paid in advance.

“(2) A member of a uniformed service with dependents is not entitled to a basic allowance for housing as a member with dependents unless the member makes a certification to the Secretary concerned indicating the status of each dependent of the member. The certification shall be made in accordance with regulations prescribed by the Secretary of Defense.

“(b) BASIC ALLOWANCE FOR HOUSING INSIDE THE UNITED STATES.—(1) The Secretary of Defense shall determine the costs of adequate housing in a military housing area in the United States for all members of the uniformed services entitled to a basic allowance for housing in that area. The Secretary shall base the determination upon the costs of adequate housing for civilians with comparable income levels in the same area.

“(2) Subject to paragraph (3), the monthly amount of a basic allowance for housing for an area of the United States for a member of a uniformed service is equal to the difference between—

“(A) the monthly cost of adequate housing in that area, as determined by the Secretary of Defense, for members of the uniformed services serving in the same pay grade and with the same dependency status as the member; and

“(B) 15 percent of the national average monthly cost of adequate housing in the United States, as determined by the Secretary, for members of the uniformed services serving in

the same pay grade and with the same dependency status as the member.

“(3) The rates of basic allowance for housing shall be reduced as necessary to comply with this paragraph. The total amount that may be paid for a fiscal year for the basic allowance for housing under this subsection is the product of—

“(A) the total amount authorized to be paid for such allowance for the preceding fiscal year (as adjusted under paragraph (5)); and

“(B) a fraction—

“(i) the numerator of which is the index of the national average monthly cost of housing for June of the preceding fiscal year; and

“(ii) the denominator of which is the index of the national average monthly cost of housing for June of the fiscal year before the preceding fiscal year.

“(4) An adjustment in the rates of the basic allowance for housing under this subsection as a result of the Secretary's redetermination of housing costs in an area shall take effect on the same date as the effective date of the next increase in basic pay under section 1009 of this title or other provision of law.

“(5) In making a determination under paragraph (3) for a fiscal year, the amount authorized to be paid for the preceding fiscal year for the basic allowance for housing shall be adjusted to reflect changes during the year for which the determination is made in the number, grade distribution, geographic distribution in the United States, and dependency status of members of the uniformed services entitled to the allowance from the number of such members during the preceding fiscal year.

“(6) So long as a member of a uniformed service retains uninterrupted eligibility to receive a basic allowance for housing within an area of the United States, the monthly amount of the allowance for the member may not be reduced as a result of changes in housing costs in the area, changes in the national average monthly cost of housing, or the promotion of the member.

“(7) In the case of a member without dependents who is assigned to duty inside the United States, the location or the circumstances of which make it necessary that the member be reassigned under the conditions of low-cost or no-cost permanent change of station or permanent change of assignment, the member may be treated as if the member were not reassigned if the Secretary concerned determines that it would be inequitable to base the member's entitlement to, and amount of, a basic allowance for housing on the cost of housing in the area to which the member is reassigned.

“(c) BASIC ALLOWANCE FOR HOUSING OUTSIDE THE UNITED STATES.—(1) The Secretary of Defense may prescribe an overseas basic allowance for housing for a member of a uniformed service who is on duty outside of the United States. The Secretary shall establish the basic allowance for housing under this subsection on the basis of housing costs in the overseas area in which the member is assigned.

“(2) So long as a member of a uniformed service retains uninterrupted eligibility to receive a basic allowance for housing in an overseas area and the actual monthly cost of housing for the member is not reduced, the monthly amount of the allowance in an area outside the United States may not be reduced as a result

of changes in housing costs in the area or the promotion of the member. The monthly amount of the allowance may be adjusted to reflect changes in currency rates.

“(d) BASIC ALLOWANCE FOR HOUSING WHEN DEPENDENTS ARE UNABLE TO ACCOMPANY MEMBER.—(1) A member of a uniformed service with dependents who is on permanent duty at a location described in paragraph (2) is entitled to a family separation basic allowance for housing under this subsection at a monthly rate equal to the rate of the basic allowance for housing established under subsection (b) or the overseas basic allowance for housing established under subsection (c), whichever applies to that location, for members in the same grade at that location without dependents.

“(2) A permanent duty location referred to in paragraph (1) is a location—

“(A) to which the movement of the member’s dependents is not authorized at the expense of the United States under section 406 of this title, and the member’s dependents do not reside at or near the location; and

“(B) at which quarters of the United States are not available for assignment to the member.

“(3) In the case of a member with dependents who is assigned to duty at a location or under circumstances that, as determined by the Secretary concerned, require the member’s dependents to reside at a different location, the member shall receive a basic allowance for housing, as provided in subsection (a) or (b), as if the member were assigned to duty in the area in which the dependents reside, regardless of whether the member resides in quarters of the United States or is also entitled to a family separation basic allowance for housing by reason of paragraph (1).

“(4) The family separation basic allowance for housing under this subsection shall be in addition to any other allowance or per diem that the member is otherwise entitled to receive under this title. A member may receive a basic allowance for housing under both paragraphs (1) and (3).

“(e) EFFECT OF ASSIGNMENT TO QUARTERS.—(1) Except as otherwise provided by law, a member of a uniformed service who is assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service appropriate to the grade, rank, or rating of the member and adequate for the member and dependents of the member, if with dependents, is not entitled to a basic allowance for housing.

“(2) A member without dependents who is in a pay grade above pay grade E-6 and who is assigned to quarters in the United States or a housing facility under the jurisdiction of a uniformed service, appropriate to the grade or rank of the member and adequate for the member, may elect not to occupy those quarters and instead to receive the basic allowance for housing prescribed for the member’s pay grade by this section.

“(3) A member without dependents who is in pay grade E-6 and who is assigned to quarters of the United States that do not meet the minimum adequacy standards established by the Secretary of Defense for members in such pay grade, or to a housing facility under the jurisdiction of a uniformed service that does not meet such standards, may elect not to occupy such quarters or facility and instead to receive the basic allowance for housing prescribed for the member’s pay grade under this section.

“(4) The Secretary concerned may deny the right to make an election under paragraph (2) or (3) if the Secretary determines that the exercise of such an election would adversely affect a training mission, military discipline, or military readiness.

“(5) A member with dependents who is assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service may be paid the basic allowance for housing if, because of orders of competent authority, the dependents are prevented from occupying those quarters.

“(f) INELIGIBILITY DURING INITIAL FIELD DUTY OR SEA DUTY.—(1) A member of a uniformed service without dependents who makes a permanent change of station for assignment to a unit conducting field operations is not entitled to a basic allowance for housing while on that initial field duty unless the commanding officer of the member certifies that the member was necessarily required to procure quarters at the member's expense.

“(2)(A) Except as provided in subparagraphs (B) and (C), a member of a uniformed service without dependents who is in a pay grade below pay grade E-6 is not entitled to a basic allowance for housing while the member is on sea duty.

Regulations.

“(B) Under regulations prescribed by the Secretary concerned, the Secretary may authorize the payment of a basic allowance for housing to a member of a uniformed service without dependents who is serving in pay grade E-5 and is assigned to sea duty. In prescribing regulations under this subparagraph, the Secretary concerned shall consider the availability of quarters for members serving in pay grade E-5.

“(C) Notwithstanding section 421 of this title, two members of the uniformed services in a pay grade below pay grade E-6 who are married to each other, have no other dependents, and are simultaneously assigned to sea duty are jointly entitled to one basic allowance for housing during the period of such simultaneous sea duty. The amount of the allowance shall be based on the without dependents rate for the pay grade of the senior member of the couple. However, this subparagraph shall not apply to a couple if one or both of the members are entitled to a basic allowance for housing under subparagraph (B).

“(3) The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Department of the Navy, shall prescribe regulation defining the terms ‘field duty’ and ‘sea duty’ for purposes of this section.

“(g) RESERVE MEMBERS.—(1) A member of a reserve component without dependents who is called or ordered to active duty in support of a contingency operation, or a retired member without dependents who is ordered to active duty under section 688(a) of title 10 in support of a contingency operation, may not be denied a basic allowance for housing if, because of that call or order, the member is unable to continue to occupy a residence—

“(A) which is maintained as the primary residence of the member at the time of the call or order; and

“(B) which is owned by the member or for which the member is responsible for rental payments.

“(2) Paragraph (1) shall not apply if the member is authorized transportation of household goods under section 406 of this title as part of the call or order to active duty described in such paragraph.

“(3) The Secretary of Defense shall establish a rate of basic allowance for housing to be paid to a member of a reserve component while the member serves on active duty under a call or order to active duty specifying a period of less than 140 days, unless the call or order to active duty is in support of a contingency operation.

“(h) RENTAL OF PUBLIC QUARTERS.—Notwithstanding any other law (including those restricting the occupancy of housing facilities under the jurisdiction of a department or agency of the United States by members, and their dependents, of the armed forces above specified grades, or by members, and their dependents, of the National Oceanic and Atmospheric Administration and the Public Health Service), a member of a uniformed service, and the dependents of the member, may be accepted as tenants in, and may occupy on a rental basis, any of those housing facilities, other than public quarters constructed or designated for assignment to an occupancy without charge by such a member and the dependents of the member, if any. Such a member may not, because of occupancy under this subsection, be deprived of any money allowance to which the member is otherwise entitled for the rental of quarters.

“(i) TEMPORARY HOUSING ALLOWANCE WHILE IN TRAVEL OR LEAVE STATUS.—A member of a uniformed service who is in a pay grade E-4 (4 or more years of service) or above is entitled to a temporary basic allowance for housing (at a rate determined by the Secretary of Defense) while the member is in a travel or leave status between permanent duty stations, including time granted as delay en route or proceed time, when the member is not assigned to quarters of the United States.

“(j) AVIATION CADETS.—The eligibility of an aviation cadet of the Navy, Air Force, Marine Corps, or Coast Guard for a basic allowance for housing shall be determined as if the aviation cadet were a member of the uniformed services in pay grade E-4.

“(k) ADMINISTRATION.—(1) The Secretary of Defense shall prescribe regulations for the administration of this section. Regulations.

“(2) The Secretary concerned may make such determinations as may be necessary to administer this section, including determinations of dependency and relationship. When warranted by the circumstances, the Secretary concerned may reconsider and change or modify any such determination. The authority of the Secretary concerned under this subsection may be delegated. Any determination made under this section with regard to a member of the uniformed services is final and is not subject to review by any accounting officer of the United States or a court, unless there is fraud or gross negligence.

“(3) Parking facilities (including utility connections) provided members of the uniformed services for house trailers and mobile homes not owned by the Government shall not be considered to be quarters for the purposes of this section or any other provision of law. Any fees established by the Government for the use of such a facility shall be established in an amount sufficient to cover the cost of maintenance, services, and utilities and to amortize the cost of construction of the facility over the 25-year period beginning with the completion of such construction.

“(1) TEMPORARY CONTINUATION OF ALLOWANCE FOR DEPENDENTS OF MEMBERS DYING ON ACTIVE DUTY.—(1) The Secretary of Defense, or the Secretary of Transportation in the case of the Coast Guard when not operating as a service in the Navy, may

"(2) The Secretary concerned may pay a basic allowance for housing (at the rate that is payable for members of the same grade and dependency status as the deceased member for the area where the dependents are residing) to the dependents of a member of the uniformed services who dies while on active duty and whose dependents—

"(A) are not occupying a housing facility under the jurisdiction of a uniformed service on the date of the member's death;

"(B) are occupying such housing on a rental basis on such date; or

"(C) vacate such housing sooner than 180 days after the date of the member's death.

"(3) The payment of the allowance under paragraph (2) shall terminate 180 days after the date of the member's death.

"(m) MEMBERS PAYING CHILD SUPPORT.—(1) A member of a uniformed service with dependents may not be paid a basic allowance for housing at the with dependents rate solely by reason of the payment of child support by the member if—

"(2) A member of a uniformed service assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service who is not otherwise authorized a basic allowance for housing and who pays child support is entitled to the basic allowance for housing differential, except for months for which the amount payable for the child support is less than the rate of the differential. Payment of a basic allowance for housing differential does not affect any entitlement of the member to a partial allowance for quarters under subsection (n).

"(3) The basic allowance for housing differential to which a member is entitled under paragraph (2) is the amount equal to the difference between—

"(A) the rate of the basic allowance for quarters (with dependents) for the member's pay grade, as such rate was in effect on December 31, 1997, under this section (as in effect on that date); and

"(B) the rate of the basic allowance for quarters (without dependents) for the member's pay grade, as such rate was in effect on December 31, 1997, under this section (as in effect on that date).

"(4) Whenever the rates of basic pay for members of the uniformed services are increased, the monthly amount of the basic allowance for housing differential computed under paragraph (3) shall be increased by the average percentage increase in the rates of basic pay. The effective date of the increase shall be the same date as the effective date of the increase in the rates of basic pay.

Termination
date.

“(5) In the case of two members, who have one or more common dependents (and no others), who are not married to each other, and one of whom pays child support to the other, the amount of the basic allowance for housing paid to each member under this section shall be reduced in accordance with regulations prescribed by the Secretary of Defense. The total amount of the basic allowances for housing paid to the two members may not exceed the sum of the amounts of the allowance to which each member would be otherwise entitled under this section.

“(n) **PARTIAL ALLOWANCE FOR MEMBERS WITHOUT DEPENDENTS.**—(1) A member of a uniformed service without dependents who is not entitled to receive a basic allowance for housing under subsection (b), (c), or (d) is entitled to a partial basic allowance for housing at a rate determined by the Secretary of Defense under paragraph (2).

“(2) The rate of the partial basic allowance for housing is the partial rate of the basic allowance for quarters for the member’s pay grade as such partial rate was in effect on December 31, 1997, under section 1009(c)(2) of this title (as such section was in effect on such date).”

(b) **TRANSITION TO BASIC ALLOWANCE FOR HOUSING.**—The Secretary of Defense shall develop and implement a plan to incrementally manage the rate of growth of the various components of the basic allowance for housing authorized by section 403 of title 37, United States Code (as amended by subsection (a)), during a transition period of not more than six years. (2) shall specifically consider the appropriateness of the continued inclusion in the TIARA budget aggregation of each of the programs described in subsection (e); and

(3) may consider the appropriateness of the continued inclusion in the TIARA budget aggregation of any other program (in addition to the programs described to in subsection (e)) that as of the date of the enactment of this Act is managed and budgeted as part of the TIARA budget aggregation.

(c) REPORT.—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on the assessment carried out under section (b). The Secretary shall include in the report—

(a) **FINDINGS.**—Congress makes the following findings:

(1) Coordination of operational intelligence support for the commanders of the combatant commands and deployed units of the Armed Forces has proven to be inadequate.

(2) Procedures used to reconcile information among various intelligence community and Department of Defense data bases have proven to be inadequate and, being inadequate, have diminished the usefulness of that information and have precluded commanders and planners within the Armed Forces from fully benefiting from key information that should have been available to them.

(3) Excessive compartmentalization of responsibilities and information within the Department of Defense and the other elements of the intelligence community has resulted in inaccurate analysis of important intelligence material.

(4) Excessive restrictions on the distribution of information within the executive branch have disadvantaged units of the Armed Forces that would have benefited most from the information.

(5) Procedures used in the Department of Defense to ensure that critical intelligence information is provided to the right combat units in a timely manner failed during the Persian Gulf War and, as a result, information about potential chemical weapons storage locations did not reach the units that eventually destroyed those storage areas.

(6) A recent, detailed review of the events leading to and following the destruction of chemical weapons by members of the Armed Forces at Khamisiyah, Iraq, during the Persian Gulf War has revealed a number of inadequacies in the way the Department of Defense and the other elements of the intelligence community handled, distributed, recorded, and stored intelligence information about the threat of exposure of United States forces to chemical weapons and the toxic agents in those weapons.

(7) The inadequacy of procedures for recording the receipt of, and reaction to, intelligence reports provided by the intelligence community to combat units of the Armed Forces during the Persian Gulf War has caused it to be impossible to analyze the failures in transmission of intelligence-related information on the location of chemical weapons at Khamisiyah, Iraq, that resulted in the demolition of chemical weapons by members of the Armed Forces unaware of the hazards to which they were exposed.

(b) **REPORT REQUIREMENT.**—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report that identifies the specific actions that have been taken or are being taken to ensure that there is adequate coordination of access of commanders of the combatant commands and deployed units of the Armed Forces to intelligence collected and analyzed by the intelligence community.

10 USC 101 note.

SEC. 1074. SUSTAINMENT AND OPERATION OF THE GLOBAL POSITIONING SYSTEM.

(a) FINDINGS.—Congress makes the following findings:

10 USC 2281 note.

(1) The Global Positioning System (consisting of a constellation of satellites and associated facilities capable of providing users on earth with a highly precise statement of their location on earth) makes significant contributions to the attainment of the national security and foreign policy goals of the United States, the safety and efficiency of international transportation, and the economic growth, trade, and productivity of the United States.

(2) The infrastructure for the Global Positioning System (including both space and ground segments of the infrastructure) is vital to the effectiveness of United States and allied military forces and to the protection of the national security interests of the United States.

(3) In addition to having military uses, the Global Positioning System has essential civil, commercial, and scientific uses.

(4) As a result of the increasing demand of civil, commercial, and scientific users of the Global Positioning System—

(A) there has emerged in the United States a new commercial industry to provide Global Positioning System equipment and related services to the many and varied users of the system; and

(B) there have been rapid technical advancements in Global Positioning System equipment and services that have contributed significantly to reductions in the cost of the Global Positioning System and increases in the technical capabilities and availability of the system for military uses.

(5) It is in the national interest of the United States for the United States—

(A) to support continuation of the multiple-use character of the Global Positioning System;

(B) to promote broader acceptance and use of the Global Positioning System and the technological standards that facilitate expanded use of the system for civil purposes;

(C) to coordinate with other countries to ensure (i) efficient management of the electromagnetic spectrum used by the Global Positioning System, and (ii) protection of that spectrum in order to prevent disruption of signals from the system and interference with that portion of the electromagnetic spectrum used by the system; and

(D) to encourage open access in all international markets to the Global Positioning System and supporting equipment, services, and techniques.

(b) INTERNATIONAL COOPERATION.—Congress urges the President to promote the security of the United States and its allies, the public safety, and commercial interests by taking the following steps:

(1) Undertaking a coordinated effort within the executive branch to seek to establish the Global Positioning System, and augmentations to the system, as a worldwide resource.

(2) Seeking to enter into international agreements to establish signal and service standards that protect the Global Positioning System from disruption and interference.

(3) Undertaking efforts to eliminate any barriers to, and other restrictions of foreign governments on, peaceful uses of the Global Positioning System.

(4) Requiring that any proposed international agreement involving nonmilitary use of the Global Positioning System or any augmentation to the system not be agreed to by the United States unless the proposed agreement has been reviewed by the Secretary of State, the Secretary of Defense, the Secretary of Transportation, and the Secretary of Commerce (acting as the Interagency Global Positioning System Executive Board established by Presidential Decision Directive NSTC-6, dated March 28, 1996).

(c) FISCAL YEAR 1998 PROHIBITION OF SUPPORT OF FOREIGN SYSTEM.—None of the funds authorized to be appropriated under this Act may be used to support the operation and maintenance or enhancement of a satellite navigation system operated by a foreign country.

(d) IN GENERAL.—(1) Part IV of subtitle A of title 10, United States Code, is amended by inserting after chapter 134 the following new chapter:

“(4) shall develop measures for preventing hostile use of the GPS in a particular area without hindering peaceful civil use of the system elsewhere; and

“(5) may not agree to any restriction on the Global Positioning System proposed by the head of a department or agency of the United States outside the Department of Defense in the exercise of that official’s regulatory authority that would adversely affect the military potential of the Global Positioning System.

“(c) FEDERAL RADIONAVIGATION PLAN.—The Secretary of Defense and the Secretary of Transportation shall jointly prepare the Federal Radionavigation Plan. The plan shall be revised and updated not less often than every two years. The plan shall be prepared in accordance with the requirements applicable to such plan as first prepared pursuant to section 507 of the International Maritime Satellite Telecommunications Act (47 U.S.C. 756). “(C) The most recent determination by the President regarding continued use of the selective availability feature of the system and the expected date of any change or elimination of the use of that feature.

“(D) The status of cooperative activities undertaken by the United States with the governments of other countries concerning the capability of the system or any augmentation of the system to satisfy civil, commercial, scientific, and military requirements, including a discussion of the status and results of activities undertaken under any regional international agreement.

“(E) Any progress made toward establishing GPS as an international standard for consistency of navigational service.

“(F) Any progress made toward protecting GPS from disruption and interference.

“(G) The effects of use of the system on national security, regional security, and the economic competitiveness of United States industry, including the Global Positioning System equipment and service industry and user industries.

“(2) In preparing the parts of each such report required under subparagraphs (D), (E), (F), and (G) of paragraph (1), the Secretary of Defense shall consult with the Secretary of State, the Secretary of Commerce, and the Secretary of Transportation.

(e) ACCEPTANCE OF VOLUNTARY SERVICES.—(1) Notwithstanding section 1342 of title 31, United States Code, the Secretary of Defense may accept from any person voluntary services to be provided in furtherance of the commemorative program.

(2) A person providing voluntary services under this subsection shall be considered to be a Federal employee for purposes of chapter 81 of title 5, United States Code, relating to compensation for work-related injuries. The person shall also be considered a special governmental employee for purposes of standards of conduct and sections 202, 203, 205, 207, 208, and 209 of title 18, United States Code. A person who is not otherwise employed by the Federal Government shall not be considered to be a Federal employee for any other purpose by reason of the provision of voluntary services under this subsection.

(3) The Secretary may provide for reimbursement of incidental expenses incurred by a person providing voluntary services under this subsection. The Secretary shall determine which expenses are eligible for reimbursement under this paragraph.

(f) LIMITATION ON EXPENDITURES.—Total expenditures to carry out the commemorative program may not exceed \$100,000.

SEC. 1084. COMMENDATION OF MEMBERS OF THE ARMED FORCES AND GOVERNMENT CIVILIAN PERSONNEL WHO SERVED DURING THE COLD WAR; CERTIFICATE OF RECOGNITION.

10 USC note
prec. 1121.

(a) FINDINGS.—The Congress finds the following:

(1) During the period of the Cold War, from the end of World War II until the collapse of the Soviet Union in 1991, the United States and the Soviet Union engaged in a global military rivalry.

(2) This rivalry, potentially the most dangerous military confrontation in the history of mankind, has come to a close without a direct superpower military conflict.

(3) Military and civilian personnel of the Department of Defense, personnel in the intelligence community, members of the foreign service, and other officers and employees of the United States faithfully performed their duties during the Cold War.

(4) Many such personnel performed their duties while isolated from family and friends and served overseas under frequently arduous conditions in order to protect the United States and achieve a lasting peace.

(5) The discipline and dedication of those personnel were fundamental to the prevention of a superpower military conflict.

(b) CONGRESSIONAL COMMENDATION.—The Congress hereby commends the members of the Armed Forces and civilian personnel of the Government who contributed to the historic victory in the Cold War and expresses its gratitude and appreciation for their service and sacrifices.

(c) CERTIFICATES OF RECOGNITION.—The Secretary of Defense shall prepare a certificate recognizing the Cold War service of qualifying members of the Armed Forces and civilian personnel of the Department of Defense and other Government agencies contributing to national security, as determined by the Secretary, and shall provide the certificate to such members and civilian personnel upon request.

SEC. 1085. SENSE OF CONGRESS ON GRANTING OF STATUTORY FEDERAL CHARTERS.

(a) FINDINGS.—Congress finds that the practice of providing by statute Federal charters to certain nonprofit organizations—

(1) may be perceived as implying a Government imprimatur of approval of those organizations; and

(2) may mistakenly lead to public perception that the United States ensures the integrity and worthiness of those organizations.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that because of the perceived implicit Government imprimatur of approval conveyed by enactment of a Federal charter for an organization, such a charter should be granted only in the rarest and most extraordinary cases; and

(2) that no statutory Federal charter should be enacted after the enactment of this Act unless the charter is approved by Congress upon favorable report by the committees of jurisdiction of the respective Houses.

SEC. 1086. SENSE OF CONGRESS REGARDING MILITARY VOTING RIGHTS.

(a) FINDINGS.—Congress finds that—

(1) members of the Armed Forces have a fundamental right to vote in Federal, State, and local elections; and

(2) an extended absence of a member of the Armed Forces from the place of the member's residency or domicile due to military or naval orders is not of itself grounds to consider the member's residency or domicile as lost or changed.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Defense, in consultation with the Attorney General, should review how best to protect the right of members of the Armed Forces to vote in Federal, State, and local elections while taking into account the right of States to prescribe requirements for voter registration. Such a review should include an assessment of challenges to military voting rights and consideration of possible legislative remedies to ensure that, for purposes of voting in Federal, State, and local elections, a member of the Armed Forces who is absent from a State in compliance with military or naval orders is not, solely by reason of that absence, considered to have lost or changed residency or domicile.

SEC. 1087. DESIGNATION OF BOB HOPE AS AN HONORARY VETERAN OF THE ARMED FORCES OF THE UNITED STATES.

(a) FINDINGS.—Congress makes the following findings:

(1) In its more than 200 years of existence as a nation, the United States has never conferred on any person the status of being an honorary veteran of the Armed Forces of the United States.

(2) Status as an honorary veteran of the Armed Forces of the United States is and should remain an extraordinary honor not lightly conferred nor frequently granted.

(3) The lifetime of accomplishments and service of Leslie Townes (Bob) Hope on behalf of members of the Armed Forces of the United States fully justifies the conferring of that status.

(4) Bob Hope attempted to enlist in the Armed Forces to serve his country during World War II but was informed that the greatest service he could provide his country was as a civilian entertainer for the troops.

(5) During World War II, the Korean Conflict, the Vietnam War, the Persian Gulf War, and the Cold War, Bob Hope travelled to visit and entertain millions of members of the Armed Forces in numerous countries, on ships at sea, and in combat zones ashore.

(6) Bob Hope has been awarded the Congressional Gold Medal, the Presidential Medal of Freedom, the Distinguished Service Medal of each of the branches of the Armed Forces and more than 100 other citations and awards from national veterans service organizations and civic and humanitarian organizations.

(7) Bob Hope has given unselfishly of himself for over half a century to be with American service members on foreign shores, working tirelessly to bring a spirit of humor and cheer to millions of service members during their loneliest moments, and has, thereby, extended to them for the American people a touch of home away from home.

(b) DESIGNATION OF BOB HOPE AS HONORARY VETERAN.—
Congress—

(1) extends its gratitude, on behalf of the American people, to Leslie Townes (Bob) Hope, of the State of California, for his lifetime of accomplishments and service on behalf of members of the Armed Forces of the United States; and

(2) hereby confers upon him the status of being an honorary veteran of the Armed Forces of the United States.

Subtitle A—United States Armed Forces in Bosnia and Herzegovina

SEC. 1201. FINDINGS.

The Congress finds the following:

(1) United States Armed Forces were deployed to the Republic of Bosnia and Herzegovina as part of the North Atlantic Treaty Organization (NATO) Implementation Force (IFOR) to implement the military aspects of the Dayton Peace Agreement.

(2) The military aspects of the Dayton Peace Agreement have been successfully implemented to date with the military forces of the warring factions successfully separated and a cessation in the hostilities that resulted in the deaths of hundreds of thousands of Bosnians.

(3) Implementation of the civil aspects of the Dayton Peace Agreement has lagged far behind the schedule for such implementation envisioned in the Agreement with the result that United States Armed Forces have undertaken a prolonged engagement in the Republic of Bosnia and Herzegovina.

(4) On December 13, 1995, the President stated in a letter to Congress, "NATO and U.S. military commanders believe, and I expect, that the military mission can be accomplished in about a year. Twelve months will allow IFOR time to complete the military tasks assigned in the Dayton agreement and to establish a secure environment, in which political and economic reconstruction efforts by the parties and international civilian agencies can take hold. Within one year, we expect that the military provisions of the Dayton agreement will have been carried out, implementation of the civilian aspects and economic reconstruction will have been firmly launched, free elections will have been held under international supervision and a stable military balance will have been established."

(5) Notwithstanding a number of assurances relating to the accomplishment of the military mission in the Republic of Bosnia and Herzegovina by December 1996, the President, on November 15, 1996, announced his decision to extend the presence of United States forces in the Republic of Bosnia and Herzegovina to participate in the NATO Stabilization Force (SFOR) until June 1998.

(6) Despite initial projections by the Department of Defense that the costs of United States operations in the Republic of Bosnia and Herzegovina would total \$1,500,000,000, the projected cost of United States operations in the Republic of Bosnia and Herzegovina through June 1998 is estimated to exceed \$7,000,000,000.

(7) The fiscal year 1998 estimate of the Department of Defense for operations in the Republic of Bosnia and

Herzegovina assumes that the level of military forces participating in SFOR will be reduced soon after the start of the fiscal year.

(8) The President and the Secretary of Defense have stated that United States forces are to be withdrawn from the Republic of Bosnia and Herzegovina by the end of June 1998.

SEC. 1202. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) United States ground combat forces should not participate in a follow-on force in the Republic of Bosnia and Herzegovina after June 1998;

(2) the European Security and Defense Identity, which, as facilitated by the Combined Joint Task Forces concept, enables the Western European Union, with the consent of the North Atlantic Alliance, to assume political control and strategic direction of NATO assets made available for the Alliance, may be an ideal instrument for a follow-on force for the Republic of Bosnia and Herzegovina;

(3) a NATO-led force without the participation of United States ground combat forces in the Republic of Bosnia and Herzegovina may be suitable for a follow-on force for the Republic of Bosnia and Herzegovina if the European Security and Defense Identity is not sufficiently developed or is otherwise considered inappropriate for such a mission;

(4) the United States may decide to provide appropriate support to a Western European Union-led or NATO-led follow-on force, including command and control, intelligence, logistics, and, if necessary, a ready reserve force in the region;

(5) the President should inform our European NATO allies of this expression of the sense of Congress and should urge them strongly to undertake preparations for a Western European Union-led or NATO-led force as a follow-on force to the NATO-led SFOR if needed to maintain peace and stability in the Republic of Bosnia and Herzegovina; and

(6) the President should consult with the Congress with respect to any support to be provided to a Western European Union-led or NATO-led follow-on force in the Republic of Bosnia and Herzegovina after June 30, 1998.

SEC. 1203. WITHDRAWAL OF UNITED STATES GROUND FORCES FROM REPUBLIC OF BOSNIA AND HERZEGOVINA.

10 USC 114 note.

(a) **LIMITATION.**—No funds appropriated or otherwise made available for the Department of Defense for fiscal year 1998 or any subsequent fiscal year may be used for the deployment of any United States ground combat forces in the Republic of Bosnia and Herzegovina after June 30, 1998, unless the President, not later than May 15, 1998, and after consultation with the bipartisan leadership of the two Houses of Congress, transmits to Congress a certification—

(1) that the continued presence of United States ground combat forces, after June 30, 1998, in the Republic of Bosnia and Herzegovina is required in order to meet the national security interests of the United States; and

(2) that after June 30, 1998, it will remain United States policy that United States ground forces will not serve as, or be used as, civil police in the Republic of Bosnia and Herzegovina.

President.

(b) **REPORT.**—The President shall submit with the certification under subsection (a) a report that includes the following:

(1) The reasons why that presence is in the national security interest of the United States.

(2) The number of United States military personnel to be deployed in and around the Republic of Bosnia and Herzegovina and other areas of the former Yugoslavia after that date.

(3) The expected duration of any such deployment.

(4) The mission and objectives of the United States Armed Forces to be deployed in and around the Republic of Bosnia and Herzegovina and other areas of the former Yugoslavia after June 30, 1998.

(5) The exit strategy of such forces.

(6) The incremental costs associated with any such deployment.

(7) The effect of such deployment on the morale, retention, and effectiveness of United States armed forces.

(8) A description of the forces from other nations involved in a follow-on mission, shown on a nation-by-nation basis.

(9) A description of the command and control arrangement established for United States forces involved in a follow-on mission.

(10) An assessment of the expected threats to United States forces involved in a follow-on mission.

(11) The plan for rotating units and personnel to and from the Republic of Bosnia and Herzegovina during a follow-on mission, including the level of participation by reserve component units and personnel.

(12) The mission statement and operational goals of the United States forces involved in a follow-on mission.

(c) **REQUEST FOR SUPPLEMENTAL APPROPRIATIONS.**—The President shall transmit to Congress with a certification under subsection (a) a supplemental appropriations request for the Department of Defense for such amounts as are necessary for the costs of any continued deployment beyond June 30, 1998.

(d) **CONSTRUCTION WITH PRESIDENT'S CONSTITUTIONAL AUTHORITY.**—Nothing in this section shall be deemed to restrict the authority of the President under the Constitution to protect the lives of United States citizens.

(e) **CONSTRUCTION WITH APPROPRIATIONS PROVISION.**—The provisions of this section are enacted, and shall be applied, as supplemental to (and not in lieu of) the provisions of section 8132 of the Department of Defense Appropriations Act, 1998 (Public Law 105-56).

SEC. 1204. SECRETARY OF DEFENSE REPORTS ON TASKS CARRIED OUT BY UNITED STATES FORCES.

(a) **REQUIREMENT FOR TWO REPORTS.**—The Secretary of Defense shall submit to the congressional defense committees—

(1) not later than December 15, 1997, a report identifying each activity being carried out, as of December 1, 1997, by covered United States forces in the Republic of Bosnia and Herzegovina; and

(2) not later than April 15, 1998, a report identifying each activity being carried out, as of April 1, 1998, by covered United States forces in the Republic of Bosnia and Herzegovina.

(b) COVERED UNITED STATES FORCES.—For purposes of this section, covered United States forces in the Republic of Bosnia and Herzegovina are United States ground forces in the Republic of Bosnia and Herzegovina that are assigned to the multinational peacekeeping force known as the Stabilization Force (SFOR) or any other multinational peacekeeping force that is the successor to the SFOR.

(c) MATTERS TO BE INCLUDED.—The Secretary shall include in each report under subsection (a), for each activity identified under that subsection, the following:

(1) The number of United States military personnel involved in the performance of that activity.

President.

(2) **DELETIONS FROM LIST OF COVERED COUNTRIES.**—The removal of a country from the list of covered countries under subsection (b) shall not take effect until 120 days after the President submits to the congressional committees designated in section 1215 a report setting forth the justification for the deletion.

(3) **EXCLUDED COUNTRIES.**—A country may not be removed from the list of covered countries under subsection (b) if—

(A) the country is a “nuclear-weapon state” (as defined by Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons) and the country is not a member of the North Atlantic Treaty Organization; or

(B) the country is not a signatory of the Treaty on the Non-Proliferation of Nuclear Weapons and the country is listed on Annex 2 to the Comprehensive Nuclear Test-Ban Treaty.

(a) **REQUIRED POST-SHIPMENT VERIFICATION.**—The Secretary of Commerce shall conduct post-shipment verification of each digital computer with a composite theoretical performance of more than 2,000 millions of theoretical operations per second (MTOPS) that is exported from the United States, on or after the date of the enactment of this Act, to a country specified in subsection (b).

(b) **COVERED COUNTRIES.**—For purposes of subsection (a), the countries specified in this subsection are the countries listed as “Computer Tier 3” eligible countries in section 740.7 of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997, subject to modification by the President under section 1211(e).

- (4) The results of the post-shipment verification.

(d) **EXPLANATION WHEN VERIFICATION NOT CONDUCTED.**—If a post-shipment verification has not been conducted in accordance with subsection (a) with respect to any such export during the period covered by a report, the Secretary shall include in the report for that period a detailed explanation of the reasons why such a post-shipment verification was not conducted.

SEC. 1214. GAO STUDY ON CERTAIN COMPUTERS; END USER INFORMATION ASSISTANCE.

(a) **IN GENERAL.**—The Comptroller General of the United States shall submit to the congressional committees specified in section 1215 a study of the national security risks relating to the sale of computers with a composite theoretical performance of between 2,000 and 7,000 millions of theoretical operations per second (MTOPS) to end users in countries specified in subsection (c). The study shall also analyze any foreign availability of computers described in the preceding sentence and the impact of such sales on United States exporters.

Subtitle C—Other Matters

SEC. 1221. DEFENSE BURDENSARING.

22 USC 1928
note.

(a) **EFFORTS TO INCREASE ALLIED BURDENSARING.**—The President shall seek to have each nation that has cooperative military relations with the United States (including security agreements, basing arrangements, or mutual participation in multinational military organizations or operations) take one or more of the following actions:

- (1) For any nation in which United States military personnel are assigned to permanent duty ashore, increase its financial contributions to the payment of the nonpersonnel costs incurred by the United States Government for stationing United States military personnel in that nation, with a goal of achieving by September 30, 2000, 75 percent of such costs. An increase

in financial contributions by any nation under this paragraph may include the elimination of taxes, fees, or other charges levied on United States military personnel, equipment, or facilities stationed in that nation.

(2) Increase its annual budgetary outlays for national defense as a percentage of its gross domestic product by 10 percent or at least to a level commensurate to that of the United States by September 30, 1998.

(3) Increase its annual budgetary outlays for foreign assistance (to promote democratization, economic stabilization, transparency arrangements, defense economic conversion, respect for the rule of law, and internationally recognized human rights) by 10 percent or at least to a level commensurate to that of the United States by September 30, 1998.

(4) Increase the amount of military assets (including personnel, equipment, logistics, support and other resources) that it contributes, or would be prepared to contribute, to multinational military activities worldwide.

(b) **AUTHORITIES TO ENCOURAGE ACTIONS BY UNITED STATES ALLIES.**—In seeking the actions described in subsection (a) with respect to any nation, or in response to a failure by any nation to undertake one or more of such actions, the President may take any of the following measures to the extent otherwise authorized by law:

(1) Reduce the end strength level of members of the Armed Forces assigned to permanent duty ashore in that nation.

(2) Impose on that nation fees or other charges similar to those that such nation imposes on United States forces stationed in that nation.

(3) Reduce (through rescission, impoundment, or other appropriate procedures as authorized by law) the amount the United States contributes to the NATO Civil Budget, Military Budget, or Security Investment Program.

(4) Suspend, modify, or terminate any bilateral security agreement the United States has with that nation, consistent with the terms of such agreement.

(5) Reduce (through rescission, impoundment or other appropriate procedures as authorized by law) any United States bilateral assistance appropriated for that nation.

(6) Take any other action the President determines to be appropriate as authorized by law.

(c) **REPORT ON PROGRESS IN INCREASING ALLIED BURDENSARING.**—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on—

(1) steps taken by other nations to complete the actions described in subsection (a);

(2) all measures taken by the President, including those authorized in subsection (b), to achieve the actions described in subsection (a);

(3) the difference between the amount allocated by other nations for each of the actions described in subsection (a) during the period beginning on March 1, 1996, and ending on February 28, 1997, and during the period beginning on March 1, 1997, and ending on February 28, 1998; and

(4) the budgetary savings to the United States that are expected to accrue as a result of the steps described under paragraph (1).

(d) REPORT ON NATIONAL SECURITY BASES FOR FORWARD DEPLOYMENT AND BURDENSARING RELATIONSHIPS.—(1) In order to ensure the best allocation of budgetary resources, the President shall undertake a review of the status of elements of the United States Armed Forces that are permanently stationed outside the United States. The review shall include an assessment of the following:

(A) The alliance requirements that are to be found in agreements between the United States and other countries.

(B) The national security interests that support permanently stationing elements of the United States Armed Forces outside the United States.

(C) The stationing costs associated with the forward deployment of elements of the United States Armed Forces.

(D) The alternatives available to forward deployment (such as material prepositioning, enhanced airlift and sealift, or joint training operations) to meet such alliance requirements or national security interests, with such alternatives identified and described in detail.

(E) The costs and force structure configurations associated with such alternatives to forward deployment.

(F) The financial contributions that allies of the United States make to common defense efforts (to promote democratization, economic stabilization, transparency arrangements, defense economic conversion, respect for the rule of law, and internationally recognized human rights).

(G) The contributions that allies of the United States make to meeting the stationing costs associated with the forward deployment of elements of the United States Armed Forces.

(H) The annual expenditures of the United States and its allies on national defense, and the relative percentages of each nation's gross domestic product constituted by those expenditures.

(2) The President shall submit to Congress a report on the review under paragraph (1). The report shall be submitted not later than March 1, 1998, in classified and unclassified form.

President.

SEC. 1222. TEMPORARY USE OF GENERAL PURPOSE VEHICLES AND NONLETHAL MILITARY EQUIPMENT UNDER ACQUISITION AND CROSS SERVICING AGREEMENTS.

Section 2350(1) of title 10, United States Code, is amended by striking out "other items" in the second sentence and all that follows through "United States Munitions List" and inserting in lieu thereof "other nonlethal items of military equipment which are not designated as significant military equipment on the United States Munitions List promulgated".

SEC. 1223. SENSE OF CONGRESS AND REPORTS REGARDING FINANCIAL COSTS OF ENLARGEMENT OF THE NORTH ATLANTIC TREATY ORGANIZATION.

(a) FINDINGS.—Congress finds the following:

(1) In a report to Congress in February 1997 on the rationale, benefits, costs, and implications of North Atlantic Treaty Organization enlargement the Secretary of Defense estimated that the financial cost to the United States of such enlargement will be modest, totaling between \$2,000,000,000 and \$2,600,000,000 for the period from 1997 through 2009.

(2) A study by the RAND Corporation published in 1996 calculated that the total financial cost to the United States of such enlargement will be between \$5,000,000,000 and \$6,000,000,000 over the same period.

(3) A March 1996 report by the Congressional Budget Office on the financial costs of enlarging the North Atlantic Treaty Organization alliance estimated the United States share of alliance enlargement costs to be between \$4,800,000,000 and \$18,900,000,000 through 2010, depending upon political developments in Europe.

(4) An August 1997 report by the General Accounting Office reviewing the financial cost estimates of the Secretary of Defense concluded that North Atlantic Treaty Organization enlargement could entail additional costs beyond those included in the Secretary's estimate and questioned the validity of the Secretary's estimate due to the lack of supporting cost documentation and the inclusion of cost elements not related to NATO enlargement.

(5) The North Atlantic Alliance is scheduled to complete its analysis of the military requirements for the integration of Poland, the Czech Republic, and Hungary into the Alliance in December 1997.

(6) The North Atlantic Alliance is also scheduled to complete in December 1997 its financial cost estimate of the military requirements related to the integration of those nations.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the analysis of the North Atlantic Alliance of the military requirements relating to NATO enlargement and of the financial costs to the Alliance of NATO enlargement will be one of the major factors in the consideration by the Senate of the ratification of instruments to approve the admission of new member nations to the Alliance and by Congress for the authorization and appropriation of the funding for the costs associated with such enlargement.

(c) REPORT ASSESSING NATO COST ANALYSIS.—Not later than March 31, 1998, the Secretary of Defense shall submit to Congress a report providing—

(1) an assessment of the analysis by the North Atlantic Alliance of the military requirements related to NATO enlargement and of the estimate of the financial costs to the NATO Alliance for the integration of Poland, the Czech Republic, and Hungary into the Alliance;

(2) a description of the analytical means used to determine such requirements and costs; and

(3) a general assessment of the additional military requirements and costs that would result from a significantly increased threat.

(d) REPORT ON DEPARTMENT OF DEFENSE COSTS.—(1) The Secretary of Defense shall submit to Congress, in conjunction with the submission of the President's budget for fiscal year 1999, a report on Department of Defense costs for NATO enlargement. The report shall include a detailed estimate of such costs for fiscal year 1998 that identifies all appropriations, by budget activity, for the military departments and other elements of the Department of Defense to support NATO enlargement.

(2) The Secretary of Defense shall include in the budget justification materials submitted to Congress by the Secretary in support of the budget of Department of Defense for fiscal year 1999

complete and detailed descriptions and estimates of the amounts provided in that budget for the costs of NATO enlargement.

SEC. 1224. SENSE OF CONGRESS REGARDING ENLARGEMENT OF THE NORTH ATLANTIC TREATY ORGANIZATION.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The North Atlantic Treaty Organization (NATO) met on July 8 and 9, 1997, in Madrid, Spain, and issued invitations to the Czech Republic, Hungary, and Poland to begin accession talks to join NATO.

(2) Congress has expressed its support for the process of NATO enlargement by approving the NATO Enlargement Facilitation Act of 1996 (title VI of the matter enacted in section 101(c) of division A of Public Law 104-208; 22 U.S.C. 1928 note).

(3) The United States has supported the position that the process of enlarging NATO will continue after the first round of invitations in July 1997.

(4) Romania and Slovenia are to be commended for their progress toward political and economic reform and appear to be striving to meet the guidelines for prospective membership in NATO.

(5) In furthering the purpose and objective of NATO in promoting stability and well-being in the North Atlantic area, NATO should invite Romania and Slovenia to accession negotiations to become NATO members as expeditiously as possible upon the satisfaction of all relevant membership criteria and consistent with NATO security objectives.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that North Atlantic Treaty Organization should be commended—

(1) for having committed to review the process of enlarging the Organization in 1999; and

(2) for singling out the positive developments toward democracy and rule of law in Romania and Slovenia.

SEC. 1225. SENSE OF CONGRESS RELATING TO LEVEL OF UNITED STATES MILITARY PERSONNEL IN THE EAST ASIA AND PACIFIC REGION.

(a) **FINDINGS.**—Congress finds the following:

(1) The stability of the Asia-Pacific region is a matter of vital national interest affecting the well-being of all Americans.

(2) The nations of the Pacific Rim collectively represent the United States largest trading partner and are expected to account for almost one-third of the world's economic activity by the start of the next century.

(3) The increased reliance by the United States on trade and Middle East oil sources has reinforced United States security interests in the Southeast Asia shipping lanes through the South China Sea and the key straits of Malacca, Sunda, Lombok, and Makassar.

(4) The South China Sea is an important area for United States Navy ships passing from the Pacific to the Indian Ocean and the Persian Gulf.

(5) Maintaining freedom of navigation in the South China Sea is an important interest of the United States.

(6) The threats of proliferation of weapons of mass destruction, the emerging nationalism amidst long-standing ethnic

and national rivalries, and the unresolved territorial disputes combine to create a political landscape of potential instability and conflict in this region that could jeopardize the interests of the United States and the safety of United States nationals.

(7) A critical component of the East Asia strategy of the United States is maintaining forward deployed forces in Asia to ensure broad regional stability, to help to deter aggression, to lessen the pressure for arms races, and to contribute to the political and economic advances of the region from which the United States benefits.

(8) The forward presence of the United States in Northeast Asia enables the United States to respond to regional contingencies, to protect sea lines of communication, to sustain influence, and to support operations as distant as operations in the Persian Gulf.

(9) The military forces of the United States serve to prevent the political or economic control of the Asia-Pacific region by a rival, hostile power or coalition of such powers, thus preventing any such group from obtaining control over the vast resources, enormous wealth, and advanced technology of the region.

(10) Allies of the United States in the region can base their defense planning on a reliable American security commitment, a reduction of which could stimulate an arms buildup in the region.

(11) The Joint Announcement of the United States-Japan Security Consultative Committee of December 1996, acknowledged that "the forward presence of U.S. forces continues to be an essential element for pursuing our common security objectives".

(12) The United States and Japan signed the United States-Japan Security Declaration in April 1996, in which the United States reaffirmed its commitment to maintain this level of 100,000 United States military personnel in the region.

(13) The United States military presence is recognized by the nations of the region as serving stability and enabling United States engagement.

(14) The nations of East Asia and the Pacific consider the commitment of the forces of the United States to be so vital to their future that they scrutinize actions of the United States for any sign of weakened commitment to the security of the region.

(15) The reduction of forward-based military forces could negatively affect the ability of the United States to contribute to the maintenance of peace and stability of the Asia and Pacific region.

(16) Recognizing that while the United States must consider the overall capabilities of its forces in its decisions to deploy troops, nevertheless any reduction in the number of forward-based troops may reduce the perception of American capability and commitment in the region that cannot be completely offset by modernization of the remaining forces.

(17) During time of crisis, deployment of forces to East Asia, even though such forces were previously removed from the area, might be deemed to be an act of provocation that

could be used as a pretext by a hostile power for armed aggression within the region, and the existence of that possibility might hinder such a deployment.

(18) Proposals to reduce the forward presence of the United States in the East Asia region or subordinate security interests to United States domestic budgetary concerns can erode the perception of the commitment of the United States to its alliances and interests in the region.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should maintain at least approximately 100,000 United States military personnel in the East Asia and Pacific region until such time as there is a peaceful and permanent resolution to the major security and political conflicts in the region.

SEC. 1226. REPORT ON FUTURE MILITARY CAPABILITIES AND STRATEGY OF THE PEOPLE'S REPUBLIC OF CHINA.

(a) REPORT.—The Secretary of Defense shall prepare a report, in both classified and unclassified form, on the pattern of military modernization of the People's Republic of China. (6) Efforts by the People's Republic of China to develop a capability to conduct "information warfare" at the strategic, operational, and tactical levels of war.

(7) Development by the People's Republic of China of capabilities in the area of electronic warfare.

(8) Efforts by the People's Republic of China to develop a capability to establish control of space or to deny access and use of military and commercial space systems in times of crisis or war, including programs to place weapons in space or to develop earth-based weapons capable of attacking space-based systems.

(9) Trends that would lead the People's Republic of China toward the development of advanced intelligence, surveillance,

and reconnaissance capabilities, including gaining access to commercial or third-party systems with military significance.

(10) Efforts by the People's Republic of China to develop highly accurate and stealthy ballistic and cruise missiles, including sea-launched cruise missiles, particularly in numbers sufficient to conduct attacks capable of overwhelming projected defense capabilities in the Asia-Pacific region.

(11) Development by the People's Republic of China of command and control networks, particularly those capable of battle management of long-range precision strikes.

(12) Efforts by the People's Republic of China in the area of telecommunications, including common channel signaling and synchronous digital hierarchy technologies.

(15) Exploitation by the People's Republic of China for military purposes of the Global Positioning System or other similar systems (including commercial land surveillance satellites), with such analysis and forecasts focusing particularly on indications of an attempt to increase the accuracy of weapons or situational awareness of operating forces.

(16) Development by the People's Republic of China of capabilities for denial of sea control, including such systems as advanced sea mines, improved submarine capabilities, or land-based sea-denial systems.

(17) Efforts by the People's Republic of China to develop its anti-submarine warfare capabilities.

(18) Continued development by the People's Republic of China of follow-on forces, particularly forces capable of rapid air or amphibious assault.

(19) Efforts by the People's Republic of China to enhance its capabilities in such additional areas of strategic concern as the Secretary identifies.

(c) ANALYSIS OF IMPLICATIONS OF SALES OF PRODUCTS AND TECHNOLOGIES TO ENTITIES IN CHINA.—The report under subsection (a) shall include, with respect to each area for analyses and forecasts specified in subsection (b)—

(1) an assessment of the military effects of sales of United States and foreign products and technologies to entities in the People's Republic of China; and

(2) the potential threat of developments related to such effects to United States strategic interests.

(d) SUBMISSION OF REPORT.—The report shall be submitted to Congress not later than March 15, 1998.

SEC. 1227. SENSE OF CONGRESS ON NEED FOR RUSSIAN OPENNESS ON THE YAMANTAU MOUNTAIN PROJECT.

(a) FINDINGS.—Congress finds as follows:

(1) The United States and Russia have been working since the end of the Cold War to achieve a strategic relationship based on cooperation and openness between the two nations.

(2) This effort to establish a new strategic relationship between the two nations has resulted in the conclusion or

agreement in principle on a number of far-reaching agreements, including START I, II, and III, a revision in the Conventional Forces in Europe Treaty, and a series of other agreements (such as the Comprehensive Test Ban Treaty and the Chemical Weapons Convention), designed to further reduce bilateral threats and limit the proliferation of weapons of mass destruction.

(3) These far-reaching agreements were based on the understanding between the United States and Russia that there would be a good faith effort on both sides to comply with the letter and spirit of the agreements.

(4) Reports indicate that Russia has been pursuing construction of a massive underground facility of unknown purpose at Yamantau Mountain and the city of Mezhgorye (formerly the settlements of Beloretsk-15 and Beloretsk-16) that is designed to survive a nuclear war and appears to exceed reasonable defense requirements.

(5) The Yamantau Mountain project does not appear to be consistent with the lowering of strategic threats, openness, and cooperation that is the basis of the post-Cold War strategic partnership between the United States and Russia.

(6) The United States has allowed senior Russian military and government officials to have access to key strategic facilities of the United States by providing tours of the North American Air Defense (NORAD) command at Cheyenne Mountain and the United States Strategic Command (STRATCOM) headquarters in Omaha, Nebraska, among other sites, and by providing extensive briefings on the operations of those facilities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Russian government—

(1) should provide to the United States Government a written explanation with sufficient detail (including drawings and diagrams) of the purpose and operational concept of the completed and planned facilities at Yamantau Mountain to support a high confidence judgment by the United States that the design of the Yamantau facility is consistent with official Russian government explanations; and

(2) should allow a United States delegation, to include officials of the executive branch and Members of Congress, to have access to the Yamantau Mountain project and buildings and facilities surrounding the project.

SEC. 1228. ASSESSMENT OF THE CUBAN THREAT TO UNITED STATES NATIONAL SECURITY.

(a) FINDINGS.—Congress makes the following findings:

(1) Cuba has maintained a hostile policy in its relations with the United States for over 35 years.

(2) The United States, as a sovereign nation, must be able to respond to any Cuban provocation and defend the people and territory of the United States against any attack.

(3) In 1994, the Government of Cuba callously encouraged a massive exodus of Cubans, by boat and raft, toward the United States during which countless numbers of those Cubans lost their lives on the high seas.

(4) The humanitarian response of the United States to rescue, shelter, and provide emergency care to those Cubans,

together with the actions taken to absorb some 30,000 of those Cubans into the United States, required significant efforts and the expenditure of hundreds of millions of dollars for the costs incurred by the United States and State and local governments in connection with those efforts.

(5) On February 24, 1996, Cuban MiG aircraft attacked and destroyed, in international airspace, two unarmed civilian aircraft flying from the United States, and the four persons in those unarmed civilian aircraft were killed.

(6) Since that attack, the Cuban government has issued no apology for the attack, nor has it indicated any intention to conform its conduct to international law that is applicable to civilian aircraft operating in international airspace.

(b) REVIEW AND ASSESSMENT.—The Secretary of Defense shall carry out a comprehensive review and assessment of—

(1) Cuban military capabilities; and

(2) the threats to the national security of the United States that may be posed by Cuba, including—

(A) such unconventional threats as (i) encouragement of massive and dangerous migration, and (ii) attacks on citizens and residents of the United States while they are engaged in peaceful protest in international waters or airspace;

(B) the potential for development and delivery of chemical or biological weapons; and

(C) the potential for internal strife in Cuba that could involve citizens or residents of the United States or the Armed Forces of the United States.

(c) REPORT.—Not later than March 31, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the review and assessment. The report shall include the following:

(1) The Secretary's assessment of the capabilities and threats referred to in subsection (b), including each of the threats described in paragraph (2) of that subsection.

(2) A discussion of the results of the review and assessment, including an assessment of the contingency plans developed by the Secretary to counter any threat posed by Cuba to the United States.

(d) CONSULTATION ON REVIEW AND ASSESSMENT.—In performing the review and assessment and in preparing the report, the Secretary of Defense shall consult with the Chairman of the Joint Chiefs of Staff, the commander of the United States Southern Command, and the heads of other appropriate departments and agencies of the United States.

SEC. 1229. REPORT ON HELSINKI JOINT STATEMENT.

The report shall address the United States approach (including verification implications) to implementing the Helsinki Joint Statement, in particular, as that Statement relates to the following:

(1) Lower aggregate levels of strategic nuclear warheads.

(2) Measures relating to the transparency of strategic nuclear warhead inventories and the destruction of strategic nuclear warheads.

(3) Deactivation of strategic nuclear delivery vehicles.

(4) Measures relating to nuclear long-range sea-launched cruise missiles and tactical nuclear systems.

(5) Issues related to transparency in nuclear materials.

(b) DEFINITION.—For purposes of this section, the term “Helsinki Joint Statement” means the agreements between the President of the United States and the President of the Russian Federation as contained in the Joint Statement on Parameters on Future Reductions in Nuclear Forces issued at Helsinki in March 1997.

SEC. 1230. COMMENDATION OF MEXICO ON FREE AND FAIR ELECTIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) On July 6, 1997, elections were conducted in Mexico in order to fill 500 seats in the Chamber of Deputies, 32 seats in the 128 seat Senate, the office of the Mayor of Mexico City, and local elections in a number of Mexican States.

(2) For the first time, the federal elections were organized by the Federal Electoral Institute, an autonomous and independent organization established under the Mexican Constitution.

(3) More than 52,000,000 Mexican citizens registered to vote.

(4) Eight political parties registered to participate in those elections, including the Institutional Revolutionary Party (PRI), the National Action Party (PAN), and the Democratic Revolutionary Party (PRD).

(5) Since 1993, Mexican citizens have had the exclusive right to participate as observers in activities related to the preparation and the conduct of elections.

(6) Since 1994, Mexican law has permitted international observers to be a part of the election process.

(7) With 84 percent of the ballots counted, PRI candidates received 38 percent of the vote for seats in the Chamber of Deputies, while PRD and PAN candidates received 52 percent of the combined vote.

(8) PRD candidate Cuauhtemoc Cardenas Solorzano has become the first elected Mayor of Mexico City, a post previously appointed by the President.

(9) PAN members will now serve as governors in seven of Mexico's 31 States.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the recent elections in Mexico were conducted in a free, fair, and impartial manner;

(2) the will of the Mexican people, as expressed through the ballot box, has been respected by President Ernesto Zedillo and officials throughout his administration; and

(3) President Zedillo, the Mexican Government, the Federal Electoral Institute of Mexico, the political parties and candidates, and most importantly the citizens of Mexico should all be congratulated for their support and participation in these very historic elections.

SEC. 1231. SENSE OF CONGRESS REGARDING CAMBODIA.

(a) FINDINGS.—Congress makes the following findings:

(1) During the 1970s and 1980s, Cambodia was wracked by political conflict, war, and violence, including genocide perpetrated by the Khmer Rouge from 1975 to 1979.

(2) The 1991 Paris Agreements on a Comprehensive Political Settlement of the Cambodia Conflict set the stage for a process of political accommodation and national reconciliation among Cambodia's warring parties.

(3) The international community engaged in a massive effort involving more than \$2,000,000,000 to ensure peace, democracy, and prosperity in Cambodia following the Paris Accords.

(4) The Cambodian people clearly demonstrated their support for democracy when 90 percent of eligible Cambodian voters participated in United Nations-sponsored elections in 1993.

(5) Since the 1993 elections, Cambodia has made economic progress, as shown by the recent decision of the Association of Southeast Asian Nations (ASEAN) to extend membership in the Association to Cambodia.

(6) Tensions within the ruling Cambodian coalition have erupted into violence.

(7) In March 1997, 19 Cambodians were killed and more than 100 were wounded in a grenade attack on political demonstrators supportive of the Funcinpec and the Khmer Nation Party.

(8) During June 1997, fighting erupted in Phnom Penh between forces loyal to First Prime Minister Prince Ranariddh and Second Prime Minister Hun Sen.

(9) On July 5, 1997, Second Prime Minister Hun Sen deposed the First Prime Minister in a violent coup d'état.

(10) Forces loyal to Hun Sen have executed former Interior Minister Ho Sok and approximately 40 other political opponents loyal to Prince Ranariddh.

(11) Democracy and stability in Cambodia are threatened by the continued use of violence and other extralegal means to resolve political tensions.

(12) In response to the July 1997 coup in Cambodia referred to in paragraph (9)—

President.

(A) the President has suspended all direct assistance to the Cambodian Government; and

(B) the Association of Southeast Asian Nations (ASEAN) has decided to delay indefinitely admission of Cambodia to membership in the Association.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the parties in Cambodia should immediately cease the use of violence;

(2) the United States should take all necessary steps to ensure the safety of United States citizens in Cambodia;

(3) the United States should call an emergency meeting of the United Nations Security Council to consider all options to restore peace and democratic governance in Cambodia;

(4) the United States and the Association of Southeast Asian Nations should work together to take immediate steps to restore democracy and the rule of law in Cambodia;

(5) United States assistance to the Government of Cambodia should remain suspended until violence ends, the democratically elected Government is restored to power, and the

necessary steps have been taken to ensure that the elections scheduled for 1998 take place; and

(6) the United States should take all necessary steps to encourage other donor nations to suspend assistance as part of a multilateral effort.

(a) FINDINGS.—Congress makes the following findings:

(1) His Excellency Christopher F. Patten, the former Governor of Hong Kong, was the twenty-eighth and last British Governor of the dependent territory of Hong Kong before that territory reverted back to the People's Republic of China on July 1, 1997.

(2) Christopher Patten was a superb administrator and an inspiration to the people whom he governed.

(3) During Christopher Patten's five years as Governor of Hong Kong, the economy flourished under his stewardship, growing by more than 30 percent in real terms.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that Christopher F. Patten, the last British Governor of the dependent territory of Hong Kong—

(1) served his country with great honor and distinction in that capacity; and

(a) **REQUIRED REPORT.**—Not later than January 1, 1998, the President shall submit to Congress a report concerning detargeting of Russian strategic missiles. The report shall address each of the following:

(1) Whether a Russian ICBM that was formerly, but is no longer, targeted at a site in the United States would be automatically retargeted at a site in the United States in the event of the accidental launch of the missile.

(2) Whether missile detargeting would prevent or significantly reduce the possibility of an unauthorized missile launch carried out by the Russian General Staff and prevent or significantly reduce the consequences to the United States of such a launch.

(3) Whether missile detargeting would pose a significant obstacle to an unauthorized launch carried out by an operational level below the Russian General Staff if missile operators at such an operational level acquired missile launch codes or had the technical expertise to override missile launch codes.

(4) The plausibility of an accidental launch of a Russian ICBM, compared to the possibility of a deliberate missile launch, authorized or unauthorized, resulting from Russian miscalculation, overreaction, or aggression.

fiscal year 1998 to implement any agreement or understanding to undertake substantial early deactivation of a strategic nuclear delivery system specified in subsection (a) until 30 days after the date on which the President submits to Congress a report concerning such actions.

(2) For purposes of this subsection and subsection (d), a substantial early deactivation is an action during fiscal year 1998 to deactivate a substantial number of strategic nuclear delivery systems specified in subsection (a) by—

- (A) removing nuclear warheads from those systems; or
- (B) taking other steps to remove those systems from combat status.

(3) A report under this subsection shall include the following:

(D) A determination by the President as to whether the deactivations to occur under the agreement will be carried out in a symmetrical, reciprocal, or equivalent manner and whether the agreement will require early deactivations of strategic forces by the United States to be carried out substantially more rapidly than deactivations of strategic forces by Russia.

President.

(E) An assessment by the President of the effect of the proposed early deactivation on the stability of the strategic balance and relative strategic nuclear capabilities of the United States and the Russian Federation at various stages during deactivation and upon completion, including a determination by the President specifically as to whether the proposed early deactivations will adversely affect strategic stability.

President.

(d) FURTHER LIMITATION ON STRATEGIC FORCE REDUCTIONS.—

(1) Amounts available to the Department of Defense for fiscal year 1998 to implement an agreement that results in a substantial early deactivation during fiscal year 1998 of strategic forces may not be obligated for that purpose if in the report under subsection (c)(3) the President determines any of the following:

(A) That procedures for monitoring and verification of compliance by Russia with the terms of the agreement are inadequate.

(B) That the agreement will require early deactivations of strategic forces by the United States to be carried out substantially more rapidly than deactivations of strategic forces by Russia.

(C) That the proposed early deactivations will adversely affect strategic stability.

(2) The limitation in paragraph (1), if effective by reason of a determination by the President described in paragraph (1)(B),

shall cease to apply 30 days after the date on which the President notifies Congress that the early deactivations under the agreement are in the national interest of the United States.

(e) CONTINGENCY PLAN FOR SUSTAINMENT OF SYSTEMS.—(1) Not later than February 15, 1998, the Secretary of Defense shall submit to Congress a plan for the sustainment beyond October 1, 1999, of United States strategic nuclear delivery systems and alternative Strategic Arms Reduction Treaty force structures in the event that a strategic arms reduction agreement subsequent to the Strategic Arms Reduction Treaty does not enter into force before 2004.

(2) The plan shall include a discussion of the following matters:

42 USC 7274p.

SEC. 1305. ADVICE TO THE PRESIDENT AND CONGRESS REGARDING THE SAFETY, SECURITY, AND RELIABILITY OF UNITED STATES NUCLEAR WEAPONS STOCKPILE.

(a) FINDINGS.—Congress makes the following findings:

(1) Nuclear weapons are the most destructive weapons on earth. The United States and its allies continue to rely on nuclear weapons to deter potential adversaries from using weapons of mass destruction. The safety and reliability of the nuclear weapons stockpile are essential to ensure its credibility as a deterrent.

(2) On September 24, 1996, President Clinton signed the Comprehensive Test Ban Treaty.

(3) Effective as of September 30, 1996, the United States is prohibited by section 507 of the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377; 42 U.S.C. 2121 note) from conducting underground nuclear tests “unless a foreign state conducts a nuclear test after this date, at which time the prohibition on United States nuclear testing is lifted”.

(4) Section 1436(b) of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 42 U.S.C. 2121 note) requires the Secretary of Energy to “establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive test ban on nuclear explosive testing is negotiated and ratified.”

(5) Section 3138(d) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) required the President to submit an annual report to Congress which sets forth “any concerns with respect to the safety, security, effectiveness, or reliability of existing United States nuclear weapons raised by the Stockpile Stewardship Program of the Department of Energy”.

(6) President Clinton declared in July 1993 that “to assure that our nuclear deterrent remains unquestioned under a test ban, we will explore other means of maintaining our confidence in the safety, reliability, and the performance of our weapons”. This decision was incorporated in a Presidential Directive.

(7) Section 3138 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) also requires that the Secretary of Energy establish a “stewardship program to ensure the preservation of the core intellectual and technical competencies of the United States in nuclear weapons”.

(8) The plan of the Department of Energy to maintain the safety and reliability of the United States nuclear weapons stockpile is known as the Stockpile Stewardship and Management Program. The ability of the United States to maintain and certify the safety, security, effectiveness, and reliability

of the nuclear weapons stockpile without testing will require utilization of new and sophisticated computational capabilities and diagnostic technologies, methods, and procedures. Current diagnostic technologies and laboratory testing techniques are insufficient to certify the safety and reliability of the United States nuclear weapons stockpile into the future. Whereas in the past laboratory and diagnostic tools were used in conjunction with nuclear testing, in the future they will provide, under the Department of Energy's stockpile stewardship plan, the sole basis for assessing past test data and for making judgments on phenomena observed in connection with the aging of the stockpile.

(9) Section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) requires that the directors of the nuclear weapons laboratories and the nuclear weapons production plants submit a report to the Assistant Secretary of Energy for Defense Programs if they identify a problem that has significant bearing on confidence in the safety or reliability of a nuclear weapon or nuclear weapon type, that the Assistant Secretary must transmit that report, along with any comments, to the congressional defense committees and to the Secretary of Energy and the Secretary of Defense, and that the Joint Nuclear Weapons Council advise Congress regarding its analysis of any such problems.

(10) On August 11, 1995, President Clinton directed "the establishment of a new annual reporting and certification requirement [to] ensure that our nuclear weapons remain safe and reliable under a comprehensive test ban".

(11) On the same day, the President noted that the Secretary of Defense and the Secretary of Energy have the responsibility, after being "advised by the Nuclear Weapons Council, the Directors of DOE's nuclear weapons laboratories, and the Commander of United States Strategic Command", to provide the President with the information regarding the certification referred to in paragraph (10).

(12) The Joint Nuclear Weapons Council established by section 179 of title 10, United States Code, is responsible for providing advice to the Secretary of Energy and the Secretary of Defense regarding nuclear weapons issues, including "considering safety, security, and control issues for existing weapons". The Council plays a critical role in advising Congress in matters relating to nuclear weapons.

(13) It is essential that the President receive well-informed, objective, and honest opinions, including dissenting views, from his advisers and technical experts regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(b) POLICY.—

(1) IN GENERAL.—It is the policy of the United States—

(A) to maintain a safe, secure, effective, and reliable nuclear weapons stockpile; and

(B) as long as other nations control or actively seek to acquire nuclear weapons, to retain a credible nuclear deterrent.

(2) NUCLEAR WEAPONS STOCKPILE.—It is in the security interest of the United States to sustain the United States

nuclear weapons stockpile through a program of stockpile stewardship, carried out at the nuclear weapons laboratories and nuclear weapons production plants.

(3) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the United States should retain a triad of strategic nuclear forces sufficient to deter any future hostile foreign leadership with access to strategic nuclear forces from acting against the vital interests of the United States;

(B) the United States should continue to maintain nuclear forces of sufficient size and capability to implement an effective and robust deterrent strategy; and

(C) the advice of the persons required to provide the President and Congress with assurances of the safety, security, effectiveness, and reliability of the nuclear weapons force should be scientifically based, without regard for politics, and of the highest quality and integrity.

(c) ADDITION OF PRESIDENT TO RECIPIENTS OF REPORTS BY HEADS OF LABORATORIES AND PLANTS.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) is amended—

(1) by striking out “committees and” and inserting in lieu thereof “committees,”; and

(2) by inserting before the period at the end the following: “, and to the President”.

(d) TEN-DAY TIME LIMIT FOR TRANSMITTAL OF REPORT.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) is amended by striking out “As soon as practicable” and inserting in lieu thereof “Not later than 10 days”.

(e) ADVICE AND OPINIONS REGARDING NUCLEAR WEAPONS STOCKPILE.—In addition to a director of a nuclear weapons laboratory or a nuclear weapons production plant (under section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o)), any member of the Joint Nuclear Weapons Council or the commander of the United States Strategic Command may also submit to the President, the Secretary of Defense, the Secretary of Energy, or the congressional defense committees advice or opinion regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(f) EXPRESSION OF INDIVIDUAL VIEWS.—A representative of the President may not take any action against, or otherwise constrain, a director of a nuclear weapons laboratory or a nuclear weapons production plant, a member of the Joint Nuclear Weapons Council, or the Commander of United States Strategic Command for presenting individual views to the President, the National Security Council, or Congress regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(g) DEFINITIONS.—In this section:

(1) The term “representative of the President” means the following:

(A) Any official of the Department of Defense or the Department of Energy who is appointed by the President and confirmed by the Senate.

(B) Any member of the National Security Council.

(C) Any member of the Joint Chiefs of Staff.

(D) Any official of the Office of Management and Budget.

(C) The Kansas City Plant, Missouri.

(D) The Y-12 Plant, Oak Ridge, Tennessee.

SEC. 1306. RECONSTITUTION OF COMMISSION TO ASSESS THE BALLISTIC MISSILE THREAT TO THE UNITED STATES.

(a) INITIAL ORGANIZATION REQUIREMENTS.—Section 1321(g) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2712) is amended—

(1) in paragraph (1), by striking out “not later than 45 days after the date of the enactment of this Act” and inserting in lieu thereof “not later than 30 days after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998”; and

(2) in paragraph (2)—

(A) by striking out “30 days” and inserting in lieu thereof “60 days”; and

(B) by striking out “, but not earlier than October 15, 1996”.

(b) FUNDING.—Section 1328 of such Act (110 Stat. 2714) is amended by inserting “and fiscal year 1998” after “for fiscal year 1997”.

SEC. 1307. SENSE OF CONGRESS REGARDING THE RELATIONSHIP BETWEEN UNITED STATES OBLIGATIONS UNDER THE CHEMICAL WEAPONS CONVENTION AND ENVIRONMENTAL LAWS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Chemical Weapons Convention requires the destruction of the United States stockpile of lethal chemical agents and munitions by April 29, 2007 (not later than 10 years after the Convention’s entry into force).

(2) The President has substantial authority under existing law to ensure that—

(A) the technologies necessary to destroy the stockpile are developed;

(B) the facilities necessary to destroy the stockpile are constructed; and

(C) Federal, State, and local environmental laws and regulations do not impair the ability of the United States to comply with its obligations under the Convention.

(3) The Comptroller General has concluded (in GAO Report NSIAD 97018 of February 1997) that—

(A) obtaining the necessary Federal and State permits that are required under Federal environmental laws and regulations for building and operating the chemical agents and munitions destruction facilities is among the most unpredictable factors in the chemical demilitarization program; and

(B) program cost and schedule are largely driven by the degree to which States and local communities are in agreement with proposed disposal methods and whether those methods meet environmental concerns.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President—

(1) should use the authority of the President under existing law to ensure that the United States is able to construct and operate the facilities necessary to destroy the United States stockpile of lethal chemical agents and munitions within the time allowed by the Chemical Weapons Convention; and

(2) while carrying out the obligations of the United States under the Convention, should encourage negotiations between appropriate Federal officials and officials of the State and local governments concerned to attempt to meet their concerns regarding compliance with Federal and State environmental laws and regulations and other concerns about the actions being taken to carry out those obligations.

(c) CHEMICAL WEAPONS CONVENTION DEFINED.—For the purposes of this section, the terms “Chemical Weapons Convention” and “Convention” mean the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, ratified by the United States on April 25, 1997, and entered into force on April 29, 1997.

SEC. 1308. EXTENSION OF COUNTERPROLIFERATION AUTHORITIES FOR SUPPORT OF UNITED NATIONS SPECIAL COMMISSION ON IRAQ.

Section 1505 of the Weapons of Mass Destruction Control Act of 1992 (title XV of Public Law 102-484; 22 U.S.C. 5859a) is amended—

(1) in subsection (d)(3), by striking out “or” after “fiscal year 1996,” and by inserting “, or \$15,000,000 for fiscal year 1998” before the period at the end; and

(2) in subsection (f), by striking out “1997” and inserting in lieu thereof “1998”.

10 USC 113 note. **SEC. 1309. ANNUAL REPORT ON MORATORIUM ON USE BY ARMED FORCES OF ANTIPERSONNEL LANDMINES.**

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has stated its support for a ban on antipersonnel landmines that is global in scope and verifiable.

Korea.

(2) On May 16, 1996, the President announced that the United States, as a matter of policy, would eliminate its stockpile of non-self-destructing antipersonnel landmines, except those used for training purposes and in Korea, and that the United States would reserve the right to use self-destructing antipersonnel landmines in the event of conflict.

(3) On May 16, 1996, the President also announced that the United States would lead an effort to negotiate an international treaty permanently banning the use of all antipersonnel landmines.

(4) The United States is currently participating at the United Nations Conference on Disarmament in negotiations aimed at achieving a global ban on the use of antipersonnel landmines.

(5) On August 18, 1997, the administration agreed to participate in international negotiations sponsored by Canada (the so-called "Ottawa process") designed to achieve a treaty that would outlaw the production, use, and sale of antipersonnel landmines. Canada.

(6) On September 17, 1997, the President announced that the United States would not sign the antipersonnel landmine treaty concluded in Oslo, Norway, by participants in the Ottawa process because the treaty would not provide a geographic exception to allow the United States to stockpile and use antipersonnel landmines in Korea or an exemption that would preserve the ability of the United States to use mixed antitank mine systems which could be used to deter an armored assault against United States forces. Norway.

(7) The President also announced a change in United States policy whereby the United States— Korea.

(A) would no longer deploy antipersonnel landmines, including self-destructing antipersonnel landmines, by 2003, except in Korea;

(B) would seek to field alternatives by that date, or by 2006 in the case of Korea;

(C) would undertake a new initiative in the United Nations Conference on Disarmament to establish a global ban on the transfer of antipersonnel landmines; and

(D) would increase its current humanitarian demining activities around the world.

(8) The President's decision would allow the continued use by United States forces of self-destructing antipersonnel landmines that are used as part of a mixed antitank mine system.

(9) Under existing law (as provided in section 580 of Public Law 104-107; 110 Stat. 751), on February 12, 1999, the United States will implement a one-year moratorium on the use of antipersonnel landmines by United States forces except along internationally recognized national borders or in demilitarized zones within a perimeter marked area that is monitored by military personnel and protected by adequate means to ensure the exclusion of civilians.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should not implement a moratorium on the use of antipersonnel landmines by United States Armed Forces in a manner that would endanger United States personnel or undermine the military effectiveness of United States Armed Forces in executing their missions; and

(2) the United States should pursue the development of alternatives to self-destructing antipersonnel landmines.

(c) ANNUAL REPORT.—Not later than December 31 each year, the Secretary of Defense shall submit to the congressional defense committees a report concerning antipersonnel landmines. Each such report shall include the Secretary's description of the following:

(1) The military utility of the continued deployment and use by the United States of antipersonnel landmines.

(2) The effect of a moratorium on the production, stockpiling, and use of antipersonnel landmines on the ability of United States forces to deter and defend against attack on land by hostile forces, including on the Korean peninsula.

(3) Progress in developing and fielding systems that are effective substitutes for antipersonnel landmines, including an

identification and description of the types of systems that are being developed and fielded, the costs associated with those systems, and the estimated timetable for developing and fielding those systems.

(4) The effect of a moratorium on the use of antipersonnel landmines on the military effectiveness of current antitank mine systems.

(5) The number and type of pure antipersonnel landmines that remain in the United States inventory and that are subject to elimination under the President's September 17, 1997, declaration on United States antipersonnel landmine policy.

(6) The number and type of mixed antitank mine systems that are in the United States inventory, the locations where they are deployed, and their effect on the deterrence and warfighting ability of United States Armed Forces.

(7) The effect of the elimination of pure antipersonnel landmines on the warfighting effectiveness of the United States Armed Forces.

(8) The costs already incurred and anticipated of eliminating antipersonnel landmines from the United States inventory in accordance with the policy enunciated by the President on September 17, 1997.

(9) The benefits that would result to United States military and civilian personnel from an international treaty banning the production, use, transfer, and stockpiling of antipersonnel landmines.

SEC. 2825. SENSE OF SENATE REGARDING UTILIZATION OF SAVINGS DERIVED FROM BASE CLOSURE PROCESS.

(a) FINDINGS.—The Senate makes the following findings:

(1) Since 1988, the Department of Defense has conducted four rounds of closures and realignments of military installations in the United States, resulting in the closure of 97 installations.

(2) The cost of carrying out the closure or realignment of installations covered by such rounds is estimated by the Secretary of Defense to be \$23,000,000,000.

(3) The savings expected as a result of the closure or realignment of such installations are estimated by the Secretary to be \$10,300,000,000 through fiscal year 1996 and \$36,600,000,000 through 2001.

(4) In addition to such savings, the Secretary has estimated recurring savings as a result of the closure or realignment of such installations of approximately \$5,600,000,000 annually.

(5) The fiscal year 1997 budget request for the Department assumed a savings of between \$2,000,000,000 and \$3,000,000,000 as a result of the closure or realignment of such installations, which savings were to be dedicated to the

modernization of the Armed Forces. The savings assumed in the budget request were not realized.

(6) The fiscal year 1998 budget request for the Department assumes a savings of \$5,000,000,000 as a result of the closure or realignment of such installations, which savings are to be dedicated to the modernization of the Armed Forces.

(b) SENSE OF SENATE ON USE OF SAVINGS RESULTING FROM BASE CLOSURE PROCESS.—It is the sense of the Senate that the savings identified in the report under section 2824 should be made available to the Department of Defense solely for purposes of the modernization of new weapon systems (including research, development, test, and evaluation relating to such modernization) and should be used by the Department solely for such purposes.
