Oct. 12, 1976

[H.R. 5546]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

Health  
Professions  
Educational  
Assistance Act of  
1976.  
42 USC 201 note.

SHORT TITLE: REFERENCE TO ACT

SECTION 1. (a) This Act may be cited as the "Health Professions Educational Assistance Act of 1976".

(b) Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

FINDINGS AND DECLARATION OF POLICY

SEC. 2. (a) The Congress finds and declares that—

42 USC 292 note.

(1) the availability of high quality health care to all Americans is a national goal;

(2) the availability of high quality health care is, to a substantial extent, dependent upon—

(A) the availability of qualified health professions personnel; and

(B) the availability of adequate numbers of physicians engaged in the delivery of primary care, including family practice, general internal medicine, and general pediatrics, and in the various specialties, but numbers which do not exceed the need for physicians in such specialties;

(3) there are many areas in the United States which are unable to attract adequate numbers of health professions personnel to meet their health care needs; and

(4) physician specialization has resulted in inadequate numbers of physicians engaged in the delivery of primary care.

(b) The Congress further finds and declares that—

(1) health professions personnel are a national health resource and the Federal Government shares the responsibility of assuring that such qualified personnel are available to meet the health care needs of the American people;

(2) it is therefore appropriate to provide support for the education and training of such personnel; and

(3) at the same time it is appropriate to provide such support in a manner which will assure the availability of health professions personnel to all of the American people.

(c) The Congress further finds and declares that there is no longer an insufficient number of physicians and surgeons in the United States such that there is no further need for affording preference to alien physicians and surgeons in admission to the United States under the Immigration and Nationality Act.

8 USC 1101 note.

“(2) Insurance evidenced by a certificate of insurance pursuant to subsection (a) (1) shall become effective upon the date of issuance of the certificate, except that the Secretary is authorized, in accordance with regulations, to issue commitments with respect to proposed loans, or with respect to lines (or proposed lines) of credit, submitted by eligible lenders, and in that event, upon compliance with subsection (a) (1) by the lender, the certificate of insurance may be issued effective as of the date when any loan, or any payment by the lender pursuant to a line of credit, to be covered by such insurance was made. Such insurance shall cease to be effective upon 60 days' default by the lender in the payment of any installment of the premiums payable pursuant to subsection (c).

Application.

“(3) An application submitted pursuant to subsection (a) (1) shall contain (A) an agreement by the applicant to pay, in accordance with regulations, the premiums fixed by the Secretary pursuant to subsection (c), and (B) an agreement by the applicant that if the loan is covered by insurance the applicant will submit such supplementary reports and statements during the effective period of the loan agreement, upon such forms, at such times, and containing such information as the Secretary may prescribe by or pursuant to regulation.

“(b) (1) In lieu of requiring a separate insurance application and issuing a separate certificate of insurance for each student loan made by an eligible lender as provided in subsection (a), the Secretary

may, in accordance with regulations consistent with section 728, issue to any eligible lender applying therefor a certificate of comprehensive insurance coverage which shall, without further action by the Secretary, insure all insurable loans made by that lender, on or after the date of the certificate and before a specified cutoff date, within the limits of an aggregate maximum amount stated in the certificate. Such regulations may provide for conditioning such insurance, with respect to any loan, upon compliance by the lender with such requirements (to be stated or incorporated by reference in the certificate) as in the Secretary's judgment will best achieve the purpose of this subsection while protecting the financial interest of the United States and promoting the objectives of this subpart, including (but not limited to) provisions as to the reporting of such loans and information relevant thereto to the Secretary and as to the payment of initial and other premiums and the effect of default therein, and including provision for confirmation by the Secretary from time to time (through endorsement of the certificate) of the coverage of specific new loans by such certificate, which confirmation shall be incontestable by the Secretary in the absence of fraud or misrepresentation of fact or patent error.

"(2) If the holder of a certificate of comprehensive insurance coverage issued under this subsection grants to a student a line of credit extending beyond the cutoff date specified in that certificate, loans or payments thereon made by the holder after that date pursuant to the line of credit shall not be deemed to be included in the coverage of that certificate except as may be specifically provided therein; but, subject to the limitations of section 728, the Secretary may, in accordance with regulations, make commitments to insure such future loans or payments, and such commitments may be honored either as provided in subsection (a) or by inclusion of such insurance in comprehensive coverage under this subsection for the period or periods in which such future loans or payments are made.

"(c) The Secretary shall, pursuant to regulations, charge for insurance on each loan under this subpart a premium in an amount not to exceed 2 percent per year of the unpaid principal amount of such loan (excluding interest added to principal), payable in advance, at such times and in such manner as may be prescribed by the Secretary. Such regulations may provide that such premium shall not be payable, or if paid shall be refundable, with respect to any period after default in the payment of principal or interest or after the borrower has died or become totally and permanently disabled, if (1) notice of such default or other event has been duly given, and (2) requests for payment of the loss insured against has been made or the Secretary has made such payment on his own motion pursuant to section 733(a).

"(d) The rights of an eligible lender arising under insurance evidenced by a certificate of insurance issued to it under this section may be assigned as security by such lender only to another eligible lender, and subject to regulation by the Secretary.

"(e) The consolidation of the obligations of two or more federally insured loans obtained by a student borrower in any fiscal year into a single obligation evidenced by a single instrument of indebtedness shall not affect the insurance by the United States. If the loans thus consolidated are covered by separate certificates of insurance issued under subsection (a), the Secretary may upon surrender of the original certificates issue a new certificate of insurance in accordance with that subsection upon the consolidated obligation. (a) Upon default by the student borrower on any loan covered by Federal loan insurance pursuant to this subpart, and after a substantial collection effort (including, if appropriate, commencement of a suit) as determined under regulations of the Secretary, the insurance beneficiary shall promptly notify the Secretary and the Secretary shall, if requested (at that time or after further collection efforts) by the beneficiary, or may on his own motion, if the insurance is still in effect, pay to the beneficiary the amount of the loss sustained by the insured upon that loan as soon as that amount has been determined.

"(b) Upon payment by the Secretary of the amount of the loss pursuant to subsection (a), the United States shall be subrogated for all of the rights of the holder of the obligation upon the insured loan and shall be entitled to an assignment of the note or other evidence of the insured loan by the insurance beneficiary. If the net recovery made by the Secretary on a loan after deduction of the cost of that recovery (including reasonable administrative costs) exceeds the amount of the loss, the excess shall be paid over to the insured.

"(c) Nothing in this section or in this subpart shall be construed to preclude any forbearance for the benefit of the student borrower which may be agreed upon by the parties to the insured loan and approved by the Secretary or to preclude forbearance by the Secretary in the enforcement of the insured obligation after payment on that insurance.

"(d) Nothing in this section or in this subpart shall be construed to excuse the holder of a federally insured loan from exercising reasonable care and diligence in the making of loans under the provisions of this subpart and from exercising a substantial effort in the collection of loans under the provisions of this subpart. If the Secretary, after reasonable notice and opportunity for hearing to an eligible lender, finds that the lender has failed to exercise such care and diligence, to exercise such substantial efforts, to make the reports and statements required under section 732(a)(3), or to pay the required Federal loan insurance premiums, he shall disqualify that lender from obtaining further Federal insurance on loans granted pursuant to this subpart until he is satisfied that its failure has ceased and finds that there is reasonable assurance that the lender will in the future exercise necessary care and diligence, exercise substantial effort, or comply with such requirements, as the case may be.

"(g) A debt which is a loan insured under the authority of this subpart may be released by a discharge in bankruptcy under title 11 of

the United States Code only if such discharge is granted after the expiration of the five-year period beginning on the first date, as specified in section 731(a)(2)(B), when repayment of such loan is required.

“(B) The Secretary shall determine what percent of all the positions filled, as of July 15, 1977, and July 15 of each subsequent year, in all direct or affiliated medical residency training programs are filled positions in such programs in primary care. In determining the number of such positions in primary care on July 15, 1977, or on July 15 of a subsequent year, the Secretary shall deduct from such number a number equal to the number of individuals who were in a first year

“(E) The Secretary shall not make any grant under section 770 to a school of medicine for any fiscal year if the Secretary, after providing notice and opportunity for a hearing, determines that in the fiscal year such school—

“(i) terminated or failed to renew an affiliation with a medical residency training program for the purpose of meeting the requirements of this paragraph, and

“(ii) after such a termination or failure to renew, provided support for such medical residency training program (including any interchange of medical residents, students, or faculty between the school and such program, the offering of any faculty position at such school to any individual on the staff of such entity who has any responsibility for such program, or the provision or receipt by such school of any funds for such program).

“(F) For purposes of this paragraph:

Definitions.

“(i) The term ‘direct or affiliated medical residency training program’ means a medical residency training program with which a school of medicine is affiliated or has a similar arrangement (including any arrangement which provides for any interchange of medical residents, students, or faculty between the school and such program, the offering of any faculty position at such school to any individual on the staff of such entity who has any responsibility for such program, or the provision or receipt by such school of any funds for such program), as determined under regulations of the Secretary, or which is primarily conducted in facilities owned by a school of medicine.

“(ii) The term ‘primary care’ means general internal medicine, family medicine, or general pediatrics.

“(iii) The term ‘medical residency training program’ means a program which trains graduates of schools of medicine and schools of osteopathy in a medical specialty and which provides the graduate education required by the appropriate specialty board for certification in such specialty. Such term does not include a residency training program in an osteopathic hospital.

*Ante*, p. 2290.

“(3) (A) To be eligible for a grant under section 770 a school of medicine shall, in its application for such grant, give assurances satisfactory to the Secretary that, except as provided in subparagraphs (C) and (D), the school will reserve positions, in the school year beginning immediately before the fiscal year for which such grant is applied for, for students described in subparagraph (B).

*Ante*, p. 2243.

“(B) No later than August 15, 1977, and August 15 of each of the next two years, the Secretary shall identify the citizens of the United States who, before the date of enactment of the Health Professions Educational Assistance Act of 1976, were students in a school of medicine not in a State and who by the date of the identification made under this subparagraph—

“(i) successfully completed at least two years in such school of medicine, and

“(ii) successfully completed part I of the National Board of Medical Examiners’ examination (or any successor to such examination).

The Secretary shall equitably apportion a number of positions adequate to fill the needs of students described in subparagraph (B) among the schools of medicine in the States.

“(C) A school of medicine shall not be required to enroll a student described in subparagraph (B) if—

“(i) the individual does not meet, as determined under guidelines established by the Secretary by regulation, the entrance requirements of the school (other than requirements related to academic qualifications or to place of residence), or

“(ii) enrollment of such individual will, as determined by the Secretary after consultation with the appropriate accreditation body, result in the school’s not meeting the accreditation standards of such body.

*Waiver*.

“(D) The Secretary may waive the requirements of this paragraph upon a finding that, because of the inadequate size of the population served by the hospital or clinical facility in which such school conducts its clinical training, compliance by such school with such assurances will prevent such school from providing high quality clinical training for the students added by the application of this paragraph to such school.

“(c) SCHOOLS OF OSTEOPATHY.—(1) To be eligible for a grant under section 770 for a fiscal year beginning after September 30, 1977, a school of osteopathy shall, in addition to the requirements of subsection (a), submit to the Secretary and have approved by him before the grant applied for is made, a plan to train full-time students in ambulatory care settings, in the school year beginning in the fiscal year for which the grant is made and in each school year thereafter beginning in a fiscal year for which such a grant is made, either in areas geographically remote from the main site of the teaching facilities of the applicant (or any other school of osteopathy which has joined with the applicant in the submission of the plan) or in areas in which medically underserved populations reside.

“(2) More than one applicant may join in the submission of a plan described in paragraph (1). No plan may be approved by the Secretary unless—

“(A) the application for a grant under section 770 of each school which has joined in the submission of the plan contains or is supported by assurances satisfactory to the Secretary that all of the full-time students who will graduate from such school will upon graduation have received at least 6 weeks (at least 3 of which shall be consecutive) of clinical training in an area which is geographically remote from the main site of the training facilities of such school or in which medically underserved populations reside;

*Ante*, p. 2290.

“(B) the plan contains a list of the areas where the training under such plan is to be conducted, a detailed description of the type and amount of training to be given in such areas, and provision for periodic review by experts in osteopathic education of the desirability of providing training in such areas and of the quality of training rendered in such areas;

“(C) the plan contains a specific program for the appointing, as members of the faculty of the school or schools submitting the plan, of practicing physicians to serve as instructors in the training program in such areas; and

“(D) the plan contains a plan for frequent counseling and consultation between the faculty of the school or schools at the main site of their training facilities and the instructors in the training program in such areas.

“(2) In the school year beginning in the fiscal year ending September 30, 1978, and in each school year thereafter beginning in a fiscal year for which a grant under section 770 is applied for, at least 70 percent of a school of dentistry's filled positions in dental specialty programs which are in excess of the number of filled positions in its programs in the school year beginning in the fiscal year ending September 30, 1977, shall be positions in dental specialty programs in general dentistry or pedodontics.

“(3) A school of dentistry shall maintain an enrollment of full-time first-year students, for the school year beginning in the fiscal year ending September 30, 1978, and for each school year thereafter beginning in a fiscal year for which a grant under section 770 is applied for, which exceeds the number of full-time, first-year students enrolled in such school in the school year beginning in the fiscal year ending September 30, 1976—

“(A) by 10 percent of such number if such number was not more than 100, or

“(B) by 5 percent of such number, or 10 students, whichever is greater, if such number was more than 100.

“(4)(A) A school of dentistry shall submit to the Secretary and have approved by him before the grant applied for is made, a plan to train full-time students in ambulatory care settings, in the school year beginning in the fiscal year for which the grant is made and in each school year thereafter beginning in a fiscal year for which such a grant is made, either in areas geographically remote from the main site of the teaching facilities of the applicant (or any other school of

“(ii) the plan contains a list of the areas where the training under such plan is to be conducted, a detailed description of the type and amount of training to be given in such areas, and provision for periodic review by experts in dental education of the desirability of providing training in such areas and of the quality of training rendered in such areas;

“(2) The Secretary may waive (in whole or in part) application to a school of public health of the requirement of paragraph (1) if the Secretary determines, after receiving the written recommendation of the appropriate accreditation body or bodies (approved for such purpose by the Commissioner of Education) that compliance by such school with such requirement will prevent it from maintaining its accreditation.

“(A) A school of medicine or of one of the other health professions, which is accredited by a body or bodies approved for the purpose by the Commissioner of Education, has agreed in writing to provide the graduate medical education or training under the program for which the alien is coming to the United States or to assume responsibility for arranging for the provision thereof by an appropriate public or nonprofit private institution or agency, except that, in the case of such an agreement by a school of medicine, any one or more of its affiliated hospitals which are to participate in the provision of the graduate medical education or training must join in the agreement;

“(B) Before making such agreement, the accredited school has been satisfied that the alien has passed parts I and II of the National Board of Medical Examiners Examination (or an equivalent examination as determined by the Secretary of Health, Education, and Welfare), has competency in oral and written English, will be able to adapt to the educational and cultural environment in which he will be receiving his education or training, and has adequate prior education and training to participate satisfactorily in the program for which he is coming to the United States;
