(3) the State of California and its local units of government have authority to prevent or minimize adverse uses of the Santa Monica Mountains and adjacent coastline area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority.

(b) There is hereby established the Santa Monica Mountains National Recreation Area (hereinafter referred to as the "recreation area"). The Secretary shall manage the recreation area in a manner which will preserve and enhance its scenic, natural, and historical setting and its public health value as an airshed for the Southern California metropolitan area while providing for the recreational and educational need of the visiting public.

Notwithstanding any other provision of law, any Federal property located within the boundaries of the recreation area shall, with the concurrence of the head of the agency having custody thereof, be transferred without cost, to the administrative jurisdiction of the Secretary for the purposes of the recreation area.

(2) By January 1, 1980, the Secretary shall submit, in writing, to the committees referred to in subsection (c) and to the Committees on Appropriations of the United States Congress a detailed plan which shall indicate—

(A) the lands and areas identified in paragraph (1),

(B) the lands which he has previously acquired by purchase, donation, exchange, or transfer for the purpose of this recreation area,

The Secretary may acquire scenic easements to such improved property or such other interests as, in his judgment are necessary for the purposes of the recreation area.

Improved  
properties,  
acquisition.

Scenic  
easements.

(f) For the purposes of this section, the term "improved property" means—

Definition.

(1) a detached single-family dwelling, the construction of which was begun before January 1, 1976 (hereafter referred to as "dwelling"), together with so much of the land on which the dwelling is situated as is in the same ownership as the dwelling and as the Secretary designates to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, and

(2) property developed for agricultural uses, together with any structures accessory thereto as were used for agricultural purposes on or before January 1, 1978.

In determining when and to what extent a property is to be treated as "improved property" for purposes of this section, the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1978, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

Designation.

(g) The owner of an improved property, as defined in this section, on the date of its acquisition, as a condition of such acquisition, may retain for herself or himself, her or his heirs and assigns, a right of use and occupancy of the improved property for noncommercial residential or agriculture purposes, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of her or his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this section, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

retention.

Payment.

Termination,  
notification.

(h) In exercising the authority to acquire property under this section, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the recreation area to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

(i) The Secretary shall administer the recreation area in accordance with this Act and provisions of laws generally applicable to units of the National Park System, including the Act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 1 et seq.). In the administration of the recreation area, the Secretary may utilize such statutory authority

**Report.**

(l) By January 1, 1981, the Santa Monica Mountains National Recreation Area Advisory Commission, established by this section, shall submit a report to the Secretary which shall—

(2) recommend any changes in ownership, management, and operation which would better accomplish the purposes of this section, and

(3) recommend any conditions, joint management agreements, or other land use mechanisms to be contingent on any transfer of land.

**Report to congressional committees.**

(m) The Secretary, after giving careful consideration to the recommendations set forth by the Advisory Commission, shall, by January 1, 1982, submit a report to the Committees referred to in subsection (c) which shall incorporate the recommendations of the Advisory Commission as well as set forth the Secretary's recommendations. (2) The comprehensive plan shall include, in addition to the requirements of California State law—

(A) an identification and designation of public and private uses which are compatible with and which would not significantly impair the significant scenic, recreational, educational, scientific, natural, archeological, and public health benefits present in the zone and which would not have an adverse impact on the recreation area or on the air quality of the south coast air basin;

(B) a specific minimum land acquisition program which shall include, but not be limited to, fee and less than fee acquisition

of strategic and critical sites not to be acquired by the Federal Government for public recreational and other related uses; and a program for the complementary use of State and local authority to regulate the use of lands and waters within the Santa Monica Mountains Zone to the fullest extent practicable consistent with the purposes of this section; and

(C) a recreation transportation system which may include but need not be limited to existing public transit.

(3) No plan submitted to the Secretary under this section shall be approved unless the Secretary finds the plan consistent with paragraph (2) and finds that—

(A) the planning commission has afforded adequate opportunity, including public hearings, for public involvement in the preparation and review of the plan, and public comments were received and considered in the plan or revision as presented to him;

(B) the State and local units of government identified in the plan as responsible for implementing its provisions have the necessary authority to implement the plan and such State and local units of government have indicated their intention to use such authority to implement the plan;

(C) the plan, if implemented, would preserve significant natural, historical, and archeological benefits and, consistent with such benefits, provide increased recreational opportunities for persons residing in the greater Los Angeles-southern California metropolitan area; and

(D) implementation of the plan would not have a serious adverse impact on the air quality or public health of the greater Los Angeles region.

Before making his findings on the air quality and public health impacts of the plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency.

Consultation with  
EPA.

(4) Following approval of the plan with respect to the Santa Monica Mountains Zone, upon receipt of adequate assurances that all aspects of that jurisdiction's implementation responsibilities will be adopted and put into effect, the Secretary shall—

(A) provide grants to the State and through the State to local governmental bodies for acquisition of lands, waters, and interests therein identified in paragraph (2) (B), and for development of essential public facilities, except that such grants shall be made only for the acquisition of lands, waters, and interests therein, and related essential public facilities, for park, recreation, and conservation purposes; and

Grants.

(B) provide, subject to agreements that in the opinion of the Secretary will assure additional preservation of the lands and waters of the zone, such funds as may be necessary to retire bonded indebtedness for water and sewer and other utilities already incurred by property owners which in the opinion of the Secretary would if left outstanding contribute to further development of the zone in a manner inconsistent with the approved plan developed by the planning commission.

Funds.

No grant for acquisition of land may be made under subparagraph (A) unless the Secretary receives satisfactory assurances that such lands acquired under subparagraph (A) shall not be converted to other than park, recreation, and conservation purposes without the approval of the Secretary and without provision for suitable replacement land.

SEC. 902. (a) Within the Barataria Marsh Unit the Secretary is authorized to acquire not to exceed eight thousand acres of lands, waters, and interests therein (hereinafter referred to as the "core area"), as depicted on the map referred to in the first section of this title, by donation, purchase with donated or appropriated funds, or exchange. The Secretary may also acquire by any of the foregoing methods such lands and interests therein, including leasehold interests, as he may designate in the French Quarter of New Orleans for development and operation as an interpretive and administrative facility. Lands, waters, and interests therein owned by the State of Louisiana or any political subdivision thereof may be acquired only by donation. In acquiring property pursuant to this title, the Secretary may not acquire rights to oil and gas without the consent of the owner, but the exercise of such rights shall be subject to such regulations as the Secretary may promulgate in furtherance of the purposes of this title.

(b) With respect to the lands, waters, and interests therein generally depicted as the "park protection zone" on the map referred to in the first section of this title, the Secretary shall, no later than six months from the date of enactment of this Act, in consultation with the affected State and local units of government, develop a set of guidelines or criteria applicable to the use and development of properties within the park protection zone to be enacted and enforced by the State or local units of government.

Within the Barataria Marsh Unit, the owner or owners of improved property used for noncommercial residential purposes on a year-round basis may, as a condition of the acquisition of such property by the Secretary, elect to retain a right of use and occupancy of such property for noncommercial residential purposes if, in the judgment of the Secretary, the continued use of such property for a limited period would not unduly interfere with the development or management of the park. Such right of use and occupancy may be either a period ending on the death of the owner or his spouse, whichever occurs last, or a term of not more than twenty-five years, at the election of the owner. Unless the property is donated, the Secretary shall pay to the owner the fair market value of the property less the fair market value of the right retained by the owner. Such right may be transferred or assigned and may be terminated by the Secretary, if he finds that the property is not used for noncommercial residential purposes, upon tender to the holder of the right an amount equal to the fair market value of the unexpired term. As used in this section, the term "improved property" means a single-family, year-round dwelling, the construction of which was begun before January 1, 1977, which serves as the owner's permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located which the Secretary finds is reasonably necessary for the owner's continued use and occupancy of the dwelling.

SEC. 910. By no later than the end of the first full fiscal year following the date of enactment of this section, the Secretary shall submit to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a comprehensive report with recommendations as to sites within the Mississippi River Delta Region which constitute nationally significant examples of natural resources within that region.

Urban Park and Recreation Recovery Act of 1978.

TITLE X—URBAN PARK AND RECREATION RECOVERY PROGRAM

SHORT TITLE

16 USC 2501 note.

SEC. 1001. This title may be cited as the "Urban Park and Recreation Recovery Act of 1978".

FINDINGS

16 USC 2501.

SEC. 1002. The Congress finds that—

- (a) the quality of life in urban areas is closely related to the availability of fully functional park and recreation systems including land, facilities, and service programs;
- (b) residents of cities need close-to-home recreational opportunities that are adequate to specialized urban demands, with parks and facilities properly located, developed, and well maintained;
- (c) the greatest recreational deficiencies with respect to land, facilities, and programs are found in many large cities, especially at the neighborhood level;
- (d) inadequate financing of urban recreation programs due to fiscal difficulties in many large cities has led to the deterioration of facilities, nonavailability of recreation services, and an inability to adapt recreational programs to changing circumstances; and
- (e) there is no existing Federal assistance program which fully addresses the needs for physical rehabilitation and revitalization of these park and recreation systems.

SEC. 1003. The purpose of this title is to authorize the Secretary to establish an urban park and recreation recovery program which would provide Federal grants to economically hard-pressed communities specifically for the rehabilitation of critically needed recreation areas, facilities, and development of improved recreation programs for a period of five years. This short-term program is intended to complement existing Federal programs such as the Land and Water Conservation Fund and Community Development Grant Programs by encouraging and stimulating local governments to revitalize their park and recreation systems and to make long-term commitments to continuing maintenance of these systems. Such assistance shall be subject to such terms and conditions as the Secretary considers appropriate and in the public interest to carry out the purposes of this title.

Program  
authorization.  
16 USC 2502.

(d) "recovery action program grants" means matching grants to local governments for development of local park and recreation recovery action programs to meet the requirements of this title. Such grants will be for resource and needs assessment, coordination, citizen involvement and planning, and program development activities to encourage public definition of goals, and develop priorities and strategies for overall recreation system recovery;

16 USC 2504.  
Publication in  
Federal Register.

SEC. 1005. (a) Eligibility of general purpose local governments for assistance under this title shall be based upon need as determined by the Secretary. Within one hundred and twenty days after the effective date of this title, the Secretary shall publish in the Federal Register, a list of the local governments eligible to participate in this program, to be accompanied by a discussion of criteria used in determining eligibility. "Such criteria shall be based upon factors which the Secretary determines are related to deteriorated recreational facilities or systems, and physical and economic distress."

(b) Notwithstanding the list of eligible local governments established in accordance with subsection (a), the Secretary is also authorized to establish eligibility, at his discretion and in accord with the findings and purpose of this title, to other general purpose local governments in standard metropolitan statistical areas as defined by the census: *Provided*, That grants to these discretionary applicants do not exceed in the aggregate 15 per centum of funds appropriated under this title for rehabilitation, innovation, and recovery action program grants.

(c) The Secretary shall also establish priority criteria for project selection and approval which consider such factors as—

Priority criteria  
for project  
selection and  
approval.

(1) population;

(2) condition of existing recreation areas and facilities;

(3) demonstrated deficiencies in access to neighborhood recreation opportunities, particularly for minority, and low- and moderate-income residents;

(4) public participation in determining rehabilitation or development needs;

(5) the extent to which a project supports or complements target activities undertaken as part of a local government's overall community development and urban revitalization program;

(6) the extent to which a proposed project would provide employment opportunities for minorities, youth, and low- and moderate-income residents in the project neighborhood and/or would provide for participation of neighborhood, nonprofit or tenant organizations in the proposed rehabilitation activity or in subsequent maintenance, staffing, or supervision of recreation areas and facilities; and

(7) the amount of State and private support for a project as evidenced by commitments of non-Federal resources to project construction or operation.

## GRANTS TO IMPLEMENT PROGRAM

SEC. 1006. (a) The Secretary is authorized to provide 70 per centum matching rehabilitation and innovative grants directly to eligible general purpose local governments upon his approval of applications therefor by the chief executives of such governments.

Grants.  
16 USC 2505.

(1) At the discretion of such applicants, and if consistent with an approved application, rehabilitation and innovation grants may be transferred in whole or in part to independent special purpose local governments, private nonprofit agencies or county or regional park authorities: *Provided*, That assisted recreation areas and facilities owned or managed by them offer recreation opportunities to the general population within the jurisdictional boundaries of an eligible applicant.

Transference of grants.

(2) Payments may be made only for those rehabilitation or innovative projects which have been approved by the Secretary. Such payments may be made from time to time in keeping with the rate of progress toward the satisfactory completion of a project, except that the Secretary may, when appropriate, make advance payments on approved rehabilitation and innovative projects in an amount not to exceed 20 per centum of the total project cost.

Payments.

(3) The Secretary may authorize modification of an approved project only when a grantee has adequately demonstrated that such modification is necessary because of circumstances not foreseeable at the time a project was proposed.

(b) Innovation grants should be closely tied to goals, priorities, and implementation strategies expressed in local park and recreation recovery action programs, with particular regard to the special considerations listed in section 1007 (b) (2).

Innovation grants.

## LOCAL COMMITMENTS TO SYSTEM RECOVERY AND MAINTENANCE

SEC. 1007. (a) As a requirement for project approval, local governments applying for assistance under this title shall submit to the Secretary evidence of their commitments to ongoing planning, rehabilitation, service, operation, and maintenance programs for their park and recreation systems. These commitments will be expressed in local park and recreation recovery action programs which maximize coordination of all community resources, including other federally supported urban development and recreation programs. During an initial interim period to be established by regulations under this title, this requirement may be satisfied by local government submissions of preliminary action programs which briefly define objectives, priorities, and implementation strategies for overall system recovery and maintenance and commit the applicant to a scheduled program development process. Following this interim period, all local applicants shall submit to the Secretary, as a condition of eligibility, a five-year action program for park and recreation recovery that satisfactorily demonstrate:

16 USC 2506.

Recovery action programs.

(1) systematic identification of recovery objectives, priorities, and implementation strategies;

(2) adequate planning for rehabilitation of specific recreation areas and facilities, including projections of the cost of proposed projects;

(3) capacity and commitment to assure that facilities provided or improved under this title shall thereafter continue to be adequately maintained, protected, staffed, and supervised;

Five-year action programs for park and recreation recovery.

(4) intention to maintain total local public outlays for park and recreation purposes at levels at least equal to those in the year preceding that in which grant assistance is sought beginning in fiscal year 1980 except in any case where a reduction in park and recreation outlays is proportionate to a reduction in overall spending by the applicant; and

(5) the relationship of the park and recreation recovery program to overall community development and urban revitalization efforts.

Where appropriate, the Secretary may encourage local governments to meet action program requirements through a continuing planning process which includes periodic improvements and updates in action program submissions to eliminate identified gaps in program information and policy development.

**Action programs.**

(b) Action programs shall address, but are not limited to the following considerations:

(1) Rehabilitation of existing recreational sites and facilities, including general systemwide renovation; special rehabilitation requirements for recreational sites and facilities in areas of high population concentration and economic distress; and restoration of outstanding or unique structures, landscaping, or similar features in parks of historical or architectural significance.

(2) Local commitments to innovative and cost-effective programs and projects at the neighborhood level to augment recovery of park and recreation systems, including but not limited to recycling of abandoned schools and other public buildings for recreational purposes; multiple use of operating educational and other public buildings; purchase of recreation services on a contractual basis; use of mobile facilities and recreational, cultural, and educational programs or other innovative approaches to improving access for neighborhood residents; integration of recovery program with federally assisted projects to maximize recreational opportunities through conversion of abandoned railroad and highway rights-of-way, waterfront, and other redevelopment efforts and such other federally assisted projects as may be appropriate; conversion of recreation use of street space, derelict land, and other public lands not now designated for neighborhood recreational use; and use of various forms of compensated and uncompensated land regulation, tax inducements, or other means to encourage the private sector to provide neighborhood park and recreation facilities and programs.

**Publication in Federal Register.**

The Secretary shall establish and publish in the Federal Register requirements for preparation, submission, and updating of local park and recreation recovery action programs.

(c) **RECOVERY ACTION PROGRAM GRANTS.**—The Secretary is authorized to provide up to 50 per centum matching grants to eligible local applicants for program development and planning specifically to meet the objectives of this title.

**STATE ACTION INCENTIVE**

**Federal implementation grants, increase. 16 USC 2507.**

**SEC. 1008.** The Secretary is authorized to increase Federal implementation grants authorized in section 1006 by providing an additional match equal to the total match provided by a State of up to 15 per centum of total project costs. In no event may the Federal matching amount exceed 85 per centum of total project cost. The Secretary shall

further encourage the States to assist him in assuring that local recovery plans and programs are adequately implemented by cooperating with the Department of the Interior in monitoring local park and recreation recovery plans and programs and in assuring consistency of such plans and programs, where appropriate, with State recreation policies as set forth in statewide comprehensive outdoor recreation plans.

#### MATCHING REQUIREMENTS

SEC. 1009. The non-Federal share of project costs assisted under this Title may be derived from general or special purpose State or local revenues. State categorical grants, special appropriations by State legislatures, donations of land, buildings, or building materials and/or in-kind construction, technical, and planning services. No moneys from the Land and Water Conservation Fund (77 Stat. 49), as amended, or from any other Federal grant program other than general revenue sharing and the community development block grant programs shall be used to match Federal grants under this program. Reasonable local costs of action program development to meet the requirements of section 1007(a) of this title may be used as part of the local match only when local applicants have not received program development grants under the authority of section 1007(c) of this title. The Secretary shall encourage States and private interests to contribute, to the maximum extent possible, to the non-Federal share of project costs.

#### CONVERSION OF RECREATION PROPERTY

SEC. 1010. No property improved or developed with assistance under this title shall, without the approval of the Secretary, be converted to other than public recreation uses. The Secretary shall approve such conversion only if he finds it to be in accord with the current local park and recreation recovery action program and only upon such conditions as he deems necessary to assure the provision of adequate recreation properties and opportunities of reasonably equivalent location and usefulness.

16 USC 2509.

#### COORDINATION OF PROGRAM

SEC. 1011. The Secretary shall (a) coordinate the urban park and recreation recovery program with the total urban recovery effort and cooperate to the fullest extent possible with other Federal departments and agencies and with State agencies which administer programs and policies affecting urban areas, including but not limited to, programs in housing, urban development, natural resources management, employment, transportation, community services, and voluntary action; (b) encourage maximum coordination of the program between appropriate State agencies and local applicants; and (c) require that local applicants include provisions for participation of community and neighborhood residents and for public-private coordination in recovery planning and project selection.

16 USC 2510.

#### AUDIT REQUIREMENTS

SEC. 1012. Each recipient of assistance under this title shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and disposition of project undertakings in connection with which assistance under this title is given or used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will

facilitate an effective audit. The Secretary, and the Comptroller General of the United States, or their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this title.

Not more than 3 per centum of the funds authorized in any fiscal year may be used for grants for the development of local park and recreation recovery action programs pursuant to sections 1007(a) and 1007(c), and not more than 10 per centum may be used for innovation grants pursuant to section 6 of this title. Grants made under this title for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated in any fiscal year. For the authorizations made in this subsection, any amounts authorized but not appropriated in any fiscal year shall remain available for appropriation in succeeding fiscal years.

Notwithstanding any other provision of this Act, or any other law, or regulation, there is further authorized to be appropriated \$250,000 for each of the fiscal years 1979 through 1983, such sums to remain available until expended, to each of the insular areas. Such sums will not be subject to the matching provisions of this section, and may only be subject to such conditions, reports, plans, and agreements, if any, as determined by the Secretary.

#### LIMITATION OF USE OF FUNDS

16 USC 2513.

SEC. 1014. No funds available under this title shall be used for the acquisition of land or interests in land.

#### TITLE XI—NEW RIVER GORGE NATIONAL RIVER

Establishment  
and  
administration.  
16 USC  
460m-15.

SEC. 1101. For the purpose of conserving and interpreting outstanding natural, scenic, and historic values and objects in and around the New River Gorge and preserving as a free-flowing stream an important segment of the New River in West Virginia for the benefit and enjoyment of present and future generations, the Secretary of the Interior (hereinafter referred to as the "Secretary") shall establish and administer the New River Gorge National River. The Secretary shall administer, protect, and develop the national river in accordance with the provisions of the Act of August 25, 1916 (39 Stat. 535; 16

U.S.C. 1 et seq.), as amended and supplemented; except that any other statutory authority available to the Secretary for the preservation and management of natural resources may be utilized to the extent he finds such authority will further the purposes of this title. The boundaries of the national river shall be as generally depicted on the drawing entitled "Proposed New River Gorge National River" numbered NERI-20,002, dated July 1978, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior.

Boundary description, availability for public inspection.

SEC. 1102. (a) Within the boundaries of the New River Gorge National River, the Secretary may acquire lands and waters or interests therein by donation, purchase with donated or appropriated funds, transfer, or exchange. Lands owned by the State of West Virginia or a political subdivision thereof may be acquired by donation only. The authority of the Secretary to condemn in fee, improved properties as defined in subsection (c) of this section shall not be invoked as long as the owner of such improved property holds and uses it in a manner compatible with the purposes of this title. The Secretary may acquire any such improved property without the consent of the owner whenever he finds that such property has undergone, since January 1, 1978, or is imminently about to undergo, changes in land use which are incompatible with the purposes of the national river. The Secretary may acquire less than fee interest in any improved or unimproved property within the boundaries of the national river.

Acquisition of lands, waters, or interests.  
16 USC 460m-16.

(b) On non-federally owned lands within the national river boundaries, the Secretary is authorized to enter into cooperative agreements with organizations or individuals to mark or interpret properties of significance to the history of the Gorge area.

Non-federally owned lands.

(c) For the purposes of this Act, the term "improved property" means (i) a detached single family dwelling, the construction of which was begun before January 1, 1977 (hereafter referred to as "dwelling"), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, or (ii) property developed for agricultural uses, together with any structures accessory thereto which were so used on or before January 1, 1977, or (iii) commercial and small business properties which were so used on or before January 1, 1977, the purpose of which is determined by the Secretary to contribute to visitor use and enjoyment of the national river. In determining when and to what extent a property is to be considered an "improved property", the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1977, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

"Improved property."

(d) The owner of an improved property, as defined in this title, on the date of its acquisition, as a condition of such acquisition, may retain for himself, his heirs and assigns, a right of use and occupancy of the improved property for noncommercial residential, or agricultural purposes, or the continuation of existing commercial operations, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect

Termination, notification.

Plan, submittal to congressional committees.  
16 USC  
460m-17.

the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value of the property on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this title, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

SEC. 1103. (a) Within two years from the date of enactment of this title, the Secretary shall submit, in writing, to the House Committee on Interior and Insular Affairs, the Senate Committee on Energy and Natural Resources and the Committees on Appropriations of the United States Congress, a detailed plan which shall indicate—

- (i) the lands and areas which he deems essential to the protection and public enjoyment of the natural, scenic, and historic values and objects of this national river;
- (ii) the lands which he has previously acquired by purchase, donation, exchange, or transfer for the purpose of this national river;
- (iii) the annual acquisition program (including the level of funding) which he recommends for the ensuing four fiscal years; and
- (iv) the feasibility and suitability of including within the boundaries of the national river, the section of the New River from Fayetteville to Gauley Bridge, and reasons therefor.

SEC. 1104. The Secretary shall on his own initiative, or at the request of any local government having jurisdiction over land located in or adjacent to the Gorge area, assist and consult with the appropriate officials and employees of such local government in establishing zoning laws or ordinances which will assist in achieving the purposes of this title. In providing assistance pursuant to this section, the Secretary shall endeavor to obtain provisions in such zoning laws or ordinances which—

- (1) have the effect of restricting incompatible commercial and industrial use of all real property in or adjacent to the Gorge area;
- (2) aid in preserving the character of the Gorge area by appropriate restrictions on the use of real property in the vicinity, including, but not limited to, restrictions upon building and construction of all types; signs and billboards; the burning of cover; cutting of timber; removal of topsoil, sand, or gravel; dumping, storage, or piling of refuse; or any other use which would detract from the esthetic character of the Gorge area; and
- (3) have the effect of providing that the Secretary shall receive advance notice of any hearing for the purpose of granting a variance and any variance granted under, and of any exception made to, the application of such law or ordinance.

SEC. 1105. (a) Notwithstanding any other provision of law, no surface mining of any kind shall be permitted on federally owned lands within the boundary of the national river where the subsurface estate is not federally owned. Underground mining on such lands may be permitted by the Secretary only if—

- (1) the mining operation will have no significant adverse impact on the public use and enjoyment of the national river;

(2) the mining operation will disturb the minimum amount of surface necessary to extract the mineral; and

(3) the surface is not significantly disturbed, unless there is no technologically feasible alternative.

(b) The harvesting of timber on federally owned lands within the national river boundary is prohibited, except insofar as it is necessary for the Secretary to remove trees for river access, historic sites, primitive campgrounds, scenic vistas, or as may be necessary from time to time for reasons of public health and safety.

(c) The owner of a mineral estate subject to this section who believes he has suffered a loss by operation of this section, may bring an action only in a United States district court to recover just compensation, which shall be awarded if the court finds that such loss constitutes a taking of property compensable under the Constitution.

SEC. 1106. The Secretary may permit hunting and fishing on lands and waters under his jurisdiction within the boundaries of the New River Gorge National River in accordance with applicable Federal and State laws, and he may designate zones where, and establish periods when, no hunting or fishing shall be permitted for reasons of public safety, administration, fish or wildlife management, or public use and enjoyment. Except in emergencies, any rules and regulations of the Secretary pursuant to this section shall be put into effect only after consultation with the appropriate State agency responsible for hunting and fishing activities.

SEC. 1107. The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063) as amended (16 U.S.C. 791a et seq.), on or directly affecting the New River Gorge National River, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above the New River Gorge National River or on any stream tributary thereto which will not invade the area or diminish the scenic, recreation, and fish and wildlife values present in the area on the date of this section. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary, or request appropriations to begin construction on any such project whether heretofore or hereafter authorized, without advising the Secretary in writing of its intention to do so at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendation or request in what respect construction of such project would be in conflict with the purposes of this section and would effect the national river and the values to be protected by it under this section.

SEC. 1108. Section 5 (a) of the Act of October 2, 1968 (82 Stat. 910) is hereby amended to provide for study of three principal tributaries of the New River in West Virginia, by adding the following new paragraphs:

"(73) BLUESTONE, WEST VIRGINIA.—From its headwaters to its confluence with the New.
