(3) Paragraph (6) is amended to read as follows:

"(6) Uncertainty of export control policy can inhibit the efforts of United States business and work to the detriment of the overall attempt to improve the trade balance of the United States."

(4) Paragraph (9) is amended by striking out "achievement of a positive balance of payments" and inserting in lieu thereof "a positive contribution to the balance of payments".

(5) Section 2 is amended by adding at the end the following:

Defense and national security.

"(11) The acquisition of national security sensitive goods and technology by the Soviet Union and other countries the actions

or policies of which run counter to the national security interests of the United States, has led to the significant enhancement of Soviet bloc military-industrial capabilities. This enhancement poses a threat to the security of the United States, its allies, and other friendly nations, and places additional demands on the defense budget of the United States.

"(12) Availability to controlled countries of goods and technology from foreign sources is a fundamental concern of the United States and should be eliminated through negotiations and other appropriate means whenever possible.

"(13) Excessive dependence of the United States, its allies, or countries sharing common strategic objectives with the United States, on energy and other critical resources from potential adversaries can be harmful to the mutual and individual security of all those countries."

SEC. 103. DECLARATION OF POLICY.

To do so involves sustaining the ability of scientists and other scholars freely to communicate research findings, in accordance with applicable provisions of law, by means of publication, teaching, conferences, and other forms of scholarly exchange.

Research and
development.

"(13) It is the policy of the United States to control the export of goods and substances banned or severely restricted for use in the United States in order to foster public health and safety and to prevent injury to the foreign policy of the United States as well as to the credibility of the United States as a responsible trading partner.

Commerce and
trade.

"(14) It is the policy of the United States to cooperate with countries which are allies of the United States and countries which share common strategic objectives with the United States

in minimizing dependence on imports of energy and other critical resources from potential adversaries and in developing alternative supplies of such resources in order to minimize strategic threats posed by excessive hard currency earnings derived from such resource exports by countries with policies adverse to the security interests of the United States.

"(15) It is the policy of the United States, particularly in light of the Soviet massacre of innocent men, women, and children aboard Korean Air Lines flight 7, to continue to object to exceptions to the International Control List for the Union of Soviet Socialist Republics, subject to periodic review by the President."

SEC. 104. GENERAL PROVISIONS.

(a) VALIDATED LICENSES AUTHORIZING MULTIPLE EXPORTS.—Section 4(a)(2) (50 U.S.C. App. 2403(a)(2)) is amended to read as follows:

"(2) Validated licenses authorizing multiple exports, issued pursuant to an application by the exporter, in lieu of an individual validated license for each such export, including, but not limited to, the following:

"(A) A distribution license, authorizing exports of goods to approved distributors or users of the goods in countries other than controlled countries. The Secretary shall grant the distribution license primarily on the basis of the reliability of the applicant and foreign consignees with respect to the prevention of diversion of goods to controlled countries. The Secretary shall have the responsibility of determining, with the assistance of all appropriate agencies, the reliability of applicants and their immediate consignees. The Secretary's determination shall be based on appropriate investigations of each applicant and periodic reviews of licensees and their compliance with the terms of licenses issued under this Act. Factors such as the applicant's products or volume of business, or the consignees' geographic location, sales distribution area, or degree of foreign ownership, which may be relevant with respect to individual cases, shall not be determinative in creating categories or general criteria for the denial of applications or withdrawal of a distribution license.

"(B) A comprehensive operations license, authorizing exports and reexports of technology and related goods, including items from the list of militarily critical technologies developed pursuant to section 5(d) of this Act which are included on the control list in accordance with that section, from a domestic concern to and among its foreign subsidiaries, affiliates, joint venturers, and licensees that have long-term, contractually defined relations with the exporter, are located in countries other than controlled countries, and are approved by the Secretary. The Secretary shall grant the license to manufacturing, laboratory, or related operations on the basis of approval of the exporter's systems of control, including internal proprietary controls, applicable to the technology and related goods to be exported rather than approval of individual export transactions. The Secretary and the Commissioner of Customs, consistent with their authorities under section 12(a) of this Act, and with the assistance of all appropriate agencies,

In determining whether a country is added to or removed from the list of controlled countries, the President shall take into account—

“(A) the extent to which the country’s policies are adverse to the national security interests of the United States;

“(B) the country’s Communist or non-Communist status;

(3) TECHNICAL AMENDMENT.—Section 5(b)(1), as amended by paragraph (1) of this subsection, is amended in the last sentence by striking out “specified in the preceding sentence” and inserting in lieu thereof “set forth in this paragraph”.

(c) CONTROL LIST.—

(1) ANNUAL REVIEW.—Section 5(c) is amended—

(A) in paragraph (1) by striking out “commodity”; and

(B) by amending paragraph (3) to read as follows:

Before beginning each annual review, the Secretary shall publish notice of that annual review in the Federal Register. The Secretary shall provide an opportunity during such review for comment and the submission of data, with or without oral presentation, by interested Government agencies and other affected or potentially affected parties. (2) by striking out paragraphs (3) and (4) and inserting in lieu thereof the following:

“(3) The Secretary, subject to the provisions of subsection (1) of this section, shall not require an individual validated export license for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that has been lawfully exported from the United States.

“(4) The Secretary shall periodically review the procedures with respect to the multiple validated export licenses, taking appropriate action to increase their utilization by reducing qualification requirements or lowering minimum thresholds, to combine procedures which overlap, and to eliminate those procedures which appear to be of marginal utility.

“(5) The export of goods subject to export controls under this section shall be eligible, at the discretion of the Secretary, for a distribution license and other licenses authorizing multiple exports of goods, in accordance with section 4(a)(2) of this Act. The export of technology and related goods subject to export controls under this section shall be eligible for a comprehensive operations license in accordance with section 4(a)(2)(B) of this Act.”

(e) **INDEXING.**—Section 5(g) is amended to read as follows:

50 USC app.
2404.

“(g) **INDEXING.**—In order to ensure that requirements for validated licenses and other licenses authorizing multiple exports are periodically removed as goods or technology subject to such requirements becomes obsolete with respect to the national security of the United States, regulations issued by the Secretary may, where appropriate, provide for annual increases in the performance levels of goods or technology subject to any such licensing requirement. The regulations issued by the Secretary shall establish as one criterion for the removal of goods or technology from such license requirements the anticipated needs of the military of controlled countries. Any such goods or technology which no longer meets the performance levels established by the regulations shall be removed from the list established pursuant to subsection (c) of this section unless, under such exceptions and under such procedures as the Secretary shall prescribe, any other department or agency of the United States objects to such removal and the Secretary determines, on the basis of such objection, that the goods or technology shall not be removed from the list. The Secretary shall also consider, where appropriate, removing site visitation requirements for goods and technology which are removed from the list unless objections described in this subsection are raised.”

(f) **MULTILATERAL EXPORT CONTROLS.**—Section 5(i) is amended—

(1) by striking out paragraph (3);

(2) in paragraph (4)—

(A) by striking out “(4)” and inserting in lieu thereof “(3)”; and

(B) by striking out “pursuant to paragraph (3)” and inserting in lieu thereof “by the members of the Committee”; and

(3) by adding at the end the following:

“(4) Agreement to enhance full compliance by all parties with the export controls imposed by agreement of the Committee through the establishment of appropriate mechanisms.

“(5) Agreement to improve the International Control List and minimize the approval of exceptions to that list, strengthen enforcement and cooperation in enforcement efforts, provide sufficient funding for the Committee, and improve the structure and function of the Secretariat of the Committee by upgrading professional staff, translation services, data base maintenance, communications, and facilities.

“(6) Agreement to coordinate the systems of export control documents used by the participating governments in order to verify effectively the movement of goods or technology subject to controls by the Committee from the country of any such government to any other place.

“(7) Agreement to establish uniform, adequate criminal and civil penalties to deter more effectively diversions of items controlled for export by agreement of the Committee.

“(8) Agreement to increase on-site inspections by national enforcement authorities of the participating governments to ensure that end users who have imported items controlled for export by agreement of the Committee are using such items for the stated end uses, and that such items are, in fact, under the control of those end users.

“(9) Agreement to strengthen the Committee so that it functions effectively in controlling export trade in a manner that better protects the national security of each participant to the mutual benefit of all participants.”

(g) **COMMERCIAL AGREEMENTS WITH CERTAIN COUNTRIES.**—Section 5(j) is amended to read as follows:

“(j) **COMMERCIAL AGREEMENTS WITH CERTAIN COUNTRIES.**—(1) Any United States firm, enterprise, or other nongovernmental entity which enters into an agreement with any agency of the government of a controlled country, that calls for the encouragement of technical cooperation and that is intended to result in the export from the United States to the other party of unpublished technical data of United States origin, shall report to the Secretary the agreement with such agency in sufficient detail.

“(2) The provisions of paragraph (1) shall not apply to colleges, universities, or other educational institutions.”

(h) **NEGOTIATIONS WITH OTHER COUNTRIES.**—Section 5(k) is amended—

(1) by inserting after “conducting negotiations with other countries” the following: “, including those countries not participating in the group known as the Coordinating Committee,”; and

(2) by adding at the end the following: “In cases where such negotiations produce agreements on export restrictions comparable in practice to those maintained by the Coordinating

Committee, the Secretary shall treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports to members of the Coordinating Committee are treated, including the same manner as exports are treated under subsection (b)(2) of this section and section 10(o) of this Act."

(i) **DIVERSION OF CONTROLLED GOODS OR TECHNOLOGY.**—Section 5(l) is amended to read as follows:

"(1) **DIVERSION OF CONTROLLED GOODS OR TECHNOLOGY.**—(1) Whenever there is reliable evidence, as determined by the Secretary, that goods or technology which were exported subject to national security controls under this section to a controlled country have been diverted to an unauthorized use or consignee in violation of the conditions of an export license, the Secretary for as long as that diversion continues—

"(A) shall deny all further exports, to or by the party or parties responsible for that diversion or who conspired in that diversion, of any goods or technology subject to national security controls under this section, regardless of whether such goods or technology are available from sources outside the United States; and

"(B) may take such additional actions under this Act with respect to the party or parties referred to in subparagraph (A) as the Secretary determines are appropriate in the circumstances to deter the further unauthorized use of the previously exported goods or technology.

"(2) As used in this subsection, the term 'unauthorized use' means the use of United States goods or technology in the design, production, or maintenance of any item on the United States Munitions List, or the military use of any item on the International Control List of the Coordinating Committee."

(j) **ADDITIONAL NATIONAL SECURITY PROVISIONS.**—Section 5 is amended by adding at the end the following new subsections:

"(m) **GOODS CONTAINING MICROPROCESSORS.**—Export controls may not be imposed under this section on a good solely on the basis that the good contains an embedded microprocessor, if such microprocessor cannot be used or altered to perform functions other than those it performs in the good in which it is embedded. An export control may be imposed under this section on a good containing an embedded microprocessor referred to in the preceding sentence only on the basis that the functions of the good itself are such that the good, if exported, would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States.

"(n) **SECURITY MEASURES.**—The Secretary and the Commissioner of Customs, consistent with their authorities under section 12(a) of this Act, and in consultation with the Director of the Federal Bureau of Investigation, shall provide advice and technical assistance to persons engaged in the manufacture or handling of goods or technology subject to export controls under this section to develop security systems to prevent violations or evasions of those export controls.

"(o) **RECORDKEEPING.**—The Secretary, the Secretary of Defense, and any other department or agency consulted in connection with a license application under this Act or a revision of a list of goods or technology subject to export controls under this Act, shall make and

(2) by striking out paragraphs (4) through (6) and inserting in lieu thereof the following:

“(4) The Secretary and the Secretary of Defense shall integrate items on the list of militarily critical technologies into the control list in accordance with the requirements of subsection (c) of this section. The integration of items on the list of militarily critical technologies into the control list shall proceed with all deliberate speed. Any disagreement between the Secretary and the Secretary of Defense regarding the integration of an item on the list of militarily critical technologies into the control list shall be resolved by the President. Except in the case of a good or technology for which a validated license may be required under subsection (f)(4) or (h)(6) of this section, a good or technology shall be included on the control list only if the Secretary finds that controlled countries do not possess that good or technology, or a functionally equivalent good or technology, and the good or technology or functionally equivalent good or technology is not available in fact to a controlled country from sources outside the United States in sufficient quantity and of comparable quality so that the requirement of a validated license for the export of such good or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section. The Secretary and the Secretary of Defense shall jointly submit a report to the Congress, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985, on actions taken to carry out this paragraph. “(5) The Secretary of Defense shall establish a procedure for reviewing the goods and technology on the list of militarily critical technologies at least annually for the purpose of removing from the list of militarily critical technologies any goods or technology that are no longer militarily critical. The Secretary of Defense may add to the list of militarily critical technologies any good or technology that the Secretary of Defense determines is militarily critical, consistent with the provisions of paragraph (2) of this subsection. If the Secretary and the Secretary of Defense disagree as to whether any change in the list of militarily critical technologies by the addition or removal of a good or technology should also be made in the control list, consistent with the provisions of the fourth sentence of paragraph (4) of this subsection, the President shall resolve the disagreement.

President of U.S.

“(6) The establishment of adequate export controls for militarily critical technology and keystone equipment shall be accompanied by suitable reductions in the controls on the products of that technology and equipment.

“(7) The Secretary of Defense shall, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985, report to the Congress on efforts by the Department of Defense to assess the impact that the transfer of goods or technology on the list of militarily critical technologies to controlled countries has had or will have on the military capabilities of those countries.”

(b) DETERMINATIONS OF FOREIGN AVAILABILITY.—Section 5(f)(3) is amended to read as follows:

“(3) The Secretary shall make a foreign availability determination under paragraph (1) or (2) on the Secretary's own initiative or upon receipt of an allegation from an export license applicant that such availability exists. In making any such determination, the Secretary shall accept the representations of applicants made in writing and supported by reasonable evidence, unless such representations are contradicted by reliable evidence, including scientific or physical examination, expert opinion based upon adequate factual information, or intelligence information. In making determinations of foreign availability, the Secretary may consider such factors as cost, reliability, the availability and reliability of spare parts and the cost and quality thereof, maintenance programs, durability, quality of end products produced by the item proposed for export, and scale of production. For purposes of this paragraph, ‘evidence’ may include such items as foreign manufacturers' catalogues, brochures, or operation or maintenance manuals, articles from reputable trade publications, photographs, and depositions based upon eyewitness accounts.”

(c) NEGOTIATIONS ON FOREIGN AVAILABILITY.—Section 5(f)(4) is amended by striking out the first sentence and inserting in lieu thereof the following: “In any case in which export controls are maintained under this section notwithstanding foreign availability, on account of a determination by the President that the absence of

President of U.S.

the controls would prove detrimental to the national security of the United States, the President shall actively pursue negotiations with the governments of the appropriate foreign countries for the purpose of eliminating such availability. If, within 6 months after the President's determination, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States."

The Secretary shall make available to the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate at the end of each 6-month period during a fiscal year information on the operations of the Office, and on improvements in the Government's ability to assess foreign availability, during that 6-month period, including information on the training of personnel, the use of computers, and the use of Foreign Commercial Service officers. Such information shall also include a description of representative determinations made under this Act during that 6-month period that foreign availability did or did not exist (as the case may be), together with an explanation of such determinations."

The Secretary shall investigate the foreign availability so certified and, not later than 90 days after the certification is made, shall submit a report to the technical advisory committee and the Congress stating that—

“(B) the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, or

“(C) the Secretary has determined on the basis of the investigation that the foreign availability does not exist.

To the extent necessary, the report may be submitted on a classified basis. In any case in which the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, the President shall actively pursue such negotiations with the governments of the appropriate foreign countries. If, within 6 months after the Secretary submits such report to the Congress, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States.”

If the Secretary affirmatively determines that a good or technology subject to the export controls is available in sufficient quantity and comparable quality from sources outside the United States to countries subject to the export controls so that denial of an export license would be ineffective in achieving the purposes of the controls, then the Secretary shall, during the period of such foreign availability, approve any license application which is required for the export of the good or technology and which meets all requirements for such a license. The Secretary shall remove the good or technology from the list established pursuant to subsection (1) of this section if the Secretary determines that such action is appropriate.

At the request of the petitioner or any other entity described in paragraph (1)(A) with respect to the material that is the subject of the petition, or at the request of any entity representative of producers or exporters of such material, the Secretary shall conduct public hearings with respect to the subject of the petition, in which case the 30-day period may be extended to 45 days.

“(3)(A) Within 45 days after the end of the 30- or 45-day period described in paragraph (2), as the case may be, the Secretary shall determine whether to impose monitoring or controls, or both, on the export of the material that is the subject of the petition, in order to carry out the policy set forth in section 3(2)(C) of this Act. In making such determination, the Secretary shall determine whether—

“(ii) there has been a significant increase in the domestic price of such material or a domestic shortage of such material relative to demand;

“(iii) exports of such material are as important as any other cause of a domestic price increase or shortage relative to demand found under clause (ii);

“(v) monitoring or controls, or both, are necessary in order to carry out the policy set forth in section 3(2)(C) of this Act.

“(B) The Secretary shall publish in the Federal Register a detailed statement of the reasons for the Secretary’s determination pursuant to subparagraph (A) of whether to impose monitoring or controls, or both, including the findings of fact in support of that determination.

“(8) The Secretary may impose monitoring or controls, on a temporary basis, on the export of a metallic material after a petition is filed under paragraph (1)(A) with respect to that material but before the Secretary makes a determination under paragraph (3) with respect to that material only if—

“(A) the failure to take such temporary action would result in irreparable harm to the entity filing the petition, or to the national economy or segment thereof, including a domestic industry, and

“(B) the Secretary considers such action to be necessary to carry out the policy set forth in section 3(2)(C) of this Act.

“(9) The authority under this subsection shall not be construed to affect the authority of the Secretary under any other provision of this Act, except that if the Secretary determines, on the Secretary’s own initiative, to impose monitoring or controls, or both, on the export of metallic materials capable of being recycled, under the authority of this section, the Secretary shall publish the reasons for such action in accordance with paragraph (3) (A) and (B) of this subsection.
